

Applied Sociology Essay #2

SOCI 3392ACE- Social Movements

Dr. Lee Miller

(100 points)

Like the first Applied Sociology Essay, this paper will focus on linking the readings to your experiences in community organizations.

1. List three characteristics your organization shares with social movements.
 - a. Remember to define each characteristic and then
 - b. Explain how it applies to your organization.
(Remember you did this for your presentations. Expand on that.)
2. List three ways that your organization differs from a social movement.
 - a. Remember to define each concept and then
 - b. Explain how it does **not** apply to your organization.
3. In your conclusion, reflect on your organizational experience. Did it add to, or detract from, your learning about collective behavior and social movements? Explain. (Note that there is no correct answer. I am looking for evidence of careful consideration of what you have learned and will “take away” from the course.)

Your paper should include a brief introduction and a brief conclusion. Papers must be at least 3 full pages, but no more than 5, double-spaced, 12 point font (not in bold type) 1 inch margins, no title page, with heading (name and class, single spaced) only on first page, citations within text. The paper is due through TurnItIn by 12:00 noon on **Thursday, November 3.**
