Create NOVICE Teacher Disposition Summary Chart- Student Form

Artifact | **Documents**

Listed below are the dispositions in this course that are expected of candidates training to be teachers. These are not only state standards but national standards as well. It is your responsibility to make these dispositions VISIBLE by showing evidence that you do indeed consistently value and practice these dispositions and consistently demonstrate good judgment and decision making at the Level of Competence specified for your course.
Emerging Level is demonstrated in Reading Block and Method Block Classes, and the Competent Level is demonstrated in the Student Teaching Classes.

You will demonstrate competence by submitting a minimum of 3 pieces of evidence to document your proficiency. Your professor may have some required pieces of evidence that must be used for your specific class. You may submit other documentation that you feel show evidence of your competency. Items may be used more than once. For example, you might use one item to show evidence of two descriptors: Plans for active engagement of all students (VALUES) and Plans carefully for optimal learning (ORGANIZATION/ FLEXIBILITY).

See rubric below for further explanation of assessment and number of items required.

Remember, the item that you use to show evidence of the disposition is representative of your CONSISTENT demonstration throughout the semester. Inconsistencies can result in a referral to the Professional Concerns Committee.

For each descriptor under each disposition, click the appropriate radio button that describes your best judgment of how often, when given the opportunity, you have demonstrated the behavior.

For each disposition, describe a minimum of 3 pieces of evidence that you believe clearly demonstrates your level of competency. Justify your rating with the inclusion of artifacts or other evidence.

In the future, you will be asked to consider your dispositions on the Emerging Competency level and on the Competent Level. In these you will look at:
