why SHSU?

This is a university that thinks big but feels small. With a student population of over 17,000, SHSU prides itself with creating a close community. Current students and alumni alike attest to the warm, supportive environment found all over the SHSU campus. Faculty members are more than professors—they are mentors, advisors, informal tutors, and personal links to great career connections.

Sam Houston State University has something—and then some—for everyone. No matter where you look, you will find ways to have fun, make great friends, enjoy the arts, serve others, and challenge yourself.

An education from Sam Houston State University prepares graduates to be a vital part of the world. It gives them the theoretical and practical knowledge to understand and solve challenges. It equips them with the experience and confidence to become effective leaders. It develops in them a heart for service to their communities. It gives them the tools they need to have an impact—as new graduates and for the rest of their lives.

There are many ways to learn more about Sam Houston State University, but the best way is to come visit campus and experience it for yourself.
“Together they [computers and human beings] are powerful beyond imagination.”
- Albert Einstein

Management Information Systems Bachelor’s Degree

Making Business Possible

Information systems, including databases and computer networks, are an essential aspect of today’s business operation and are utilized by most companies. Management Information Systems (MIS) professionals hold an important role in these companies, acting as a link between managers and programmers. By understanding the information, technology, and business needs and capabilities of the company, MIS professionals assist in achieving company goals. A degree in MIS from SHSU puts you on the path to becoming one of these critical team members.

According to the Bureau of Labor Statistics, employment in MIS-related fields is expected to grow “faster than average” with good to excellent job prospects over the coming years.

COURSEWORK

Students pursuing a Bachelor of Business Administration in MIS will first build a strong foundation of general course requirements from all areas of business.

The Management Information Systems curriculum is designed to provide students with the skills necessary to function in entry level information systems positions with a basis for continued career growth. Students are also prepared to continue into graduate studies, should they so choose.

SCHOLARSHIPS

The College of Business Administration provides numerous scholarships for which students may apply using the ScholarX application. Upon filling out ScholarX, students will also become eligible for non-degree specific scholarships. Transfer scholarships are available for students who would like to continue their academic career at Sam Houston.
