Learn to Give a Helping Hand

Are you interested in a career as a counselor, psychologist, sociologist, or in the healthcare field? SHSU’s minor in Human Services will benefit you by teaching you how to provide professional and respectful helping skills to those in need.

The 18-hour minor will introduce the helping professions—especially counseling in its many applications—through courses that are highly experiential and that involve service learning opportunities.

See your advisor to declare your minor in Human Services.
