Make Math Fun!

If you find problem-solving exciting and geometry addicting, then you could be the next great mathematics teacher! Your talent for showing others how exciting math can be is a trait shared by students in our Mathematics Education Program. We are looking for individuals who want to lead others down the challenging road of calculus, geometry, algebra, and more!

Sam Houston State University’s technology-enhanced classrooms and expert instructors make our Mathematics Education Program a leader in its field. We host the annual Mathematics Conference on Teaching of Mathematics and are home to the Reeves Center for Mathematics Education.

Come join us in making mathematics come alive in the classroom by applying today!

Apply for admission by August 1, 2013.
