1. **LEGAL HISTORY.**

The 32nd Legislature, 1st Called Session in 1911, provided for the control and management of the normal schools by a State Normal School Board instead of by the State Board of Education. This enabling statute was amended in 1913, 1923, 1929, 1949, 1965, 1969, 1975, and 1995 to form the present Board of Regents of The Texas State University System.

The 38th Legislature of 1923 changed the name of the State Normal Schools to State Teacher’s Colleges, and the 59th Legislature changed the name to State Senior Colleges. In 1969, the name of each college was changed to university. The 64th Legislature in 1975 changed the name of the Board of Regents, State Senior Colleges, to the present name of Board of Regents of The Texas State University System.

In 1965, legislative change provided that the Board of Regents be organized into Local Committees, with the Local Committee of each Component meeting at least once each year on the campus to plan for future growth and development of that Component. These laws were codified as Articles 2644, 2644a, and 2647 of Vernon's Texas Civil Statutes (V.T.C.S.). A recodification was done in 1971, with titles of Subtitle E., Chapter 95, "Administration of the State Senior College System," and Chapter 96, "Institutions of The State Senior College System." Article 2647, as recodified in Chapter 95, Subtitle E., provides for the composition of the Board of Regents, responsibility of the Board, meetings of the Board, authority for the formation of Rules and Regulations in the governance functions, and the power to acquire land. In 2005, the legislature created a place on the Board for a non-voting student regent, Education Code, Section 51.355.

2. **AUTHORITY.**

2.1 Extent of Authority. The Texas Legislature, which is given the duty and authority to provide for the maintenance, support, and direction of The Texas State University System, has delegated to the Board of Regents in Vernon's Texas Codes Annotated, the power and authority, in broad terms, to administer the System. The following selected excerpts from Texas Education Code provide examples of the authority vested in the Board:

The organization, control, and management of the State University System is vested in the Board of Regents of The Texas State University System.¹ The Board is responsible for the general control and

¹*Education Code, Section 95.01.*
management of the Components in the system and may erect, equip, and repair buildings; purchase libraries, furniture, apparatus, fuel, and other necessary supplies; employ and discharge Presidents or principals, teachers, treasurers, and other employees; and fix the salaries of the persons so employed; and perform such other acts as in the judgment of the Board contribute to the development of the Components in the System or the welfare of their students. The Board has authority to promulgate and enforce such rules, regulations, and orders for the operation, control, and management of the Component system and its constitutions as the Board may deem either necessary or desirable. When a power is vested in the Board, the Board may adopt a rule, regulation, or order delegating such power to any officer, employee, or committee as the Board may designate.

2.2 Limitations on Authority. The Board has no authority except as delegated to it by law. Knowledge of the limitations of its authority is imputed to all persons, firms, and corporations dealing with the Board.

2.3 Degrees, Certificates and Diplomas

2.31 Award. The Texas Education Code, Section 95.24, authorizes the Board to determine conditions for the award of degrees, certificates and diplomas. The Board hereby delegates to the president of each component authority to grant degrees, certificates and diplomas upon the recommendation of the respective faulty, deans, and provosts. All such degrees, certificates and diplomas shall bear the signatures of the component president, the system chancellor, and the chairman of the Board of Regents.

2.32 Revocation. The Board hereby provides notice that the granting of any degrees, certificates or diplomas is specifically conditioned upon the truth of representations made by the student in the admission process and also upon honesty in completion of his or her academic work. When the Board determines that a degree, certificate, diploma, or admission to the institution and/or the academic program was obtained through fraud, mistake, or academic dishonesty, the Board may revoke the degree, certificate, or diploma, provided the Component has afforded the degree, certificate, or diploma recipient due process of law.

3. COMPOSITION.

The Board of Regents of The Texas State University System is composed of nine members appointed by the Governor of Texas with the advice and consent of

3Education Code, Section 95.21 (a).

3Education Code, Section 95.21 (b).
of the State Senate. Board members are appointed to serve six-year terms expiring February 1 of odd-numbered years, with three members being appointed biennially.

On or after February 1 of each year, the Governor selects a non-voting student regent to serve a one-year term. For other materials that are totally faculty generated with no university equipment or aid other than that routinely used by faculty in duties associated with teaching, the faculty member holds the copyright and complete intellectual property rights.

11.22 If the work is contracted in writing by the Component of the employee on a work-for-hire basis, the Component then owns the copyright and all benefits of the materials.

11.23 Copyright of all materials (including software) that are developed with the significant use of funds, space, equipment, or facilities administered by a Component, including but not limited to classroom and laboratory materials, but without any
obligation by the Component to others in connection with such support, shall be held by the Component.

The provision of office or library facilities alone shall not be construed as providing “substantial resources,” which shall include, for example, the purchase of new technology software or equipment not normally needed for the employee’s duties, and/or a substantial monetary award explicitly for the creation of the work.

11.24 Copyright ownership of all material (including software) that is developed in the course of or pursuant to a sponsored research or support agreement (i.e., an agreement which provides funds, space, equipment, or facilities for research purposes) shall be determined in accordance with the terms of such agreement, or, in the absence of such terms, the copyright shall be held by the Component. The agreement may grant the employee a non-exclusive educational license allowing the employee to share royalties from third parties using the materials.

11.3 Mediated Courseware.

11.31 Mediated courseware includes, but is not necessarily limited to, instructional materials delivered over the Internet, synchronous or asynchronous video or audio courses, Components of course, or instructional support materials.

11.32 Copyright of mediated courseware developed without specific direction or significant support of the Component shall remain with the employee. No royalty, rent, or other consideration shall be paid to the employee or former employee when that mediated courseware or a modification thereof is used for instruction by the Component. The employee or former employee shall take no action that limits the Component’s right to use the instructional materials and shall provide written notice on the courseware itself if the Component’s right of use. See Chapter V, Paragraph 4.76 of these Rules for the policy on noncompetitive use of employee-owned, mediated courseware.

11.33 Copyright of mediated courseware, developed at the specific direction or with the substantial resources of a Component shall be jointly held by the Component and the employee, unless otherwise specified at the time of commissioning of the work, and shall not be used without written consent of the Component. The Component shall have the right to modify the courseware and decide who will utilize it in instruction. Royalties or revenues generated from the licensing of such mediated courseware may be jointly shared with the employee as noted in this Paragraph 11. The Component may specifically agree to share control rights with the employee.
11.4 Distribution of Copyright Royalties.

11.41 Creators of copyrightable material not owned by a Component, or to which a Component has relinquished any ownership claim, own the copyrights in their works and are free to publish them, register the copyright and receive any revenues which may result therefrom.

11.42 Royalty income received by a Component through the sale, licensing, leasing, or use of copyrightable material in which a Component has a property interest will normally be shared with the author and the Component where the material originated.

11.421 The net royalties or other net income received by the Component will, in most instances, be distributed under a formula of fifty percent (50%) to the author and fifty percent (50%) to the Component.

11.422 Any distribution which grants the author more than fifty percent (50%) of net royalties shall require approval of the Board of Regents.

11.423 In the event of multiple authors, the proper distribution of the fifty percent (50%) author’s share shall be determined by their Component President, as appropriate.

11.424 The disposition of the fifty percent (50%) dedicated to the Component is within the discretion of the Component President.

11.43 In the event that an author contributes a personal work to a Component, a written agreement accepting such contribution shall be executed. The terms of the agreement shall include a statement governing the division of royalties between the Component and the author.

11.44 In cases of extramural funding, the terms of the funding agreement shall govern the division of any royalties that may result from commercialization of materials resulting therefrom. In the event that the funding agreement vests royalty rights in a Component, and does not provide any royalty share for the author, the author shall be entitled to the same proportionate share he or she would have received if the work had not been extramurally funded. Such a royalty payment to the author, however, may not violate the terms of the funding agreement. Such share shall be a proportion of whatever share is owned by the Component under the terms of the funding agreement and this policy.

11.5 Revision of Materials. Materials owned by a Component under the terms of this policy shall not be altered or revised without providing the author a reasonable opportunity to assume the responsibility for the
revision. If the author declines the opportunity to revise such material, the assignment of responsibility for the revision will be made by the President.

11.6 Withdrawal of Materials. Materials owned by a Component shall be withdrawn from use when the Component in consultation with the author deems such use to be obsolete or inappropriate. No withdrawal or other discontinuance shall take place that would violate the terms of any licensing or other agreement relating to the materials.

11.7 Use of Copyrighted Software.

The Texas State University System and its Components are committed to: (1) providing faculty, staff and students with the computer hardware and software necessary to perform their respective job tasks and instructional assignments; (2) protecting its computer environment from viruses; and, (3) maintaining compliance with the U.S. copyright laws and software license agreements and discouraging copyright infringement. This policy applies to all Component computer users, including faculty, staff, and students. Employees and students, who illegally duplicate software and/or its documentation or otherwise fail to comply with Component third party software license agreements, will be subject to disciplinary action up to and including termination of employment or expulsion from school.

11.71 The use of Component-owned or leased hardware or software is limited to Component business or instruction-related activities. Software that has not been purchased or licensed by the Component or for which the individual user cannot demonstrate or certify purchase or license for business or instructional use may not be loaded onto Component-owned or leased computers.

11.72 Copyright Compliance. Users of licensed software must read and comply with the license agreement. When a Component has contracted for a site or enterprise license, copying of the software media up to the number of licenses may be allowed, depending on the license agreement. The software user generally may:

(1) Make only one backup copy of the software for archival purposes. If the underlying license is discontinued, this copy must be destroyed.

(2) Make a copy if it is required as an essential step (and NOT AS A MERE CONVENIENCE) in installing the software on the computing equipment.

11.73 Federal law requires compliance with the following restrictions when using software acquired by the Component:

(1) A user shall not install software on more than one computer, unless written evidence exists that the Component has purchased the software and the license
gives the purchaser the right to install it. Should a user find such software, the user should immediately uninstall the software, remove the files from the computer, and destroy any media copies.

(2) Manuals, and other copyrighted materials, shall not be copied without specific, written permission of the publisher.

(3) Upgrading a software package does not release the software user from the terms of the original agreement, unless the software developer changes the license agreement. The old version of the software may not continue to be used on a different computer or be distributed for use to others.

(4) When concurrent use is allowed by the license agreement, the number of concurrent users of a local area network (LAN) version of purchased software may not exceed the number of licensed users.

11.74 License Agreements. Each manufacturer includes a license agreement package with its software that details any restrictions on its use. Component users must comply with the vendor’s license provisions regarding the use of the software, even though the individual user has not personally signed the license agreement. License agreements differ among the various software vendors and some may grant additional rights, such as allowing use on a portable or home computer. The Component shall hold the user responsible for reading, understanding and complying with provisions of the license agreement for each software package.

11.75 Component Responsibility. Each Component shall publish software copyright policies and operating procedures that articulate specific steps implementing this Subparagraph 11.7 and covering, at a minimum, the following topics:

(1) Guidelines for use of Component computer hardware and software;

(2) Computer and Software Use—User Education;

(3) Software Selection, Budgeting & Acquisition;

(4) Software Inventory, Audit & Copyright Compliance.

12. PATENT POLICY.

12.1 Purpose. The Components within The Texas State University System are dedicated to instruction, research, and public service. It is the policy of the Board of Regents of the System that each Component
carry out its scholarly work in an open and free atmosphere and publish results obtained therefrom freely. The Board recognizes that patentable inventions and discoveries may arise on occasion in the course of scholarly work conducted by the employees and students of its Component. It is the purpose of this policy to insure that such inventions and discoveries are used and controlled in a fashion that maximizes their benefit to the public, the inventor, and the System.

12.2 Applicability. This policy shall apply to all persons employed by a Component of The Texas State University System and to anyone using facilities owned or under the supervision of a Component in connection with the development of a patentable product.

12.3 Condition of Employment and Enrollment. The patent policy of the Board of Regents, as amended from time to time, shall be deemed to be a part of the conditions of employment of every employee of each Component, including student employees, and of the conditions of enrollment and attendance by every student at each Component.

12.4 Ownership. Except as otherwise described in this policy, every invention or discovery or part thereof that results from research or other activities carried out at a Component, or that is developed with the aid of the Component's facilities, staff, or through funds administered by the Component, shall be the property of the Component.

12.5 Inventions Made on Own Time. Inventions or discoveries made by Component employees or students in their personal time and not involving the use of Component facilities are the property of the inventor except in case of conflict with any other applicable agreement.

12.51 For purposes of this policy, an individual's "personal time" shall mean time other than that devoted to normal or assigned functions in teaching, extension, Component service, or direction or conduct of research on Component premises or utilizing "Component facilities".

12.52 The term "Component facilities" shall mean any facility, including equipment and material, available to the inventor as a direct result of the inventor's affiliation with the Component, and which would not be available to a non-Component individual on the same basis.

12.53 Persons who claim that inventions or discoveries are made on personal time and without the use of Component facilities have the responsibility to disclose all such inventions to the Component in accordance with the disclosure procedures applicable to inventions made on Component time or with the use of Component facilities. It shall be the responsibility of the inventor to demonstrate the basis of the inventor's claim that only personal time and no Component facilities were utilized.
12.54 If the inventor so desires, inventions or discoveries made on personal time and without the use of Component facilities may be assigned to the Component. Under this arrangement, the procedures will be the same as for inventions or discoveries made by Component personnel on Component time or with the use of Component facilities and materials.

12.6 Patents Arising From Government Sponsored Research. Patents on inventions or discoveries arising from research financed by federal, state, or local government may be controlled by the terms of the grants and contracts specified by the government agency sponsoring the research, or by applicable law. In some cases, the sponsoring government agency may claim rights to patents resulting from the sponsored research.

12.61 Except as provided by law or by government-supported grants or contracts, or when no patent rights are claimed by the government agency, or when such rights are waived by the government, patents arising from government sponsored research are controlled by this Patent Policy.

12.62 When a patent arising out of research supported under government grants or contracts is owned by a Component that Component will, if requested, agree to a non-exclusive royalty-free license for use of such patent by the sponsoring government agency.

12.63 If such a patent is owned by the sponsoring government agency, the Component shall be free to use the invention so covered for its own scientific and educational purposes without payment of royalty or other charge, consistent with applicable law.

12.7 Patents Arising From Research Sponsored by Non-Governmental Entities. Each Component must ensure that its facilities and the results of the work of its employees are applied in a manner which best serves the interests of the public. Likewise, the legitimate interests of a private sponsor who provides financial or other support to research carried out through the Component must be considered.

12.71 Components should normally reserve the right to ownership of patents on inventions or discoveries arising out of research supported in whole or in part by grants or contracts with non-governmental organizations or firms. Contracts or agreements which are entered into between a Component and such organizations or firms should contain clauses setting forth such a reservation unless deviations therefrom are requested by the sponsor and approved by the Component consistent with the public interest.

12.72 In the interest of fair treatment to the non-governmental sponsors of research, upon request special provisions may be negotiated which grant ownership of patents arising out of research sponsored by a non-governmental organization or firm.
to the sponsor of such research. In such cases, the Component should: (1) retain the right to use the invention or discovery for its own research, educational, and service purposes without the payment of royalty fees, (2) require the sponsor to use due diligence in the commercial use of the invention, and (3) retain the right to freely publish the results of its research after a reasonable period necessary to protect the rights of the parties and to allow for the filing of a patent application.

12.8 Component Patent Committee. The President of each Component shall appoint a Component Patent Committee, consisting of no less than three members, one of whom shall be designated by the President to serve as chairman of the Committee. Such Committee shall perform the duties delineated in this policy and such other duties as may be assigned to it by the President.

12.9 Duty to Disclose Discoveries and Inventions. All individuals covered by this policy have a duty to disclose in writing their inventions and discoveries promptly to the pertinent Component Patent Committee.

12.91 The duty to disclose arises as soon as the individual has reason to believe, based on his or her own knowledge or upon information supplied by others, that the invention or discovery may be patentable.

12.92 Certainty about patentability is not required before a disclosure should be made.

12.93 Individuals shall execute such declarations, assignments, or other documents as may be necessary in the course of invention evaluation, patent prosecution, or protection of patent rights, to insure that title in such inventions shall be held by the Component, where this policy indicates the Component shall hold title, or by such other parties as may be appropriate under the circumstances.

12.(10) Review By Patent Committee. The Component Patent Committee, after receiving disclosure of an invention, shall forward a recommendation to the Component President concerning such discovery. Such recommendation shall include: (1) the committee’s opinion whether the Component has an ownership interest in the invention in question, or whether such invention was one developed on personal time and without use of Component facilities, and (2) whether and how the Component should assert and exploit its ownership interest in any invention or discovery.

12.(11) Waiver of Component Interests.

12.(11)1 If the Component President, after reviewing the recommendation of the Component Patent Committee, concludes that an invention or discovery is one developed on personal time and without the use of Component facilities, the President shall advise the inventor that the
Component asserts no ownership interest in the invention or discovery.

12.(11)2 If the Component President, after reviewing the recommendation of the Component Patent Committee, concludes that a Component should not assert and exploit its interest in an invention developed on Component time or with the use of Component facilities, the inventor shall be notified that he is free to obtain and exploit a patent in his own right, and the Component shall not have any further rights, obligations or duties thereto except as it may specifically reserve.

12.(12) Patent Management. The President of each Component, or any person designated by him, is authorized to negotiate with reputable agencies or firms to secure for each Component arrangements for the management of inventions and discoveries in which the Component decides to assert and exploit its ownership interest.

12.(12)1 Such management may include, but is not limited to, competent evaluation of invention and discovery disclosures, expeditious filing of applications for patents, and licensing and administration of patents.

12.(12)2 A Component is authorized to administer its own patent management and licensing program without the use of a patent management agent, if it determines that such arrangement may better serve Component and public interests.

12.(13) Licenses. The President of each Component may grant licenses for the use of inventions and discoveries in which the Component has an ownership interest.

12.(13)1 It is recognized under some circumstances the granting of an exclusive license may be appropriate because in the absence of such a condition some inventions or discoveries may not reach the market place for the public benefit.

12.(13)2 Normally, an exclusive license may be granted for a period not to exceed five years, although the President may grant a longer period of exclusive license when he deems it advisable.

12.(14) Royalties.

12.(14)1 In consideration of the disclosure and assignment of invention rights, the inventor, or the inventor's heirs, successors, and assigns, normally shall receive fifty percent (50%) of the net royalties or other net income arising from an invention or discovery, after a deduction for administrative and patent management costs. Administrative and patent management costs include, but
are not limited to, the costs associated with the patenting, licensing, and protection of patent rights. The remaining fifty percent (50%) of net royalties shall accrue to the Component responsible for the invention or discovery. Special facts concerning an invention or discovery may warrant a different distribution of royalties.

12.(14)2 Agreements with respect to royalties shall be in writing and signed by the inventor and the President of the Component.

12.(14)3 Any agreement which grants the inventor more than fifty percent (50%) of the net royalties shall require approval of the Board of Regents.

12.(15) Disposition of Income. In the disposition of any net income accruing to a Component from patents, first consideration will be given to the promotion of research.

12.(16) Avoidance of Conflicts.

12.(16)1 Any employee covered by Sections 12.(17)2, 12.(18)1, or 12.(18)2 of this Chapter shall report in writing to the Component President, or his designee, the name of any business entity as referred to therein in which the person has an interest or for which the person serves as a director, officer, or employee and shall be responsible for submitting a revised written report upon any change in the interest or position held by such person in such business entity. These reports shall be accumulated in the office of the President (or designee), who shall immediately thereafter file his report with the System Administration. Upon approval by the Board of Regents, the report shall be submitted to the Governor and Legislature as required by the Texas Education Code, Section 51.912.

12.(16)2 Prior to signing any consulting agreement that deals with patent rights, trade secrets, or the like, where any Component time, facilities, materials, or other resources are involved, Component personnel and students must bring the proposed agreement to the attention of the appropriate administrators of the Component and either obtain a waiver of Component rights or otherwise modify the consulting agreement to conform with this policy, as is determined by the Component in its discretion.

12.(17) Equity Interests.

12.(17)1 Owned by the Component. In agreements with business entities relating to rights in inventions and discoveries owned by a Component, the Component may receive equity interests as partial or total compensation for the rights conveyed.
12.(17)2 Owned by an Employee. In accordance with Texas Education Code, Section 51.92, and subject to review and approval by the President of a Component, employees of a Component who conceive, create, discover, invent, or develop inventions or discoveries may hold an equity interest in a business entity that has an agreement with the Component relating to the research, development, licensing or exploration of those discoveries or inventions.

12.(17)3 The Component may negotiate, but shall not be obligated to negotiate, an equity interest on behalf of any employee as a part of an agreement between the Component and a business entity relating to inventions and discoveries conceived, created, discovered, invented, or developed by the employee and owned by the Component.

12.(17)4 Dividend income and income from the sale or disposition of equity interests held by a Component pursuant to agreements relating to inventions and discoveries shall belong to the Component and shall be distributed in accordance with the provisions of this policy. Dividend income and income from the sale or disposition of an equity interest held by a Component employee pursuant to an agreement between the Component and a business entity relating to rights in inventions and discoveries conceived, created, discovered, invented, or developed by such employee shall belong to the employee.

12.(18) Business/Management Participation.

12.(18)1 By Employees. Any Component employee who conceives, creates, discovers, invents, or develops an invention or discovery shall not serve as a member of the board of directors or other governing board, or as an officer or an employee (other than as a consultant in accordance with Component and Regent policies and regulations) of a business entity that has an agreement with the Component relating to the research, development, licensing, or exploitation of that invention or discovery without prior review and approval by the President of the Component.

12.(18)2 For the Component. When requested and authorized by the Board of Regents, an employee may serve on behalf of the Board as a member of the board of directors or other governing board of a business entity that has an agreement with a Component relating to the research, development, licensing, or exploitation of inventions and discoveries.

13. ABANDONED AND UNCLAIMED PERSONAL PROPERTY.

Abandoned and unclaimed personal property discovered on a System Component campus shall be turned over to the campus security or police
department for safekeeping and standardized handling. Property shall be considered abandoned if it appears from the circumstances under which the Component comes into possession of the property that the owner has thrown it away or has voluntarily left or lost it without any intent or expectation to regain it.

Abandoned and unclaimed personal property acquired by the campus security or police department of a system Component shall be held for a minimum of one hundred and twenty (120) days from the time the campus security or police office acquires the property. If the property is reclaimed during that time, the Component may charge the owner a reasonable storage fee. Campus security or police will develop appropriate procedures to assure the return, if possible, of unclaimed personal property to the proper owners. Such procedures shall be published in all appropriate Component handbooks and catalogs.

After one hundred and twenty (120) days, and after appropriate property checks which reflect the value of the property have been made (such as, but not limited to the National Crime Information Center), the item may be sold as part of a normal Component surplus property sale.

14. INDEMNIFICATION OF REGENTS AND EMPLOYEES.

The System and/or the Components shall indemnify all members of the Board of Regents, former members of the Board of Regents, employees, former employees, and persons serving on the board of a foundation, corporation, or association at the request and on behalf of the System or one of the Components in accordance with the provisions of the Texas Civil Practice and Remedies Code, Chapter 104.

15. REPORTING OF WRONGFUL OR FRAUDULENT CONDUCT.

The System’s “Anti-Fraud” policy appears as part of the System Ethics Code in Chapter VIII of these Rules and Regulations.

16. USE OF AUTHORITY.

Power to Authorize Expenditures Out of System Funds. No expenditure from funds under the control of the Board or Component shall be made, no debt or obligation shall be incurred, and no promise shall be made in the name of the System, any of its Components, or of the Board by any member of the respective faculties or staffs of the System or any of its Components except:

16.1 In accordance with general or special budgetary apportionments authorized in advance by the Board and entered into its minutes; or,

16.2 In accordance with authority specifically vested by the Board in a committee of the Board; or,
16.3 In accordance with authority to act for the Board when it is so specifically vested in the Component President and with the monetary limitations as set forth by these Rules and Regulations or by special action by the Board.

16.4 It shall be the duty of the several Component administrative officers to see that all claims for payments of items not authorized as indicated above are refused and returned unpaid.

16.5 There shall be no sale to or purchase from the System or its Components by the Component President, unless purchased as surplus property and/or at a duly authorized public auction. This Subsection shall not apply to goods and services which the system or its Component universities make available for purchase by faculty and staff or on the open market by the general public.

17. "BEST VALUE" PROCUREMENT.

Section 51.9335(a)-(e) of the Texas Education Code authorize institutions of higher education to use "best value" procurement process which provide greater autonomy and flexibility in the procurement of goods and services. The following guidelines shall govern "best value" procurement for the System and Components.

17.1 The System and Components may acquire goods and services by the method that provides the "best value" to the institution, including:

(1) competitive bidding;
(2) competitive sealed proposals;
(3) catalogue purchase;
(4) group purchasing program; or,
(5) an open market contract.

17.2 In determining what is "best value" the System and Components shall consider:

(1) the purchase price;
(2) the reputation of the vendor and of the vendor’s goods and services;
(3) the quality of the vendor’s goods and services;
(4) the extent to which the goods or services meet the Component’s needs;
(5) the vendor’s past relationship with the Component and/or the System;
the impact on the ability of the Component to comply with laws and rules relating to historically underutilized businesses and to the procurement of goods and services from persons with disabilities;

(7) the total long-term cost to the Component of acquiring the vendor’s goods or services;

(8) the use of material in construction or repair to real property that is not proprietary to a single vendor unless the Component provides written justification in the request for bids for use of the unique material; and,

(9) any other relevant factor that a private business would consider in selecting a vendor.

The System and each Component shall establish purchasing rules and guidelines based upon the procurement rules established by the Board. All procurements shall be made in accordance with all applicable federal, state and local laws, Rules and Regulations, and the Board’s “best procurement” Rules and Regulations.

18. HISTORICALLY UNDERUTILIZED BUSINESSES.

18.1 Purpose. The Texas State University System Board of Regents promotes full and equal opportunity for all businesses to provide the goods and services needed to support the mission, administrative, and logistical operations of system Components. The Board commits its Components to a good faith effort to increase purchases and contract awards with Historically Underutilized Businesses (HUB) firms through race, ethnic, and gender neutral means and consistent with the state’s goals for HUB participation and overall social advancement and economic prosperity.

18.2 Scope. This policy applies to acquisition of commodities, professional and other services, and construction by the System Administrative Office and Component institutions, including auxiliary enterprises, regardless of funding source (treasury or non-treasury funds).

18.3 Incorporation by Reference. The Historically Underutilized Business Program Rules and Regulations promulgated and, from time to time, amended by the Texas Procurement and Support Services (TPASS) are adopted into and shall become part of these Rules and Regulations as if fully set out herein (see website address – http://www.window.state.tx.us/procurement/prog/hub).

19. INFORMATION TECHNOLOGY — IT.”

19.1 Purpose. The Texas State University System considers information technology critical to fulfillment of its mission and has made significant
investments in information technology assets and capabilities. In order to assure that System and component networks are effectively and properly managed; to protect these assets against unauthorized access, disclosure, modification or destruction; and to assure the security, availability, integrity, utility, authenticity, and confidentiality of information, including server hardware and software, each component institution shall develop and disseminate an institutional policy statements consistent with the policy guidelines as referenced in Section 19.2 (See Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC 202)).

19.2 Policy components. Each component shall adopt an information technology policy addressing the following areas and that are consistent with the associated TSUS —IT” Policy Guidelines:

(1) **Network Management**, including network purpose; address and device management; oversight roles and responsibilities; usage responsibilities; and, threat and incident response; (See Appendix TSUS IT Policy Guideline 03-01 Network Management);

(2) **Information Security**, including purpose; organization; risk assessment; asset management; human resources security; physical and environmental security; communication and operations management; access control; information systems acquisition, development and maintenance; information security incident management; business continuity management; and legal, regulatory, and contractual compliance; (See Appendix TSUS IT Policy Guideline 02-01);

(3) **Appropriate Use of Information Technology Resources**, including general purpose; individual versus institutional purpose, personal versus official representation; limitations on availability of information technology resources; privacy and confidentiality of electronic documents; TSUS institutional responsibilities; consequences of failure to comply with informational technology policy; (See Appendix TSUS IT Policy Guideline 01-01) and,

(4) **Server Management**, including server purpose and function; server management roles and responsibilities; conformance with server management best practices; and, threat and incident response. (See TSUS Appendix IT Policy Guideline 04-01).

19.3 Central Review and Oversight. Each component shall develop policies and mechanisms, providing for chief information officer or other central review and oversight of all component information technology acquisitions, including, but not limited to, computing hardware, software, and hosting services, regardless of source of funds.
20. **SMOKING AND TOBACCO POLICY.**

20.1 Purpose. The Texas State University System is committed to providing a safe, healthy, and pleasant environment for its faculty, staff, and students. To that end, each component shall develop a comprehensive institutional policy creating a smoke-free and tobacco-free environment on the premises of the component.

20.2 Scope. The policy shall apply to all faculty, staff, students, employees of contractors, and visitors of the component and shall address the use of tobacco products, including smoke and smokeless tobacco, in component owned or leased premises.

21. **INTERCOLLEGIATE ATHLETICS.**

21.1 Statement of Values. The Texas State University System Board of Regents believes that participation in athletics is an appropriate part of the academic experience and that a well-balanced intercollegiate athletics program in which both men and women enjoy equal opportunity to participate is likewise of institutional benefit. To this end, the Board is committed to assuring integrity and accountability in the administration of such programs while fostering careful institutional oversight of day-to-day operations.

21.2 General Principles. Consistently with the Association of Governing Boards of Colleges and Universities’ 2007 *Statement on Board Accountability*, the Board adopts the following general principles:

1. Individual Missions. Each Component’s educational values, practices, and missions shall guide the decision to establish intercollegiate athletics programs and the standards by which they are conducted.

2. Presidential Authority. Responsibility and authority for the administration of athletics departments, including all basic policies, personnel and finances are vested in the presidents.

3. Equal Treatment. Every student athlete shall receive fair and equitable treatment within the letter and spirit of Title IX of the *Education Amendments of 1972*.  

4. Funding Oversight. All funds raised and expended in connection with intercollegiate athletics programs shall be accounted for through the Component’s accounting system. Athletics department budgets shall be developed and monitored in accordance with the Component’s general budgeting procedures.

5. Non-University Income. Income from non-Component sources for coaches and athletics administrators is subject to presidential review and approval. When the income involves Component’s
facilities, trade or service names or marks, the arrangement shall be memorialized in a written contract.

(6) Notification of Possible Major Infraction. Each Component shall have established processes to review information concerning potential major violations of NCAA or NJCAA legislation. One step in that process shall be the immediate notification by the Component to the Chancellor and the Vice Chancellor and General Counsel of the Component’s receipt of a Notice of Inquiry from NCAA or NCJAA enforcement staff concerning a possible major violation since that could result in corrective, punitive, or disciplinary actions by the NCAA or NJCAA, the athletic conference, or the Component itself. The notification shall include the nature of the alleged major infraction; the NCAA, NJCAA, conference, or institutional bylaw involved; the plan for investigating the allegation; and a corrective action plan. The Chancellor shall timely notify the Board as appropriate.

(7) Audit. The System Director of Audits and Analysis shall conduct periodic audits of intercollegiate athletics and related activities and report the same in accordance with processes established elsewhere in these Rules and Regulations.

(8) Accountability. By September 1 of every year, each president who conducts an intercollegiate athletics program shall prepare a comprehensive, written report to the Chancellor for presentation to the Board of Regents, addressing items (3) through (7) above. The report shall also summarize secondary violations identified during the year and corrective actions taken in response to these violations. Satisfactory administration of the intercollegiate athletics program may be considered in a president’s annual evaluation and compensation.
CHAPTER IV. PRESIDENTS OF THE COMPONENTS

1. **APPOINTMENT.**

   The Chancellor shall recommend to the Board a candidate for the presidency of each Component. The Board, by majority vote, at a lawfully-called meeting, shall appoint Component presidents. The President shall not have tenure as President but may hold tenure as a member of the faculty of the Component.

2. **AUTHORITY, DUTIES AND RESPONSIBILITIES.**

   2.1 Authority. The President shall be answerable to the Chancellor and shall have discretionary powers broad enough effectively to administer the Component within the policies and guidelines as set forth by the Chancellor and Board of Regents.

   2.11 House. CHAPTER V. COMPONENT PERSONNEL

1. COMPONENT EMPLOYEES.

1.1 Definitions.

A Component or System office employee is any person who is under the authority and in the paid service of a Component which is under the jurisdiction and control of the Board of Regents of The Texas State University System, other than independent contractors or consultants.

1.11 A faculty employee is an employee with a specified academic rank holding a teaching appointment for a fixed term as determined by the President of the Component and approved by the Board of Regents (see Section 4 of this Chapter).

1.12 A staff employee is any employee other than a faculty employee.

1.121 Unclassified staff employees include administrative officers and other administrative and professional personnel who are serving without fixed terms and who are not included in the Component’s classification plan (see Sections 3 and 5 of this Chapter and the exception provided for in Section 1.13 of this Chapter).

1.122 Classified staff employees include those personnel who are appointed without fixed terms to those job classes in the Component’s classification plan which requires similar duties, skills, and qualifications including but not limited to secretarial, clerical, technical, paraprofessional, protective service, skilled crafts, and labor/service/maintenance (see Section 5 of this Chapter).

1.123 Administrative officers are vice presidents, deans, and other administrative personnel with delegated executive authority as determined by the President. The President shall file with the System Administration the title of any administrative personnel other than Vice Presidents and Deans to whom executive authority has been delegated.

1.13 Special Employment Contracts. Notwithstanding the Board’s employment-at-will policy, in exceptional cases, where the Component President determines that the nature of the particular profession demands special consideration, the Component may enter into a special employment contract for a term not greater than three (3) years with an individual as an unclassified staff member. If the employee is paid wholly from non-appropriated funds, the contract term may not exceed five (5) years.
Contracts in excess of the president’s authority shall be submitted, as appropriate, to the Chancellor or to the Board of Regents for approval.

1.131 Each contract must include a provision permitting its termination for cause (as defined in the contract) without penalty.

1.132 An employee under such a contract may be reassigned to other duties within the Components, retaining his or her base salary for a period not to exceed one (1) year, after which he or she shall be compensated until the contract expires at a rate not to exceed the salaries of other similarly situated employees. If the compensation for the contract is paid from non-appropriated funds, Components may include contract buyout terms in lieu of a reassignment provision.

1.133 If an employee is also provided a concurrent teaching appointment, the System’s Rules and Regulations related to faculty will govern the teaching appointment.

2. GENERAL.

2.1 Employment.

2.11 Non-Discrimination Policy. The Texas State University System, including its Components, is an equal opportunity/-affirmative action employer and complies with all applicable federal and state laws regarding non-discrimination and affirmative action, including Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973. The Texas State University System, including its Components, is committed to a policy of non-discrimination and equal opportunity for all persons regardless of race, sex, color, religion, national origin or ancestry, age, marital status, disability, or veteran status, in employment, educational programs, and activities and admissions.

2.12 Hiring and Promotions.

2.121 The President or other administrative officers of the Component will investigate thoroughly the character, integrity, scholastic attainment, and other qualifications of prospective members of the administration before nominating them to the Board or before exercising any delegated authority for making appointments.
2.122 Each Component may require a physical examination, performed by qualified medical personnel approved by the Component, of applicants to be employed. The expense of the examination will be paid by the Component.

2.13 Salaries. No Component employee's salary (not including longevity payments) paid from any source of funds will exceed the Component President's salary designated by the Legislature in the General Appropriations Act unless a list of such employees and their positions is included as a supplemental schedule in the original annual operating budget presented to the Chancellor and Board of Regents for approval, or, in the case of externally funded grants and contracts, such salary shall be included in an itemized list in the personnel section of the quarterly report submitted to the Chancellor and Board of Regents for approval.

2.14 Terminations. The Components shall retain and submit to the System Administration specific reports on terminations of all full-time employees as requested by the System Administration.

2.141 The Board of Regents or the President of the Component may suspend without prior notice or hearing and immediately remove from the Component any employee whose presence poses a continuing danger to persons or property or an ongoing threat of disrupting the Component. The President shall as soon as possible notify the Vice Chancellor and General Counsel of such action. In such cases, the President will set a hearing before the appropriate administrator or committee on the employee’s case as soon thereafter as is practicable unless otherwise waived by the employee.

2.142 Employees, including both faculty and staff, shall be subject to discipline and/or dismissal for violating Component policy relating to electronic network facilities such as local area networks and the Internet. Nothing herein shall be construed in derogation of the Board’s employment-at-will policy.

2.143 Any employee of any Component of the System, including any member of the administration or faculty, who, acting either singly or in concert with others, obstructs or disrupts, by force or violence, any teaching, research, administrative, disciplinary, public service, or other activity authorized to be held or conducted on the campus of a Component of the System, shall be subject to dismissal as an employee. As used in this Subsection, the words "force or violence" include but are not limited to such acts as "stand-ins," "sit-ins," and "lie-ins" when such acts are
in fact obstructive or disruptive of any of the authorized activities listed above.

2.144 Every employee is expected to obey all Federal, State, and local laws, particularly Texas Penal Code, Section 42.01 and 42.05 (Disorderly Conduct and Disrupting Meeting or Procession) and Texas Education Code, Section 4.30 and 4.31 (Disruptive Activities and Exhibition of Firearms). Any employee who violates any provision of these four statutes is subject to dismissal as an employee notwithstanding any action by civil authorities on account of the violation.

2.145 The minimum standards of individual conduct required by the penal statutes of Texas or the United States are both expected and required of every employee of the System and its Components. Any employee who violates the minimum standards of conduct required by any penal statute of Texas or the United States is subject to dismissal as an employee regardless of whether any action is taken against the employee by civil authorities on account of such violation.

2.146 If action for dismissal of an employee is taken, the appropriate administrative officer shall proceed with the action in the same manner as would be the case of a violation by an employee of any other provision of these Rules and Regulations or a provision of the faculty or staff handbook of the Component.

2.15 Grievances. Every employee of each Component shall be entitled to present grievances concerning such individuals’ wages, hours of work, or conditions of work individually or through a representative that does not claim the right to strike.

2.2 Appointment of Relatives (Nepotism Rule).

2.21 Each appointment of an employee at a Component, whether on a full-time or part-time basis, shall be made solely with regard to the special fitness of the appointee subject to applicable statutes and subject also to the provisions of this Section of the System’s Rules and Regulations.

2.22 In accordance with the prohibition of Government Code, Chapter 573, no person related to any member of the Board of Regents within the second degree of affinity or within the third degree by consanguinity shall be eligible for appointment to any office, position, employment, or duty with any Component of The Texas State University System, when the salary, fee, or compensation of such appointee is to be paid, either directly or indirectly, out of public funds of any kind.
2.221 *Government Code, Chapter 573* does not prohibit the reappointment or continued employment of any person who shall have been continuously employed in any such office, position, employment, or duty for a period of one (1) year prior to the appointment of the member of the Board of Regents related to such person within the prohibited degree, nor does it prohibit honorary or non-remunerative positions.

2.222 The prohibition of *Government Code, Chapter 573* applies to all programs administered under the Board of Regents and may not be waived.

2.223 When a person is allowed to continue employment because of the operation of the exception specified by Subsection 2.221 of this Chapter, the Board member who is related to such person shall not participate in the deliberation or voting upon the appointment, reappointment, employment, confirmation, re-employment, change in status, compensation, or dismissal of such person, if such action applies only to such person and is not taken with respect to a bonafide class or category of employee.

2.23 Even though the appointment of a person would not be prohibited by *Government Code, Chapter 573*, special arrangements for personnel actions must be made before a Component may employ any person related within the second degree of affinity or the third degree of consanguinity to another employee if:

(a) Such employment causes one relative to have a direct supervisory relationship over the other relative; or

(b) Such employment causes one relative to have authority over the salary or other terms of employment of the other.

This policy does not prohibit the reappointment or continued employment of any person related to another within either of the prohibited degrees who shall have been employed in a Component before the adoption of this policy. However, no System employee may approve, recommend, or otherwise act with regard to the appointment, reappointment, promotion, or salary of any person related within either of the prohibited degrees.

2.231 If the appointment, reappointment or continued employment of a person places such person under an administrative supervisor related within the above specified degree, all subsequent actions with regard to reappointment, promotion, or salary shall be the responsibility of the next highest administrative
supervisor. It shall also be the responsibility of the next highest administrator to make a written review of the work performance of such employee at least annually and submit each review for approval or disapproval by the Component's appropriate vice president in the case of classified employees or the President in the case of faculty or unclassified employees. When appropriate, the next highest administrator may delegate these responsibilities to another administrator who is neither related to the person subject to the personnel actions nor in that person’s reporting line.

2.232 All situations covered by Subsection 2.231 of this Chapter shall be reported annually in May through the Components' President's Report to the Board.

2.3 Retirement and Recognition of Service.

2.31 Retirement Programs. The Board of Regents authorizes each Component in the System to make retirement programs available to each eligible employee through the Teacher Retirement System of Texas, or the Optional Retirement Program, and tax sheltered annuities as authorized by statute.

2.32 Requirements of the Optional Retirement Program.

2.321 Company Qualifications. Each Component will design its specifications for companies to qualify as Optional Retirement Program vendors on that Component's campus. The Board of Regents must approve those specifications. Thereafter, the Component's President (or the President's designee) may authorize any insurance or investment company qualified and admitted to do business in this State to offer an ORP on the Component's campus. Any program offered is subject to compliance with statutory provisions, the prescribed Rules and Regulations of the Texas Department of Insurance, the State Securities Board, the Texas Higher Education Coordinating Board, and the requirements of the Board of Regents.

2.322 Contributions. Employee and State contribution rates for the Optional Retirement Program and Teacher Retirement System shall comply with law.

2.323 Tax Considerations. Whether or not the employer's and/or employee's contributions to the Optional Retirement Program are tax sheltered, the employee's contribution is made on all salary reduction as required by the ORP statute. All contributions shall comply with IRS laws and regulations for accounts authorized under Section 403(b) of the Internal Revenue Code.
2.324 Authorization. The Component President or a representative designated by the President shall be authorized to sign the forms necessary to administer the Optional Retirement Program and the Teacher Retirement System.

2.325 Certification of State Comptroller. Each Component shall be required to certify to the State Comptroller each Fiscal Year an estimate of the amount of funds required for payments of State Matching Contributions for participants in the Optional Retirement Program.

2.326 Eligibility to Participate. An employee of a Component of The Texas State University System is eligible for participation in the Optional Retirement Program in accordance with rules adopted by the Texas Higher Education Coordinating Board. An employee who has met the ORP vesting requirement and subsequently transfers to a position which would not otherwise qualify for ORP participation shall remain in ORP except as authorized by TRS rules.

2.33 Salary Reduction Plan of the Optional Retirement Program. The Components are authorized to participate in the salary reduction agreement of the Optional Retirement Program as provided by statute. The Component President or a representative designated by the President is authorized to approve the forms required for this salary reduction agreement through those carriers approved by the Component in the implementation of the Optional Retirement Program.

2.34 Honorary Titles and Resolutions for Retirees. Faithful and distinguished service by a retiring faculty member or administrator may be recognized by an appropriate resolution of the Board, upon recommendation of the Local Committee.

2.341 Long and distinguished service by a faculty member holding the rank of Professor or Associate Professor may be recognized upon retirement by conferral of the title of Professor Emeritus, Associate Professor Emeritus, Distinguished Professor Emeritus, or Distinguished Associate Professor Emeritus as provided by Section 4.9 of this Chapter.

2.342 Faithful and distinguished service by the President of a Component may be recognized by the Board upon retirement, or upon returning to full-time teaching if a tenured member of the faculty, by conferral of the honorary title President Emeritus of the Component, without remuneration or authority for this honorary title.

2.4 Standards of Conduct. Except as exempted by Sections 12.(16), 12.(17) and 12.(18) of Chapter III of these Rules and Regulations, all
Component employees shall adhere to the standards of conduct articulated in *Chapter VIII*:

2.41 No employee shall engage in any form of sexual harassment as defined by Paragraph 4.4 of *Chapter VII* of these *Rules and Regulations*, or racial harassment as defined by Paragraph 4.3 of *Chapter VII* of these *Rules and Regulations*. As prescribed in Paragraph 4.43 of these *Rules and Regulations*, any employee who violates these rules prohibiting sexual and racial harassment shall be subject to discipline and/or dismissal from employment.

2.42 No contacts on behalf of the Component, its programs or the System to the Legislature shall be made without the specific approval of the Component President who shall inform the System Administrative Office. Information, not considered under law to be confidential, which is requested by a member of the Legislature or committee or by any other state official or employee and which relates to proposed or pending legislation, shall be furnished to the requesting party and the System Administrative Office informed of the request and information provided. The Presidents shall be responsible for advising their Component employees of this rule at the start of each legislative session. See also *Chapter VIII, section 6* of these *Rules and Regulations* pertaining to political activities.

2.5 Absences.

2.51 The President of each Component shall adopt policies and guidelines covering the authorized absences for all faculty and staff employees, including administrative officers. Such policies and guidelines shall be in accordance with the provisions of current statutes and these *Rules and Regulations*. A leave of absence granted to a faculty or staff employee by the President of the Component under the provisions of this *Subsection* shall not modify in any way the employment status of the employee as defined in *Chapter V, Sections 1-5*, of these *Rules and Regulations* unless such modification in status is approved in advance by the Board of Regents. Unless approved in advance by the Board, upon expiration of the leave, the employee shall return to the same job classification, pay benefits, seniority and under the same conditions of employment as he held prior to the leave.

2.6 Power to Bind the System in Fixing Its Policies. No employee of the System or any of its Components, as an individual or as a member of any association or agency, has the power to in any way bind the System or any of its Components unless such power has been officially conferred in advance by the Board. Any action which attempts to change the policies or otherwise bind the System or any of its Components, taken by any individual or any association or agency, shall be of no effect whatsoever until the proposed action has been approved by the President concerned and ratified by the Board.
2.7 Legislation. Any proposed legislation affecting the System, the Component, or their operations, by any employee or organization of the Component, acting in an official capacity and on behalf of the Component, shall be approved by the Component President and the Board of Regents.

2.8 Insurance. Each Component is authorized to provide a program of payment of insurance premiums for its employees.

2.9 Payroll Deductions. The Components within The Texas State University System shall not make automatic payroll deductions from an employee’s paycheck for any purpose unless the deduction is authorized by law.

3. ADMINISTRATIVE OFFICERS.

3.1 Employment.

3.11 Hiring. The President of each Component shall recommend annually to the Chancellor, before presentation to the Board of Regents, the employment or re-employment of all administrative officers, stating their names and academic credentials, if applicable. Such officers shall not have tenure by virtue of their office and shall serve without fixed term subject to the pleasure of the President. Statutory provisions requiring notification to employees shall be followed.

3.12 Salaries. The President shall recommend to the Chancellor, before presentation to the Board, the salary for each administrative officer at a regular Board meeting.

3.13 Vacancies. A President may fill any administrative vacancy by an interim appointment subject to Chancellor and Board ratification.

3.2 Terminations.

3.21 Limited Right to Hearing. The president of a Component may terminate the employment of an administrative officer of the Component when in the president’s judgment the interests of the Component require termination. An administrative officer shall not have a right to a hearing unless the officer makes a *prima facie* showing that the decision to terminate violates rights guaranteed by the laws or Constitution of the State of Texas or of the United States and requests an administrative hearing to review the allegations. In such case the administrative officer shall be afforded an opportunity to present allegations before a hearing committee consisting of three impartial administrative officers of the Component appointed by the president. Such allegations shall be heard under the same procedures as in the case of dismissal of faculty for cause, with the following exceptions:
(1) The burden of proof is upon the affected administrative officer to establish at such hearing that the decision in question constitutes violation of a right guaranteed by the laws or Constitution of the State of Texas or of the United States.

(2) The president of the Component need not state the reasons for the questioned decision nor offer evidence in support thereof unless the affected administrative officer presents a prima facie case in support of such allegations. In such case, the hearing committee shall determine whether the President has no other reason for his decision.

(3) The hearing committee will make written findings on the material facts and a recommendation, which findings and recommendation shall be forwarded to the president and to the affected administrative officer. The administrative officer may appeal to the president and ultimately to the Board of Regents in accordance with the terms and procedures specified in Subsections 4.55 and 4.56 of this Chapter.

3.22 Tenured Faculty as Administrators. If the administrative officer has tenure at the Component by virtue of holding a past faculty position or otherwise, termination as a member of the tenured faculty shall be only for good cause shown, and the official shall be given a hearing if terminated from tenured faculty status.

4. FACULTY.

4.1 Employment.

4.11 The Board of Regents strongly desires to maintain learned faculties who, by precept and example, will instruct and inspire their students and reflect credit upon the Component. The Board encourages scholarship, creative activity, research, and public service but affirms that the primary goal of each faculty member shall be to attain a greater proficiency in teaching.

4.12 Nominations. The President of each Component shall recommend to the Chancellor and the Board the employment or re-employment of faculty members to be awarded term or annual appointments, advising in writing as to the tenure status, proposed academic rank, and highest degree of each nominee.

4.13 Appointments. All faculty appointments, including the granting of tenure, are subject to the approval of the Chancellor and the Board. At the earliest practicable Board meeting following the Governor’s approval of the State’s General Appropriations Act, the Board shall appoint the faculty and other teaching personnel.
to term or annual appointments for a specified period not to exceed one year. The President shall advise each appointee in writing of the provisions and conditions of the appointment. If a faculty member has already been appointed by the Board for either a fall or spring semester, the contract may be extended for the summer or for additional special assignments during the same Fiscal Year by the President, unless the extension includes a change in academic rank or an increase in the base salary.

4.14 Reappointments. Written notice of a decision not to reappoint will be given to a tenure track faculty member not later than March 1st, of the first, or not later than December 15th of the second, academic year of probationary service. After two or more academic years, written notice shall be given not later than August 31st that the subsequent academic year will be the terminal year of appointment. The notice required by this Section is not applicable where termination of employment is for good cause under Subsection 4.5 or for faculty members who are appointed on a term basis.

4.141 Reappointment or the award of tenure shall be accomplished only upon the President’s written recommendation and the Chancellor’s and the Board of Regent’s approval. If the faculty member does not receive notice as prescribed in this Chapter, it shall be his or her duty to inquire as to the decision of the President, who shall without delay give the required notice to the faculty member. Failure of the Component to comply with the notice provisions of this Chapter shall not entitle a faculty member to de facto tenure, and these Rules and Regulations expressly prohibit the awarding of de facto tenure.

4.142 Each faculty member shall keep the President or his or her designee notified of the faculty member’s current mailing address. Written notices required by Subsections 4.24 or 4.54 shall be sent by certified mail, return receipt requested. Notice shall be complete when deposited in the United States mail, addressed to the last known address given by the faculty member. The faculty member’s failure or refusal to receive the notice is immaterial.

4.15 Vacancies. A President may fill, by interim appointment, a faculty vacancy, subject to the Chancellor’s and Board of Regent’s ratification.

4.16 Salary Authority. No faculty member’s salary, regardless of the source of funds, shall exceed the Component President’s salary as designated by the Legislature in the General Appropriations Act, unless the salary is specifically recommended by the Chancellor and approved by the Board of Regents.
4.2 Tenure.

4.21 Defined. Tenure denotes an entitlement to continued employment as a member of the faculty at a Component in accordance with the provisions of these Rules and Regulations. Tenured faculty can expect those privileges customarily associated with tenure at their Component. Such privileges include a suitable office and workspace, serving as a principal investigator and conducting of research, teaching classes, and participating in faculty governance. However, tenure does not create a property interest in any attributes of the faculty position beyond the annual salary. By way of example only, tenure does not create a property interest in laboratory space, a particular office, the right to teach graduate students, or use of research materials or equipment. Only members of the faculty with the academic title of Professor, Associate Professor, or Assistant Professor may be granted tenure, unless the Component handbook recognizes the rank of Instructor as eligible for tenure. In exceptional cases, tenure may be granted at the time of appointment to any of such academic ranks by the Board of Regents or may be withheld pending satisfactory completion of a probationary period of faculty service. For tenure to be granted at the time of appointment, the President must consult with and submit a written justification to the Chancellor, who shall review all such recommendations with the full Board.

4.22 Tenure Track Faculty. Only full-time service in the academic ranks of Professor, Associate Professor, Assistant Professor, and/or Instructor (at Components where such is an academic rank eligible for tenure) shall be counted toward fulfillment of a required probationary period. Periods during which a faculty member is on leave of absence shall not be counted toward fulfillment of a required probationary period. If the Component faculty handbook does not recognize the rank of Instructor as eligible for tenure, then no more than three (3) years service as Instructor shall be so counted.

4.23 Prior Service Credit. At the discretion of the Component, up to three (3) years prior service at the other academic Component may be counted toward fulfillment of the required probationary period.

4.24 Maximum Probationary Service. The maximum period of probationary faculty service in tenure track status in any academic rank or combination of academic ranks shall not exceed six years of full-time academic service. Not later than August 31st of the last academic year of the maximum probationary period in effect at any Component, a tenure track faculty member shall be given written notice that the subsequent academic year will be the terminal year of employment or that, beginning with the subsequent academic year, tenure will be granted. In the event that the employment of a tenure track
faculty member is to be terminated prior to the end of the maximum probationary period, notice shall be given in accordance with Subsection 4.5 below. Faculty members who have not been granted tenure by the Board of Regents shall not be entitled to tenure by virtue of being employed at the Component past the probationary period, i.e., such faculty members do not have de facto tenure.

4.25 Calculating Service. For purposes of calculating the period of probationary service, an “Academic year” shall be the approximate nine-month period from September through May as designated in the common calendar established by the Texas Higher Education Coordinating Board. One year of probationary service is accrued by at least nine months full-time academic service during any academic year, regardless of whether contracted on an annual basis or for a consecutive fall and spring semester. A faculty member shall be considered to be on full-time academic service if in full compliance with Board standards pertaining to minimum faculty workloads at general academic universities. If a faculty member is initially appointed during an academic year, the period of service from the date of appointment until the beginning of the following academic year shall not be counted as academic service toward fulfillment of the maximum probationary period.

4.26 Non-tenured Faculty. No non-tenured member of the faculty should expect continued employment beyond the period of current appointment as approved by the Board of Regents. Any commitment to employ a non-tenured member of the faculty beyond the period of current appointment shall have no force and effect until approved by the Board. Non-tenured members of the faculty serve at the pleasure of the Component President and the Board, subject to the provisions of proper notice as required by these Rules and Regulations.

4.27 Non-reappointment and Denial of Tenure. A non-tenured faculty member, who is notified of non-reappointment in accordance with Subsection 4.14 or who is notified in accordance with Subsection 4.24 that tenure has been denied and that the subsequent academic year will be the terminal year of appointment, shall not be entitled to a statement of the reasons upon which the decision for such action is based.

4.28 Performance Reviews. Components shall develop and publish campus-specific faculty performance review policies.

4.281 Annual Review Policies. Each Component shall develop campus-specific annual review policies for non-tenured faculty members.

4.282 Performance Review of Tenured and Other Faculty. Each Component shall develop campus-specific post tenure policies and procedures to determine whether a
tenured faculty member is performing consistently at an acceptable professional level as well as a mechanism whereby a faculty member is informed of any deficiencies and provided opportunity to improve his or her performance. Such policies and procedures shall be consistent with the tenure policies of this Chapter and Education Code, Section 51.942 (Seventy-fifth Legislature, 1997) and shall accord faculty members fundamental due process and a right of appeal in accordance with existing Component and Board policy.

4.3 Promotion.

4.31 Discretionary Nature of Promotion. The academic promotion of a faculty member is discretionary on the part of the President of the Component, the Chancellor and the Board of Regents. Faculty members do not have an entitlement to a prospective promotion rising to the level of a property interest, and the denial of a prospective promotion is not sufficiently stigmatic to constitute a liberty interest. No commitments, implied or otherwise, shall be made by any individual regarding faculty promotions without the prior written approval of the President, and all faculty promotions shall be subject to the approval of the Chancellor and Board of Regents. Faculty members who are not recommended for promotion shall not be entitled to a statement of reasons for the decision against the recommendation. However, supervisors are encouraged to offer suggestions for a program of professional development in teaching, scholarly or creative work, and leadership or service that may enhance the likelihood of promotion in the future.

4.32 Guidelines. The President of each Component shall develop minimum expectations and guidelines to be used in the evaluation of faculty for promotions, salary increases, reappointments, and tenure. Such guidelines shall include but not be limited to:

1. Teaching in the classroom, laboratory, or seminar room;
2. Studying, investigating, discovering, and creating;
3. Performing curricular tasks auxiliary to teaching and research, e.g., serving on faculty committees, attending to administrative and disciplinary tasks, and promoting diligence and honest work in the student body;
4. Advising and counseling of students, including the posting or publishing of office hours in such a manner as may be required by the President;
5. Influencing beneficially students and citizens in various extracurricular ways; and,
(6) Patents or commercialization of research, where applicable.

Within the guidelines, a faculty member becomes eligible for promotion by meeting or exceeding standards of performance although such eligibility shall not entitle him or her to a promotion.

4.4 Faculty Grievances.

4.41 For purposes of this Subsection, ―faculty member” means a person employed full-time by the institution, including professional librarians, whose duties include teaching, research, administration, or the performance of professional services. It does not include a person who holds faculty rank but spends the majority of his or her time engaged in managerial or supervisory activities, including a President, Vice President, Associate or Assistant Vice President, Dean, Associate or Assistant Dean.

4.42 A faculty member may present a grievance, individually or through a representative that does not claim the right to strike, to a System Component’s President or his or her designee on an issue related to wages, hours of employment, conditions of work, promotion denial, or the non-renewal or termination of the faculty member’s employment. Nothing herein shall require that informal, first and second level interactions between the faculty member and his/her supervisors include such representation.

4.43 The President of the Component may develop procedures for faculty grievances on these issues that include the following provisions:

4.431 The designee or hearing officer, presiding over the grievance, will make a recommendation to the President, who will make the final decision regarding the grievance;

4.432 The faculty member may present the grievance individually or through a representative that does not claim the right to strike;

4.433 A hearing officer may not recommend changing the Component administration’s action regarding tenure, non-renewal, termination of employment, or denial of promotion unless the faculty member establishes, by preponderance of the evidence, that he or she has been denied a right guaranteed by the constitution or laws of the United States or the State of Texas;

4.434 A hearing officer may not recommend changes in disciplinary actions taken against a faculty member,
unless the faculty member establishes, by a preponderance of the evidence, that the disciplinary action was an abuse of discretion and authority of the person imposing the disciplinary action;

4.435 The administration of the Component need not state the reasons for the questioned decision or offer evidence in support thereof, unless the faculty member presents a *prima facie* case in support of his or her allegation, in which case, the hearing officer shall determine whether the administration has stated a nondiscriminatory reason for its decision.

4.5 Termination and Due Process Procedures.

4.51 Grounds. Termination by a Component of the employment of a tenured faculty member and of all other faculty members before the expiration of the stated period of their appointment, except by resignation or retirement, will be only for good cause shown.

Good cause includes but is not limited to the following:

(1) Failure to work efficiently or effectively;

(2) Insubordination;

(3) Serious professional or personal misconduct, examples of which include:

(a) Commission of a misdemeanor involving moral turpitude, or a felony;

(b) Failure to secure and maintain Federal, State, or local permits required in the discharge of teaching, research, or other professional duties, including failure to maintain appropriate documentation;

(c) Willful destruction of Component property or violent disruption of the orderly operation of the campus;

(d) Violation of the System’s ethics policy (*Chapter VIII* of these *Rules and Regulations*), including acceptance or solicitation of gifts that might tend to influence the discharge of one’s professional responsibilities;

(e) Stealing and publishing as one’s own the intellectual property of another;
(f) Misuse or misappropriation of state property, resources, funds, including funds held by a faculty member as part of official duties;

(g) Sexual harassment, as defined by Section 4.4 of Chapter VII of these Rules and Regulations; and,

(h) Racial harassment as defined by Section 4.3 of Chapter VII of these Rules and Regulations.

(4) Professional incompetence and/or neglect of professional duties;

(5) Mental or physical disablement of a continuing nature adversely affecting to a material and substantial degree of the performance of duties or the meeting of responsibilities to the institution, or to students and associates;

(6) Illegal use of drugs, narcotics, or controlled substances. A faculty member who, by a preponderance of the evidence, under these Rules and Regulations, is found to have illegally possessed, used, sold, or distributed any drug, narcotic, or controlled substance, whether the infraction is found to have occurred on or off campus, shall be subject to termination, suspension or other discipline as determined by the President or the President’s designee. That an employee is charged in a criminal case, or is found “not guilty” therein, shall not be construed as prohibiting administrative enforcement of these Rules and Regulations. If, in the judgment of the President or the Board of Regents, the best interests of the students or the Component or the System so dictate, the employee may be immediately removed from contact with students and other employees, pending resolution of disciplinary proceedings; and,

(7) Intentionally or knowingly violating any Board or administrative order, rule, or regulation, including the provisions of Chapter V, Section 2.144 of these Rules and Regulations. The employee is presumed to have knowledge of such Board or administrative order, rule, or regulation that is published in these Rules and Regulations or is a published policy of the Component.

4.52 Suspension. A President may, for good cause, suspend an accused faculty member pending immediate investigation or speedy hearing as hereinafter provided when the continuing presence of the faculty member poses a danger to persons or property or an ongoing threat of disrupting the academic process. An employee who is suspended or discharged from a particular duty or job at the Component may be suspended or discharged from all other duties or jobs in the Component for
the same or other good cause. The President shall, as soon as possible, notify both the Chancellor and the Vice Chancellor and General Counsel of any such actions.

4.53 Summary Dismissal. In cases of good cause where the facts are admitted by the faculty member, summary dismissal may follow.

4.54 Hearing Tribunal. In all cases where the facts are in dispute, the accused faculty member shall be informed in writing of the charges which, on reasonable notice, will be heard by a special hearing tribunal whose membership, including its chair, shall be appointed by the President from members of the faculty whose academic rank is equal to or higher than that of the accused faculty member. At such a hearing:

1. The hearing tribunal shall not include any accuser of the faculty member. The faculty member may challenge the alleged lack of fairness or objectivity of any tribunal member, provided such challenge is made prior to the submission of any evidence to the tribunal. The faculty member shall have no right to disqualify such member from serving on the tribunal. Each such challenged member shall determine whether he or she can serve with fairness and objectivity in the matter. In the event the challenged member chooses not to serve, the President shall appoint a substitute.

2. The faculty member shall have a right to attend the hearing; confront and cross-examine adverse witnesses; present relevant evidence on his or her own behalf; testify or choose not to testify; and, be assisted or represented by counsel. The hearing shall be closed although the faculty member may request that it be open to the public. Notwithstanding a faculty member’s request, the tribunal may close all or a portion of a hearing to deliberate or if it appears likely that privacy interests of others are relevant and could be affected by an open hearing.

3. The Component, through a representative and/or through counsel, shall have the right to attend proceedings; present witnesses and evidence against the faculty member; and, cross-examine the faculty member (if the faculty member testifies) and his or her witnesses.

4. The hearing tribunal, by a majority of the total membership, shall make written findings on the material facts and a recommendation of the continuance or termination of the faculty member’s tenure as well as any supplementary suggestions it may have concerning the case. The original of such findings, the recommendation, any supplementary suggestions, and
the record of the hearing shall be delivered to the President and a copy thereof sent to the faculty member. Any minority findings, recommendations, or suggestions shall be distributed in the same manner.

(5) A stenographic or electronic record of the such record shall be made accessible to the faculty member.

4.55 Review by President. The President shall review the record, plus any additional written briefs the parties wish to submit, and render a decision, stating his or her reasons therefore in writing and communicating the same to the faculty member. The President may recommit the matter to the same tribunal to hear additional evidence and/or to reconsider its findings, recommendations, or suggestions, if any. The original findings, recommendations, and suggestions of the hearing tribunal, a transcript of the hearing, any briefs submitted, and the decisions, recommendations, findings, and suggestions of the President shall be delivered to the Board.

4.56 Appeal to the Board. Upon written request by the faculty member, received in the System Administrative Office within thirty (30) calendar days of the faculty member’s receipt of the President’s decision, the Board shall review the record before it. Such request should specifically address any defects in procedure or substance which require reversal of the President’s decision. The President may submit a written response to the request for review. By a majority of the total membership, the Board may approve, reject, or amend any decisions, findings, recommendations, and suggestions before it, or recommit the matter to the President for reconsideration or the hearing of additional evidence. The Board shall notify the faculty member in writing of the reasons for its decision.

4.6 Termination of Faculty Employment Under Special Circumstances. If, in the judgment and discretion of the Board, reductions in legislative appropriations for faculty salaries; governmentally mandated reductions in faculty positions; significant loss of enrollment; consolidation of departments or other reorganization; dropping of courses, programs, or activities for educational or financial reasons; or financial exigency make such action advisable, the employment of a faculty member who has been granted tenure or of any other faculty member before the expiration of the stated period of his or her employment, may be terminated in accordance with the provisions of this Section.

4.61 A faculty member whose employment will be recommended for termination under this Section 4.6 shall be given:

(1) a statement of the basis for the decision to terminate the faculty member’s employment, together with a description of the manner in which the recommendation of termination was made;
(2) access the information and data upon which the recommendation was based; and,

(3) an opportunity to respond consistent with the requirements of due process.

4.62 In cases involving the termination of faculty employment under the provisions of this Section, the guidelines to be used to identify faculty members in a designated program whose employment will be recommended for termination shall include the following:

(1) Whenever possible, faculty reduction will be accomplished through attrition;

(2) Within a designated program, the termination of the employment of a faculty member with tenure may not be recommended in favor of retaining a faculty member without tenure unless:

(a) The removal of a non-tenured faculty member would eliminate an essential part of a program or render a program dysfunctional; or,

(b) The removal of a non-tenured faculty member who is deemed to be of equal or greater merit than a tenured faculty member would jeopardize the advances achieved by the Component under its diversity program.

4.63 A faculty member recommended for termination under the provisions of Section 4.6 should be given the opportunity for appointment in a related area provided: (a) the faculty member is qualified professionally to teach in such area or is willing to undergo the appropriate professional retraining that will qualify him or her to do so; and (b) a position is available.

4.64 A faculty member whose position has been terminated will be given first consideration for rehiring, should the position be re-established within a three-year period.

4.65 The President of each Component shall develop and publish in the Component’s faculty handbook the Component’s policy regarding termination of employment under Section 4.5, subject to the reviews and approvals specified in these Rules and Regulations.

4.7 Rights and Responsibilities as a Teacher and as a Citizen.

4.71 Classroom. The faculty member is entitled to freedom in the classroom in discussing the faculty member’s subject but should be judicious in the use of controversial material in the classroom
and should introduce such material only as it has clear relationship to the subject field.

4.72 Research and Publication. The faculty member is entitled to freedom in research and in the publication of the results in accordance with responsible academic and professional practices.

4.73 Licenses and Permits. The faculty member shall be responsible for securing and maintaining any and all federal, state, and local licenses and permits required for his or her classroom, research, or other professional activities.

4.74 Speaking as a Citizen. The faculty member is a citizen, a member of a learned profession, and an employee of an educational component supported by the State. When the faculty member speaks or writes as a citizen, the faculty member should be free from component censorship or discipline; but, the faculty member’s special position in the community imposes special obligations. As a person of learning and a faculty member of a state funded educational component, the faculty member should remember that the public may judge his or her profession and component by his or her utterance. Hence, the faculty member should at all times be accurate, exercise appropriate restraint, and should show respect for the opinions of others.

4.75 Partisan Political Activities. The Board of Regents recognizes and affirms a faculty member’s right to participate in political activities as long as such political activities do not interfere with the discharge of the duties and responsibilities that a member of the faculty owes to the System or a Component or otherwise involve the System or a Component in partisan politics. If, in the President’s or Board’s judgment, the interest of the System or a Component so require, they may grant a leave of absence without pay to a member of the faculty. If a member of the faculty, who has not been granted a leave of absence, wishes to engage in political activity that interferes with the discharge of the duties and responsibilities that are owed to the System or a Component, the faculty member should voluntarily terminate employment with the Component. If the faculty member does not voluntarily terminate his or her employment and the President or the Board finds that the faculty member’s political activity interferes with the discharge of the duties and responsibilities that are owed to the System or a Component, the President or the Board shall terminate such faculty member’s employment by the Component.

4.76 Non-competitive use of employee-owned, mediated courseware. (See Chapter III, Paragraph 11.3 of these Rules). Mediated courseware developed by an employee without specific direction or significant support of the Component institution shall not be sold, leased, rented, or otherwise used in a manner that
competes with the instructional offerings of his/her own Component without the prior written approval of the chief academic officer of the Component. Should approval be granted to offer the course, course Components, or instructional support materials outside of the institution, the employee shall reimburse the Component for any use of its resources.

4.8 Terms and Conditions of Employment.

4.81 Faculty Development Leaves. The Board of Regents authorizes each President to implement a Faculty Development Leave Program pursuant to the provisions of Texas Education Code, Chapter 51, Subchapter C and approval of the Chancellor.

4.82 Absences. The following regulations, pertaining to faculty absences, authorized and unauthorized, are established for each Component and have been filed with the Texas Higher Education Coordinating Board as required by the Texas Education Code, Section 51.108. Each Component President is delegated authority to promulgate policies to implement the provisions of this Subsection, including the reporting of faculty absences and the granting of such sick leave, emergency leave, and/or other leave as may be authorized by statute or the General Appropriations Act. Component policies shall make provisions for the following:

4.821 Authorized Absences. A faculty member employed by a Component must discharge faithfully instructional duties and other responsibilities associated with faculty appointment, including the meeting of all scheduled classes. Absences from classes will be authorized only under the following conditions:

1. Professional meetings when, in the judgment of the President or his/her designee, attendance at such a meeting would contribute to the improvement of teaching or scholarship at the Component;

2. Personal or immediate family illness;

3. Family emergencies;

4. Specific assignments of the President of short duration (the Board of Regents discourages specific assignments which will cause a faculty member to be absent from assigned classes);

5. Special circumstances where the President considers such absences to be for valid reasons and in the best interest of both the faculty member and the Component.
4.822 Unauthorized Absences. Unauthorized absences on the part of the faculty member are not permitted. Each Component shall regard such absences as a violation of the terms of the faculty member’s appointment.

4.83 Outside Employment. The President of each Component shall approve and incorporate in the faculty handbook specific policies governing outside employment by all faculty members. These guidelines shall include but not be limited to the provisions and conditions of this Subsection.

4.831 Faculty members should not be discouraged from accepting appropriate appointments of a consultative or advisory capacity with governmental agencies, industry, or other educational institutions as long as such activities do not conflict with the individual’s work at the Component. The consideration to the System of such activity is the improvement of the individual through contact with the non-academic world. Faculty members should be discouraged from accepting regular employment outside the Component because such does not directly benefit the Component as indicated herein.

4.832 Conflict of interest must be avoided in all instances of outside employment. Conflict of interest means any outside activity which intrudes upon the faculty member’s responsibility to the Component. See Subsection 2.4 of this Chapter and Chapter VIII (Ethics Code).

4.833 No member of the faculty engaged in outside remunerative activities shall use in connection therewith the official stationery, supplies, equipment, personnel services, or other resources of the System or any of its Component universities. Nor shall such member of the faculty accept pay from private persons or corporations for tests, essays, chemical analysis, computer programming, bacteriological examinations, or other work of a routine character which involves the use of property owned by the System or its Components.

4.834 Every member of the faculty who gives professional opinions must protect the System and its Components against the use of such opinions for advertising purposes. That is, when work is done in a private capacity, the faculty member must make it clear to the employer that such work is unofficial and that, absent the President’s prior approval, the name of the System and its Components are not in any way to be connected with the faculty member’s name. Exceptions may be made for the name of the author attached to books, pamphlets, and articles in periodicals, and the identification of an individual in publications of corporations or companies
related to service as a member of an advisory council, committee, or board of directors.

4.835 A faculty member (as defined in Section 1.11 of this Chapter) may not engage in any outside work or receive compensation from an outside source that creates a conflict of interest with the faculty member's duties at the Component. A conflict of interest includes the actions prohibited in Section 3.2 of Chapter VIII of these rules. The faculty member shall notify the President or his/her designee of such activity.

4.84 Textbooks and Other Course Materials. Policies which govern textbooks and other materials prescribed for use by students will be specified for each Component in the faculty handbook for that Component.

4.841 Generally, the individual faculty member or the academic department should have wide discretion in the choice of materials to be used in the courses offered by the department with the approval by the chairman or head of the department. Although the authorship of books, outlines, manuals, and similar materials by members of the faculty should be encouraged, the prescribed use of these for students is a responsibility that goes beyond that of the individual author. Where practicable and equitable, the charge for outlines, syllabi, and similar materials prescribed for the use of students should be borne by the instructional department concerned. Whenever a charge is authorized for such copied materials, the prices should be as low as possible, consistent with the payment of a fair and reasonable royalty to the author or authors. This charge must be considered in conjunction with the incidental course fees or charges such that students are not charged more than once for the same material(s).

4.842 Textbooks, notebooks, manuals, or other materials for the use of students of a Component, written or prepared by a member of the faculty of that Component, shall not be prescribed for the use of or sold to such students until such books, notes, manuals, or materials shall have been approved, with reasons stated, by the department head and approved by the academic Vice President. All such requests shall indicate the proposed prices and profits, and their authorization shall be effective only to the end of the fiscal year (August 31) for which such approval has been given.

4.85 Acceptance of Money from Students. Faculty members shall not, without approval of the President or his/her designee, collect from students any fees or charges to be expended for Component purposes or sell to students books, notes, materials
or supplies. Faculty of the rank of lecturer or above, and other instructional personnel as designated by the Component President, may not accept pay from students for extra instruction or teaching of students registered in the Component. With prior written approval of the President or his or her designee, instructional employees below the rank of lecturer may accept pay from students for extra-class instruction or coaching but only in courses or sections of courses with which they have no instructional connection. The faculty handbook of the Component shall specify the procedure for approval at the Component level.

4.86 Knowledge of These Rules & Regulations. Each faculty member shall become acquainted with these Rules and Regulations, Component policies and faculty handbooks, catalogues, announcements of courses, other official publications, and printed or other material regularly prepared for the use of the faculty. The President shall have copies of these Rules and Regulations, Component policies and faculty handbook available at the President’s office, the library, and other appropriate campus locations.

4.9 Honorary Titles and Emeritus Faculty.

4.91 Honorary Titles. Several honorary titles - Regents’ Professor, University Distinguished Professor, Emeritus (or distinguished emeritus) Status - recognize long and distinguished service.

4.92 Regents’ Professor. Upon the recommendation of the Chancellor, the Board of Regents, from time to time, may bestow the title of “Regents’ Professor” upon a very select number of tenured faculty members who have demonstrated the following:

(1) Excellence in teaching and exceptional dedication to students;

(2) National or international distinction and acclaim for academic achievement or scholarship; and,

(3) Notable contributions and commitment to their Component institutions and communities.

Upon retirement, a Regents’ Professor shall automatically receive Emeritus faculty status.

4.93 University (College or Institute) Distinguished Professor. The President of each Component may establish criteria to recognize, annually, as “University (College or Institute) Distinguished Professors,” a select number of outstanding professors or associate professors, who have achieved academic accomplishment and stature that exceeds the criteria for the
granting of tenure. Upon retirement, a University Distinguished Professor shall automatically receive Emeritus faculty status.

4.94 Emeritus (or Distinguished Emeritus) Status. The President of each Component is authorized to bestow the following titles upon retired or retiring faculty:

(1) Professor Emeritus, Distinguished Professor Emeritus, or similar honorific titles, provided that the faculty member has served the Component, with distinction, at that rank at least ten years.

(2) Associate Professor Emeritus, provided that the faculty member has served the Component, with distinction, at that rank at least fifteen years.

Except for Regents’ Professors and University Distinguished Professors, the conferring of Emeritus status is not automatic upon retirement but shall be based upon individual distinction, exceptionally high quality service, and outstanding contributions to the Component which clearly demonstrate the individual’s worthiness for the honor conferred.

4.95 Privileges and Perquisites of Emeritus Status. Although Emeritus status constitutes continued academic appointment without remuneration or authority, holders of the title of “distinguished professor Emeritus” or “distinguished associate professor Emeritus” shall be accorded the following privileges and perquisites:

(1) Use of the title “distinguished professor Emeritus” or “distinguished associate professor Emeritus.”

(2) Membership (without vote) in the general faculty and in the college and department faculties in which membership was held at the time of retirement.

(3) Membership in the graduate faculty (without vote) if membership was held at the time of retirement.

(4) Eligibility for service on Component committees upon appointment by the President of the Component.

(5) Assignments of office space and use of laboratory facilities, when available, with the approval of the department head, dean of the college, and Provost and Vice President for Academic Affairs.

(6) Listing in the faculty directory and applicable publications.
4.96 Duration of Honorary Titles. The Board of Regents prefers and intends that honorary titles be held in perpetuity (for example, if a faculty member enjoying *emeritus* status is recalled to service in the interest of the Component after an intervening period, *emeritus* status is not affected); notwithstanding anything to the contrary in this Paragraph 4.9, conferring any such title shall not create a property right or entitlement in the holder. The Board reserves the right to revoke a title if, in its sole judgment and discretion, the best interests of the Texas State University System or of a Component warrant such action.

4.10 Miscellaneous Provisions.

4.10(1) Faculty Organizations. The President of each Component is authorized and encouraged to permit the faculty to organize and function in the form of representative faculty bodies in order that the faculty might effect greater utilization of its resources in the conduct of Component affairs.

4.10(11) General Authority. Subject to the ultimate authority of the Board of Regents and the delegated authority of the Component President or his or her designees, the faculties of the Components shall have an appropriate advisory role in the governance of their respective Components. Officially recognized faculty bodies shall have no existence separate and apart from the Component with which they are associated. This role may include but not be limited to the following areas:

(1) General academic policies and procedures;
(2) Student life and activities;
(3) Requirements of admission and graduation;
(4) Honors and scholastic performance generally;
(5) Approval of candidates for degrees; and,
(6) Faculty rules of procedure.

4.10(12) Faculty Minutes. Copies of Component faculty minutes, or those of their legislative bodies, shall be available for use of members of the particular faculties individually, if desired, and shall be filed in the office of their secretaries and a copy distributed to the offices of the Academic Deans, Academic Vice President, and President.

4.10(2) Recruitment and Resignation of Faculty Members. Mobility of faculty members among colleges and universities is rightly recognized as desirable in American higher education. Yet,
the departure of a faculty member always requires changes within a Component and may entail major adjustments on the part of the faculty member’s colleagues, the administration, and students in the faculty member’s field. Thus, each Component President shall establish procedures regarding the recruitment and resignation of faculty members. The standards set forth below are recommended:

(1) Recruitment Negotiations. Negotiations looking to the possible appointment of persons for the following fall semester who are faculty members of other universities in active service or on leave-of-absence and should be begun and completed as early as possible in the academic year and the appropriate other Component officers informed of such negotiations.

(2) Notification of Resignation. A faculty member should not resign later than May 15 or thirty days after receiving notification of the terms of continued employment for the following year, whichever date occurs later.

(3) Appointment Offer. To permit a faculty member to give due consideration and timely notice to his or her Component, an offer of appointment for the following fall at a Component should be made before May 1 whenever possible.

4.10(3) Retired Faculty. A full-time faculty member, who has retired from service from one of the Components in The Texas State University System and who held the title professor, associate professor, assistant professor, or instructor at the time of retirement, shall be accorded the following privileges and perquisites at such Component:

(1) A faculty identification card denoting previous academic rank and the designation “Retired”. In the case of holders of an emeritus title, the identification card shall denote the applicable emeritus title;

(2) Faculty library privileges;

(3) Use of Component dining services;

(4) Authority to purchase a faculty-staff activity card on the same basis as active faculty members;

(5) Parking privileges provided to active faculty members of the Component;

(6) Continued eligibility for Component group health and life insurance as provided by statute;
(7) Use of internal Component mail service and facilities; and,

(8) Other privileges for retired faculty approved by the President of the Component.

5. UNCLASSIFIED EMPLOYEES (EXCLUDING ADMINISTRATIVE OFFICERS) AND ALL CLASSIFIED EMPLOYEES.

5.1 Employment.

5.11 Hiring. The Board authorizes the President of the Component to hire all unclassified staff employees (exclusive of administrative officers), all classified staff employees, and other non-faculty personnel who are paid on a monthly or hourly basis. The employment of unclassified staff employees is subject to ratification by the Chancellor and the Board of Regents. All employees hired under the authority of this Subsection shall serve without a fixed term and at the pleasure of the President.

5.111 All hiring shall be made on the basis of merit. The President of the Component may investigate the character, integrity, scholastic attainment, and other qualifications of prospective employees before hiring them or before exercising any delegated authority for hiring them.

5.112 As provided in the Constitution of the State of Texas, Article I, Section 4, and by statute, no religious qualification shall be required for appointment to any office or position connected with the System or any Component thereof.

5.113 There shall be full compliance with statutory provisions requiring notification to employees.

5.114 Each Component may require a pre-employment, post-offer physical examination of applicants to be employed in regular positions if the physical examination is required of all applicants for a particular job position. Examinations for those applicants whose duties will require the handling of food will be administered in accordance with the Americans with Disabilities Act and the regulations adopted pursuant to the Act. Each Component may use the results of physical examinations to make job decisions in compliance with the Act and its regulations. The physical examinations may be made at the health center of the Component at which the applicant will be employed. If such center does not exist, the physical examination will be performed by qualified medical personnel approved by the Component.
The expense of the examination will be paid by the Component. Reports of the physical examinations shall be retained as confidential medical records and treated in accordance with the Act and its regulations.

5.12 Salaries. The salary of each employee covered by Subsection 5.11 of this Chapter shall be set by the President of the Component, subject to confirmation by the Chancellor and the Board of Regents and in accordance with the approved budgets.

5.2 Terminations. The President of each Component shall have the authority to terminate at any time the employment of any employee covered by Subsection 5.11 of this Chapter subject to review by the Chancellor and the Board of Regents.

5.3 Absences. The President of each Component shall adopt policies and guidelines covering the authorized absences for all personnel covered by Section 5 of this Chapter. Such policies and guidelines shall be in accordance with the provisions of current statutes and these Rules and Regulations (see Subsection 2.51 of this Chapter).

5.4 Outside Employment. The provisions and conditions for outside employment by all classified and unclassified staff employees, including administrative officers, shall be the same as those established for faculty members under Subsection 4.83 of this Chapter.

5.5 Acceptance of Money from Students. Administrative and staff employees shall not, without previous and special written approval of the Component administration, collect from students any fees or charges to be expended for Component purposes. Certain positions, such as cashiers and similar positions, may have this approval as part of their job descriptions. Acceptance of funds by Component employees, in any case, shall be only via official Component receipt mechanisms as approved by the Component’s chief fiscal officer.

6. **EMPLOYEE TRAINING.**

The President of each Component is authorized to expend public funds for the training and education of its employees where the training or education is related to the current or prospective duty assignment of the employee. Any Component-specific written regulations governing such training and education shall be in accordance with the provisions of Texas Government Code, Section 656.044.

6.1 Seminars and Workshops.

6.11 Employees may take time off from regularly assigned duties to participate in seminars, workshops or similar training events of limited duration if the employee’s supervisor determines that the seminar, workshop, or similar training events will enhance the employee’s job performance.
6.12 Subject to availability, funds may be expended for employee participation in seminars, workshops or similar training events of limited duration if the following conditions are met:

6.121 The employee’s supervisor has determined that the seminar, workshop, or similar event will enhance the employee’s job performance;

6.122 Reimbursable expenses incurred (i.e., attendance charges, tuition course-related materials, and travel expenses) are determined to be cost-effective;

6.123 Travel expenses will be reimbursed if the necessity of travel is justified (e.g., the training is not available through a local source);

6.124 The travel request was approved by the employee’s supervisor in advance of the training.

6.13 Travel expense reimbursement for seminars, workshops and similar training events must meet all applicable policies, rules and statutory provisions regarding travel by State employees.

6.2 Continuing Professional Education (CPE). Funds may be expended for continuing professional education required to maintain a professional license or certification for those positions which require such licenses or certificates and for positions in which licensure or certification is desirable. Employees in such positions may have time off from regularly assigned duties to satisfy CPE requirements. Expenditures for the training are subject to availability of funds.

6.3 College Courses. Subject to availability of funding, employees may be reimbursed for certain college courses if the following conditions are met.

6.31 The employee’s supervisor has determined that the course will enhance the employee’s job performance.

6.32 The course is taken in accordance with the Component’s written policies and appropriate written approval is obtained prior to enrolling in the course.

6.4 Training Subject to Subchapter D. Chapter 656, Title 6, Texas Government Code (Restrictions on Certain Training).

6.41 “Training” means instruction, teaching, or other education received by a state employee that is not normally received by other state employees and that is designed to enhance the ability of the employee to perform the employee’s job. The term includes a course of study at an institution of higher education if the employing state agency spends money to assist the state employee to meet the expense of the course of study or pays salary to the employee to undertake the course of study as an
assigned duty. The term does not include training required either by state or federal law or that is determined necessary by the agency and offered to all employees of the agency performing jobs.

6.42 If an employee receives training, as defined in subsection 6.41 of this Section that is paid for by a Component, and during the training period the employee does not perform the employee’s regular duties for three or more months as a result of the training, then the employee must agree in writing before the training begins to:

6.421 Work for the Component following the training for at least one month for each month of the training period; or

6.422 Reimburse the agency for all the costs associated with the training that were paid during the training period, including any amounts of the employee’s salary that were paid and that were not accounted for as paid vacation or compensatory leave.

6.43 An employee may make a written request to the President of his or her Component to waive the requirements in subsection 6.42 of this Section and release an employee from the obligation to meet those requirements. Each President may authorize such a waiver if he or she finds that such action is in the best interest of the agency or is warranted because of an extreme personal hardship suffered by the employee.

6.44 If an employee does not provide the services required in subsection 6.42 of this Section, provides those services for less than the required term, or fails to make any required payments and is not released from the obligation, the employee is liable to the Component for the obligated amount and reasonable expenses incurred in obtaining payment, including reasonable attorney’s fees and other collection costs.
CHAPTER VI. STUDENT SERVICES AND ACTIVITIES

1. GENERAL PROVISIONS.

1.1 Application of Policies, Rules and Regulations. These Rules and Regulations apply to all Component institutions of the System and shall be implemented appropriately in the student handbook for each Component.

1.2 The "Chief Student Affairs Officer” means the administrator directly responsible for student affairs at each Component under authority delegated by the President.

1.3 A student is one who is currently enrolled at any of the Components of the System. These Rules and Regulations will also apply to any prospective or former student who has been accepted for admission or readmission to any Component while such individual is on the campus of any Component.

1.4 The “campus” is defined as all real property owned and/or controlled by that System Component.

2. ADMISSION STANDARDS AND REQUIREMENTS.

Student admissions standards, entrance requirements, and degree qualifications shall be determined and prescribed by each Component subject to the approval of the Board upon the recommendation of the Chancellor and of the Academic Affairs Committee. Enrollment preference shall be given to residents of the State of Texas. Each Component shall implement the American College Testing Program, Scholastic Aptitude Test, and/or the College Entrance Examination Board testing program as appropriate to its mission for entering first-time students after approval of the program by the Board. No otherwise qualified applicant for enrollment shall be denied admission on the basis of sex, religion, race, color, national origin, age, ancestry, marital status, veteran status, disability, or other criteria prohibited by law.

3. TUITION AND FEES.

Tuition, student fees, and room and board rates shall be established by each Component subject to legislative direction and approval by the Board.

3.1 Student Services Fees. Each Component is authorized to charge and collect from students registered at the Component fees to cover the cost of student services which the Chancellor and Board deem necessary or desirable in carrying out the educational functions of the Component based on Education Code, Section 54.503.
3.2 Additional Mandatory Fees. Each Component is authorized to charge and collect from students registered at the Component other such mandatory fees as statutorily authorized.

3.3 Additional Voluntary Fees. Additional voluntary student services fees may be established with the approval of the President of the respective Component.

3.4 Installment Payments. Each Component shall provide optional installment payment plans for tuition and required fees in accordance with Education Code, Section 54.007. A Component may also provide an installment method of paying campus housing, food service, or room and board contracts. The Board may authorize assessment and collection of incidental fees for students utilizing this method of payment and/or late fees for students who are delinquent in their payment, provided such fees reasonably reflect the cost to the Component of handling these payments.

3.5 Reinstatement Fee. A student seeking reinstatement to a Component within the same semester after having withdrawn or been withdrawn shall pay a $50.00 reinstatement fee, in addition to late payment fees. Students on an installment plan must also pay all past due balances at the time of reinstatement.

3.51 Application of Component and all federal or state grants and loans provided to a student must be applied toward the full amounts due to the Component for the payment of tuition, fees, and other charges before installment payments are scheduled. This provision does not apply to Guaranteed Student Loan Program (GSLP), Parent Loans for Undergraduate Students (PLUS), Student Loan Supplement (SLS), or other similar funds, which shall be disbursed by the Component directly to the student in accordance with federal law and regulations.

3.52 Campus Housing, Food Service, Room and Board. Each Component is authorized to charge fees to students utilizing an installment method of paying campus housing, food service, or room and board contracts, with such fees not to exceed the fees charged under Section 3.4 of this Chapter to students paying tuition and required fees in installments.

4. STUDENT GRANTS AND LOANS.

Pursuant to Education Code, Chapter 56, the following guidelines approved by the Coordinating Board shall be utilized for awarding Texas Public Educational Grants, Emergency Tuition and Fees Loans, and Toward Excellence, Access, & Success (TÉXAS) Grants by the Components in The Texas State University System.

4.1 Assessments for Grant and Loan Programs. Each Texas State University System Component shall set aside, each academic year, not less than 15 percent nor more than 20 percent out of each resident and
3 percent out of each nonresident student's tuition charge under Education Code, Section 54.051 as provided by the General Appropriations Act for the applicable academic year. Of the funds set aside pursuant to this Section, not more than 90 percent shall be used for Texas Public Educational Grants and not more than 10 percent shall be used for emergency loans to students.

4.2 Approval of Guidelines. The guidelines for the award of grants shall be submitted to the Coordinating Board for review and approval before any grants are made through this program.

4.3 Criteria for Awarding Grants.

4.31 Enrollment. Grants are to be made only to students who actually enroll in the term or terms for which the grant is awarded.

4.32 Need. Grants shall be based upon financial need of the applicant and may be used to aid students who may have demonstrable financial need but are ineligible for other aid programs.

4.33 Needs Analysis Procedures. Financial needs of students are to be determined by use of accepted needs analysis procedures, generally in use in other "needs based" financial assistance programs although the Component, in its discretion, may consider factors not covered by the "needs based" financial assistance programs. In such case, the Component must state in writing the reasons for its decision.

4.34 Separation of Funds. Funds set aside from resident student tuition charges may be used only for grants to resident students. Funds set aside from nonresident student tuition charges may be used only for grants to nonresident students. After the end of the sixth class week of each semester, a Component may transfer any excess funds set aside from tuition paid by resident or nonresident students to the fund set aside for grants awarded to the other class of students. Priority for awarding grants from any excess funds set aside from tuition paid by resident students shall be given to resident students.

4.35 Transfer of Funds. Any or all of the funds set aside for making Texas Public Educational Grants may be transferred to the Coordinating Board, to be used for matching federal or other grant funds for awarding to students at each Component, provided such amounts can be equally matched by funds held by the Coordinating Board and further provided unencumbered funds transferred are returned upon request of the Component President.

4.36 Full Use of Funds. At the end of a Fiscal Year, if the total amount of unencumbered funds that have been set aside under this program by a Component, together with the total amount of
unencumbered funds transferred by the Component to the Texas Higher Education Coordinating Board exceeds 150 percent of the amount of funds set aside by the Component in the fiscal year, and the Component shall transfer the excess amount to the Coordinating Board for the purpose of awarding scholarships as provided by law to students at other universities.

4.37 Scholastic or Disciplinary Probation. Returning students who are not maintaining satisfactory academic progress and all students on disciplinary probation may be ineligible for grants.

4.4 Criteria for Awarding Loans.

4.41 Eligibility. Loans are to be made only to students accepted for enrollment as regularly admitted students and/or enrolled in good standing and maintaining satisfactory progress in a program leading toward a degree. Students paying tuition on a basis other than semester credit hours have the same eligibility criteria and loan terms as students paying tuition on the basis of semester credit hour loans. Students in default on other student loans and other financial obligations are ineligible, and students on disciplinary probation may be ineligible.

4.42 Need. Borrowers must evidence a need for the loan by submitting a loan application stating the purpose and amount of the loan requested and the method of repayment.

4.43 Emergency Loans. Eligible student borrowers shall be assisted in obtaining emergency loans based on the order in which their applications are received.

4.44 Maximum Loan Amount. The maximum loan amount per student for each semester shall not exceed the tuition, fees, and room and board charges assessed for the semester in which the student is enrolling. The Component may deduct the student's unpaid indebtedness, penalties, and late charges from the loan proceeds and apply them to this indebtedness. Loans may be made in amounts needed to make payments on an installment plan for tuition and fees, as authorized under Section 54.007 of the Education Code.

4.45 Promissory Note. Each loan must be evidenced by a promissory note which must be executed prior to the disbursement of funds. A Component may require a borrower to secure a cosigner, who evidences' ability and willingness to repay in the event the borrower defaults.

4.46 Interest. A Component may charge interest on these loans at an annual rate not to exceed 5 percent during the initial term of the loan. Additional charges may be assessed under Section 54.504 of the Education Code for late penalties and collection costs associated with collecting delinquent loans. All interest-bearing promissory notes must be executed by all students receiving
loans through or from the Component. Appropriate truth-in-lending statements shall be included in the promissory note.

4.47 Repayment. Except as provided in Sections 4.48 and 4.49 below, borrowers will have a maximum repayment period of 90 days from the date of execution of the promissory note. The repayment schedule should allow for three equal installments within the 90-day period or a term note payable 90 days from the date the promissory note was executed. Repayment of loans for summer sessions will be determined proportionately by the length of the borrower's enrollment.

4.48 Deferred Repayment. A resident of Texas for tuition purposes, upon a finding that such individual would be deprived of an education due to a lack of financial ability, may defer repayment of the loan as allowed by law and in accordance with guidelines adopted by the Texas Higher Education Coordinating Board. Request for deferred repayment must be made in writing.

4.49 Forgiveness of Loans. A Component will forgive loans in accordance with guidelines adopted by the Texas Higher Education Coordinating Board for the determination of extreme financial hardship and other instances in which the public interest is served if a loan is forgiven.

5. STUDENT CONDUCT AND DISCIPLINE.

5.1 Acquaintance with Policies, Rules, and Regulations. Each student is expected to be fully acquainted and comply with all published policies, rules, and regulations of the Component and of The Texas State University System, copies of which shall be available to each student for review online and/or at various locations on each campus. Students are also expected to comply with all federal and state laws.

5.2 Student Misconduct. Each student is expected to act in a manner consistent with the Component's functions as an educational institution, including off campus conduct that is likely to have an adverse effect on the Component or on the educational process. (18) Knowingly initiating, communicating, or circulating a false or baseless report or alarm of a present, past, or future bombing, fire, offense, or other emergency that would ordinarily cause action by others charged with dealing with emergencies; placing a person in fear of imminent serious bodily injury; or preventing or interrupting the occupation of a building, room, aircraft, automobile, or other mode of conveyance;

(19) Harassment where the individual threatens or bullies, in person, by telephone, electronically, in writing, or by other means, to take unlawful action against any person and by this action intentionally, knowingly, or recklessly annoys or alarms the recipient;

(20) Academic dishonesty (see subparagraph 5.3);

(21) Campus disruptive activities (see subparagraph 5.4) or disorderly conduct on Component-owned or controlled property or at a Component-sponsored or supervised function that inhibit or interfere with the educational responsibility of the Component community or the Component’s social-educational activities shall include but not be limited to: using abusive, indecent, profane or vulgar language; making offensive gestures or displays that tend to incite a breach of the peace; perpetrating fights, assaults, acts of sexual violence, abuse, or threats; or evincing some obviously offensive manner or committing an act that causes a person to feel threatened. (22) Using authority granted by state law, System rule, or Component policy to deprive any person of his or her civil rights;

(23) Violation of Component policy relating to electronic network facilities such as local area networks and the Internet;

(24) Any attempt to commit these prohibited acts.

5.3 Academic Honesty. The Component expects all students to engage in all academic pursuits in a manner that is above reproach and to
maintain complete honesty and integrity in the academic experiences both in and out of the classroom. The Component may initiate disciplinary proceedings against a student accused of any form of academic dishonesty, including but not limited to, cheating, plagiarism, collusion, falsification of research data, or the abuse of resource materials on an examination or other academic work.

5.31 "Cheating" includes, but is not limited to:

(1) Copying from another student's test paper, a laboratory report, other report, or computer files, data listings, and/or programs;

(2) Using, during a test, materials not authorized by the person giving the test;

(3) Collaborating, without authorization, with another person during an examination or in preparing academic work;

VI-8
5.35  “Academic work” means the preparation of an essay, dissertation, thesis, report, problem, assignment, or other project that the student submits as a course requirement or for a grade.

5.36  Disciplinary Procedures for Academic Dishonesty.

(1) Academic Process. All academic dishonesty cases may be first considered and reviewed by the faculty member. If the faculty member believes that an academic penalty is necessary, he/she may assign a penalty but must notify the student of his/her right to appeal to the department chair, the dean and, eventually, to the Vice President for Academic Affairs (whose decision shall be final) before imposition of the penalty. At each step in the process, the student shall be entitled to written notice of the offense and/or of the administrative decision, an opportunity to respond, and an impartial disposition as to the merits of his/her case. After completion of the academic process, the academic officer making final disposition of the case may refer the matter to the Chief Student Affairs Officer for any additional discipline that may be appropriate.

(2) Disciplinary Process. In the case of flagrant or repeated violations, the Chief Student Affairs Officer may take such additional disciplinary action. No disciplinary action shall become effective against the student until the student has received procedural due process under Subsection 5.6 and following except as provided under Subsection 5.15.

(3) Honor Code. Notwithstanding subsection (1) above, if a Component has adopted an Honor Code which includes an Honor Council that makes decisions on appeals of penalty grades issued by a faculty member and disciplinary action on cases of flagrant or repeated violations, the hearings which consider disciplinary action must afford the students procedural due process under Subsection 5.6. Appeals of academic decisions rendered by an Honor Council shall be heard by the Vice President for Academic Affairs and appeals of disciplinary decisions rendered by an Honor Council shall be heard by the Chief Student Affairs Officer. In the event of conflicts, these Rules and Regulations shall govern.

5.37  “Falsification of Data” means the representation, claim, or use of research, data, statistics, records, files, results, or information that is falsified, fabricated, fraudulently altered, or otherwise misappropriated or misrepresented.
5.4 Campus Disruptive Activities. Pursuant to Education Code, Subsection 51.935 (Disruptive Activities), the Components shall adhere to the following Rules and Regulations:

5.41 No person or group of persons acting in concert may intentionally engage in disruptive activity or disrupt a lawful assembly on a Component campus. Disruptive activity means:

1. Obstructing or restraining the passage of persons to the campus or an area of the campus or to an exit, entrance, or hallway of any building without the authorization of the administration of the Component;

2. Seizing control of an area of a campus or any building or portion of a building for the purpose of interfering with any administrative, educational, research, or other authorized activity; or

3. Disrupting and/or preventing or attempting to prevent by force or violence or the threat of force or violence any lawful assembly authorized by the Component administration. A lawful assembly is disrupted when a person in attendance is rendered incapable of participating in the assembly due to the use of force or violence or a reasonable fear of force or violence.

5.42 Any person who is convicted the third time of violating this statute shall not thereafter be eligible to attend any school, college, or university receiving funds from the State of Texas for a period of two years from such third conviction.

5.43 Nothing herein shall be construed to infringe upon any right of free speech or expression guaranteed by the Constitution of the United States or the State of Texas.

5.5 Suspended, Expelled, and Dismissed Student Restriction. No student who has been suspended, expelled, or dismissed for disciplinary reasons from a Component of the System shall, during the applicable period of discipline, be eligible to enroll at any other System Component. The registrar of a Component is authorized to make an appropriate notation on the student’s transcript to accomplish this objective and to remove the notation when the student’s disciplinary record had been cleared.

5.6 Procedure for Administration of Discipline. The Chief Student Affairs Officer shall have primary authority and responsibility for the administration of student discipline at the Component and for investigating allegations that a student has violated System and/or Component Rules and Regulations, or specific orders and instructions issued by an administrative official of the Component.

5.61 The Chief Student Affairs Officer or his/her appointee hereto referred to as officer, will investigate the alleged violations.
During the investigation, if the student is available, the officer will give the student an opportunity to explain the incident. If the officer concludes that the student has violated a System or Component policy, the officer will determine (but not assess) an appropriate disciplinary penalty.

(1) The officer will discuss his or her findings and his or her determination of an appropriate penalty with the student if the student is available and will give the student an opportunity either to accept or reject the officer’s decision.

(2) If the student accepts the officer’s decision, the student will so indicate in writing and waive his or her right to a hearing. The officer may then assess the disciplinary penalty.

(3) If the student does not accept the officer’s decision or does not waive his or her right to a hearing, a disciplinary hearing will be scheduled in accordance with Subsections 5.7 and 5.(10).

5.62 If the student does not execute a written waiver of the hearing process, then the officer shall prepare a written statement of charges and of the evidence supporting such charges, including a list of witnesses and a brief summary of the testimony to be given by each, and shall send a notification of such charges and statement to the accused student by certified mail, return receipt requested, addressed to the address appearing in the Registrar’s records, or shall hand deliver said document with the student signing a receipt.

5.7 Student Disciplinary Hearings. In those cases in which the accused student disputes the facts upon which the charges are based, such charges shall be heard and determined by a fair and impartial person or committee, hereinafter called the hearing officer or hearing committee, selected in accordance with procedures adopted by the Component. Except in those cases where immediate interim disciplinary action has been taken under authority of Subsection 5.(14), the accused student shall be given at least five (5) class days written notice by the Chief Student Affairs Officer, or a designated appointee, of the date, time, and place for such hearings and the name or names of the hearing officer or hearing committee. Hearings held under Subsection 5.(14) will be held under the same procedures set forth below, but will be held as soon as practicable within twelve (12) class days after the disciplinary action has been taken unless otherwise agreed to by the student.

Upon a hearing of the charges, the Component representative has the burden of going forward with the evidence and the burden of proving the charges by the greater weight of the credible evidence. The hearing shall be conducted in accordance with procedures adopted by the Component that assure both parties (Component representative and accused student) the following minimal rights:
5.71 Both parties will exchange lists of witnesses, expected testimony, copies of documents to be introduced, and notice of intent to use legal counsel, at a reasonable time prior to the hearing.

5.72 Each party shall have the right to appear and present evidence in person and to be advised during the hearing by a designated representative or counsel of choice. Each party shall limit its presentation to relevant evidence. The accused student must attend the hearing if the student desires to present evidence. The hearing may proceed notwithstanding the accused student’s failure to appear.

5.73 Both the Component representative and the accused student shall have the right to question witnesses. The accused student may question witnesses with the advice of a designated representative or counsel. All questions shall be limited to relevant evidence.

5.74 The hearing will be recorded. If either party desires to appeal the finding, a copy of the recording will be produced at the expense of the party appealing the finding, and both parties will be furnished a copy for appeals purposes only.

5.8 Student’s Right to Challenge Impartiality. The accused student may challenge the impartiality of the hearing officer or a member of the hearing committee at any time prior to the introduction of any evidence. The hearing officer or member of the committee shall be the sole judge of whether he or she can serve with fairness and objectivity. In the event the challenged hearing officer or member of the hearing committee chooses not to serve, a substitute will be chosen in accordance with procedures adopted by the Component.

5.9 Determination of Hearing. The hearing officer or hearing committee shall render a decision to both parties as soon as practicable as to the guilt or innocence of the accused student and shall, if necessary, assess a penalty or penalties including, but not necessarily limited to:

(1) Verbal or written warning;

(2) Requirement that the student complete a special project that may be, but is not limited to, writing an essay, attending a special class or lecture, or attending counseling sessions. The special project may be imposed only for a definite term;

(3) Cancellation of residence hall or apartment contract;

(4) Disciplinary probation imposed for a definite period of time which stipulates that future violations may result in disciplinary suspension;

(5) Ineligibility for election to student office for a specified period of time;
(6) Removal from student or organization office for a specified period of time;

(7) Prohibition from representing the Component in any special honorary role;

(8) Withholding of official transcript or degree;

(9) Bar against readmission;

(10) Restitution whether monetary or by specific duties or reimbursement for damage to or misappropriation of Component, student, or employee property;

(11) Denial or non-recognition of a degree;

(12) Suspension of rights and privileges for a specific period of time, including access to electronic network facilities and participation in athletic, extracurricular, or other student activities;

(13) Withdrawing from a course with a grade of $W$, $F$, or $WF$;

(14) Failing or reduction of a grade in test or course, and/or retaking of test or course, and/or performing additional academic work not required of other students in the course;

(15) Suspension from the Component for a specified period of time. During suspension, a student shall not attend classes or participate in any Component campus activities;

(16) Loss of or ineligibility for student grant or loan;

(17) Expulsion from the Component. A student who is expelled from the Component is not eligible for readmission to the Component;

(18) Dismissal from the Component. A student, who is dismissed, is separated from the Component for an indefinite period of time;

(19) Recording sanctions in Subsections 5.9(9), (11), (13), (14), (15), (17), and (18) may be made on a student's permanent transcript. The Component may maintain confidential records of all other sanctions and may consider any prior sanction received by a student in assessing a subsequent sanction. The Component shall develop a procedure for expunging those records not transcribed on a student's permanent transcript within a reasonable time not to exceed five (5) years after the student ceases to be enrolled;

(20) A student who, by a preponderance of the evidence, under these Rules and Regulations, is found to have illegally possessed, used, sold or distributed any drug, narcotic, or controlled
substance, whether the infraction is found to have occurred on or off campus, shall be subject to discipline, ranging from mandatory, university or college approved counseling to expulsion. Mitigating or aggravating factors in assessing the proper level of discipline shall include, but not necessarily be limited to, the student’s motive for engaging in the behavior; disciplinary history; effect of the behavior on safety and security of the university or college community; and the likelihood that the behavior will recur. A student who has been suspended, dismissed, probated or expelled from any system Component shall be ineligible to enroll at any other system Component during the applicable period of discipline. The registrar of each Component is authorized to make an appropriate notation on the student’s transcript to accomplish this objective and to remove the notation when the student’s disciplinary record has been cleared. A second infraction for a drug-related offense shall result in permanent expulsion from the Component and from all other institutions in The Texas State University System.

5.(10) Appeal. Neither party may appeal if the hearing officer or hearing committee determines that the allegations against the accused student are true but the only punishment assessed is verbal or written warning. In those cases, the determination of the hearing officer or hearing committee is final. However, in all other cases, either party may appeal to the Chief Student Affairs Officer. If the hearing officer has been an appointee designated by the chief student affairs officer or if the determination has been made by a hearing committee, the appeal will be made to the Chief Student Affairs Officer or designated appointee. If the Chief Student Affairs Officer has served as the hearing officer, the appeal will be made to the vice President in charge of student affairs. Written notice of appeal must be received by the appeal officer within five (5) business days after the decision. An appeal is not simply a rehearing of the original case. An appeal must be based on: 1) whether or not a fair hearing was afforded. A fair hearing includes notice of the alleged misconduct, and an opportunity to present evidence; 2) whether or not the sanctions levied were appropriate to the offense; 3) whether or not the finding was supported by the evidence; and/or 4) whether or not new evidence is introduced that was not available at the time of the hearing. Both parties, at the discretion of the appeal officer, may submit oral or written arguments, to support their positions. In order for the appeal to be considered, the appealing party must submit all necessary documentation, including written arguments, when appropriate, to the appeal officer within five (5) business days after giving notice of appeal. The appeal officer may approve, reject, modify the decision, or remand the matter to the original hearing officer or hearing committee for reconsideration. The appeal officer shall respond to the appeal within ten (10) business days after all the documentation was received and all testimony was heard, or he or she may postpone a decision for good cause.

5.(11) Review of the Vice President in charge of Student Affairs. The Vice President may review any disciplinary case and may approve, reject,
modify the decision or remand the matter to the original hearing officer or committee for reconsideration.

5.(12) President’s Right to Review. The President may review any disciplinary case, and approve, reject, or modify the decision or remand the matter to the original hearing officer or hearing committee for reconsideration.

5.(13) Board of Regents' Right to Review. The Board of Regents retains the right to review any disciplinary action and approve, reject, modify the decision, or remand the matter to the original hearing officer or hearing committee for reconsideration.

5.(14) Interim Disciplinary Action. The Chief Student Affairs Officer, the Vice President in charge of student affairs, or the President of the Component may take immediate interim disciplinary action, including suspension, pending a hearing against a student for violation of a rule and regulation of the System or of the Component at which the accused is a student when the continuing presence of the student poses a danger to persons or property or an ongoing threat of disrupting the academic process. In the event that the interim disciplinary action includes suspension, the Component official involved shall, as soon as possible, notify the President and the Vice Chancellor and General Counsel of such action.

5.(15) Civil Proceedings. Every student is expected to obey all Federal, State, and local laws and is expected to be familiar with the requirements of such laws. Any student who violates any provision of those laws is subject to disciplinary action, including expulsion, notwithstanding any action taken by civil authorities on account of the violation.

6. STUDENT ORGANIZATIONS.

6.1 Definition of Composition and Authority. An organization in which active membership is limited to students (recognizing that faculty and staff may also be members) of a Component may become a registered student organization at that Component by complying with the registration procedures established by the Component. Neither the organization nor its representatives may suggest that either is acting with authority or as an agent of the Component.

6.2 Faculty and Staff Advisors. Each registered student organization shall have a faculty or staff advisor, whose name shall be provided to the Component administration as a part of the student organization registration procedures. The organization shall immediately report in writing any change in its advisor. Advisors to registered student organizations that do not have their accounts and financial records kept by the Component shall not have control of the funds and financial records of the student organization. Such control includes, but is not limited to, receipting of funds, check signing authority, authorization of expenditures, and preparing bank reconciliations. Advisors may not
expend their personal funds on behalf of a student organization and request reimbursement.

6.3 Disciplinary Action. Any student organization is subject to disciplinary action or revocation of registration as a student organization for violation of a System and/or of the Component rule or regulation or for failing to comply with the direction of a Component official acting in the performance of his or her duties.

6.4 Requirements for Organizations. The President of each Component of the System may issue regulations governing the eligibility of students to participate in organized activities. He or she shall require and enforce the following:

6.41 As a condition to being a registered student organization or group during an academic year, every registered student organization or group shall furnish, to the appropriate Component officer at the beginning of, or prior to each such academic year, a complete list of officers or other members of the organization or group who are authorized to speak for, or represent, the organization or group in its relations with the Component and who are authorized to receive for the organization or group official notices, directives, or information from the Components. Each such list shall be current and accurately updated throughout the semester by the organization or group, and it shall be conclusively presumed that the officers or members whose names are on the list most recently filed by the organization or group are authorized to speak for and represent the organization or group in its relations with the Component and are authorized to receive for the organization or group official notices, directives, or information from the Component.

6.42 Except for national honor societies which require outside members, no registered student organization or group may have any person as an active member who is not either a student or a member of the faculty or staff of the Component. Except pursuant to the provisions of Chapter VII, Subsection 3.4, no organization or group, whether registered or not, may use any facility of any Component of the System if it has as an active member any person who is not either a student or a member of the faculty or staff of the Component.

6.43 Any Component funds that are expended on behalf of student organizations will be maintained by the Component. Both the advisor of the organization and the designated officer of the organization must authorize any expenditures from the organization’s account. All university funds (such as those generated by student service fees) expended for the benefit of student organizations must be expended from budgeted Component accounts.
6.44 All Component-provided funds of registered student organizations are subject to audit by the Component. Failure to maintain adequate records may be considered in determining whether a student organization may maintain its registered status.

6.45 Student organizations, their officers, and sponsors are responsible for assuring that they comply with all applicable Texas State University System, State, and Federal Rules and Regulations, including tax code compliance.

6.46 Each Component may develop applicable policies and procedures to promote fiscal integrity and accountability for student organizations.

7. PARTICIPATION IN STUDENT GOVERNMENT.

7.1 Student Government. The student governments currently authorized at the Components of the System are hereby approved. Student government has no existence separate and apart from the Component, and student government shall have only such jurisdiction and exercise only such powers as the Board may now, or hereafter, delegate to it through the Component President.

7.11 Constitutions and Bylaws Approved. The constitutions and bylaws of the several student governments in force at the date of adoption of these Rules and Regulations are hereby approved to the extent that they are not in conflict with such Rules and Regulations.

7.12 Mode of Amending Constitutions and Bylaws. An amendment to the constitution or bylaws of a student government may be adopted by an association in accordance with its constitution and bylaws, but the change shall not become effective until transmitted to and acted upon by the Chief Student Affairs Officer and approved by the Component President.

7.13 Amendment or Repeal by the Board of Regents. The Board shall amend or repeal any portion of the constitution and bylaws of a student government when, in the judgment of the Board, the interests of the particular Component shall require it.

7.14 Amendment or Repeal by the President. The President shall have the power to amend or repeal any provision in the constitution or bylaws of the student government, when in the President's judgment, the interests of the Component require it. The action by the President shall be subject to review Subsection 7.13, above.

7.15 Persons Compensated by Student Government. All persons employed on salary or compensated for personal services in any manner by or under the direct supervision of the student
government shall have the approval of the Chief Student Affairs Officer and shall be subject to prior approval by the President or a designated appointee both as to salary and as to qualifications. This authority shall not be exercised in a manner that would infringe upon the constitutionally protected rights of students.

7.16 Annual Financial Reports. The Chief Student Affairs Officer shall require the officially recognized student government to make available, on an annual basis, a complete financial report to the Component business officer, as well as such special reports as may be called for by such business officer. A duplicate copy of each report shall be filed with the Chief Student Affairs Officer.

7.2 Rights and Obligations of Student Government. The student government on each campus shall be a recognized forum of student opinion.

7.21 When a student government takes a position on issues directly related to a Component and its operations, it shall forward its recommendations to the Chief Student Affairs Officer and the President. This Subsection shall not prohibit the student government from free expression of its position.

7.22 When a student government takes a position on non-Component issues, it shall make clear the fact that it does not speak for the Component.

7.23 A student government may conduct polls, initiate petitions, and/or establish forums for debate or discussion; and, said action shall be regulated only as to time, place, and manner but shall be subject to Chapter VII, Subparagraph 3.3.

7.24 Officers of a student government may so identify themselves when they express their personal views, but they shall then make it clear that they are not speaking for the Component or for the student body; and, they shall make it clear they are not speaking for the student government unless the legislative body of that government has authorized the statement in advance.

7.3 Stipends. A Component may authorize the student government to grant fair and reasonable stipends to elected student body officers provided such stipends are paid from student fees and are first authorized by a one time referendum vote of the student body. Thereafter, stipends are subject to approval by authorized student governments. The granting by student governments of such stipends shall not establish an employer/employee relationship with the Component, and the subject student officers shall not receive employee benefits from the Component. The provisions of Section 7.15 above shall apply to the setting of the compensation of student body officers.

7.4 President’s Authority. The Component President has authority over all its activities, policies, contractual agreements, and financial matters of
student government, provided said authority does not infringe on the free exercise of the constitutional rights of the students or the student government.

8. USE OF THE STUDENT CENTER.

The use of the student center or student union facilities on the campus of each Component shall be subject to reasonable and nondiscriminatory regulations as may be promulgated by that center's director or governing board and approved by the Chief Student Affairs Officer and the President.

9. STUDENT DEBTS.

9.1 Debts of Students or Organizations. Neither the System nor any Component is responsible for debts contracted by individual students or by student organizations. All students and student organizations are expected to conduct themselves honorably in all commercial transactions. Neither the System nor any Component will assume the role of a collection agency except for monies owed to the System or one of its Components; nor, will the System or any of its Components adjudicate disputes between students and creditors over the existence or the amounts of debts, except with the prior approval of the President of the Components or a designated appointee in those cases where the interests of the Component may be a factor.

9.2 Students' Financial Obligations. Students are expected to meet their financial obligations to the Component within the designated time allowed. Registration fees are payable at the time of registration, and students are not entitled to enter class or laboratory until their fees and deposits have been paid. Other charges and financial obligations are due at registration or within ten days after a bill is rendered by the Component or according to the special payment instructions that may be printed on the bill.

9.3 Penalties for Failure to Pay. Failure to pay in the allotted time the amount owed to the Component for tuition, fees, charges, or any other financial obligations may result in any or all of the following:

(1) Dismissal from the Component or other disciplinary actions;
(2) Withholding of future registration privileges;
(3) Withholding the issuance of grades or an official certified transcript;
(4) Withholding the conferring of a degree;
(5) Bar against readmission for the student;
(6) Assessment of late fees and/or reinstatement fees.
9.4 Each Component is authorized to require that non-resident international students secure mandatory accident, sickness, catastrophic illness, evacuation and repatriation insurance as a condition of enrollment.

10. CORRECT ADDRESS.

Each student shall notify and assure that the Registrar’s Office always has the student’s correct and current mailing address on file. The student may provide the notice by any means, hard copy or electronic, that is directed by the Registrar. The Component or System’s obligation or desire to provide any notice will be fulfilled by mailing to the student’s current address on file with the Registrar’s Office.

11. STUDENT IDENTIFICATION CARDS.

Student I.D. cards are nontransferable. Losses of I.D. cards should be reported immediately to the proper administrative official.

12. STUDENT PARKING AND TRAFFIC.

All students are expected to obey the Component's parking and traffic regulations. Any student who receives a citation for violation of a Component’s parking or traffic regulations shall be entitled to a hearing in front of a Component’s traffic court or committee if the student makes a timely request. The hearing may consist of a personal appearance, a written statement, or both, as prescribed by the Component in its policies.

13. REGENTS’ SCHOLAR AWARD.

13.1 Purpose. The honorary title, Regents’ Scholar, recognizes students who achieve excellence in academic and co-curricular endeavors at Component institutions.

13.2 Process. Not later than August 31 of each year, the president of each Component may nominate to the Chancellor one outstanding student. Upon the recommendation of the Chancellor, the Board of Regents may bestow each year the title of “Regents’ Scholar” upon a select student or students who have demonstrated the following:

1. Outstanding academic achievement and scholarship in his/her studies;

2. Strong commitment to and leadership in co-curricular activities; and,

3. Notable contributions to the Component institution and community.
At the time of graduation, a Regents’ Scholar shall be recognized at
his/her Component institution’s commencement ceremonies.

13.3 Eligibility. To be considered for selection, at a minimum, a student
must have a 3.75 cumulative GPA, be enrolled full-time at a
Component institution, and have earned 25 semester credit hours (for
2-year institutions) or 60 semester credit hours (for 4-year institutions).
Additionally, the student must demonstrate active involvement in co-
curricular campus and leadership activities, and not have been on
academic or disciplinary probation at any time while attending the
Component institution.

13.4 Benefits of Award. Award of such a title shall be accompanied by
passage of a resolution by the Board of Regents, memorialized in the
minutes of the meeting at which it was awarded, and the issuance of a
commemorative medallion. A cash scholarship from the Texas State
University System Foundation payable to the Component institution for
use by the student toward fees, textbooks, and other educational
expenses, including but not limited to, lodging, dining, and parking
may be awarded. The Chancellor and the Executive Director of the
Foundation would determine in advance the amount of the scholarship.
CHAPTER VII. GENERAL PROVISIONS FOR CAMPUS ACTIVITIES

1. SOLICITATION.

"Solicitation” in these Rules and Regulations means: (1) the sale or offer for sale of any property, goods, products or services, or (2) the receipt of or request for any gift or contribution. Solicitation on the campus of any Component is prohibited, except for the following activities:

1.1 The sale or offer for sale through vending machines operated by the Component or its subcontractor of: (1) any newspaper, magazine, or other publication in an area designated by the President or his/her designee; (2) food, drink and other items.

1.2 The sale or offer for sale of any Component publication, book, or other material used in the academic work of the Component by the Component or its subcontractor in an area designated by the President or a designee.

1.3 The operation by the Component or its subcontractor of: (1) a bookstore, specialty store, laundry, Component dining service, or other service maintained for the convenience of the Component's students, faculty, or staff; or (2) food, and drinks, souvenirs, and programs at athletic contests or other events sponsored or authorized by the Component.

1.4 The advertisement of any activity, item, or product sponsored or authorized by the Component and approved by the President or his/her designee; advertisements appearing in any publication or sent through the United States or private postal service.

1.5 The collection of tuition, charges and fees under Section 1.4 of Chapter III.

1.6 The collection by registered student, faculty, or staff organizations: (1) of membership fees or dues; or (2) of fees or contributions for the exhibition of movies or other programs, including fine arts and athletic events sponsored by the Component or by such organizations.

1.7 Presidential-approved participation in: (1) nondiscriminatory activities on behalf of charitable organizations; or (2) events sponsored by a registered student, faculty, or staff organization or the Component that are authorized and scheduled in accordance with the facilities-use regulations of the Component. All signs, tickets, and literature advertising the event must identify the sponsoring organization. The Component may require that members of the sponsoring organization solicit directly and may prevent organizations from using nonmembers to fund-raise, or solicit for the organization.
1.8 Activities of agents of companies authorized by the Component to provide instruments, equipment, supplies, health insurance, optional retirement programs, tax-sheltered annuities, or other services to the Component or its employees.

1.9 Persons engaged in the activities listed in Sections 1.1 - 1.8 above are responsible for assuring that they maintain the portions of the campus and building they use in a clean, orderly and appealing in appearance and for assuring that their use:

(1) preserves an academic atmosphere and does not disrupt classes, Component programs, or other activities;

(2) maintains security and safety for persons and property, does not unreasonably expose persons on campus to crime; and avoids unlawful activities;

(3) protects the privacy of students, faculty, and staff, and protects them from deception, fraud and similar commercial exploitation;

(4) permits the free flow of pedestrian and vehicular traffic;

(5) preserves the beauty of the Component's campus, buildings, and facilities, and avoids unnecessary wear and tear on buildings, grounds, or facilities;

(6) protects students, faculty, and staff from deception, fraud, and commercial exploitation; and

1. (10) The President may prohibit persons or organizations from soliciting on campus if they fail to follow these rules. He or she may require that the student government and each registered student organization file a sworn statement disclosing: (1) the sources and amounts of money received from solicitation during the preceding or current semester or summer session, and (2) the payees, their Personal Identification Numbers (P.I.N.) or social security numbers, and amounts of expenditures of funds received from solicitations. Any student government or registered student organization failing to comply with the request of the President shall be prohibited from solicitation on the campus until such person organization comes into compliance.

Demonstrations, Publications, Posters, Etc. Reasonable and nondiscriminatory Rules and Regulations as to time, place, and manner may be promulgated by the President of the Component to authorize students, faculty, staff, and their registered organizations to petition, distribute publications, post signs, set up booths, and/or peacefully demonstrate on the Component campus. Such regulations shall prohibit any activity that would interfere with academic or Component programs.
2. **USE OF SYSTEM FACILITIES.**

2.1 By Component Organizations. Registered student, faculty, and/or staff organizations may use the Component’s buildings and grounds in compliance with reasonable and nondiscriminatory Rules and Regulations approved by the Component President or a designee. Extracurricular use by students, faculty, or staff shall comply with local, State, and Federal law, System and Component regulations. Such activities shall not disrupt or disturb academic or other Component processes nor result in damage to or defacement of property. Registered student, faculty, or staff organizations may not enter into joint sponsorship of any on-campus project or program which involves financial commitments or the scheduling or use of facilities with non-students without prior written approval of the Component President or a designee.

2.2 By Outside Groups. Use of grounds and physical facilities of a System Component, especially auditoriums, gymnasiums, and large rooms, by outside individuals, groups, or associations (outside groups) shall be subject to the following rules as well as policies approved by the President or a designee:

2.21 Unrestricted use by outside groups of any Component facilities and grounds is not permitted. Whenever groups share in the use of Component buildings, it must be upon the invitation of the Component and under its joint sponsorship, and with the further understanding that all the conditions governing such sponsorship are to be set by the Component.

2.22 The Component will not enter into joint sponsorship of any project or program that is to result in private gain for the cooperating individuals, group, or associations, unless the President or a designee has reviewed the project or program and has determined that such joint sponsorship serves a public purpose and adequate contractual or other controls ensure its realization as required by Article 3, Section 51, of the Texas Constitution.

2.23 The Component will not enter into joint sponsorship of any program or activity in which the educational implications or benefits are not self-evident and which does not directly supplement the educational purposes of the System. The Component, when entering into joint sponsorship of any program or activity, reserves the right to approve advertising as well as news releases.

2.24 Established as a public body without regard to political affiliation or religious faith, a Component cannot be a joint sponsor with any non-campus organization for political or sectarian gatherings. However, the appearance by or on behalf of a candidate for public office may be authorized under conditions prescribed by the Board in Section 4 of this Chapter.
2.25 The authorization for use of a Component’s facilities and
grounds for functions other than the Component’s own activities
shall be at the sole discretion of the President or a designee and
subject to the needs and the convenience of the Component
which are always to have priority in the scheduling of facilities.

2.26 In the case of programs for which the Component is a joint
sponsor with some other individual, group, or organization, the
fee to be paid by the co-sponsor will be a matter for negotiation
in each case, subject to final approval by the Component
President or a designee and will be specified in the agreement
providing for the joint sponsorship.

2.3 Use of Motor-driven Vehicles or Equipment. The President of each
Component shall promulgate a policy, specifying conditions for
operation or use by students of Component owned, controlled or leased
motor-driven vehicles or motor-driven equipment, and signed liability
waivers in favor of the Component, the Board of Regents, the System,
and their respective officers, employees, or agents.

3. SPEECH AND ASSEMBLY

3.1 Definition. Freedom of inquiry and discussion is basic and essential to
intellectual development, provided such freedoms are exercised in a
manner that does not illegally derogate the rights of others or interfere
with the academic programs and administrative processes of a
Component. The grounds of all Components are limited public forums,
subject to such reasonable time, place, and manner restrictions as the
Component president may impose (see Subparagraphs 3.3 and 3.5 of
this Chapter).

3.2 Off-Campus Speakers in Component Facilities. The freedoms of
speech and assembly guaranteed by the First and Fourteenth
Amendments to the United States Constitution shall be enjoyed by the
students, faculty, and staff of the Components of The Texas State
University System with respect to the opportunity to hear off-campus or
outside speakers.

3.21 If a registered campus organization is sponsoring a campus
speaker, it has the responsibility of making clear the fact that
the organization, not the Component, is extending the invitation
to speak and that any views the speaker may express are the
speaker’s own and not necessarily those of the System or of the
Component.

3.22 Students, faculty, staff, and registered organizations
campaigning for public office on behalf of candidates for public
office must abide by the provisions of this Section.

3.23 Speakers to be paid from state funds to speak on a Component
campus shall speak in a facility that is open to the public. This
Subsection does not apply to classes, seminars, symposia, and conferences intended for the use and benefit of students, faculty, staff, and invited guests. No person may obstruct or lessen in any way the opportunity for the audience to see and hear the speaker. The number of students, faculty, staff, and guests may be limited to prevent a hazard to the safety of the audience.

3.24 Off-campus speakers who have not been sponsored or invited by a registered student, faculty, or staff organization or by the Component administration shall be prohibited from speaking to groups in campus facilities and buildings unless the speaker is speaking to an off-campus organization that has been authorized to meet on the campus.

3.25 With the prior written approval of the Component President, the Component may, at its sole discretion, lease or rent space in the student center or other appropriate buildings or grounds for political rallies and meetings provided that space is made available to legitimate political candidates in a nondiscriminatory fashion and the rent for such space is based on a fair market value.

3.3 Time, Place and Manner Restrictions. While freedom of speech and assembly is encouraged, the law recognizes that there is no absolute right to assembly or to make or hear a speech at any time or place regardless of the circumstances, content of speech, purpose of assembly, or probable consequences of such meeting or speech. The issuance of invitations to outside speakers shall be limited as follows:

3.31 A request to invite an outside speaker will be considered by the Component only when made by a registered student, faculty, or staff organization. No invitation shall be issued to an outside speaker without prior written concurrence of the Component President or a designee for scheduling of speaker dates and assignment of campus facilities.

3.32 Any speaker request shall be made in writing to the President or a designee by an officer of a registered student, faculty, or staff organization, or by an administrative officer of the Component, desiring to sponsor the proposed speaker not later than six (6) business days prior to the date of the proposed speaking engagement. This request shall contain the name of the sponsoring organization; the proposed date, time, and location of the meeting; the expected size of the audience; and the topic of speech. Any request not acted upon by the Component President or a designee within five (5) business days after submission shall be deemed granted.

3.33 A request made by a registered organization may be denied only if the Component President, or the authorized designee, determines, after proper inquiry, that the proposed speech will constitute a clear and present danger to the Component’s orderly operation as defined in Subsection 3.5.
3.34 Where the request for an outside speaker is denied, the sponsoring organization may appeal to the President or an authorized designee in writing within three (3) business days of the denial. A hearing within will be held within four (4) business days following the filing of its appeal before an impartial board or administrator appointed by the President for a de novo consideration of the request. Such board or administrator shall make a recommendation to the Component President, whose decision shall be final. If the President fails to decide the matter within seven (7) business days following the filing of the appeal, it shall be deemed granted, and the speaker's invitation may be issued by the organization.

3.35 Where the request for an outside speaker is granted and the speaker accepts the invitation, the sponsoring organization shall inform the President or a designee, immediately in writing of such acceptance. The President or a designee, may, at his or her discretion, require that the meeting be chaired by a member of the administration or faculty and that a statement be made at the meeting that the views presented are not necessarily those of the Component or of the sponsoring organization. By acceptance of the invitation to speak, the speaker shall assume full responsibility for any violation of law committed by the speaker while on campus.

3.4 Assembly on Component Grounds. Any group or person, whether or not a student or employee, and whether or not invited by a registered student, faculty, or staff organization, may assemble and engage in free speech activities on the grounds of the campus. However, the Component President or a designee may adopt reasonable nondiscriminatory Rules and Regulations as to time, place, and manner of such activities and may prohibit such activities if it is determined, after proper inquiry, that the proposed speech constitutes a clear and present danger as defined in Subparagraph 3.5 below.

3.5 Clear and Present Danger. Proposed speech which constitutes a clear and present danger to the Component's orderly operation by the speaker's advocacy (i.e., preparing the group addressed and steeling it to such action as opposed to the abstract espousal of the propriety of resort to force) may be prohibited. In determining the existence of a clear and present danger, the Component President, may consider all relevant factors, including whether, within the past five years such speaker has incited violence resulting in the destruction of property at any public institution or has willfully caused the forcible disruption of regularly scheduled classes or other educational functions at any such institution. There must be not only advocacy to action but also a reasonable apprehension of imminent danger to the essential functions and purposes of the Component.

3.6 Demonstrations, Publications, Posters. Reasonable and nondiscriminatory Rules and Regulations as to time, place, and manner may be promulgated by the President or a designee of the Component
to authorize students, faculty, staff, and their registered Component organizations to petition, distribute publications, post signs, set up booths and/or peacefully demonstrate on the Component campus. Such regulation shall prohibit any activity that would interfere with academic or Component programs.

3.61 No group or person, whether or not a student or employee, shall publicly display, distribute, or disseminate on the Component campus any petition, handbill, or piece of literature, work, or material that is obscene, vulgar, or libelous, or that advocates the deliberate violation of any federal, state, or local law (see Subsection 3.62). Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person distributing or disseminating the material or to any group or individual.

3.62 For the purposes of Subsection 3.5, advocacy means addressing the group for imminent action and steeling, bolstering, or bracing it to such action as opposed to the abstract espousal of the moral propriety of a course of action.

3.63 Any group or person, whether or not a student or employee, demonstrating on campus shall adhere to the provisions of Education Code, Section 51.935, as cited in Chapter VI, Subsection 5.4, of these Rules and Regulations.

3.7 Disruptive Activities. Disruptive activities are prohibited on a Component campus. See Education Code, Section 51.935 and Chapter VI, Subsection 5.4. The President shall promptly utilize all lawful measures to halt and eliminate any and all such disruptive activities and shall immediately notify the Chancellor and the Chairman of the Board of Regents.

4. HEALTH AND SAFETY.

4.1 Alcohol Policy. System Components shall not sell, serve or permit the sale, service, or consumption of alcohol on campus, except in "special use" buildings or facilities designated by the President. Students who are 21 years of age or older, who do not reside in alcohol-free living areas may be permitted to have alcohol in their rooms, but not in common areas of residence halls. The President may restrict possession or consumption of alcohol (as permitted under this policy) to specified residential areas including apartments. Students who are permitted to have alcohol under this policy may not share or provide alcohol to students or other persons who are under 21. Nothing herein shall be taken as an assumption of risk or responsibility on the part of the Board of Regents of The Texas State University System, or its System Components for any injuries or damage, of whatever kind, resulting from a student's possession or use of alcohol, whether such use is legal or illegal.
4.2 Student Health Programs. Components may establish student health centers and/or pharmacies to provide basic care and assistance only (as opposed to long-term medical facilities or the treatment of "major medical" problems) as well as information, educational programs and counseling through the student life areas of the Components on timely topics of interest and concern to the students.

4.21 Each physician providing medical and/or health care to students through a Component operated health center shall carry malpractice insurance in the amount of not less than $100,000 per occurrence or $300,000 total for bodily injury or death.

4.3 Racial Harassment. System Components shall provide equal educational opportunities for all students and equal employment opportunities for all applicants and employees and otherwise foster an environment free of racial intimidation, humiliation, and harassment. Racial harassment, as defined herein, is expressly prohibited.

4.31 Definition "Racial Harassment" is defined as extreme or outrageous acts or communications that are intended to harass, intimidate, or humiliate students, faculty, staff or visitors on account of race, color, or national origin and that reasonably cause them to suffer severe emotional distress. No student, faculty, or staff employee is to engage in racial harassment of any person on the campuses of the Components or in connection with a Component-sponsored activity.

4.32 No student, faculty or staff person may use authority granted by state law, by System rule, or by Component policy to deprive any person of his or her civil rights on a Component campus or in connection with a Component sponsored activity.

4.33 If a violation of this policy is committed on campus and/or in connection with a Component-sponsored activity because of the race, color, or national origin of any person directly harmed by such violation, the violator’s discriminatory purpose shall be treated as an aggravating factor for the purpose of determining the appropriate penalty.

4.34 Procedures for Redressing Racial Harassment Complaints of Students, Faculty, Staff or Visitors shall be in accordance with published procedures established by the Components. All complaints shall be considered informal until they are filed in writing. Once a disciplinary penalty is imposed, the accused, whether a student or a faculty member or a staff employee, shall have his/her full right to invoke applicable appeal procedures according to existing Component policies.

4.4 Sexual Harassment. No employee, student, or contractor of the System or a Component may sexually harass another person and will be subject to disciplinary action for a violation of this policy.
4.4.1 "Sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when: 1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or academic career; 2) submission to or rejection of such conduct by an individual is used as the basis for employment or academic decisions affecting the individual; 3) such conduct has the purpose or effect of unreasonably interfering with an individual’s performance or creating an intimidating, hostile, or offensive employment or academic environment.

4.42 In determining whether alleged conduct constitutes sexual harassment, the System or Component shall construe any act or omission within the totality of the circumstances, such as the nature of the sexual advances and the context in which the alleged incidents occurred. Each determination shall be made from the facts on a case-by-case basis.

4.43 The System and each Component may not dismiss a complaint once registered with an appropriate authority until the case has been resolved by the System or Component. However, the System and each Component may take appropriate disciplinary action for any sexual harassment occurring in the employment or academic environment even in the absence of an individual complaint. Disciplinary action may consist of action up to and including termination of employment or, in the case of students, expulsion from a Component or from the System.

4.44 Each Component shall, on an annual basis, send an email to each student, professor, employee, administrator/staff member, containing the full content of the sexual and racial harassment policies along with procedures to address such situations.

4.45 Each Component shall adopt policy statements and procedures prohibiting sexual harassment and requiring prompt and appropriate corrective action for a violation of this policy and the relevant federal and State laws on sexual harassment.

4.46 To the fullest extent practicable, the System and Components shall keep complaints of sexual harassment and the terms of their resolution confidential.

4.47 If disciplinary action is imposed on an individual for engaging in sexual harassment, the individual may invoke the applicable due process or appeal procedures of the System and Components.

The relief provided by the System or Component to a complainant does not depend on any resolution of the complaint or disciplinary action against the accused individual.
4.5 Prohibition on Weapons. It is a violation of these Rules and Regulations to possess, carry or otherwise cause a firearm, handgun or other prohibited weapon, licensed or otherwise, concealed or otherwise—to be brought onto the premises of a System Component.

4.51 —Premises of a System Component” as used in this Section means a structure and the land (including parking lots, garages, or other appurtenances, on which the structure is situated) over which this Board has ownership or control. This prohibition extends to leased, borrowed or other facilities where a System or Component function, event, or activity takes or is taking place but does not apply to: a) presidentially–approved academic or other programs (for example, ROTC or administrator residences, or Component sponsored or approved events); b) law enforcement personnel, acting in performance of their duties; c) the transporting of such firearms handguns, or other prohibited weapons for registration with and storage by the Component public safety office; or the president’s home and grounds; or, d) permitted tracts of the Christmas Mountains area with a special access permit as outlined in the System Christmas Mountains Ranch Policy.

4.52 —Prohibited Weapons” as defined by Texas Penal Code, section 46.01, includes the following:

4.521 —Club” meaning and instrument (for example, a blackjack, nightstick, mace, numbchuck or tomahawk) that is specifically designed, made, or adapted for the purpose of inflicting serious bodily injury or death by striking a person;

4.522 —Explosive weapon,” meaning any explosive or incendiary bomb, grenade, rocket, or mine that is designed, made, or adapted for the purpose of inflicting serious bodily injury or death, or substantial property damage, or for the principal purpose of causing such a loud report as to cause undue public alarm or terror (whether such a weapon is designed, made, or adapted for delivery or shooting);

4.523 —Firearm,” meaning any device designed, made, adapted, or readily adaptable to expel a projectile through a barrel by using the energy generated by an explosion or burning substance (excluded are antique or curio firearms manufactured before 1899 or replicas thereof, provided they do not use rim fire or center fire ammunition), including, but not necessarily limited to handguns, machine guns, rifles, “zip guns,”" stun guns, and “short-barrel firearms”;

4.524 —Illegal knife,” meaning any bladed, hand instrument that: a) has a blade over five and one-half inches; b) is
capable of inflicting serious bodily injury or death on a person by cutting, stabbing, or throwing (for example, a dagger, dirk, stiletto knife, poniard, bowie knife, switchblade knife, sword, or spear);

4.525 —Knuckles,” meaning any instrument that consists of finger rings or guards made of a hard substance and that is designed, made, or adapted for the purpose of inflicting serious bodily injury or death by striking a person with a fist enclosed in the knuckles.

4.526 —Hoax bomb,” meaning a device that: a) reasonably appears to be an explosive or incendiary device; or, b) by its design causes alarm or reaction of any type by policy, public safety, or other administrators at a system component, who are charged with assuring campus safety;

4.527 —Chemical dispensing device,” meaning a device (other than a chemical dispenser sold commercially for personal protection) that is designed, made, or adapted for the purpose of dispensing a substance capable of causing adverse psychological or physiological effect on a human being.
CHAPTER VIII. ETHICS POLICY FOR REGENTS
AND EMPLOYEES OF THE TEXAS STATE UNIVERSITY SYSTEM

1. ANTI-FRAUD POLICY AND REPORTING OF WRONGFUL OR
FRAUDULENT CONDUCT.

1.1 Anti-Fraud Statement. The Texas State University System does not
tolerate any type of fraud, waste, or abuse. The System is committed to
ensuring that our organization maintains the highest standards of ethical
conduct and integrity throughout all aspects of its operations. As public
servants, System faculty and staff are guardians of the resources
entrusted to them and have a responsibility to students, parents, alumni,
donors, and the citizens of Texas to ensure that those resources are
used efficiently and for their intended purposes. The System does not
tolerate any form of retaliation against individuals providing
information concerning suspected fraud, material waste, abuse, or other
unethical behavior.

1.2 Chancellor and President Responsibilities. If the Chancellor has
reasonable cause to believe that Component or System financial or
inventoried resources may have been lost, misappropriated, or misused,
or that other fraudulent or unlawful conduct has occurred in relation to
the operation of the Component or System, he or she shall timely and
promptly report the reason or basis for the belief to the Chair of the
Finance and Audit Committee, and to the System Director of Audits
and Analysis. If a President has such reasonable cause, he or she shall
report the same to the Chancellor and to the System Director of Audits
and Analysis.

1.3 Employee Responsibility. If an employee has reasonable cause to
believe that Component or System financial or inventoried resources
may have been lost, misappropriated, or misused, or that other fraudulent or unlawful conduct has occurred in relation to the operation of the Component or System, he or she shall timely and promptly report the reason or basis for the belief to the component Internal Audit Director; to the System Director of Audits and Analysis; to EthicsPoint, the System’s internet-based fraud reporting hotline; or to the State Auditor’s Office.

1.4 EthicsPoint Fraud Reporting Hotline. The System has established,
through a private contractor, an internet-based reporting hotline,
EthicsPoint, to provide individuals with a confidential avenue for
reporting concerns about potential waste, fraud, and abuse of resources,
the lack of compliance with laws and regulations, or violations of the
System’s Code of Ethics. Reports filed through EthicsPoint are
forwarded to and investigated by individuals who are independent of
System management. EthicsPoint can be accessed through the
components’ and the System Office’s webpages. Except in rare
circumstances, reports received through *EthicsPoint* will not be investigated if the complaint is anonymous and/or established complaint processes at the campus-level have not been utilized. The *Texas Public Information Act* shall govern rules on disclosure of documents and records.

1.5. Reports to State Auditor’s Office. The Texas State University System, through the Director of Audits and Analysis, will report suspected fraud or unlawful conduct to the State Auditor’s Office (SAO) if he or she knows of facts pointing to fraud or unlawful conduct. Employees may report fraud involving state funds to the SAO through the System’s Hotline; by accessing the SAO Fraud Reporting webpage; or by mail to the SAO.

**2. BOARD EXPENSES AND ALLOWANCES.**

2.1 Transportation, Meals, and Lodging.

2.11 Members of the Board of Regents are entitled to receive the following when traveling to conduct official business:

(1) reimbursement of expenses for meals and lodging as provided by law; and

(2) reimbursement for transportation and incidental expenses at rates specified in the General Appropriations Act for State employees.

2.12 Employees of The Texas State University System and its components are entitled to receive the following when traveling to conduct official business:

(1) Actual costs of lodging and meals for in-state travel, except that such reimbursements may not exceed the current maximum established by law;

(2) For out-of-state travel, employees may receive actual costs for lodging and a per diem for meals not to exceed the locality-based allowance provided by the Federal Travel Regulations for lodging and meals unless the State Comptroller determines in advance of the travel that local conditions warrant a change in the lodging rate for a particular location.

2.2 Purpose of Travel. To qualify for travel reimbursements, the purpose of a trip must be "state business" or "official business" of The Texas State University System. State or official business is the accomplishment of a governmental function directly entrusted to The Texas State University System or one of its components, including the reasonably necessary means and methods to accomplish that function.
2.3 Improper Travel Reimbursement. When a Regent or an employee engages in travel for which compensation is to be received from any source other than System funds, he or she shall not submit a claim under the provisions of The Texas State University System travel regulations. A Regent or an employee who receives an overpayment for a travel expense shall reimburse The Texas State University System for the overpayment.

2.4 Travel Bonus (Frequent Flyer) Awards. Regents or employees who earn credit with airlines, hotels, car rental companies, etc. for official travel are not required to account for such credit or to use such for official travel only.

2.5 Official Travel by Spouses and Relatives of Regents or Employees. Spouses and other relatives of Regents or employees may qualify to have travel expenses paid by The Texas State University System if their presence at a function or on a trip is for an official purpose benefiting The Texas State University System and/or the State of Texas. In making a determination of whether the presence of a spouse or relative is for an official purpose, the factors to be considered are the nature and duties of the Regent's or employee's office, the traditional role, if any, of the spouse or relative, the purpose of the particular trip, and the spouse or relative's connection with that purpose.

2.6 Foreign Travel. A request by a Regent, System president, or System employee for travel outside of the United States, excluding Mexico or Canada, must be approved in advance by the Chancellor.

2.7 Reimbursement of Expenses. Verified expense accounts shall be submitted to the Chancellor or appropriate component official for processing and the same shall be subject to review and control of the Board.

3. CONFLICTS OF INTEREST.

3.1 Ethics Commission Financial Disclosure Statements. Each Regent, the Chancellor and the presidents of the components shall file a financial statement with the Texas Ethics Commission not later than April 30, each year in which such Regent, Chancellor or president has served in such capacity for any portion of the immediately preceding twelve (12) months on forms prescribed by the commission.

3.2 Contracts Prohibited. Except as provided below, neither the System nor a component thereof may enter into a contract in which a Regent or the Regent's spouse has a direct or indirect pecuniary interest.

3.3 Recusal Required for Certain Types of Contracts Involving Pecuniary Interests. If a Regent is a stockholder or director of a corporation seeking to enter into a contract with the System or a component thereof, but owns or has a beneficial interest in no more than five
percent of the corporation's outstanding capital stock, the contract may be executed so long as it is an affiliation agreement, license (including a license of intellectual property), or sponsored research agreement, or it is awarded by competitive bidding or competitive sealed proposals. An interest owned by the Regent's spouse is considered to be a "beneficial interest." The affected Regent must disclose such interest in a public meeting of the Board of Regents and shall not vote on the contract or transaction.

3.4 Regent Disclosure of Personal or Private Financial Interest. A Regent who has a personal or private financial interest in a measure, proposal, or decision pending before the Board (other than a contract covered by Paragraph 2.3 of this Chapter) shall disclose such interest in a public meeting of the Board, and such disclosure shall be entered in the minutes of the Board. The Board may consider such measure, proposal, or decision, but any Regent having such an interest shall not vote or otherwise participate in such deliberation or action of the Board. This procedure may not be utilized for contracts covered by Section 2.3 of this Chapter.

3.5 Potential Conflict of Interest of Regent. As soon as possible after becoming aware of any potential conflict of interest, a Regent shall disclose such fact and any other relevant information to the Board and to the Vice Chancellor and General Counsel. In such an event, the Vice Chancellor and General Counsel shall review the potential conflict and issue an opinion.

3.6 Contracts with Nonprofit Corporations. The Board is not precluded from entering into contracts or other transactions with nonprofit corporations merely because a Regent also serves on the board of or is a member of the nonprofit corporation. Other factors and interests, such as pecuniary or personal interests, may require disclosure and recusal, as described above.

3.7 Disclosure of Interest in Property to be Acquired. Regents, the Chancellor and the president of the component are required to disclose any legal or equitable interest in property that is to be acquired with public funds. Such disclosure must be made at least 10 days before the date the property is to be acquired by purchase or condemnation.

4. CODE OF ETHICS.

4.1 Prohibited Actions of Regents. A Member of the Board of Regents shall not:

(1) Accept or solicit any gift, favor, or service that might reasonably tend to influence the Regent in the discharge of official duties or that the Regent knows or should know is being offered with the intent to influence the Regent's official conduct;
Accept employment or engage in a business or professional activity the Regent might reasonably expect would require or induce him or her to disclose confidential information acquired by reason of his or her official position;

Accept other appointments or any employment or compensation that could reasonably be expected to impair the Regent's independence of judgment in the performance of official duties;

Make personal investments that could reasonably be expected to create a substantial conflict between the Regent's private interest and the public interest;

Intentionally or knowingly solicit, accept, or agree to accept any benefit for having exercised his or her official powers or performed official duties in favor of another; or,

Commit acts of fraud, dishonesty, or illegality in office, including (by way of example and not limitation) assisting others to obtain personal or financial benefits to which they are not entitled by law or policy; forging or altering checks, bank drafts, or other documents, financial or otherwise; or, knowingly authorizing improper claims.

Prohibited Actions of Employees. An employee of The Texas State University System or any of its components shall not:

Accept or solicit any gift, favor or service that might reasonably tend to influence the employee in the discharge of official duties;

Use an official position to secure special privileges or exemptions for the employee or others, except as may be otherwise authorized by law;

Accept employment or engage in any business or professional activity which might reasonably be expected to require or induce the employee to disclose confidential information acquired by reason of such employee's official position or impair the employee's independence of judgment in the performance of public duties;

Disclose confidential information gained by reason of one's employment, or otherwise use such information for personal gain or benefit;

Transact any business in an official capacity with any business entity of which the employee is an officer, agent, or member or in which the employee owns a controlling interest unless the Board of Regents has reviewed the matter and determined no conflict of interest exists;
(6) Make personal investments in any enterprise which could reasonably be expected to create a substantial conflict between the private interests of the employee and the public interests of his or her employer;

(7) Receive any compensation for services as a state employee from any source other than the State of Texas, except as otherwise permitted by law;

(8) Commit any act of fraud, dishonesty, or illegality in office, including (by way of example and not limitation) assisting others to obtain personal or financial benefits to which they are not entitled by law or policy; forging or altering checks, bank drafts, or other documents, financial or otherwise; knowingly authorizing improper claims; or,

(9) Engage in any form of sexual harassment or racial harassment as defined in these Rules and Regulations.

5. BENEFITS, GIFTS AND HONORARIA.

5.1 Definitions. A "benefit" is anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare a Regent or an employee has a direct and substantial interest.

5.2 Bribery. A Regent or an employee shall not solicit, offer, or accept any benefit in exchange for his or her decision, opinion, recommendation, vote, or other exercise of official power or discretion.

5.3 Prohibited Benefits. A Regent or an employee shall not solicit, accept, or agree to accept any benefit from any person the Regent or employee knows is interested in or is likely to become interested in any contract, purchase, payment, claim, or transaction involving the Regent's or employee's discretion. This prohibition does not apply to (1) gifts or other benefits conferred on account of kinship or a personal, professional, or business relationship independent of a Regent's or employee's status, respectively, as a member of the Board or as an employee; (2) a fee prescribed by law to be received by a Regent or employee or any other benefit to which he or she is lawfully entitled or for which he or she gives legitimate consideration in a capacity other than as a member of the Board or an employee of the System or a component; (3) a gift, award, or memento that is received from a lobbyist who is required to make reports under Government Code, Chapter 305 and, (4) items having a value of less than $50, not including cash or negotiable instruments. A Regent or an employee who receives an unsolicited benefit that he or she is prohibited from accepting by law may donate the benefit to a governmental entity that has the authority to accept the gift or may donate the benefit to a

VIII -6
recognized tax-exempt charitable organization formed for educational, religious, or scientific purposes.

5.4 Food, Lodging, Transportation, and Entertainment Received as a Guest. A Regent or employee may accept food, lodging, transportation, or entertainment from persons or entities he or she knows or reasonably should know are interested in or likely to become interested in a contract, purchase, payment, claim, decision, or transaction involving the exercise of the Board's discretion only if the Regent or employee is a "guest" as defined by Texas law. A Regent or an employee is a "guest" if the person or a representative of the entity providing the food, lodging, transportation, or entertainment is present at the time the food, lodging, transportation, or entertainment is received or enjoyed by the Regent or employee. Regents, the Chancellor and the presidents of components are required to report any such benefits valued at over $250 on their annual disclosure statements filed with the Texas Ethics Commission.

5.5 Gifts or Benefits From Friends, Relatives, and Associates. Regents and employees may accept gifts or benefits from personal friends, relatives, or business associates with whom they have a relationship independent of their official status, so long as the benefit is not offered in exchange for official action or decision.

5.6 Awards. Regents and employees may accept plaques and similar recognition awards.

5.7 Honoraria. Regents and employees may not solicit, accept, or agree to accept an honorarium in consideration for services they would not have been asked to provide but for their official position or duties. This prohibition includes a request for or acceptance of a payment made to a third party if made in exchange for such services. However, they may accept the direct provision of or reimbursement for expenses for transportation and lodging incurred in connection with a speaking engagement at a conference or similar event, provided the Regent's or employee's participation is more than merely perfunctory. Meals provided as a part of the event or reimbursement for actual expenses for meals may also be accepted.

6. POLITICAL ACTIVITIES.

6.1 Use of System Funds, Personnel or Property. No Regent shall expend or authorize the expenditure of any State appropriated funds for the purpose of influencing the outcome of any election, or the passage or defeat of any legislative measure.

6.2 Political Contributions. Regents may make personal contributions to candidates for office and political organizations, with one exception. A Regent may not expend more than $100 for the cost of correspondence to aid or defeat the election of a Speaker candidate.
6.3 Entertainment. If a System or component employee provides tickets to a public official to allow the official and/or his guests to attend an event, an officer or employee of the System or a component will serve as host to the official, and must attend the event.

6.4 Perishable Food Items. System or component employees may provide Public officials with small, infrequent gifts of perishable food items delivered to their offices. These are not considered to be "benefits" for purposes of the provisions of the Penal Code prohibiting such.

6.5 Expenses for Public Officials. System components may pay expenses in order to furnish information to state officials relevant to their official position, including presentations about the programs and services of The Texas State University System and its components.

6.6 Use of Official Authority Prohibited. No System or component employee may use his or her official authority or influence, or permit the use of a program administered by the System to interfere with or affect the result of an election or nomination of a candidate or to achieve any other political purpose. No System or component employee may do any act or attempt to interfere with anyone who seeks to pay, lend, or contribute private funds or private property to a person or political organization for political purposes. Any System or component employee who violates either of these provisions is subject to immediate termination of employment, in accordance with the Government Code.

6.7 Use of System Funds or Property. No System or component employee shall expend or authorize the expenditure of any System or component funds for the purpose of influencing the outcome of any election, or the passage or defeat of any legislative measure. No System or component funds may be expended for the payment of full or partial salary of any employee who is also the paid lobbyist of any individual, firm, association, or corporation. System and component facilities may be used as polling places for local, state, and national elections.

6.8 Voting and Political Participation. As employees of the State of Texas, System and component employees have the rights of freedom of association and political participation guaranteed by the state and federal constitutions, except as limited by valid state laws. System and component employees shall be allowed sufficient time off to vote in public elections without a deduction from pay or from accrued leave time.

6.9 Political Campaign Events on System Property. The Chief Executive Officers of the components of The Texas State University System shall be responsible for promulgating rules for the regulation of political campaign meetings or speeches and other activities relating to political campaigns on property under their control. Such regulations shall be implemented by the Chancellor after approval by the Board of Regents.

6.10 Employees as Candidates and Officeholders. System and component employees may run for election and serve as members of the governing
bodies of school districts, cities, towns, or other local governmental
districts. No campaign activities may be conducted during official
business hours unless the employee has requested and received
permission to use leave time for such purpose. Any employee elected
to such a position may not receive any salary for serving as a member
of such governing bodies.

6.11 Political Contributions from Employees. System and component
employees may make personal contributions to candidates for office and
political organizations, with the exception that no state employee may
contribute personal services, money, or goods of value to a candidate
campaigning for speaker of the Texas House of Representatives.

7. USE OF AUTHORITY.

7.1 Misapplication of Property. A Regent shall not intentionally or
knowingly misapply anything of value belonging to the government that
comes into the Regent’s custody or possession by virtue of his or her
office with the intent to obtain a benefit or to harm another.

7.2 Nepotism. Regents are prohibited from appointing, voting for, or
confirming the appointment of any person related to such Regent within
the third degree by consanguinity (blood) or within the second degree
by affinity (marriage) when the salary or compensation for such person
is to be paid from public funds. All employment decisions must be
made in compliance with Chapter V, Section 2.2 of the System’s Rules
and Regulations.

7.3 Misuse of Official Information. A Regent shall not, in reliance on
information to which he or she has access in his or her official capacity
and which has not been made public: (1) acquire or aid another in
acquiring a pecuniary interest in any property, transaction, or enterprise
that may be affected by the information; or, (2) speculate or aid another
in speculating on the basis of such information.

8. DUAL OFFICE HOLDING.

8.1 Non-Elective State or Federal Office. System and component
employees may hold non-elective offices with boards, commissions,
and other state and federal entities provided that the holding of such
office, (1) is of benefit to the State of Texas, or is required by state or
federal law, and (2) is not in conflict with the employee’s position.
Such appointments must be approved by the responsible CEO of the
component. Prior to the Chancellor’s or a CEO’s accepting an
invitation to serve in an additional non-elective office, the Board of
Regents must determine that the appointment meets the two
requirements stated above. The Board must also make an official
record of any compensation to be received by the Chancellor or CEO
from such appointment, including salary, bonus, per diem or other types of compensation.

8.2 Positions of Employment with Government Agencies. System and component employees may hold other positions of employment with agencies, boards, commissions, or other entities of government so long as the holding of such positions is consistent with the prohibitions against dual office holding in the Texas Constitution. Special rules for multiple employments with the State are provided in General Appropriations Act, Article IX, Section 9. The person seeking dual employment must be informed of the special rules before that person becomes employed by more than one agency or institution. Consulting arrangements with federal, state, or local governmental agencies of a detached and independent advisory nature are not considered to be appointments with such agencies.

9. TRAINING.

9.1 Training of Regents. Each Regent shall receive training regarding the duties and obligations of the office as required by statute.

9.2 Training of Employees. The System Administration shall conduct, in even numbered years, training sessions for the personnel of each component responsible for ethics training in the various departments of such institutions. These training sessions will provide the trainees with the methods, policies and materials necessary to allow them to train each employee within their supervision or responsibility. Each component is responsible for training each employee in the provisions of this Chapter VIII of these Rules and Regulations each biennium. The CEO of each component will notify the Chancellor upon completion of the ethics training each biennium.
CHAPTER IX. PRIVATE SUPPORT ORGANIZATIONS

1. GENERAL.

1.1 The Board of Regents recognizes that there are legally constituted private organizations whose sole or primary purpose is to benefit The Texas State University System, its Components, or teaching, research and other activities within those Components. For the purposes of this Chapter, such an organization shall be called a "private support organization." Examples of private support organizations include, but are not limited to, development foundations, alumni associations, parents' associations and athletics booster organizations. The rules herein shall govern the relationship between such organizations and the System and its Components.

1.2 Trusts, endowments, foundations and similar entities established by a testamentary instrument for the benefit of the System, a system Component, or an activity of a Component are not considered private support organizations for the purposes of these rules. Such an entity shall be administered according to the provisions of the instrument creating it.

2. PROVISION OF SYSTEM EQUIPMENT AND FACILITIES TO PRIVATE SUPPORT ORGANIZATION.

2.1 The Board of Regents by written contract may provide a private support organization with office space, telephone service, utilities, and the use of other Component equipment and facilities.

3. SERVICE BY OFFICER OR EMPLOYEE OF THE SYSTEM ON BEHALF OF A PRIVATE SUPPORT ORGANIZATION.

3.1 Members of the Board of Regents or other officers or employees of the System or a Component may serve in similar management or decision making positions with a private support organization.

3.2 Officers and employees of the System or a Component may perform administrative tasks for a private support organization outside of their regular working hours. The Board of Regents by written contract may authorize officers and employees as a part of their regular duties to perform administrative tasks for a private support organization. Administrative tasks include, but are not limited to, activities such as the receiving, receipting, acknowledging, and reporting of gift funds received by the private support organization, but do not include the solicitation of funds on behalf of the private support organization.
3.3 Officers or employees whose duties routinely include the solicitation of funds on behalf of a Component may solicit funds on behalf of a private support organization if such practice is approved by the Board of Regents and made the subject of written contract between the Board of Regents and the private support organization.

3.4 Officers or employees whose duties do not routinely include the solicitation of funds on behalf of the Component may solicit funds on behalf of a private support organization outside of regular working hours. The Board of Regents by written contract may authorize such officers and employees as a part of their regular duties to solicit funds on behalf of the private support foundation.

3.5 Any member of the Board of Regents, or officers or employees of the System or a Component serving in a management or decision making position with a private support organization, or rendering services of any kind whatsoever to a private support organization, shall receive no salary or benefit for such service from the private support organization unless the receipt of such salary or benefit is approved by the Board of Regents, provided however that the reimbursement by a support foundation of the actual travel, lodging, and other expenses incurred by an individual while rendering such service does not require approval by the Board of Regents.

3.6 The Chancellor shall be an *ex officio* member of any systemwide private support foundation seeking affiliation with the System under this Chapter.

4. **ADMINISTRATION AND INVESTMENT OF FUNDS HELD BY PRIVATE SUPPORT ORGANIZATION.**

4.1 Funds and property received directly by a private support organization from a donor are not subject to control by the Board of Regents until such organization relinquishes control of the funds to the Board. Gifts of funds or property to the System, a System Component, or an activity of a Component from a private support organization may be accepted under the same conditions as a gift from any other donor.

4.2 No gift funds or property received by the System or a Component may be remitted to a private support organization unless such transfer of funds is approved in writing by the donor and the Board of Regents. In such cases, the private support organization shall manage the funds or property in accordance with instructions given by the donor and the Board of Regents.

4.3 The trustees of private support organizations will provide the Board, through the Component President or Chancellor (in the case of a system organization), an annual report.
5. CONTRACTS WITH PRIVATE SUPPORT ORGANIZATIONS.

5.1 Any contract with a private support organization must be approved by the Board of Regents and must: (a) provide adequate consideration to the public, (b) serve a public purpose, and (c) enable the Board of Regents, through the Chancellor, to maintain sufficient control over any public resources provided by the contract to ensure the public purpose therein is met.

5.2 Contracts between the Board of Regents and a private support organization on which members of the Board of Regents serve will not be approved unless specific statutory language authorizes execution of a contract with the private support organization.

5.3 Contracts between the Board of Regents and a private support organization on which the members of the Board of Regents do not serve will be approved only if:

1. A majority of the trustees or directors of the private support organization are System or Component officers or employees;

2. The trustees or directors are appointed or approved by the Board of Regents, or

3. The Board of Regents has approved the constitution, bylaws, or other governing instrument of the organization which specifies the selection procedures for the organization’s trustees and directors.
CHAPTER X.   ENACTMENT AND AMENDMENT

1. REPEAL OF EXISTING RULES AND EFFECTIVE DATE.

All rules, regulations, orders, and resolutions heretofore enacted by the Board which are in conflict with these System's Rules and Regulations are hereby repealed. The Rules and Regulations shall become effective on September 1, 1980, to the extent that they do not conflict with existing contracts and agreements approved by the Board.

2. APPLICATION OF RULES.

The System's Rules and Regulations apply to and govern the Board and all employees and agencies directly under its control, the System Administration of The Texas State University System, and the Components comprising The Texas State University System.

3. OFFICIAL COPY.

3.1 The official copy of the System's Rules and Regulations shall be maintained on file in the System Administration.

3.2 Copies of these Rules and Regulations shall be furnished to members of the Board, the Presidents of the Component, and such other persons and offices as the Board shall designate.

4. AMENDMENT.

TSUS Policy Guidelines

TSUS Policy Guideline: Appropriate Use of Information Technology Resources
Policy Guideline ID: TSUS IT.01.02
Approval Authority: TSUS Board of Regents
Initial ITTF Approval Date: October 19, 2007
Effective BOR Date: May 16, 2008
Last Revised: November 17, 2010
Next Review Date: October 1, 2012

Purpose/Reason
The Texas State University System (TSUS) considers information technology as a critical enabler in meeting its mission and has made significant investments in information technology assets and capabilities. Likewise, Texas Administrative Code, Chapter 202, Subchapter C, describes the information technology resources residing in Texas public higher education institutions as “strategic and vital assets belonging to the people of Texas” and that these resources must be managed “commensurate with their value” in a fashion that assures their protection and availability for appropriate use by authorized individuals. Compliance with this policy contributes to the availability, protection, and appropriate use of the information technology resources of the Texas State University System and its component institutions.

Policy Statement
It is the policy of the Texas State University System to afford broad access to information technology resources by each institution’s students, faculty and staff for activities that are related to, and in fulfillment of, institutional missions. To guide the policies related to appropriate use of Information Technology, the Texas State University System has set forth the following specific topics to be addressed in each institution’s specific policy statement on appropriate use of information technology resources. Each component institution is charged with establishing and disseminating an institutional appropriate use policy statement that complies with the guidelines articulated in this TSUS policy statement.

Policy Specifics

1. Institutional vs. Individual Purpose
   Access to information technology resources carries with it the responsibility for ensuring that the use of these resources is primarily for institutional purposes and institution-related activities, and for maintaining the integrity and security of the institution’s computing facilities. In the interest of making the use of information technology resources a natural part of the day-to-day work of all members of the institutional community, incidental personal use is tolerated. However, one should not use any information technology resources in an extensive or regularly recurring manner for activities that are unrelated to institutional purposes. Individuals with authorized access to information technology resources must ensure that their access permissions are not accessible to or usable by any other individuals.

2. Personal vs. Official Representation
   Information technology resources are a dynamic mechanism for the free exchange of knowledge. It is desirable for the institution to foster the robust dialogue that results from the use of the resources and to encourage students, faculty and staff to participate in that dialogue. Those exchanges that reflect the ideas, comments and opinions of individual members of the institutional community must, however, be distinguished from those that represent the official positions, programs and activities of the institution. Students, faculty and staff using information technology resources for purposes of exchanging, publishing or circulating official institutional documents must follow institutional requirements concerning appropriate content and style. The institution is not responsible for the content of documents, exchanges or messages, including links to other information locations on the internet or world wide web, that reflect only the personal ideas, comments and opinions of individual members of the institutional community, even where they are published or otherwise circulated to the public at large by means of institutional information technology resources.
3. **Limitations on the Availability of Information Technology Resources**

The institution’s information technology resources are finite by nature. All members of the institutional community must recognize that certain uses of institutional information technology resources may be limited or regulated as required to fulfill the institution’s primary teaching, research and public service missions. Examples of these limitations include those related to capacity management, performance optimization, or security of the institution’s information technology systems.

4. **Privacy and Confidentiality of Electronic Documents**

No information technology system can absolutely guarantee the privacy or confidentiality of electronic documents. More importantly, information technology resources provided by the TSUS and its component institutions are essentially owned by the State of Texas and subject to state oversight. Consequently, persons that use these state-owned resources, or any personally owned or third party device that may be connected to a state-owned resource, have no right to privacy in their use of these resources and devices. TSUS institutions should, however, take reasonable precautions to protect the privacy and confidentiality of electronic documents and to assure persons using institutional information technology resources that the institution will not seek access to their electronic messages or documents without their prior consent except where necessary to:

- Satisfy the requirements of the Texas Public Information Act, or other statutes, laws or regulations;
- Allow institutional officials to fulfill their responsibilities when acting in their assigned capacity;
- Protect the integrity of the institution’s information technology resources, and the rights and other property of the institution;
- Allow system administrators to perform routine maintenance and operations, security reviews and respond to emergency situations; or
- Protect the rights of individuals working in collaborative situations where information and files are shared.

TSUS institutions should establish more detailed procedures for appropriately preserving the privacy of electronic documents and for determining the methodology by which non-consensual access to electronic documents will be pursued by the institution.

5. **TSUS Institutional Responsibilities**

In order to assist members of the institutional community in fulfilling their responsibilities with respect to use of information technology resources, each component institution shall establish and disseminate an institutional appropriate use policy statement that complies with the guidelines articulated in this TSUS policy statement. Each institution shall also provide appropriate guidance with regard to other specific institutional policies affecting the use of information technology resources. These specific policies should at a minimum cover topics detailed in the Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C related to security standards for institutions of higher education.

6. **Failure to Comply with Information Technology Resource Policies**

Failure to adhere to the provisions of this TSUS policy statement or the appropriate use policy statement of any component institution may result in:

- suspension or loss of access to institutional information technology resources
- appropriate disciplinary action under existing procedures applicable to students, faculty and staff, and
- civil or criminal prosecution

To preserve and protect the integrity of information technology resources, there may be circumstances where the institution must immediately suspend or deny access to the resources. Should an individual’s access be suspended under these circumstances, the institution shall strive to inform the individual in a timely manner and afford the individual an opportunity to respond. The institution shall then determine what disciplinary action is warranted and shall follow the procedures established for such cases.
Appendix A-2
TSUS Policy Guidelines

Additional background, Related Policies, and other References
In addition to the general principles set forth in this policy statement, the use of information technology resources may be affected by a number of other legal requirements and ethical principles. While it is not possible to list all potentially applicable laws and regulations, the most relevant to the use of institutional information technology resources are listed in TSUS Policy Guideline TSUS IT.02.01, Information Security Policy, and are included in this policy guideline by reference.

Students, faculty and staff are responsible for understanding and observing these and all other applicable policies, regulations and laws in connection with their use of the institution’s information technology resources.

Purpose/Reason
The Texas State University System (TSUS) considers information technology to be a critical enabler in meeting its mission and has made significant investments in information technology assets and capabilities. The Texas State University System recognizes the inherent value of these information technology resources to the state, the System, and their constituents. Likewise, Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC 202) underlines the importance of information technology resources residing in Texas public higher education institutions by requiring state institutions “to protect these assets against unauthorized access, disclosure, modification or destruction,” and “to assure the availability, integrity, utility, authenticity, and confidentiality of information.” Compliance with this policy contributes to the availability, protection, and appropriate use of the information technology resources of the Texas State University System and its component institutions.

Policy Statement
The Texas State University System and its component institutions must ensure the confidentiality, integrity, and availability of their information technology resources to fulfill their institutional missions and to assure compliance with the security standards for public institutions of higher education described in TAC 202. Thus, each component institution shall develop and disseminate an institutional policy statement on information security consistent with TAC 202 and utilizing the following additional resources as guidelines:

- ISO/IEC 27002:2005 standards jointly published by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) and

Policy Specifics
The specific topics and objectives to be addressed by institutional information security policies are outlined below.

1. Information Security Policy
   Objective: To have management provide clear direction and strong support for the institution’s information security program. Management should affirm its support for the information security policies, roles, practices and other program components necessary to achieve security, consistent with business requirements, relevant laws, and regulations.

2. Information Security Organization:
   Objective: To effectively manage and execute the institution’s information security program. A management framework should be defined that clearly delineates the roles and responsibilities for management of information security within the institution.

3. Risk Assessment
   Objective: To identify, quantify, and prioritize risks to the organization and its information assets. Risk assessment results should guide and determine the appropriate management action and priorities for managing information security risks and for implementing controls to protect against these risks.

4. Information Asset Management
   Objective: To achieve and maintain appropriate protection of campus information assets. Assets should be classified according to their need for security protection. Owners should be identified for all assets, and the responsibility for the maintenance of appropriate controls should be assigned.
5. Human Resources Security
   Objective: To ensure that employees, contractors and other users understand their information security responsibilities and to reduce the risk of theft, fraud or misuse of information resources. Employees, contractors, and other users should be fully apprised of their security responsibilities. Their access to information assets should be managed consistent with their current institutional status, roles, and qualifications. Information security training should be provided to employees at new employee orientation and annually thereafter.

6. Physical and Environmental Security
   Objective: To prevent unauthorized physical access, damage, and interference to the institution’s information infrastructure, premises and information. Critical or sensitive information processing facilities should be housed in secure areas and protected from unauthorized physical access by defined security barriers and entry controls. They should be protected against loss from environmental threats commensurate with the identified risks and their importance to the institution’s mission critical business processes.

7. Communications and Operations Management
   Objective: To ensure the correct and secure operation of information processing facilities. Responsibilities and procedures for the management and operation of all information processing facilities should be defined. This includes the development and documentation of appropriate operating procedures.

8. Identity and Access Management
   Objective: To ensure proper control over virtual access to the institution’s information resources consistent with business and security requirements. Rules, responsibilities, and procedures should be defined for determining the initial and ongoing eligibility of persons to access information resources based on their respective affiliations and roles (e.g., students, employees, contractors, guests, etc.), Responsibilities should be ascribed to the institutional entities charged with validating the identities of eligible persons and managing the user accounts assigned to the eligible persons. Conditions and restrictions applicable to acquisition, retention, and loss of access should be clearly documented. Responsibilities for managing user accounts and authentication credentials should be clearly stated, including rules governing suspension of user account access and non-consensual access to account content.

9. Information Systems Acquisition, Development, and Maintenance
   Objective: To ensure that security is an integral part of information systems management. Security requirements should be identified, agreed upon, and addressed in all phases of information systems administration, from procurement and development through implementation and ongoing maintenance.

10. Information Security Incident Management
    Objective: To ensure information security events and weaknesses associated with information systems are managed in a manner allowing timely corrective action to be taken. Formal event reporting and escalation procedures should be established and documented.

    Objective: To protect critical business processes and activities from the effects of major information system failures or environmental disruptions and to ensure their timely resumption. A business impact analysis and continuity management process should be developed to minimize the impact on the organization and to assure an acceptable level of recoverability.

12. Compliance
    Objective: To avoid breaches of any law, regulation, contractual obligation, or institutional policy. Information resources should be regularly tested and audited to assure adherence with both external and internal standards.
Scope and Applicability
This policy statement applies to all persons and organizations that manage or utilize information technology resources belonging to the TSUS or any of its component institutions.

Information Technology Resources include any of the following that are owned or supplied by the TSUS or one of its component institutions: usernames or computer accounts, hardware, software, communication networks and devices connected thereto, electronic storage media, related documentation in all forms, and professional and technical support services. Also included are data files resident on hardware or media owned or supplied by the TSUS or a component, regardless of their size, source, author, or type of recording media, including e-mail messages, system logs, web pages and software.

Institution refers to any of the following eight components of the Texas State University System:
- Lamar University
- Sam Houston State University
- Sul Ross State University
- Sul Ross State University Rio Grande College
- Texas State University-San Marcos
- Lamar Institute of Technology
- Lamar State College-Orange

Authority and Responsibility
Questions related to this policy statement or to the appropriate use policy statement at any component institution should be addressed to the Chief Information Officer at the component institution.

Additional background, Related Policies, and other References
In addition to the general guidelines set forth in this policy statement, information security policies may be affected by a number of other legal requirements and ethical principles. While it is not possible to list all potentially applicable laws and regulations, the following are particularly likely to have implications for information security policies:

1. The federal Family Educational Rights and Privacy Act (commonly known as FERPA) - restricts access to personally identifiable information from students’ education records.

2. Texas Administrative Code, Title 5, Subtitle A, Chapter 552: The Texas Public Information Act (formerly known as the Texas Open Records Act) – provides that all information collected, assembled, or maintained by governmental bodies is public information and available to the public during normal business hours, unless the information falls within certain exceptions specified in the Act.

3. Texas Administrative Code, Title 1, Part 10, Chapter 202 - Regulations from the Department of Information Resources establishing information resources security requirements for Texas state agencies and higher education institutions.

4. Texas Penal Code, Chapter 33: Computer Crimes - Texas law pertaining to computer crimes. This statute specifically prohibits unauthorized use of University computers, unauthorized access to stored data, or dissemination of passwords or other confidential information to facilitate unauthorized access to the University’s computer system or data.

5. Texas Penal Code, § 37.10: Tampering with Governmental Record - Prohibits any alteration, destruction, or false entry of data that impairs the validity, legibility or availability of any record maintained by the University.
6. United States Code, Title 18, § 1030: Fraud and Related Activity in Connection with Computers - Federal law specifically pertaining to computer crimes. Among other stipulations, prohibits unauthorized and fraudulent access to information resources, accessing a computer to obtain restricted information without authorization; altering, damaging, or destroying information on a government computer without authorization; trafficking in passwords or similar information used to gain unauthorized access to a government computer, and transmitting viruses and other malicious software.

7. Copyright Act of 1976 – Federal law that forms the primary basis of copyright law in the United States, as amended by subsequent legislation. The Act spells out the basic rights of copyright holders, codifies the doctrine of "fair use," and for most new copyrights adopts a unitary ownership period based on the date of the author's death rather than the prior scheme of fixed initial and renewal terms.

8. Digital Millennium Copyright Act - Signed into law on October 20, 1998, as Public Law 105-304. Created to address the digitally networked environment, the DMCA implements the WIPO Internet Treaties; establishes safe harbors for online service providers; permits temporary copies of programs during the performance of computer maintenance; and makes miscellaneous amendments to the Copyright Act, including amendments that facilitate Internet broadcasting.

9. Electronic Communications Privacy Act of 1986 - Prohibits the interception or disclosure of electronic communication and defines those situations in which disclosure is legal.

10. Computer Software Rental Amendments Act of 1990 - Deals with the unauthorized rental, lease, or lending of copyrighted software.

11. Texas Government Code § 556.004 - Prohibits using state resources or programs to influence elections or to achieve any other political purpose.

12. Health Insurance Portability and Accountability Act – Public Law 104-191, August 21, 1996. The final standards were published in February, 2003 and emphasize security management principles and broad management controls as primary vehicles for protecting patient health information. Subsequently enhanced by the HITECH Act to extend HIPAA provisions to the business associates of covered entities and to impose new notification requirements on covered entities, their business associates, and the vendors of personal health records for breaches of protected health information.

13. Federal Information Security Management Act of 2002 (FISMA), 44 U.S.C. § 3541, Public Law 107-296. Provides a framework for ensuring the effectiveness of information security controls over information resources that support Federal operations and assets. FISMA has been criticized as a measurement of security planning rather than a measurement of information security and as of July 2010, changes are in progress to provide a better understanding of an agency’s real-time risk posture.

Students, faculty and staff are responsible for understanding and observing these and all other applicable policies, regulations and laws in connection with their use of the institution’s information technology resources.

Approval Authority: TSUS Board of Regents
Initial ITTF Approval Date: January 11, 2008
Effective BOR Date: May 16, 2008

Purpose/Reason
The Texas State University System (TSUS) considers information technology to be a critical enabler in meeting its mission and has made significant investments in information technology assets and capabilities. The Texas State University System recognizes the inherent value of these information technology resources to the state, the System, and their constituents. Likewise, Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC 202) underlines the importance of information technology resources residing in Texas public higher education institutions by requiring state institutions “to protect these assets against unauthorized access, disclosure, modification or destruction,” and “to assure the availability, integrity, utility, authenticity, and confidentiality of information.” TAC 202 also stipulates that “access to state information resources must be appropriately managed.” Compliance with this policy guideline contributes to the availability, protection, management and appropriate use of the data, voice, and video networks of the Texas State University System and its component institutions.

Policy Statement
The Texas State University System and its component institutions must ensure the confidentiality, integrity, reliability, and availability of their data, voice, and video networks to fulfill their institutional missions and to assure compliance with the management and security standards for public institutions of higher education described in TAC 202. To guide institutional policies related to the management and use of institutional networks, the Texas State University System has set forth the following specific topics and provisions to be incorporated into each institution’s specific policy statement on network management. Thus, each component institution shall develop and disseminate an institutional policy statement on network management that is consistent with TAC 202 and the specific topics and provisions described below.

Policy Specifics
The following specific topics and objectives must be addressed by institutional network management policies:

13. Network Purpose
   Objective: To affirm the purpose of the institutional network. The institutional network is a state information resource that exists to achieve the mission, goals, and objectives of the institution. Utilization of the network must be consistent with and in support of institutional initiatives.

14. Network Address and Device Management
   Objective: To assure appropriate oversight over the connection of devices to the institutional network. The integrity, security, and proper operation of the network require an orderly assignment of network addresses and the correct configuration of devices attached to the network. Network access, performance and security are put at risk when devices are introduced into the network environment without appropriate planning and coordination. All devices acting in the role of a server (regardless of their specific function, hardware, or software) must have a designated device administrator and must be registered in a network device registry administered by the institution’s Information Resource Manager (IRM) or designee.

15. Network Management Roles and Responsibilities
   Objective: To assign responsibility and accountability for management of the institutional network. A management framework should be defined that clearly delineates the roles and responsibilities for management of the institutional network. Institutional networks should be centrally administered by the institutional IRM (or designee) to assure consistency and compliance with the state’s network administration standards and best practices.
16. **Network Usage Responsibilities**
   Objective: *To delineate the responsibilities of network users and device administrators.* Users and administrators of network-connected devices must understand their accountability for device management practices that might result in damage or harm to network operations, performance, or other network-connected devices.

17. **Threat and Incident Response**
   Objective: *To set expectations regarding the disconnection or isolation of threatening devices or networks.* Devices or network addresses that pose an immediate threat to network operations, performance, or other network-connected devices must be disconnected or quarantined to minimize risk until the threat is removed. Sources of repeated threats should be isolated for longer periods of time as required to permanently eliminate the threat.

**Scope and Applicability**
This policy guideline applies to all persons and organizations that manage or utilize information technology resources belonging to the TSUS or any of its component institutions.

**Definitions**
- **Device** - Any hardware component involved with the processing, storage, or forwarding of information making use of the institutional information technology infrastructure or attached to the institutional network. These devices include, but are not limited to, laptop computers, desktop computers, servers, and network devices such as routers, switches, wireless access points, and printers.

- **Device Administrator** - An individual with principal responsibility for the installation, configuration, registration, security, and ongoing maintenance of a network-connected device.

- **Device Owner** – The department head charged with overall responsibility for the networking component in the university’s inventory records. The device owner must designate an individual to serve as the primary device administrator and may designate a backup device administrator. All network infrastructure devices, (e.g., network cabling, routers, switches, wireless access points, and in general, any non-endpoint device) shall be centrally owned and administered.

- **Information Technology Resources** - any of the following that are owned or supplied by the TSUS or one of its component institutions: usernames or computer accounts, hardware, software, communication networks and devices connected thereto, electronic storage media, related documentation in all forms, and professional and technical support services. Also included are data files resident on hardware or media owned or supplied by the TSUS or a component, regardless of their size, source, author, or type of recording media, including e-mail messages, system logs, web pages and software.

- **Institution** refers to any of the following eight components of the Texas State University System:
  - Lamar University
  - Sam Houston State University
  - Sul Ross State University
  - Sul Ross State University Rio Grande College
  - Texas State University-San Marcos
  - Lamar Institute of Technology
  - Lamar State College-Orange
  - Lamar State College-Port Arthur.

- **Institutional Network** - the data transport and communications infrastructure at the institution. It includes the campus backbone, local area networks, and all equipment connected to those networks (independent of ownership).

- **Network Address** - A unique number associated with a device’s network connection used for the routing of traffic across the Internet or another network. Also known as Internet Protocol Address or IP Address.
User - An individual who uses an information technology resource, such as the institutional network or any network-connected device.

Authority and Responsibility
Questions related to this policy guideline or to the network management policy statement at any component institution should be addressed to the Chief Information Officer at the component institution.

Additional background, Related Policies, and other References
In addition to the general guidelines set forth in this document, network management policies may be affected by a number of other legal requirements and ethical principles. While it is not possible to list all potentially applicable laws and regulations, the most relevant to network management policies are listed in TSUS Policy Guideline TSUS IT.02.01, Information Security Policy, and are included in this policy guideline by reference.

Students, faculty and staff are responsible for understanding and observing these and all other applicable policies, regulations and laws in connection with their use of the institution’s information technology resources.
Purpose/Reason
The Texas State University System (TSUS) considers information technology to be a critical enabler in meeting its mission and has made significant investments in information technology assets and capabilities. The Texas State University System recognizes the inherent value of these information technology resources to the state, the System, and their constituents. Likewise, Texas Administrative Code, Title 1, Part 10, Chapter 202, Subchapter C (TAC 202) underlines the importance of information technology resources residing in Texas public higher education institutions by requiring state institutions “to protect these assets against unauthorized access, disclosure, modification or destruction,” and “to assure the availability, integrity, utility, authenticity, and confidentiality of information.” Compliance with this policy contributes to the availability, protection, and appropriate use of the information technology resources of the Texas State University System and its component institutions.

Policy Statement
The Texas State University System and its component institutions must ensure the confidentiality, integrity, reliability, and availability of their server hardware and software to fulfill their institutional missions and to assure compliance with the management and security standards for public institutions of higher education described in TAC 202. To guide institutional policies related to the management and use of institutional servers, the Texas State University System has set forth the following specific topics and provisions to be incorporated into each institution’s specific policy statement on server management. Thus, each component institution shall develop and disseminate an institutional policy statement on server management that is consistent with TAC 202 and the specific topics and provisions described below.

Policy Specifics
The following specific topics and objectives must be addressed by institutional server management policies.

18. Server Purpose and Function
Objective: To assure the suitability of the server and its connection to the institutional network. The institutional network is a state information resource that exists to achieve the mission, goals, and objectives of the institution. The purpose and function of any server connected to the institutional network must also be consistent with and in support of institutional initiatives.

19. Server Management Roles and Responsibilities
Objective: To assign responsibility and accountability for management of the server hardware, software, and data. A management framework should be defined that clearly delineates the roles and responsibilities for management of the server. At a minimum, distinct roles should be delineated for a server owner and a server administrator. Owners are typically responsible for establishing server usage policies, specifying server access controls (both physical and electronic), and assuring compliance with state and institutional server management standards. Administrators are typically responsible for enforcing the owner’s usage policies, implementing the owner-specified access controls, and configuring the server according to the required standards.

20. Conformance with Server Management Best Practices
Objective: To assure that all server owners and administrators adhere to documented standards and best practices for server management. An institutional guide to server management standards and best practices should be made available to all server owners and administrators. Compliance review procedures should be established and exceptions should be justified by documented risk management decisions. At a minimum, the guide should address the following topics:
Appendix A-5  
TSUS Policy Guideline

A. Licensing, support, and update management for the operating system and all hosted services and applications  
B. Automated threat mitigation (e.g., anti-virus software, host-based firewall, etc.)  
C. Protection for any sensitive and confidential data accessible via the server  
D. Disablement of prohibited, unauthorized, and unnecessary services  
E. Disablement and/or modification of default and unnecessary accounts and passwords  
F. Physical and electronic access controls that support role-based access, appropriate separation of duties, and the principle of “least privilege”  
G. Backup and recovery  
H. User authentication  
I. Activity and event logging  
J. Network connection requirements and standards (e.g., server registration)

21. Threat and Incident Response  
Objective: To set expectations regarding the disconnection or isolation of threatening servers. Servers that pose an immediate threat to network operations, performance, or other network-connected devices must be disconnected or quarantined to minimize risk until the threat is removed. Incident response best practices must be followed to assure appropriate preservation and treatment of forensic data.
