"Studying abroad allowed me to learn and grow in ways I never could have experienced in the U.S. I met people from all over the world, from all walks of life, and they became my family. I taught English to children through a volunteer program. Nothing will ever replace the time I spent in Chile."

~Samantha Toback

"My faculty-led programs in Japan and China were the best times of my life. Before I knew it, I could see myself living there and didn’t want to leave! It’s a great way for students to experience life in another country without making the full commitment of a semester."
