- 22602 CRIJ 4377.01 Critical Issues in Criminal Justice TR 9:30-11:50 Dr. Orrick

Another CRIJ 4377 class will be offered. Details TBD.

Honors Seminars

- 23824 HONR 2375.01 Seminar in the Fine Arts (Dr. Henderson) TTR 8-9:20
  This is consistently one of our most popular seminars. It will feature faculty from Art, Dance, Music, and Theatre who will involve students in hands-on engagement in the respective fine arts.
- 23825 HONR 3331.01 Online Seminar (Dr. Littlejohn)
  This is a continuation of this semester’s online seminar. The material and instructors will be essentially the same (meaning that if you took the online seminar this semester you can’t take this one). The focus is on new and compelling ideas or developments in various disciplines (music, social history, science, etc.) with particular use made of Ted Talks.
- 23893 HONR 3331.02 Blue Bell Ice Cream (Dr. Demson) M 4-6:50
  This course will examine how food is political, using Blue Bell Ice Cream as a case study. We will explore the cultural, ethical, and environmental concerns that underpin Blue Bell’s production processes, marketing, and distribution, as we review government regulation and consumer protection legislation, public health concerns, and the role of investigative journalism.

  NB: Registration is at the discretion of the professors: send a 200-300 word application essay, explaining why you want to take the course and what you will bring to it as a group member. E-mail your essays (Subject line: Bluebell Course) as a Word attachment to Dr. Demson (mtd007@shsu.edu), and Dr. Lewis (pjl001@shsu.edu) NO LATER THAN MONDAY, NOVEMBER 2.
- 23826 HONR 3332.01 Journeys (Dr. Lewis) T 4-6:50
  This class examines the characteristics of a happy and successful life. We invite in 10 speakers from across campus to share their roads to success and give the class advice.
- 23827 HONR 3332.02 American Music (Dr. Young) W 4-6:50
  This seminar examines the culture of American music from traditional music of the 19th and 20th centuries all the way through rock and roll (and a good deal in between). The emphasis of the course is on the various music and dance cultures that have formed around American musical cultures of the past one hundred and fifty years. It is a course in musical cultures, not music theory.
- 23828 HONR 3375.01 Dialogues: Drugs (Dr. Williams) TTR 3-4:20
  This course will look at drugs and the war on drugs from a variety of perspectives. We will look at the biological side of how drugs are grown and work in the human body. We will also examine the legal history of attempting to regulate drugs in the US and how we deal with drug addiction as a culture.

Honors Thesis

- 23892 HONR 4375.01 Honors Thesis (Dr. Bell)
  This is not a stand-alone honors course or seminar. It is only for students doing an honors thesis.
