Title: Consumption of Animal Products in China [or other countries]

Unit: 8.2 – Animal production and consumption patterns

Instruction:

- Investigate the meat industry in China.
- Have the class research the animal product consumption for China
- Show the trends in meat sales based on the population growth or decrease
- Show the different cuts of meat the population prefers.
- Show how much of the animal gets used.
- Show which species or breed the population prefers.
- The students will be grouped and given time to research and prepare a presentation to present to the class.

Materials needed:

- The students will need access to a computer to do research on the topic. The students will also need the correct software to be able to make a power point presentation.
