Finance & Operations Procurement and Business Services Policy FO-PUR-26
Recycling

Sam Houston State University has implemented a campus-wide recycling program through the Vending Services department.

Recycling containers are placed throughout various locations on campus for aluminum cans. Cardboard boxes may be used for recycling paper such as memo paper, telephone messages, envelopes, letterhead, notebook paper, index cards, computer paper, and various others. Call extension 4-1824 if you are unsure if something can be recycled.

For pickup service of the paper and for recycling of toner cartridges from certain laser printers, call extension 4-1824.
