ATTENDANCE POLICY:

This is NOT a correspondence course. If you develop serious health issues requiring accommodation, you should consult the Office of Services for Students with Disabilities located in the Counseling Center.

Attendance in this class is expected as is stated in the latest Sam Houston State University catalog. The penalty for excessive absences is as follows:

6 absences = automatic failure.

Also, those who miss a substantial number of classes will penalize themselves by missing material that will be discussed in class, missing in-class workshops, and lectures relevant to exams or tests. In this class only, you are encouraged to attend every class even if you are late. Please do not hesitate to come to class. Leaving early is NOT permitted. Once you are in class, you are expected to be there for the ENTIRE class. If late attendance becomes a problem, a penalty may be extracted. Otherwise, the intent of my policy is to encourage you to come to class. This is only true of this particular course.

In the event that you must or have missed an examination, please call Dr. Stowe as soon as practical. We will try to arrange a make up before the next class period if possible.

Attendance will be taken by means of written sign up sheets. Signing for another student who is not present is a violation of this course and will result in aggressive disciplinary action. If you are late to a class, you may sign in after class, so DON'T skip class just because you are a few minutes late. This policy applies to Dr. Stowe's courses... each professor has their own policies on this issue. Please note that leaving a class before it is over for any reason other than immediate illness without advance approval may result in that class counted as an absence. You should not schedule interviews, appointments, etc during class time. Repeated tardiness may result in absence so please don’t abuse the lateness rule.

The system is automatic. NO "PERMISSION" is given to miss a class - this system permits a reasonable number of absences for sickness, etc. So, it is NOT necessary to inform me that you will not attend class on a particular day.

CLASSROOM POLICIES:

In order to facilitate a positive classroom environment, please observe the following:
1. In accordance with university regulations, there will be no smoking, food or drink permitted in the classroom.
2. Class will start promptly at the assigned time.

4. To ask a question or to indicate a desire to participate, please raise your hand. Merely speaking up is not appreciated in large classes.

**RELIGIOUS HOLY DAYS POLICY:**

Section 51.911(b) of the Texas Education Code requires that an institution of higher education excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. Section 51.911 (a) (2) defines a religious holy day as: “a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20....” A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

University policy 861001 provides the procedures to be followed by the student and instructor. A student desiring to absent himself/herself from a scheduled class in order to observe (a) religious holy day(s) shall present to each instructor involved a written statement concerning the religious holy day(s). The instructor will complete a form notifying the student of a reasonable timeframe in which the missed assignments and/or examinations are to be completed. STUDENTS WITH DISABILITIES POLICY:

It is the policy of Sam Houston State University that individuals otherwise qualified shall not be excluded, solely by reason of their disability, from participation in any academic program of the university. Further, they shall not be denied the benefits of these programs nor shall they be subjected to discrimination. Students with disabilities that might affect their academic performance are expected to visit with the Office of Services for Students with Disabilities located in the Counseling Center. They should then make arrangements with their individual instructors so that appropriate strategies can be considered and helpful procedures can be developed to ensure that participation and achievement opportunities are not impaired.

SHSU adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with disabilities. If you have a disability that may affect adversely your work in this class, then I encourage you to register with the SHSU Counseling Center and to talk with me about how I can best help you. All disclosures of disabilities will be kept strictly confidential. NOTE: No accommodation can be made until you register with the Counseling Center. For a complete listing of the university policy, see:

VISITORS IN THE CLASSROOM:

Only registered students may attend class. Your professor may grant permission for adult visitors on a limited basis.

EXAMINATION AND HONOR POLICY:

1. EXAMINATIONS AND QUIZZES are the SOLE property of the professor. Retaining any copies is prohibited.
2. Students who have knowledge that others are cheating are accessories to the act.
3. If you become aware that a student might be taking unfair advantage by cheating you are invited to report any such information to me. Any information you provide will be kept CONFIDENTIAL and your identity will be protected. The purpose of this policy is to encourage an environment in which EVERYONE has a fair opportunity to do well in the course by insuring that no one might have an unfair advantage. Looking at another person's scantron or paper, writing after you have been instructed to stop, retaining a quiz or exam, using notes while taking exams, or getting help from a friend during an exam are examples of cheating that simply WILL NOT BE TOLERATED.
4. A significant portion of this course evaluation is based on YOUR ability to find answers...on these types of research assignments it is critical that you demonstrate that you can use credible sources and provide proper attribution (credit). On these assignments, the more you consult with real-world, credible sources, the better your grade so long as you give proper attribution. However, using another student's written answers is not permissible and constitutes prosecutable fraud.
5. In the event that the professor witnesses cheating, appropriate action will be taken as circumstances require.
