B. Course Description  
This course is designed to introduce students to the theory and practice of special programs provided in the schools. **Special attention will be given to the administration of special programs in the Charter School setting.** These programs usually have special or categorical funds. Such programs have common characteristics regarding the receipt, application, and accountability of funds as well as the specifying of eligibility criteria and services for students. These programs will be examined with respect to their specific design and characteristics as well as the impact their implementation has on principal leadership and school climate.

C. Course Rationale  
This course is consistent with the mission of Sam Houston State University, the College of Education and Applied Science and the Department of Educational Leadership and Counseling. This course will examine the administration of special programs with particular attention given to the charter school setting. The design of the course will assist students in completing the School Design Plan. The School Design Plan (SDP) is the final assessment that demonstrates your understanding of the material processed during the program. The results of the SDP evaluation will also determine whether or not you receive your master’s degree and whether or not you will receive approval to take the principalship certification examination.
