Welcome to SHSU!
**Course Description:** SAM 136 is designed to increase student success at college. The overall goal of the course is to facilitate a smooth transition to college life by engaging the student in a structured curriculum of academic and life skills enhancement. To accomplish this goal, the content of the class includes: locating and utilizing campus resources, goal setting and time management skills, writing skills, test preparation and taking skills, critical thinking skills, career and major/minor exploration, cultural diversity issues, personal health and well-being strategies, money management, and leadership/civic service training.

**Learning Objectives:**
1. Learning to apply course material (to improve thinking, problem solving, and decisions).
2. Developing skill in expressing oneself orally or in writing.
3. Developing a clearer understanding of, and commitment to, personal values.
4. Acquiring skills in working with others as a member or a team.
5. Learning how to find and use resources for answering questions or solving problems.

**Learning Outcomes:**
1. Develop basic study skills (e.g. reading, writing, note taking and test taking).
2. Enhance critical thinking/problem solving.
3. Develop effective oral and written communication skills.
4. Locate and utilize university resources (e.g. career services, library, SAM Center, student services, etc.).
5. Enhance leadership, service learning, and civic responsibility skills/values.
6. Initiate career exploration and major/minor area of study exploration.
7. Become sensitive to and value different cultures and respect diversity.
8. Develop life skills (e.g. health/stress, nutrition, relationships/sex, alcohol/drugs, and money management).
   a. Alcohol 101+
   b. Money Management seminars
9. Enhance effective group dynamics through course activities.

**Academic Integrity:** All students are expected to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete honesty and integrity in the academic experiences both in and out of the classroom. Any student found guilty of dishonesty in any phase of academic work will be subject to disciplinary action. The University and its official representatives may initiate disciplinary proceedings against a student accused of any form of academic dishonesty including, but not limited to, cheating on an examination or other academic work which is to be submitted, plagiarism, collusion and the abuse of resource materials.

**Classroom Rules of Conduct:** Students will refrain from behavior in the classroom that intentionally or unintentionally disrupts the learning process and, thus, impedes the mission of the university. Cellular telephones and pagers must be turned off before class begins. Students are prohibited from eating in class, using tobacco products, making offensive remarks, reading newspapers, sleeping, talking at inappropriate times, wearing inappropriate clothing, or engaging in any other form of distraction. Inappropriate behavior in the classroom shall result in a directive to leave class. Students who are especially disruptive also may be reported to the Dean of Students for disciplinary action in accordance with university policy.

**Visitors in the Classroom:** Unannounced visitors to class must present a current, official SHSU identification card to be permitted in the classroom. They must not present a disruption to the class by their attendance. If the visitor is not a registered student, it is at the instructor’s discretion whether or not the visitor will be allowed to remain in the classroom.
**Attendance Policy:** Attending class is fundamental to academic success. A maximum of *three hours of absence* will be allowed. After three hours, each hour of absence will result in a half letter grade (5 points) drop in the student’s final letter grade. Students who miss class because of official University business will be given the opportunity to make up for missed work without penalty. However, students must inform the instructor prior to the absence. Coursework, lecture notes, and classroom assignments that are done in your absence are your responsibility to complete within one week of the absence. Tardiness and early departure likewise disrupt both your learning and the learning of others. Therefore, any combination of three (3) late arrivals and/or early departures counts as one (1) absence. If your late arrival or earlier departure is longer than twenty (20) minutes, you will be charged with one (1) absence. You will still be eligible for class participations points, quiz grades, etc. if you are in class when the activity or engagement occurs.

**Extended Absences:** If you must miss more than two consecutive class periods, contact the Dean of Students’ Office (DOSO) and inform them of the reason for the absence. You will be required to provide written confirmation of the reason for your absence (i.e., letter/release from doctor’s office, funeral notice, etc.) The DOSO will send a memo to all your instructors, including me, confirming the reason for your absence. Reasons for absences will be reviewed individually, but without this information, no consideration for prolonged absence will be given.

**Absences on religious holy days:** University policy states that a student who is absent from class for the observance of a religious holy day must be allowed to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence. Student must be excused to travel for observance of a religious holy day. A student who wishes to be excused for a religious holy day must present the instructor with a written statement describing the holy day(s) and the travel involved. The instructor should provide the student with a written description of the deadline for the completion of missed exams or assignments.

**University ADA Policy:** Sam Houston State University seeks to provide reasonable accommodations for all qualified persons with disabilities. This University will adhere to all applicable federal, state and local laws, regulations and guidelines with respect to providing reasonable accommodations as required to afford equal educational opportunity. It is the student’s responsibility to register with Services for Students with Disabilities in the Counseling Center and to contact faculty members in a timely fashion to arrange for suitable accommodations.

**Service Learning Project:** Portfolio & Class Presentation

As a future educator, you are required to participate in at least two hours per week of community service/service learning projects for at least five weeks. Since your plans are to be educators, you will be placed in a public school in Huntsville ISD to help teachers in their classrooms. You may grade papers, read to students, work with computers, or possibly help with physical education. On your scheduled presentation date, you will provide turn in Service Learning Portfolio including: (a) a signed time sheet with dates worked, times in and out, and hours worked from an official at the school; (b) the contact information for the teacher with whom you worked, (c) the daily notes you took about your experience, (d) five weekly reflections of your experience; and (e) your 5-page paper detailing your learning experiences at the school. The paper should include the following components:

- what you did during the experience
- what you learned about the organization prior to and during the experience
- what you learned about yourself during the experience
- what was it like working with your group of students
- what did this kind of activity add to your educational experience
- what experiences occurred to reinforce your commitment to become a professional educator

The paper is due the day you present to your classmates regarding your experience. Your presentation should be between 8-10 minutes long, including all of the ideas listed above. Creativity is certainly desired. Both your peers and your professor will evaluate your presentation based on guidelines in an evaluation rubric.
Scavenger Hunt: You will complete a scavenger hunt to help you learn about the physical layout of the SHSU campus. Also, on your scavenger hunt you will visit many of the places which can be extremely beneficial to your academic personal growth and development. This project uses Total Physical Response (TPR) because you will exercise your body as you exercise your mind.

SHSU Student Organization Research Paper: This paper should focus on two student organizations in which you might enjoy participating. Find out as much as possible about each organization by obtaining and reading detailed information, attending meetings, and talking to officers and/or advisors of the organizations. After completing your research on the organizations, you will write a paper discussing what you learned about each organization. Additionally, you will discuss whether or not you are still interested in pursuing membership in the organizations. The paper should be at least 3 typed pages using MLA format.

Co-curricular Activities: You are required to attend specific activities outside of class and write thoughtful reflections of the event. These activities are on your tentative schedule in bold italics print on the day each event occurs.

Learning Portfolio: You will develop a Learning Portfolio throughout the semester. Your portfolio will be much like the professional portfolio you will develop as teacher candidate once you are accepted into the College of Education. You will be evaluated on the portfolio and the presentation of the material. Requirements and expectation for portfolio development and grading rubric will be on a separate handout and discussed thoroughly throughout the semester.

Learning Portfolio Presentations: You will be expected to formally and informally discuss your Learning Portfolio in small groups or in whole-class discussion several times throughout the semester.

Reader Reflections: You will write thoughtful responses about your reading activities, including the text, the common reader, handouts that you download, and handouts that are given to you in class. Reflections writing and instructor expectations will be discussed in detail.

Final Reflection: In this paper, you will reflect on your entire semester in SAM 136. The four important areas you that you need to critically discuss are: (a) what did I learn about myself, (b) what did I learn about my classmates, (c) what did I learn about teaching as a profession, and (d) how can I use all of this information to enhance my academic endeavors. This paper should be a minimum of 3 typed pages and not more than 5 typed pages using MLA format.

Asking relevant questions creates opportunities to learn and grow!

**NOTE**
Our class is a place where everyone deserves the opportunity to learn. The learning environment is most beneficial for you and your classmates when mutual respect is displayed by all students and the instructor. To receive the most benefit from class, all students should honor these few requests.

1. Turn off cell phones when entering class and keep in pocket, purse, or backpack
2. Refrain from engaging in side conversations.
3. Refrain from making negative remarks.
4. Come to class prepared and ready to participate.
5. Have a positive learning attitude.

Self-control is one key to success at the university level. Please make wise choices. I know you will strive for excellence. Working together, we will all learn.

All the pieces together = YOU!
