COURSE SYLLABUS

Course/Title: EDL 763 Application of Educational Research

College: Education and Applied Science

Department: Educational Leadership and Counseling

Professor: Beverly J. Irby, Ed.D.
Office: (936) 294-1147
Fax: (936) 294-3886
E-Mail: edu_bid@shsu.edu

Course Description: Fundamental concepts and tools of research will be applied to educational problems. Each student will prepare a dissertation proposal (DP) with three chapters. Prerequisites: EDL 761, EDL 762, EDL 772, STA 765 or equivalents.

Course Objective: Concepts and tools of research learned in this course will prepare each student to defend a research proposal subsequent to the course.

Learning Activities: The course will use a seminar format. Students will critique selected research articles from the best journals in educational leadership and higher education. Extensive literature review will be required for writing chapter 2. Students will share and critique with each other their dissertation topics and proposals. Students will develop a research topic and proposal for their dissertation committee. Students will select a dissertation chair and meet with the chair at least three times during the semester. Students will discuss with their chair their dissertation topic. Students will meet with the instructor and review their proposals. Realistic dissertation calendars and needed personal research skills will be identified, enhanced, and/or modified.

Required Materials:

Texts:

Other Materials:

The student will be expected to use a variety of journals, research studies, databases, dissertations, and the APA style manual. Texts from aforementioned research component courses may be used, as well as sample dissertations, research articles, and papers supplied by the instructor and acquired by the student.

Expectations:

* Students will arrive on time each session unless professional or personal emergencies arise.

* Students will not get behind in class assignments. No incompletes will be given for this course.

* Students will assume responsibility for their own success in this class, not only in class discussions and presentations for each class, but also as they participate in team arrangements to learn what they missed when late or unavoidably absent. No make-up assignments will be given; points will be deducted from participation grade based on number of hours (%) of time missed or tardy.

* Students will turn in edited work. Students will need to work with the Writing Center prior to turning in papers.

* All exercises will be completed in a timely manner, which is necessary for meaningful participation and contribution in class. Late assignments will result in a lower participation grade and grade for that assignment since the course syllabus is designed to provide time to share and analyze research assignments.

* Students will visit the library at SHSU, UH, or TAMU to supplement their readings on the various methodologies and will share these accounts of qualitative research (published in refereed journals) during class discussions. (TexShare Cards available)

* This class will require students to meet outside class, develop mini-presentations over assigned topics, to engage in lessons on-line, to conduct field research on one topic (selected by student with approval of professor) and to read outside the textbooks in qualitative methodology.

* Always keep a copy of what you turn in to the professor.

* With the professor’s advice, the student will select a faculty member to work with on the research during the semester. Keeping the end in mind- the student and the faculty member will submit the paper for publication in December.
*All student work will be submitted to [www.turnitin.com](http://www.turnitin.com), a subscribed service that checks for plagiarism. Plagiarized work will automatically receive a failing grade. All student work, including drafts, must be submitted on disk (in a Word document).

**Student absences on religious holy days policy:**

Section 51.911(b) of the Texas Education Code requires that an institution of higher education excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

University policy 861001 provides the procedures to be followed by the student and instructor. A student desiring to absent himself/herself from a scheduled class in order to observe (a) religious holy day(s) shall present to each instructor involved a written statement concerning the religious holy day(s). This request must be made in the first fifteen days of the semester or the first seven days of a summer session in which the absence(s) will occur. The instructor will complete a form notifying the student of a reasonable timeframe in which the missed assignments and/or examinations are to be completed.

**Disability Statement:**

SHSU adheres to all applicable federal, state, and local laws, regulations, and guidelines with respect to providing reasonable accommodations for students with disabilities. If you have a disability that may affect adversely your work in this class, then I encourage you to register with the SHSU Counseling Center and to talk with me about how I can best help you. All disclosures of disabilities will be kept strictly confidential. NOTE: no accommodation can be made until you register with the Counseling Center.

Selecting a chair
Lesson on Blackboard, Sept. 5th

Developing a dissertation proposal, 12th Understand the components of the proposal Complete checklists and To Do’s

Review of literature, 19th (Blackboard) Acquire knowledge of how to locate information Conduct a library search Begin/continue preparing the review of literature

Field Based work, 26th (work on Chapter 1 and 2)

Methodology, Oct. 3rd Understand methodology Begin drafting methodology section of the DP

Statistics, 10th Understand statistics Apply statistics to research designs. Incorporate statistics into methodology section

Field-Based Class, Oct. 17th and 24th (work on Chapter 1, 2, and 3 with Irby online)

Collecting data Nov. 7th Understand sections of the dissertation Complete checklists
And Analyzing data Discussing results
Presenting results, Nov. 14th (online)
Defense of Proposal, Nov. 21st-Dec. 5th

Course Requirements:

1. Each student will prepare a dissertation proposal.

2. Each student will critique each of the research articles assigned by the date scheduled.

3. As a final performance event (FPE) for the course, each student will present a 30-minute dry-run of the dissertation proposal to faculty and students, including questions. Critiques will be completed by students, faculty, and instructor and submitted to the presenter only. Written critiques of the proposals will be completed by peers in the class as well.

</tbody>
</table>
- High-quality oral presentation
- Low-quality oral presentation
Course Grades/Requirements:

1. Class Participation 100 points
2. Critiques of Research Studies (2) 100 points
3. Written DP 200 points
4. Oral Dry-run DP 10 points

Total points -- 410

All assignments must be completed to receive credit for the course. No assignment may be omitted.

A = 410-389   B = 388-369  C = 367-349   A or B = Pass   C = No Pass
