CS 234 Networks I
Fall 2007, Tuesday & Thursday 12:30 p.m. – 1:50 p.m., AB1-206

Instructor
Lei Chen, Ph.D.
Assistant Professor, Department of Computer Science
Office: AB1-212E Office hours: TTh: 10 – 11:30 a.m.
Email: lxc008@shsu.edu (preferred way for communication) Phone: 294-4785

Course Description
This course introduces the installation, usage, and management of computer hardware and operating systems for business. Topics include scripting, macros, intelligent agents. Installation and management of networks, the Internet, and communications software is covered.

Prerequisite
CS 146 Introduction to Algorithms and Programming

Course Outline
- Computer and network hardware and applications, OSI model and protocols
- Network addressing and mapping – MAC and IP (Exam 1, lab)
- Error detection and correction
- Packets, frames and datagrams (Exam 2, lab)
- Multimedia networking
- Network security
- Wireless networks (Comprehensive Final Exam)

Grading
Your grades will be determined according to the following:

Quizzes
There will be pop quizzes in some classes. These short quizzes are designed to ensure that you understand the concepts and issues discussed in prior and current classes. When a quiz is missed, it cannot be retaken unless official documents are presented and verified.

Labs
There will be multiple labs that you will practice what you learn in class. Some labs are in groups while the others are individual work. All labs will be assigned in class and the due dates will be notified in class as well.
Late Policy
Penalty for late work is 20% of the project’s worth per calendar day late, unless an extension (for a valid reason) has been granted in advance.

Online Course Resources
Online course resources can be obtained at (TBA)

Academic Dishonesty
All students are expected to engage in all academic pursuits in a manner that is above reproach. Students are expected to maintain complete honesty and integrity in the academic experiences both in and out of the classroom. Any student found guilty of dishonesty in any phase of academic work will be subject to disciplinary action. The University and its official representatives may initiate disciplinary proceedings against a student accused of any form of academic dishonesty including, but not limited to, cheating on an examination or other academic work which is to be submitted, plagiarism, collusion and the abuse of resource materials.

Students should be aware, specifically, that the instructor reviews all programming assignments and exercises for evidence of collaborative work. While it is sometimes appropriate and encouraged for students to discuss concepts and ideas, it is never permissible to collaboratively work on coded examples, to share or swap completed or partially completed programming assignments. In addition it is not permitted for students to use code examples provided by the instructor without appropriate documentation/citation of the use of that code.

Classroom Conduct
Students will refrain from behavior in the classroom that intentionally or unintentionally disrupts the learning process and, thus, impedes the mission of the university. Cellular telephones and pagers must be turned off before class begins. Students are prohibited from eating in class, using tobacco products, making offensive remarks, reading newspapers, sleeping, talking at inappropriate times, wearing inappropriate clothing, or engaging in any other form of distraction. Inappropriate behavior in the classroom shall result in a directive to leave class. Students who are especially disruptive also may be reported to the Dean of Students for disciplinary action in accordance with university policy.

Visitors in the Classroom
Unannounced visitors to class must present a current, official SHSU identification card to be permitted in the classroom. They must not present a disruption to the class by their attendance. If the visitor is not a registered student, it is at the instructor's discretion whether or not the visitor will be allowed to remain in the classroom.

Americans with Disabilities Act
Students with disabilities covered by the Americans with Disabilities Act should go to the Counseling Center and Services for Students with Disabilities (SSD) in a timely manner to obtain the documentation required. Students are responsible for initiating the process of documenting the need for an accommodation under the ADA act.

Religious Observance
University policy allows for student to observe religious holy days, including travel time associated with visiting a holy site, without penalty. If you intend to miss class as a result of the observance of a religious holy day or as a result of the necessary traveling time required for religious observance, such an absence will not be penalized so long as you have notified the instructor in writing of the dates and times of class sessions that are missed. The deadline for notification is the 12 class day. Students absent from class as a result of religious observance are required to submit any due assignments immediately on their return to the classroom. Makeup tests and quizzes will also be provided on return to the class.
