Multicultural Learning Experience

Each Student will complete a Multicultural Learning Experience. A MLE is an activity designed to help students gain cultural knowledge, increase sensitivity to culturally diverse people, and become more culturally effective helpers. The purpose of the activity is through service learning to gain new and direct knowledge of a cultural with which you have little or no experience with. After the MLE experience, students will write a 5 page reaction paper.

Follow APA style for the creation of headings in your paper. Headings should refer to the following topics:

A. Reasons for selecting the experience and how you see the experience will contribute to your particular multicultural learning needs.

B. Description of the experience. How were you impacted by the interview, observations, and interactions at the volunteer site?

C. What was learned about the cultural group involved (aspects of values, worldview, or communication style of this group; particular issues often common among this group; impact of sociopolitical history upon this group, effects of cultural and environmental factors on school performance, work, etc.)

D. Feelings/Reactions to the experience, including what these thoughts and feelings imply about you (e.g. your identity level, prejudices/stereotypes, knowledge or lack of knowledge about this group, etc.)

E. The value of the experience for counselors-what did you learn that counselors should be aware of in working with clients from this group, how should practice be adapted, etc.

I will particularly be looking for how you are integrating the concepts you have learned from class discussions, readings, and instruction with this hands-on experience.

Level 1: Experiential Learning: Involves contact with a culturally different community based agency. Interview the agency director or other designated individual about the purpose of the agency and concerns of the population served. For example, visit a Native American Tribal Council and interview the director about programming for both children and adults, interview the president of a culturally diverse organization (Black Student Union, International Students Organization, Hispanic/Latino Center, etc.), interview the director of a program designed to help people who are Lesbian or Gay males, or the leader of a religious group (Jewish, Muslim, etc.), volunteer at an agency that provides services to individuals and families with disabilities. Additionally, students will provide four hours of volunteer service to the chosen group. The volunteer service must take place over two different days. Students will also conduct the
interview and either observe the activities at the agency and/or attend an appropriate orientation. This portion of the project should be approximately two hours. The total service for this project is six hours.

The chosen site must not be connected with your work or be a place that you currently volunteer or have volunteered in the past. Students must work on this project independently and not with other students. The chosen site must demonstrate a cultural difference from you as articulated in this course and should put you outside of your normal comfort zone.

The chosen site cannot be one of the sites used for your community interviews.

Volunteer duties must involve direct interaction with the population served and cannot be clerical in nature.

The chosen activity must be approved by the instructor prior to completing the MLE using the form found on the next page.

Grading:
Following Instructions 10 points
Following APA guidelines 10 points
Grammar 10 points
Content 70 points
