SPD 567
SEMINAR IN LEARNING DISABILITIES

Department of Language, Literacy, and Special Populations  
College of Education  
Sam Houston State University

Spring 2008  
Wednesday 5:00 pm—7:50 pm  
University Center

Instructor:  
Dr. Robert Cope  
office: Madisonville CISD  
P.O. Box 8  
Madisonville, TX 77864  
e-mail: robertcope@shsu.edu  
phone: 936.348.3720

Conceptual Framework:  
Through programs dedicated to collaboration in instruction, field experience, and research, the candidates in Sam Houston State University’s Educator Preparation Programs acquire the knowledge, dispositions and skills necessary to create a positive learning environment. Employing a variety of technologies, these candidates learn to plan, implement, assess, and modify instruction to meet the needs of our communities’ diverse learners.

Texts:  

Journal, chapter, and article readings identified by instructor and students.

Course Description:  
A study is made of the research findings for persons with learning disabilities and other mild-to-moderate needs. History, theories, educational practices, social issues and lifespan needs also are addressed. The course seeks to critically examine the field of learning disabilities. Course experiences are designed to promote study and inquiry into the procedural and theoretical aspects of learning disabilities. Issues and questions about the category/label, eligibility decisions, and service delivery methods will be discussed and considered. Examination and analysis of research trends and directions will be emphasized.
Policy for Students with Disabilities

It is the policy of Sam Houston State University that no otherwise qualified disabled individual shall, solely by reason of his/her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any academic or Student Life program or activity. Disabled students may request help with academically related problems stemming from individual disabilities from their instructors, school/department chair, or by contacting the Chair of the Committee for Continuing Assistance for Disabled Students and Director of the Counseling Center, Lee Drain Annex, or by calling (936) 294-1720.

Policy on Student Absences on Religious Holy Days:

Section 51.911(b) of the Texas Education Code requires that an institution of higher education excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence.

University policy 861001 provides the procedures to be followed by the student and instructor. A student desiring to absent himself/herself from a scheduled class in order to observe (a) religious holy day(s) shall present to each instructor involved a written statement concerning the religious holy day(s). This request must be made in the first fifteen days of the semester or the first seven days of a summer session in which the absence(s) will occur. The instructor will complete a form notifying the student of a reasonable timeframe in which the missed assignments and/or examinations are to be complete.

Course Objectives

Course objectives are aligned with state and national standards in the following table. State standards are taken from the State Board for Educator Certification (SBEC) Twelve Knowledge and Skill Standards for Special Education and are the basis for the ExCET/TExES Certification Examination (www.sbec.state.tx.us). For National Standards, The Council for Exceptional Children (CEC) provides the following: “CEC Knowledge and Skill Base for All Beginning Special Education Teachers of Students in Individualized General Curriculums”(www.cec.sped.org).

Evaluation:

(1) Two Exams. Text, handouts, in-class reports, etc. are all part of exam content. Format will be mainly brief discussion. (2 x50 points each = 100 points.)

(2) Presentation on selected area of Learning Disability (e.g. written expression, math computation, etc. We will choose topics January 23rd; requirements for the presentation will be discussed under separate cover. (100 points.)

(3) Paper on assigned presentation topic in APA format. 10 pages minimum, excluding cover page and references. (100 points.)

(4) Five article reports/summations. At least one should concern Response to Intervention; and two should concern the issues listed below. More issues will be identified in subsequent classes. (20 points each x 5 = 100 points)

(5) Student discussions of articles (50 points).
(6) Attendance (25 Points) and Class Participation (25 Points). One absence allowed by University policy. Subsequent absences will result in 15 point deductions from the attendance points. More than two is unacceptable. (50 Points Total).

Examples of Articles

SOME ISSUES:

Aptitude-Achievement Discrepancy Procedures?
Is LD a social construct?
Response to Intervention approach?
Whole language for students with LD?
Need for a new definition?
Too much drill and kill instruction?
Reliability and validity in assessment methods?
Content of transition programs for students with LD?
Where to include cognitive-behavioral interventions?
Roles of general education teachers in fostering successful inclusion?
An LD/JD link?
Academic or vocational direction for secondary students with LD?
Too many exempted from TAKS?
Overrepresentation of low SES and culturally diverse students?
