

The Way I Learn Best

**new lyrics by Lawrence Mark Lesser
may be sung to the tune of "Luka" by Suzanne Vega
in *The Mathematics Teacher* May 2000**

Student fills in and sings:

My name is Kaitlin;
I sit in the first row.
I think of integrals
Thinkin' 'bout the math I know.
If I don't seem to relate,
Then harder examples would be great!
That's the way that I learn best!
That's the way that I learn best!
That's the way that I learn best!

After each student has taken a turn, the teacher replies by singing:

My name is Dr. Jensen;
402 is my room.
I am a teacher,
But I'm always learning, too!
And it would help me quite a lot
If you ask questions that you've got:
That's the way that I learn best!
That's the way that I learn best!
That's the way that I learn best!
