

"Calculus Raggae Song" by Scott Phillips

Calculus
it make me head hurt
Calculus
it make me eyes go cross
Calculus
it make me tear at my shirt
Calculus
it leave me at a loss

The math gods look down
they see all my pain
I close my eyes
and they plant in my brain

De log of de quotient
be the difference of da logs
De log of de quotient
be the difference of da logs

My wife, ya she left me
but it matter no more
Now I do all da calculus
I could not do before

Me classes are fun now
it just feels so right
I sing songs all day
do hard math all night

I made it through Calc I
it made me so sick
Now I go through Calc II
but I learn me dis trick...

De log of de quotient
be the difference of da logs
De log of de quotient
be the difference of da logs
