2.0 Scope of Work

2.0 Scope of Work

BASIC JOB: The Contractor shall provide all labor, equipment, materials (except for 4 inch conduit and fiber optic cable), coordination, and incidentals necessary to bore approximately 400 feet of ground and install 4 inch PVC with three (3) 1.25 inch inner ducts installed within, pull fiber optic cable and install hand holes. Work to conform to the Instructions, Specifications and Pictures (Attachment 1). Contractor is responsible for all field measurements.

- Station marker 0 Install hand hole over existing 2” conduit. Make opening into existing conduit without damaging CATV or telephone cable inside. Existing conduit is 36-48” deep. Leave 400’ of fiber coiled neatly in hand hole.
- Station marker 16 bore under existing driveway.
- Station marker 162, there is 30’ 0f existing asphalt that will have to be replaced if it is excavated.
- Station marker 380, set hand hole. Leave 100’ of fiber coiled neatly and attached to the wall of hand hole.
- Station marker 717, bring new conduits into existing hand hole. Leave remaining fiber neat coil in hand hole.

**Change to the following:**

**2.0 Scope of Work**

**BASIC JOB:** The Contractor shall provide all labor, equipment, materials (except for 4 inch conduit and fiber optic cable), coordination, and incidentals necessary to bore approximately 717 feet of ground and install 4 inch PVC with three (3) 1.25 inch inner ducts installed within, pull fiber optic cable and install hand holes. Work to conform to the Instructions, Specifications and Pictures (Attachment 1). Contractor is responsible for all field measurements.

- Station marker 0 Install hand hole over existing 2” conduit. Make opening into existing conduit without damaging CATV or telephone cable inside. Existing conduit is 36-48” deep. **Remove this line** -> Leave 400’ of fiber coiled neatly in hand hole.
- Station marker 16 bore under existing driveway.
- Station marker 162, there is 30’ 0f existing asphalt that will have to be replaced if it is excavated.
- Station marker 380, set hand hole. Leave 100’ of fiber coiled neatly and attached to the wall of hand hole.
- Station marker 717, bring new conduits into existing hand hole. Leave remaining fiber neat coil in hand hole.

**Page 4**

**ALTERNATE NUMBER ONE:** Cost to pull fiber including running cable from AT&T POP to Raven’s Nest club house approx. 300’ using existing conduit. Exclusions: phones, switch, data lines, etc.

**ALTERNATE NUMBER TWO:** Cost to terminating fiber ends.

**Change to the following:**

**ALTERNATE NUMBER ONE:** Cost to pull fiber including running cable from STATION Marker 0 to Raven’s Nest club house approx. 300’ using existing conduit. Exclusions: phones, switch, data lines, etc.

**ALTERNATE NUMBER TWO:** Cost to terminating fiber ends. **To be removed.**

The revised Bid Sheet MUST BE USED when returning bid packet. Changes include the following to page 2.

- SHSU is requesting contractors to submit a price for the Basic Job as described in the specifications and pricing two (2) alternate. Award will be made based on the lowest price for the Basic Job that meet or exceeds the specifications.
**REVISED TO THE FOLLOWING**
- SHSU is requesting contractors to submit a price for the Basic Job as described in the specifications and pricing one (1) alternate. Award will be made based on the lowest price for the Basic Job that meet or exceeds the specifications.

Pricing changes include adding “and pull cable” to the basic job pricing and removing Alternate Number Two from the pricing. *VENDOR MUST USE THE ADDENDUM 1 REVISED BID SHEET WHEN RETURNING BID PACKET.*
