Responses to Questions

Question: I noticed that the per piece weight on the postage statements on the Spring 2012 bid and the Fall 2011 bid are different. However, the specs are the same on both bids. What is causing the weight to be different? Since postage is considered in the bid, I wanted to use the right weight.

Response: The postage statements that accompany the IFB’s are from the previous mailing. For the Fall 2011 IFB, the previous mailing had 44 pages (Spring 2011). For the Spring 2012 IFB, the previous mailing had 36 pages (Fall 2011). And now the Spring 2012 has 36 pages.
