August 29, 2014

TO: Academic Deans and Associate Deans

FROM: Kandi Tayebi

SUBJECT: Curriculum Review

The following is the outline for the curriculum review cycle. The curriculum review cycle provides an opportunity for each college to submit requests for addition or deletion of courses; changes in course prefix, title, and/or number; and additions, deletions, or changes to degree programs.

Please be aware that the University Curriculum Committee will be asked to initially review requests not associated with new or altered degree programs to allow them to be presented to the February Board of Regents meeting. Such requests (assuming Board and THECB approval) will be eligible for implementation the fall semester immediately following the Board meeting (fall 2015). The University Curriculum Committee will then review requests affiliated with new or altered degree programs for presentation to the May Board of Regents meetings. These requests (assuming Board and THECB approval) are targeted for implementation in fall 2016.

Following is the timeline for submission of the College and University Curriculum reports.

- College curriculum reports to be completed and submitted to the Provost by September 19, 2014. Please send the college reports through my office.

For requests not associated with new or altered degree programs:

- University Curriculum Committee review of requests to be submitted to the February Board meeting to be completed and written report made to Provost by November 24, 2014.
- Academic Affairs Council review to be completed by December 12, 2014.
- Curriculum report to be presented by the Provost to the President for review by December 19, 2014.
- Curriculum report to be presented to the Board of Regents, The Texas State University System, in February 2015.

For requests associated with new or altered programs:

- University Curriculum Committee review of requests to be submitted to the May Board meeting to be completed and written report made to the Provost by February 20, 2015.
- Academic Affairs Council review to be completed by March 6, 2015.
- Curriculum report to be presented by the Provost to the President for review by March 20, 2015.
- Curriculum report to be presented to the Board of Regents, The Texas State University System, in May 2015.
Page 2
Should there be conflicts between the final recommendations of the Academic Affairs Council and the reports originally submitted by the deans, these will be resolved individually between the Provost and the appropriate dean. The curriculum report which bears the endorsement of the Provost shall be prepared in proper format and will be presented to the President for inclusion in the President's Report to the Board of Regents, The Texas State University System.

The submission of high quality, correctly formatted College Curriculum Reports is an essential step in an effective curriculum cycle. While each college has a curriculum committee, the dean of each college is ultimately responsible for ensuring the accuracy and timeliness of the review. Requests that are submitted in a fashion significantly inconsistent with the required format specifications will be returned to the college to be resubmitted the following year. Furthermore, submissions requiring substantial revision by the University Curriculum Committee may also be returned to the college to be resubmitted the following year.

I. The Department Curriculum Committee. The dean will organize a curriculum committee in each department in his or her college. The decision regarding how the chairs and members of such committees are selected resides with the dean.

Each department's committee will report to the appropriate department chair. In fact, it is permissible for the department chair to serve as the committee chair. It is the responsibility of the committee to review the curriculum, to make suggestions for changes in existing curricula, and to present recommendations for new courses and degree programs. The department chair is ultimately responsible for the quality of the department's curriculum report.

II. The College Curriculum Committee. The dean will organize a college-level curriculum committee in his or her college. Again, the decision regarding how the chair and the members are selected resides with the dean. However, membership must include at least one Associated Dean and one faculty member whom will also serve to represent the college on the University Curriculum Committee. Under any circumstance, the committee should serve in an advisory capacity and report to the dean. Once the intracollege list of courses to be added, deleted, or changed is developed, if any possible curriculum conflicts with other colleges are noted, please, hold the needed discussions for resolution at this level.

The college committee's function should be to review all requests, originating in the departments in the college's administrative area. The committee should ascertain whether the proposed requests are in harmony with the various roles and scopes of the departments in the college as well as in congruence with the statement of mission of the college itself. It should be a concern of the committee that the requests do not in any way foster an overlapping of offerings among the departments within the college.

It is to be clearly understood that the committee structure, both at the department and college level, is not designed to circumvent or erode the dean's influence upon the curriculum of that particular unit. It is expected that the final curriculum report submitted from each college will indeed be the report bearing the unqualified recommendation of the dean, to include acknowledgement of the College's commitment to meeting the financial obligations associated with the curriculum requests.

University Curriculum Committee. The University Curriculum Committee consists of twenty members (17 voting and 3 ex-officio). The Provost and Vice President for Academic Affairs makes all appointments from nominations submitted by the academic deans and the Director of the Newton Gresham Library. The committee consists of one Associate Dean from each academic college, who serves on the college-level curriculum committee; one faculty member, from each academic college, who serves on the respective departmental curriculum committee and college curriculum committee; one faculty member from the Newton Gresham Library; and ex-officio members to include one staff member for Academic Affairs, one staff member from the Registrar's Office who builds the courses in the operating system, and a Sam Center
representative. One faculty member is nominated each year by the University Faculty Senate to serve as chair-elect for the committee, serving the following year as Chair.

The committee is charged with reviewing for academic integrity the curriculum reports to resolve conflicts to the extent possible. This includes responsibility of carefully reviewing the curriculum submissions to determine if information provided for all requests for new programs and/or courses is complete, to analyze proposed additions and changes in course in the interest of identifying areas of possible overlap or duplication, and to work toward a resolution of potential problems before the matters come up for discussion by the Academic Affairs Council. It is expected that committee member(s) will be knowledgeable of the details of the curriculum submissions from their respective colleges in the interest of responding to most questions, which will arise in committee meetings.

IV. Procedures. College curriculum reports (electronic) are to be submitted to the Office of the Provost and Vice President for Academic Affairs through my office, using the folder located on the T-drive entitled Curriculum. After a preliminary review, copies of the curriculum submissions will be forwarded to the University Curriculum Committee. This action will signal the committee to begin its work.

PLEASE USE THE CURRICULUM FORMS LOCATED ON THE ACADEMIC AFFAIRS WEB SITE TO SUBMIT ALL REQUESTS. To access the forms, visit http://www.shsu.edu/dept/academic-affairs/, select “Faculty and Staff Recourses,” then “Forms,” then “Curriculum Forms.” Please be aware that all forms must be submitted electronically. If you have any difficulty, please contact Dawn Caplinger, extension 44157, for assistance.

- Form A provides an overview of the curriculum recommendations. A single Form A should be prepared at the level of the dean and should encompass a summary of all changes requested for each department. Form A provides a brief justification for the addition or deletion of courses and changes in course prefix, title, and/or number. Please be aware that for each addition of a new course, a Form B must also be attached. (Note: If a department does not have requested changes in an area (i.e. course prefix), please, insert the term “none.”)

- Form B is to be used to support each request for a new course and is to be attached directly behind Form A. Form B must be completed in its entirety, thus eliminating the need to provide a syllabus.

- Form C is to be used to request changes in the baccalaureate core.

- The Summary Sheet will be prepared at the level of dean and will be used throughout the review process to ensure that the recommendations at each review level are properly recorded. The Summary Sheet should contain a complete listing of requests (excluding justifications) being submitted by your college. It is understood that all requests forwarded from the dean to the Office of Academic Affairs carry the endorsement of the departmental chair and academic dean.

Thank you for your attention to this very important matter.
