SCHOOL SEAL

BEARKAT

Sam Houston State University’s athletic teams have been nicknamed “The Bearkats” since 1923 when the University’s name was changed by the Texas State Legislature from Sam Houston Normal Institute to Sam Houston State Teachers College. (Prior to 1923, the varsity sports teams were nicknamed “The Normals.”)

It is doubtful those who coined the “Bearkat” nickname had a particular animal in mind, however. More likely, the name came from a popular local saying of the time, “tough as a Bear-kat!” The late Reed Lindsey, who was a student/athlete in the 1920s and later retired as University registrar, once said that “it was a good fighting name of the time.” Since the animal in the saying was thought more mythical than real, the spelling settled upon was “Bearkat.”

In the late 1940s, then SHSU president Harmon Lowman attempted to change the SHSU mascot from Bearkats to “Ravens” (after General Sam Houston’s Cherokee nickname). Mrs. Vernon Schuder reported that the alumni were polled; she voted for the raven but that “all those old Bearkats beat us out!”

The current Sammy Bearkat mascot character began appearing at SHSU sports events in 1959.

SCHOOL SEAL

Sam Houston State University has adopted as its official seal a high-contrast image of the statue of General Sam Houston, which stands in front of Austin Hall on the north end of the campus Quadrangle.

Around the image in the seal are the words “Sam Houston State University,” two stars, and the year in which Sam Houston Normal Institute was founded — 1879.
**SCHOOL LOGO**

Sam Houston State University has adopted as its official logo an orange “SH.”
Where the seal is used for more formal presentations, the logo can be used in less formal applications.

**SCHOOL COLORS**

The official colors for Sam Houston State University are: ORANGE and WHITE.

**ALMA MATER**

Hail to Sam Houston, School we love best,
Mighty in battle, True to the test.
Bearkats so loyal, Ever we’ll be,
Orange and white Will lead us to victory!

Hail, Alma Mater Hats off to you,
Ever you’ll find us Loyal and true;
Firm and undaunted Ever we’ll be,
Here’s to the school we love
Here’s a toast to thee.

**BEARKAT FIGHT SONG**

Fight, Fight, you Bearkats!
Fight on through!
We’re here in back of you!
You know again we’re here to win,
so fight on to the end.
Fight Fight Fight
Loyal we’ll ever be and true to SHSU
We’ll fight and fight with all our might for
Sam Houston’s Orange and White.

**MOTTO**

“The Measure of a Life is its Service.”
1. PURPOSE

The purpose of this academic policy statement is to provide for the resolution of student academic grievances in a prompt and equitable manner.

2. GENERAL

2.01 Under the provisions of this policy, academic grievances include disputes over:
   a. Course grades
   b. Unauthorized class absences or tardiness
   c. Suspension for academic deficiency
   d. An instructor’s alleged unprofessional conduct related to academic matters
   e. Graduate comprehensive and oral examinations
   f. Theses and dissertations

2.02 If the dispute is determined to be based upon professional judgment, the aggrieved student is entitled to have, as appropriate and in turn, the department or school chair, College Academic Review Panel, academic dean, Dean of Graduate Studies (for graduate student issues), and Provost and Vice President for Academic Affairs form an opinion about the dispute and so advise the individual(s) involved. After considering the advice provided by any or all of the administrators participating in hearing the grievance, the individual(s) involved in the dispute shall retain the academic freedom to decline to change the original judgment in the matter.

2.03 Allegations of student misconduct, as defined in paragraph 5.2, Chapter VI of the Rules and Regulations, Board of Regents, The Texas State University System, and Sam Houston State University Student Guidelines, published by the Dean of Students’ Office will be referred to the Dean of Students’ Office for necessary action.

2.04 Allegations, questions, or appeals involving academic dishonesty, i.e., cheating, plagiarism, collusion, and/or abuse of resource materials, will be processed in accordance with the procedures set forth in Academic Policy Statement 810213, “Procedures in Cases of Academic Dishonesty.”

2.05 If, in turn, the department/school chair, College Academic Review Panel, academic dean, Dean of Graduate Studies (for graduate student issues), or Provost and Vice President for Academic Affairs finds that a disputed action conflicts with federal or state law, university, college, or departmental policy, or with an instructor’s stated class policy, a decision should be rendered in favor of the aggrieved student.
3. COLLEGE ACADEMIC REVIEW PANEL

3.01 There shall be in each college a Standing College Academic Review Panel. The members of the panel shall be chosen by procedures established by the college dean. The panel will consist of three faculty members and two student members. The chair of the panel will be selected from the panel members by the appointees to the panel. A department/school chair or any party to the appeal being heard may not serve on the panel. At least two faculty members and at least one student member must be present for action to be taken.

3.02 The Academic Review Panel will be involved in an alleged grievance only after the normal procedures outlined in paragraph 4.01.a and 4.01.b below have been exhausted.

3.03 The Academic Review Panel will hear only appeals involving disputes over those matters set forth in paragraph 2.01.a through 2.01.f of this policy. Appeals regarding university/college degree requirements, student misconduct, or academic dishonesty will not be addressed by the panel.

4. PROCEDURES

4.01 The following steps are to be followed in pursuing an academic grievance or an appeal of suspension for academic deficiency (a grade point average below 2.00):

a. In the event of an academic grievance, the student must first appeal to his/her instructor or committee chair for a resolution of the matter and must do so in writing and within thirty days following the final course exam for the semester or summer session during which the dispute arises. (If the grievance involves a suspension for academic deficiency, the student appeals directly to the appropriate academic dean.)

b. If an academic grievance is not satisfactorily resolved with the instructor or committee chair, the student may appeal to the chair of the academic department/school in which the complaint or dispute is centered. The student appealing must provide a written summary of the pertinent issues of the grievance. In addition, a student may include other faculty or staff members or any other informed individual who might act as advocates in support of his/her appeal.

c. If the student remains aggrieved after an appeal to the chair of the department/school, the student may forward the written appeal (plus any other additional material) to the college dean in whose college the dispute arose with a request to have the case heard by the College Academic Review Panel. Within fifteen working days of receiving the appeal, the Panel will investigate the alleged grievance and present such findings and recommendations as the Panel finds appropriate as soon as possible to the grievant and to other relevant parties, including the department/school chair and the faculty member(s) against whom the grievance is directed. During the panel hearing(s), all parties involved in the original grievance will be invited to appear before the Panel. The grievant may request either oral or written statements from advocates. The inclusion of these statements at the hearing(s) will be at the discretion of the hearing(s) will be at the discretion of the Panel. Under no circumstances will advocates be permitted to directly question or cross-examine any person who is involved in the grievance. Legal counsel, if included by the grievant, may act only in an advisory capacity and...
may not be a directly active participant in the proceedings.
d. If a resolution of an academic grievance by the Review Panel is not accepted, the student may request in writing that the grievance be forwarded to the college dean in whose college the dispute arose for review and adjudication. The dean will receive all documents pertaining to the dispute from the academic Review Panel and the dean will inform the student, the instructor, and/or the committee chair, and the administrators participating in the appeals process of the decision and the disposition of the matter within fifteen working days of receipt of the appeal. The dean’s decision is final.

Don Walker, Sr. Education Center, which houses the museum store and gift shop, exhibit gallery, auditorium, teaching classrooms, and offices of the museum’s education staff. On the site are the main museum composed of a rotunda and three wings, containing artifacts relating to Sam Houston, his family, and early life in Texas; Woodland Home, the home that Sam Houston built for his family in Huntsville; Steamboat House, where General Houston died; the Sam Houston Law Office; an Exhibit Hall; and replicas of a period kitchen and blacksmith shop.

STUDENTS’ LEGAL AND MEDIATION SERVICES

It is important that students be alerted to the need for legal counsel at an early stage of any controversy. Thus, the Students’ Legal Advisor counsels currently registered students about their legal problems thirty (30) hours each week. In addition, students can pick up a free list of legal resources containing web sites to authoritative legal information from AIDS to wills. Also, there are many hard copy brochures on specific legal topics available free to Sam Houston State University students. The office is located in the Counseling Center (North Annex of the Lee Drain Building), and the advisor has office hours that allow students with various schedules to easily obtain an appointment by calling (936) 294-1717. All matters between the Students’ Legal Advisor and the student are confidential. Therefore, due to this confidentiality requirement, there can be no e-mail or telephone consultations. Some areas of legal concern are landlord/tenant, consumer protection, insurance, criminal, family law, traffic tickets, automobile accidents, and employee rights.

The advisor often helps students with legal problems by guiding them through self-help procedures plus distributing written materials concerning their legal issues. By guiding the student through the procedures required in administrative and judicial proceedings, it is anticipated that the student will be able to effectively deal with these problems currently and in the future. However, when a problem is of such a nature that legal representation is immediately needed, referral to several practicing attorneys in that area of law is made.

Students’ Legal Services also offers mediation services. Students sit down with a trained, neutral third party (a qualified mediator) who facilitates an agreement between the parties. At the present time mediation is offered to students in the areas of: (1) landlord-tenant, (2) domestic relations, (3) consumer protection, and (4) other miscellaneous interpersonal disputes.

The advisor is also available to speak to student organizations, residence halls, and classes whose subject matter involves legal areas.

5.35 Academic work means the preparation of an essay, dissertation, thesis, report, project, or other work that the student submits as a course requirement or for a grade.

5.36 Disciplinary Procedures for Academic Dishonesty:

(1) Academic Process. All academic dishonesty cases may be first considered and reviewed by the faculty member. If the faculty member believes that an academic penalty is necessary, he/she may assign a penalty but must notify the student of his/her right to appeal to the department chair, the dean and, eventually, to the vice president for academic affairs (whose decision shall be final) before imposition of the penalty. At each step in the process, the student shall be entitled to written notice of the offense and/or of the administrative decision, an opportunity to respond, and an impartial disposition as to the merits of his/her case. After completion of the academic process, the academic officer making final disposition of the case may refer the matter to the chief student affairs officer for any additional discipline that may be appropriate.

(2) Disciplinary Process. In the case of flagrant or repeated violations, the chief student affairs officer may take such additional disciplinary action. No disciplinary action shall become effective against the student until the student has received procedural due process under Subsection 5.6 and following except as provided under Subsection 5 (15).

(3) Honor Code. If a component has adopted an Honor Code which includes an Honor Council that makes decisions on appeals of penalty grades issued by a faculty member and disciplinary action on cases of flagrant or repeated violations, the hearings which consider disciplinary action must afford the students procedural due
process under Subsection 5.6. Appeals of academic decisions rendered by an Honor Council shall be heard by the Vice President for Academic Affairs and appeals of disciplinary decisions rendered by an Honor Council shall be heard by the Chief Student Affairs Officer. In the event of conflicts, these Rules and Regulations shall govern.

5.4 Campus Disruptive Activities. Pursuant to Education Code, Subsection 51.935 (Disruptive Activities), the components shall adhere to the following rules and regulations:

5.41 No person or group of persons acting in concert may intentionally engage in disruptive activity or disrupt a lawful assembly on a component campus. Disruptive activity means:

(1) Obstructing or restraining the passage of persons to the campus or an area of the campus or to an exit, entrance, or hallway of any building without the authorization of the administration of the component;

(2) Seizing control of an area of a campus or any building or portion of a building for the purpose of interfering with any administrative, educational, research, or other authorized activity; or

(3) Disrupting and/or preventing or attempting to prevent by force or violence or the threat of force or violence any lawful assembly authorized by the component administration. A lawful assembly is disrupted when a person in attendance is rendered incapable of participating in the assembly due to the use of force or violence or a reasonable fear of force or violence.

5.42 Any person who is convicted the third time of violating this statute shall not thereafter be eligible to attend any school, college, or university receiving funds from the state of Texas for a period of two years from such third conviction.

5.43 Nothing herein shall be construed to infringe upon any right of free speech or expression guaranteed by the Constitution of the United States or the state of Texas.

5.5 Suspended, Expelled, and Dismissed Student Restriction. No student who has been suspended, expelled, or dismissed for disciplinary reasons from a component of the System shall, during the applicable period of discipline, be eligible to enroll at any other System component. The registrar of a component is authorized to make an appropriate notation on the student’s transcript to accomplish this objective and to remove the notation when the student’s disciplinary record had been cleared.

5.6 Procedure for Administration of Discipline. The chief student affairs officer shall have primary authority and responsibility for the administration of student discipline at the component and for investigating allegations that a student has violated System and/or component rules and regulations, or specific orders and instructions issued by an administrative official of the component.

5.61 The chief student affairs officer or his/her appointee, hereafter referred to as officer, will investigate the alleged violations. During the investigation, if the student is available, the officer will give the student an opportunity to explain the incident. If the officer concludes that the student has violated a System or component policy,
the officer will determine (but not assess) an appropriate disciplinary penalty.

(1) The officer will discuss his or her findings and his or her determination of an appropriate penalty with the student if the student is available and will give the student an opportunity either to accept or reject the officer’s decision.

(2) If the student accepts the officer’s decision, the student will so indicate in writing and waive his or her right to a hearing. The officer may then assess the disciplinary penalty.

(3) If the student does not accept the officer’s decision or does not waive his or her right to a hearing, a disciplinary hearing will be scheduled in accordance with Subsections 5.7 and 5.10.

5.62 If the student does not execute a written waiver of the hearing process, then the officer shall prepare a written statement of charges and of the evidence supporting such charges, including a list of witnesses and a brief summary of the testimony to be given by each, and shall send a notification of such charges and statement to the accused student by certified mail, return receipt requested, addressed to the address appearing in the Registrar’s records, or shall hand deliver said document with the student signing a receipt.

Sam Houston State University — Formal Mediation

In matters involving interpersonal disputes, the Hearing Officer may suggest that the matter be submitted to mediation. If the involved parties (the accused[s] and complainant[s]) agree the matter will be submitted to mediation before the mediator acceptable to all parties.

The goal of the mediation is the execution of a “Contract of Resolution” which will specify the terms of the parties’ settlement of their dispute. The Contract of Resolution will be placed in each involved student’s disciplinary file. Any violation of the terms of the Contract of Resolution shall be grounds for formal disciplinary action.

If the involved parties are unable to agree upon a resolution, the matter will proceed to formal disciplinary proceedings. The Mediator shall at all times retain discretion to terminate the mediation and proceed to formal disciplinary proceedings where he/she determines that the mediation process is not making adequate progress toward an appropriate resolution. All Contracts of Resolution must be approved by the Chief Judicial Officer. Whenever mediation is unsuccessful and the matter proceeds to formal disciplinary hearings.

5.7 Student Disciplinary Hearings. In those cases in which the accused student disputes the facts upon which the charges are based, such charges shall be heard and determined by a fair and impartial person or committee, hereinafter called the hearing officer or hearing committee, selected in accordance with procedures adopted by the component. Except in those cases where immediate interim disciplinary action has been taken under authority of Subsection 5.14, the accused student shall be given at least five (5) class days written notice by the chief student affairs officer, or a designated appointee, of the date, time, and place for such hearings and the name or names of the hearing officer or hearing committee. Hearings held under Subsection 5.14 will be held under the same procedures set forth below, but will be held as soon as practicable within twelve (12) class days after the disciplinary action has been taken unless otherwise agreed to by the student.
Upon a hearing of the charges, the component representative has the burden of going forward with the evidence and the burden of proving the charges by the greater weight of the credible evidence. The hearing shall be conducted in accordance with procedures adopted by the component that assure both parties (component representative and accused student) the following minimal rights:

5.71 Both parties will exchange lists of witnesses, expected testimony, copies of documents to be introduced, and notice of intent to use legal counsel, at a reasonable time prior to the hearing.

5.72 Each party shall have the right to appear and present evidence in person and to be advised during the hearing by a designated representative or counsel of choice. Each party shall limit its presentation to relevant evidence. The accused student must attend the hearing if the student desires to present evidence. The hearing may proceed notwithstanding the accused student’s failure to appear.

5.73 Both the component representative and the accused student shall have the right to question witnesses. The accused student may question witnesses with the advice of a designated representative or counsel. All questions shall be limited to relevant evidence.

5.74 The hearing will be recorded. If either party desires to appeal the finding, a copy of the recording will be produced at the expense of the party appealing the finding, and both parties will be furnished a copy for appeals purposes only.

5.8 Student’s Right to Challenge Impartiality. The accused student may challenge the impartiality of the hearing officer or a member of the hearing committee at any time prior to the introduction of any evidence. The hearing officer or member of the committee shall be the sole judge of whether he or she can serve with fairness and objectivity. In the event the challenged hearing officer or member of the hearing committee chooses not to serve, a substitute will be chosen in accordance with procedures adopted by the component.

5.9 Determination of Hearing. The hearing officer or hearing committee shall render a decision to both parties as soon as practicable as to the guilt or innocence of the accused student and shall, if necessary, assess a penalty or penalties including, but not necessarily limited to:

(1) Verbal or written warning.
(2) Requirement that the student complete a special project that may be, but is not limited to, writing an essay, attending a special class or lecture, or attending counseling sessions. The special project may be imposed only for a definite term.
(3) Cancellation of residence hall or apartment contract.
(4) Disciplinary probation imposed for a definite period of time which stipulates that future violations may result in disciplinary suspension.
(5) Ineligibility for election to student office for a specified period of time.
(6) Removal from student or organization office for a specified period of time.
(7) Prohibition from representing the component in any special honorary role.
(8) Withholding of official transcript or degree.
(9) Bar against readmission.
(10) Restitution whether monetary or by specific du-
ties or reimbursement for damage to or misappropriation of component, student, or employee property.

(11) Denial or non-recognition of a degree.

(12) Suspension of rights and privileges for a specific period of time, including access to electronic network facilities and participation in athletic, extracurricular, or other student activities.

(13) Failing or reduction of a grade in test or course, and/or retaking of test or course, and/or performing additional academic work not required of other students in the course.

(14) Suspension from the component for a specified period of time. During suspension, a student shall not attend classes or participate in any component campus activities.

(15) Loss of or ineligibility for student grant or loan.

(16) Expulsion from the component. A student who is expelled from the component is not eligible for readmission to the component.

(17) Dismissal from the component. A student, who is dismissed, is separated from the component for an indefinite period of time.

(18) Recording sanctions in Subsections 5.9(9), (11), (13), (14), (15), and (18) may be made on a student’s permanent transcript. The component may maintain confidential records of all other sanctions and may consider any prior sanction received by a student in assessing a subsequent sanction. The component shall develop a procedure for expunging those records not transcribed on a student’s permanent transcript within a reasonable time not to exceed five (5) years after the student ceases to be enrolled.

(20) A student who, by a preponderance of the evidence, under these Rules and Regulations, is found to have illegally possessed, used, sold or distributed any drug, narcotic, or controlled substance, whether the infraction is found to have occurred on or off campus, shall be subject to discipline, ranging from mandatory, university or college approved counseling to expulsion. Mitigating or aggravating factors in assessing the proper level of discipline shall include, but not necessarily be limited to, the student’s motive for engaging in the behavior; disciplinary history; effect of the behavior on safety and security of the university or college community; and the likelihood that the behavior will recur. A student who has been suspended, dismissed, probated or expelled from any system component shall be ineligible to enroll at any other system component during the applicable period of discipline. The registrar of each component is authorized to make an appropriate notation on the student’s transcript to accomplish this objective and to remove the notation when the student’s disciplinary record has been cleared. A second infraction
for a drug-related offense shall result in permanent expulsion from the component and from all other institutions in The Texas State University System.

(21) The levying of a monetary fine.

5.10 Appeal. Neither party may appeal if the hearing officer or hearing committee determines that the allegations against the accused student are true but the only punishment assessed is verbal or written warning. In those cases, the determination of the hearing officer or hearing committee is final. However, in all other cases, either party may appeal to the chief student affairs officer. If the hearing officer has been an appointee designated by the chief student affairs officer or if the determination has been made by a hearing committee, the appeal will be made to the chief student affairs officer or designated appointee. If the chief student affairs officer has served as the hearing officer, the appeal will be made to the vice president in charge of student affairs. Written notice of appeal must be received by the appeal officer within five (5) business days after the decision. An appeal is not simply a rehearing of the original case. An appeal must be based on: 1) whether or not a fair hearing was afforded. A fair hearing includes notice of the alleged misconduct, and an opportunity to present evidence; 2) whether or not the sanctions levied were appropriate to the offense; 3) whether or not the finding was supported by the evidence; and/or 4) whether or not new evidence is introduced that was not available at the time of the hearing. Both parties, at the discretion of the appeal officer, may submit oral or written arguments, to support their positions. In order for the appeal to be considered, the appealing party must submit all necessary documentation, including written arguments, when appropriate, to the appeal officer within five (5) business days after giving notice of appeal. The appeal officer may approve, reject, modify the decision, or remand the matter to the original hearing officer or hearing committee for reconsideration. The appeal officer shall respond to the appeal within ten (10) business days after all the documentation was received and all testimony was heard, or he or she may postpone a decision for good cause.

5.11 Review of the Vice President in charge of Student Affairs. The vice president may review any disciplinary case and may approve, reject, modify the decision or remand the matter to the original hearing officer or committee for reconsideration.

5.12 President’s Right to Review. The president may review any disciplinary case, and approve, reject, or modify the decision or remand the matter to the original hearing officer or hearing committee for reconsideration.

5.13 Board of Regents’ Right to Review. The Board of Regents retains the right to review, any disciplinary action and approve, reject, or modify the decision or remand the matter to the original hearing officer or hearing committee for reconsideration.

5.14 Interim Disciplinary Action. The chief student affairs officer, the vice president in charge of student affairs, or the president of the component may take immediate interim disciplinary action, including suspension, pending a hearing against a student for violation of a rule and regulation of the System or of the component at which the accused is a student when the continuing presence of the student poses a danger to persons or property or an ongoing threat of disrupting the academic process. In the event that the interim disciplinary action includes suspension, the component official involved shall, as soon as possible, notify the President...
and the Vice Chancellor and General Counsel of such action.

5.15 Civil Proceedings. Every student is expected to obey all federal, state, and local laws and is expected to be familiar with the requirements of such laws. Any student who violates any provision of those laws is subject to disciplinary action, including expulsion, notwithstanding any action taken by civil authorities on account of the violation.

**STUDENT COMPUTER USE POLICY**

All students, full- or part-time, are granted permission to use the computing resources of the university. The use of these systems is governed by the following rules and any violation of these rules may result in disciplinary actions as well as possible legal actions.

The permission for use is granted to each student by Sam Houston State University for non-commercial use of the computing and communications facilities and services of the university, including its computer systems, associated peripherals and files, telephone and network access, and all university microcomputers, according to the terms described herein.

This permission extends to the use of licensed software according to the regulations set forth herein by Sam Houston State University for the use of such software. The student use of such software is governed by the terms of licensing agreements between the university and the software licensors, and the student must abide by the terms of those agreements. These software programs are proprietary and may, therefore, be subject to copyright or patent restrictions as defined in the license agreements. Students must not copy, disclose, transfer, or remove any proprietary programs from the media on which this software resides. Students must not use Sam Houston State University equipment or software to violate the terms of any software license agreement. Information on specific software licenses on all public computer systems can be obtained from the university Computer Services Department or other appropriate department.

Students must not use Sam Houston State University’s computer systems, including any of its communications facilities and services, in any way which deliberately diminishes or interferes with the reasonable and private use of any computer systems, or which is intended to do same. Sam Houston State University retains the right to inspect and/or remove, when necessary, as a function of responsible system management, all disk files stored on the university computing facilities.

Upon violation or misuse of the computing facilities at Sam Houston State University, the university retains the right to deny future computing privileges at all university-owned computing facilities. In addition any student found in violation may also be subject to further disciplinary action, as well as legal action under Section 1, Title 7, Chapter 33 of the Texas Penal Code, as well as legal action by the owners and licensors of proprietary software for violation of copyright laws and licensor agreements.

**DEBTS OF STUDENTS**

Debts of Students or Organizations

Neither the system nor any component university is responsible for debts contracted by individual students or by student organizations. On the other hand, all students and student organizations are expected to conduct themselves honorably in all commercial transactions. Neither the system nor any component university will assume the role of a collection agency except for monies owed to the system or one of its component universities, nor will the system or any of its component universities adjudicate disputes between students and creditors over the existence or the amounts of debts except with the prior approval of the president of the university or his designated appointee in those cases where the interests of the university may be a factor.
Students' Financial Obligations
Students are expected to meet their financial obligations to the university within the designated time allowed. Registration fees, or the first payment of the installment fee plan, are payable at the time of registration, and students are not entitled to enter class or laboratory until their fees and deposits have been paid. Other charges are due at registration or within ten days after a bill is rendered by the university or according to the special payment instructions that may be printed on the bill.

Sanctions for Failure to Pay
Failure of any student to resolve his/her financial obligation to the university or failure to pay in the allotted time the amount owed to the university for tuition, fees, or charges permitted by law may result in any or all of the following:
1. Assessment of late fees and reinstatement fees.
2. Dismissal from the university or other disciplinary action.
3. Withholding of future registration privileges.
4. Withholding the issuance of grades or a transcript.
5. Withholding the conferring of a degree.
6. Bar against readmission for the student.
7. Denial of credit for work done during the semester in which tuition and fees are owed.

CO-CURRICULAR USE OF UNIVERSITY FACILITIES

1. Purpose and Application
1.1 The physical facilities of the university are an integral part of the total structure and must be utilized to give the greatest support to the total program of the university. Primary consideration in the use of facilities must be the fulfillment of the educational needs of the university community. The administration does not desire to deny an autho-

rized individual or organization the use of any facility so long as this use does not impede the university’s educational function. It is, therefore, necessary for all functions on campus, except for those using recreational and/or athletic facilities, academic buildings, or those facilities managed by the President’s Office which require the use of institutional facilities to receive the approval of the director of the Lowman Student Center and for the appropriate facility to be scheduled and reserved through the LSC Office in accordance with the provisions of paragraph 3.1 of this policy.
1.2 The purpose of this policy is to delineate policy relating to the co-curricular use of university facilities.
1.3 As a general rule, parents and spouses of students and members of the faculty, persons who visit and consult with members of the administration or faculty, and others who have a legitimate interest in the university and who desire to occasionally visit the university campus are welcome. The facilities and campus of the university are, however, reserved for and dedicated to educational use and no use may be made of the same which is inconsistent with that primary use.
1.4 The university, acting on its own or at the request of an officially recognized campus organization, may invite speakers, performers, or entertainers to appear before audiences on the university campus. For further information see Sec. 4.3 Time, Place and Manner Restrictions.
1.5 No person or persons who substantially interfere with or who threaten with the apparent ability to carry out such threat to substantially interfere with the normal activities of the university or to substantially interfere with or deny the lawful rights of others to use the facilities of the university shall enter or remain upon the university campus.
2. Permission to Use

2.1 The following groups are welcome to use the university facilities upon receipt and confirmation of their request for use.

a. Student organizations as recognized by the university and appropriately sponsored.
b. Academic organizations, faculty and university staff groups.
c. Participants in short courses or specialized programs administered by the university.
d. Professional societies or business organizations participating in programs related to academic activities of the university.
e. Groups sponsored by a university department.
f. Groups or individuals sponsored or invited by the university president or his designated official(s).

2.2 In addition to the specific regulations contained in this document, certain general responsibilities are incumbent upon organizations using the facilities and each organization is accountable for its activities in the context of these general responsibilities.

a. The activities shall be consonant with the purpose of the organization and the university and with established university regulations and public laws.
b. The organization shall not engage in activities which interfere with the ongoing activities of the university or of any other approved organization.
c. The organization shall be responsible for its members’ behavior when:

   (1) they are acting as members of the organizations (with or without official approval) rather than as individuals.
   (2) an event is held (officially or unofficially) in the name of the organization.
   (3) they act in a manner which indicates such action is motivated by mutual membership in the organization.
   (4) the association between, and the action of the individuals under circumstances which draw attention to the organization rather than to themselves as individuals.
   (5) Organizations are responsible for damages, injuries, etc., that occur during use.

3. Conditions and Limitations on Use of Facilities

3.1 Requests for approval of functions and for facilities must be made on the appropriate form provided and available in the Lowman Student Center (LSC) office, and on the LSC website www.shsu.edu/~lsc. All signatures must be obtained, questions answered, and the request presented a minimum of two (2) business days prior to the desired date of use. For the Room Reservation Request Form and Semester Meeting Room Reservation Request Form, the final acknowledgment of a reservation should come from the director of the LSC within two (2) business days after submission. For the Facilities Reservation Form, the final confirmation of the reservation will be made via e-mail to the e-mail address provided on the reservation form.

3.2 Sponsoring organizations assume full responsibility for any financial obligations, damage to facilities or equipment, actions of participants, and for having read and understood the university Code of Student Conduct and Discipline and the university Policy on Speech and Assembly. A faculty/staff advisor may be required to be in attendance during the scheduled use of any university facility by an organization.

3.3 Whenever non-university groups share with university groups in the use
of university facilities, it must be upon the invitation of the university and with the understanding that the sponsoring organization assumes full responsibility for the activity.

3.4 The university is no way obligated for functions in which an organization has contracted an outside individual or group (such as a speaker, entertainment group, dance band, etc.) and there is an honorarium or fee involved unless a contract is signed by an official representative of the university specifically authorized by the president of the university.

3.5 Admission charges may be made or an offering may be received if university approval is given at the time the reservation is completed for the use of its facilities.

4. Arrangements
Any representative authorized by a campus recognized organization may pick up the appropriate reservation request form from the LSC Office, located in Room 311. The request form must be completed, signed by the organizational representative making the reservation and the faculty/staff sponsor, and then returned to the director of the LSC for final approval.

5. Off-Campus Activities
Any wholly off-campus activity will not require university approval. If any activity is planned that involves university facilities and off-campus facilities, that portion that is held on campus must be cleared and approved through the usual arrangement procedures.

6. Legal Considerations and Disruptions
6.1 Non-members of the university community are required, while on the campus, to observe and comply with the rules and regulations adopted by the university or the Board of Regents: copies of the same to be found in the Dean of Students’ Office as well as those specific statutes of the state of Texas relating to university property. Non-members of the university community are also required, while on campus, to identify themselves upon the request of a university official or University Police or other law enforcement officer in the performance of his or her duty.

4. Speech and Assembly

4.1 Definition. Freedom of inquiry and discussion is basic and essential to intellectual development. However, these freedoms must be exercised in a manner that does not illegally derogate the rights of others or interfere with the academic programs and administrative processes of a component.

4.2 Off-Campus Speakers in Component Facilities. The freedoms of speech and assembly guaranteed by the First and Fourteenth Amendments to the United States Constitution shall be enjoyed by the students, faculty, and staff
of the components of The Texas State University System with respect to the opportunity to hear off-campus or outside, speakers.

4.21 If a registered campus organization is sponsoring a campus speaker, it has the responsibility of making clear the fact that the organization, not the component, is extending the invitation to speak and that any views the speaker may express are the speaker’s own and not necessarily those of the System or of the component.

4.22 Students, faculty, staff, and registered organizations campaigning for public office on behalf of candidates for public office must abide by the provisions of this section.

4.23 Speakers to be paid from state funds to speak on a component campus shall speak in a facility that is open to the public. This subsection does not apply to classes, seminars, symposia, and conferences intended for the use and benefit of students, faculty, staff, and invited guests. No person may obstruct or lessen in any way the opportunity for the audience to. The number of students, faculty, staff, and guests may be limited to prevent a hazard to the safety of the audience.

4.24 Off-campus speakers who have not been sponsored or invited by a registered student, faculty, or staff organization or by the component administration shall be prohibited from speaking to groups in campus facilities and buildings unless the speaker is speaking to an off-campus organization that has been authorized to meet on the campus.

4.25 With the prior written approval of the component president, the component may, at its sole discretion, lease or rent space in the student center or other appropriate buildings or grounds for political rallies and meetings provided that space is made available to legitimate political candidates in a nondiscriminatory fashion and the rent for such space is based on a fair market value.

4.3 Time, Place and Manner Restrictions. While freedom of speech and assembly is encouraged, the law recognizes that there is no absolute right to assembly or to make or hear a speech at any time or place regardless of the circumstances, content of speech, purpose of assembly, or probable consequences of such meeting or speech. The issuance of invitations to outside speakers shall be limited as follows:

4.31 A request to invite an outside speaker will be considered by the component only when made by a registered student, faculty, or staff organization. No invitation shall be issued to an outside speaker without prior written concurrence of the component president or a designee for scheduling of speaker dates and assignment of campus facilities.

4.32 Any speaker request shall be made in writing to the president or a designee by an officer of a registered student, faculty, or staff organization, or by an administrative officer of the component, desiring to sponsor the proposed speaker not later than six (6) business days prior to the date of the proposed speaking engagement. This request shall contain the name of the sponsoring organization; the proposed date, time, and location of the meeting; the expected size of the audience; and the topic of speech. Any request not acted upon by the component
president or a designee within five (5) business days after submission shall be deemed granted.

4.33 A request made by a registered organization may be denied only if the component president, or the authorized designee, determines, after proper inquiry, that the proposed speech will constitute a clear and present danger to the component’s orderly operation as defined in Subsection 2.5.

4.34 Where the request for an outside speaker is denied, the sponsoring organization may appeal to the president or a authorized designee in writing within three (3) business days of the denial. A hearing will be held within four (4) business days following the filing of its appeal before an impartial board or administrator appointed by the president for a de novo consideration of the request. Such board or administrator shall make a recommendation to the component president, whose decision shall be final. If the president fails to decide the matter within seven (7) business days following the filing of the appeal, it shall be deemed granted, and the speaker’s invitation may be issued by the organization.

4.35 Where the request for an outside speaker is granted and the speaker accepts the invitation, the sponsoring organization shall inform the president or a designee, immediately in writing of such acceptance. The president or a designee, may, at his or her discretion, require that the meeting be chaired by a member of the administration or faculty and that a statement be made at the meeting that the views presented are not necessarily those of the component or of the sponsoring organization. By acceptance of the invitation to speak, the speaker shall assume full responsibility for any violation of law committed by the speaker while on campus.

4.4 Assembly on Component Grounds. Any group or person, whether or not a student or employee, and whether or not invited by a registered student, faculty, or staff organization, may assemble and engage in free speech activities on the grounds of the campus. However, the component president or a designee may adopt reasonable nondiscriminatory rules and regulations as to time, place, and manner of such activities and may prohibit such activities if it is determined, after proper inquiry, that the proposed speech constitutes a clear and present danger as defined in Subsection 4.5 below.

4.5 Clear and Present Danger. Proposed speech which constitutes a clear and present danger to the component’s orderly operation by the speaker’s advocacy (i.e., preparing the group addressed and steeling it to such action as opposed to the abstract espousal of the propriety of resort to force) may be prohibited. In determining the existence of a clear and present danger, the component president, may consider all relevant factors, including whether, within the past five years such speaker has incited violence resulting in the destruction of property at any public institution or has willfully caused the forcible disruption of regularly scheduled classes or other educational functions at any such institution. There must be not only advocacy to action but also a reasonable apprehension of imminent danger to the essential functions and purposes of the component.

Such regulation shall prohibit any activity that would interfere with academic or component programs.

3.21 No group or person, whether or not a student or employee, shall publicly display, distribute, or disseminate on the component campus any petition, handbill, or piece of literature, work, or material that is obscene, vulgar, or libelous, or that advocates the deliberate violation of any federal, state, or local law. Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person distributing or disseminating the material or to any group or individual.

3.22 For the purposes of Subsection 2.21, advocacy means addressing the group for imminent action and steeling, bolstering, or bracing it to such action as opposed to the abstract espousal of the moral propriety of a course of action.

PUBLICATIONS OF STUDENT GROUPS

The university affirms its position that freedom of expression, as well as inquiry, is essential to a student’s educational development. Vigorous intellectual explorations by students may sometimes result in questioning of popular conceptions, and this in turn, may elicit the concern of society at large. One of the axioms upon which our nation was built, however, is that truth needs no protection, but is vital by vigorous debate in a market place where all ideas can be presented and then tested by the reason of free people.

Publications of student groups are encouraged on the campus of Sam Houston State University. However, freedom of inquiry and expression does not confer an absolute right that would give immunity to every possible use of language. Sam Houston State University expects its students to observe the stan-
dards of propriety and good judgement in the exercise of such freedom. Students may publish and distribute free material that is not libelous or obscene or that does not promote or encourage the violation of law of the state of Texas or the United States or the disruption of the university’s academic process.

Literature may not be distributed where the manner or form of said distribution constitutes disorderly conduct, disrupts classroom discussion, impedes the maintenance of public order, or constitutes a danger to the person disseminating the material or to any other group or individual.

In order to promote and protect the right of privacy, the distribution of literature or circulation of petitions will not be allowed to captive audiences such as in the classroom buildings, in study areas, or in residential units of the university.

**STUDENT ORGANIZATIONS POLICY**

Sam Houston State University is guided by the precept that in no aspect of its program shall there be differences in the treatment of persons because of race, creed, color, sex or national origin. It is reflected in policies governing programs of extracurricular life and activities. In accordance with this principle along with other published student policies, all organizations will refrain from conducting any pledging, initiation, or other extracurricular activities that will in any way be detrimental, defamatory, ridiculing or embarrassing to any race, color, creed or national origin. All organizations should be well aware of the state of Texas Statute on Hazing.

1. **Statement of Purpose**

   Sam Houston State University recognizes both the right of students to form into organizations and the benefits which can result from membership in groups having similar or common interests or purposes.

   It is the purpose of this document to set forth the procedures by which student organizations can be officially registered, to establish the rights and responsibilities of students acting in a group capacity, and to establish policies and regulations governing all group activities. In addition, administrative and judicial procedures are set forth whereby those registered student organizations and groups accused of violating the policies will be afforded due process, and if appropriate, fair and just penalties. The university may issue regulations governing the eligibility of students for participation in student organizations.

2. **Definition of a Student Organization**

   A student organization consists of at least five students joined together for a common lawful purpose and formally registered with the university.

3. **Rights and Responsibilities of Student Organizations**

   General rights of student organizations are the same as those granted to every citizen of the United States of America under the Bill of Rights. Individuals are subject to the penal and civil statutes of the city, state and federal government; regulations of the Board of Regents; and regulations of the university. The university may suspend recognition of a student organization for violating the Student Organization Policy. e. Officers or student leaders representing the university in an official capacity (e.g., university committees, Board of Regents’ Advisory Committees, off-campus conferences or programs, etc.) must be current students; or they must be members of the faculty or university staff. To be eligible to serve as an officer in a registered student organization a student must be enrolled full-time (12 hours undergraduate or 9 hours graduate), have and maintain a 2.0

f. Students who do not meet the minimum GPA requirements at the time of elections may not serve in a leadership capacity. In the event a student is elected to office without the minimum GPA requirements, the organization must hold a re-election immediately. Organizations not meeting the above requirements will be placed on probation and may have their registered status revoked.

g. Each registered organization is expected to include within its constitution and/or bylaws officer eligibility requirements which must at least match those required by the university. An organization may require additional academic requirements it deems appropriate to hold office or membership.

4. Procedure for Formation and Registration of New Organizations

4.1 Permanent Organizations

a. Any group of students having a purpose which is within the policies of this document may be registered with the university. Registration of a campus organization does not constitute endorsement of its program or purpose, but is simply a charter to exist on the university campus and may be withdrawn by the Student Organizations Board according to the specifications of this document.

b. The group will file the Sam Houston State University Student Organization Registration Application with the coordinator of the student organizations as designated by the vice president of student services. The application shall include the organization's name, the constitution or statement of purpose, name of officers or contact persons, number of members, and intent to affiliate with off-campus organizations.

c. If formation of the organization is not complete at the time of filing of the Sam Houston State University Student Organization Registration Application, the coordinator of student organizations will assist in making arrangements for the organization to use university facilities for a limited amount of time for organizational purposes on a meeting-to-meeting basis until the organizational process is completed and the required information can be filed.

d. At the time of filing, the president or contact person for the organization will sign a statement indicating that he or she is familiar with and will uphold the aforementioned Rights and Responsibilities of Student Organizations (Section 3, Student Organizations Policy)

e. When the required application forms have been filed with the coordinator of student organizations, the coordinator will contact the Student Organizations Board to review the application.

After review, the coordinator will notify the president and faculty/staff advisor whether their application has been approved or denied.

(1) Upon approval of registration, the application will be signed by the coordinator of student organizations, the chairman of the Student Organizations Board, The
Director of Student Activities, the Vice President for Student Services, the President of the University or his appointed designee, and returned to the organization within 10 days as formal notification of registration. A copy of the approved application will be filed in the office of the coordinator of student organizations that the group is eligible for all of the rights of registered student organizations.

(2) Should the Student Organizations Board feel that the petitioning organization does not meet the requirements for registration, the coordinator of student organizations will notify the pending organization with the board’s recommendations and its decision regarding their status. This notification will be stored on file in the coordinator’s office. The organization may then work with the organizations’ coordinator to review the requirements for registration established herein.

4.2 Registration for a Limited Purpose (Ad Hoc Registration).

Registration for a limited purpose (ad hoc registration) is available for those groups which want to organize with some short-term goal in mind, that is, one which can be accomplished in less than one academic year. Their registration will expire on the date indicated on the registration form. It is anticipated that few ad hoc registrations will be granted. The board’s decision will be contingent upon the extenuating circumstances of the application.

4.3 Maintenance of Registered Status.

a. At the beginning of each fall, spring, and summer semesters, all student organizations wishing to maintain their registered status for that semester will submit to the coordinator of student organizations (no later than the twelfth class day) a list of the new officers, number of members, and the faculty/staff advisor on the semester update form provided for that purpose. Once the information has been processed, registration may be automatic.

b. It is only necessary for an organization to resubmit information such as an organization’s tax ID number, copies of the 501 C tax forms or the organization’s constitution or statement of purpose when it has been requested by the coordinator of organizations or the Director of Student Activities. Both a National and an SHSU constitution may be requested. The organization has 2 business days to submit the most recent addition of their constitution and/or bylaws to the coordinator of organizations. Any documents requested by a university official must be provided within the given deadline.

c. Should the Organizations Board feel that the organization does not meet the requirements for continued registration, the coordinator of organizations will provide the necessary information to the student representatives and the organization advisor. Copies of this information will also be filed in the coordinator’s office. The organization may then request through the coordinator a meeting with the Organizations Board to appeal the decision. The coordinator will assist in making provision for the group to continue to use university facilities for a designated period of time.
4.4 Administrative Discipline.
   a. Any member of the university community may file a complaint against a registered student organization when he or she feels that the organization has failed to comply with the Rights and Responsibilities of Student Organizations. The complaint may be registered with the coordinator of organizations, the Dean of Students or his/her designate the vice president for student services or designated appointee. If the vice president for student services or designated appointee investigates the complaint, the results will be reported to the Dean of Students’ Office. The Dean of Students’ may hear the case or refer it to the coordinator of organizations. If the incident is referred the coordinator of organizations will convene the Student Organizations Board who will determine the validity of the complaint by a two-thirds vote with all members voting. In the event that such a complaint is deemed valid, the coordinator will notify the organization in writing of the charge against it and will set up a hearing before the board.
   b. The organization’s hearing before the Student Organizations Board is informal and within fair and properly established procedures of due process. It provides a hearing for the organization’s president, the faculty/staff advisor, persons who committed the alleged violation, witnesses, charges, defenses, rebuttal evidence, and arguments. The discipline committee shall consist of the organizations board and the Director of Student Activities. At the conclusion of the hearing, the committee shall deliberate in private to determine if the group is responsible for any violation(s) of the Rights and Responsibilities of Student Organizations, and may dismiss the charges or take any of the action outlined in Section 5.2e. The organization shall be informed in writing, within 3 class days, of the decision by the organizations coordinator, and a copy of the decision shall be made a part of the organization’s file in the office of the coordinator. The decision of the board is final.

Sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature.

Sexual Harassment is not limited to conduct occurring in the workplace. It can also occur in educational programs, activities, or events that are sponsored by the university, or in connection with the operation of the university, and that are conducted at off-campus sites.

Sexual Harassment is prohibited by the Texas Education Code and the university's policies and procedures. The university takes sexual harassment complaints seriously and will investigate and take appropriate action against anyone found to have engaged in sexual harassment.

The university’s policies and procedures regarding sexual harassment are designed to ensure a safe and respectful environment for all members of the university community. If you believe you have experienced sexual harassment, you should report it to the appropriate authorities. The university provides resources and support to help individuals who have experienced sexual harassment.

If you have any questions or concerns about sexual harassment, please contact the university's Title IX Coordinator. The university is committed to providing a safe and respectful learning environment for all members of the community.

Sexual Harassment Complaint Procedure.

The university’s procedures for handling sexual harassment complaints are outlined in the university's policies and procedures. If you believe you have experienced sexual harassment, you should report it as soon as possible. The university will conduct an investigation and take appropriate action against anyone found to have engaged in sexual harassment.
to maintain the confidentiality of the identity of those involved to the extent possible.

1. How to report sexual assault at SHSU:

A student who chooses to make a complaint through the University’s internal disciplinary proceedings must make a report to one of the University’s designated Sexual Assault Officers. These Officers are located in the Dean of Students’ Office.

2. What happens once a complaint is made:

The Office of Judicial Affairs will investigate the allegation. This will require interviews with the victim and the alleged assailant. In some circumstances, interviews with other persons who have knowledge of the circumstances surrounding the alleged incident may also be conducted. Whenever possible, the Sexual Assault Officer will not reveal the identity of the victim during the investigative process. In any event, the Sexual Assault Officer will not reveal the identity of the victim without the victim’s consent.

What to do if you are accused of sexual assault:

A. Take the allegation seriously.
B. You may wish to consult an attorney, especially if a criminal complaint has or may be filed with the local police.

SEXUAL HARASSMENT

It is the policy of Sam Houston State University to review and resolve complaints of sexual harassment by any member of the university community, including faculty, staff, students, or visitors. Sexual harassment is a form of sex discrimination and will be treated as such by the university. Sexual harassment occurs when any person, regardless of gender, is the recipient of unwelcome sexual advances, unwelcome requests of sexual favors, or other unwelcome verbal, visual or physical conduct of a sexual nature.

Quid pro quo harassment occurs when submission to sexually harassing conduct (as stated above) is made either explicitly or implicitly a term or condition of an individual’s education or employment, or when submission to or rejection of such conduct by an individual is used as a basis for academic or employment decisions affecting the individual’s education or employment. Quid pro quo harassment is equally unlawful whether the studentresists and suffers the threatened harm or submits and thus avoids the threatened harm.

Hostile environment sexual harassment occurs when sexually harassing conduct (as stated above) is sufficiently severe, persistent, or pervasive to limit a student’s ability to participate in or benefit from an education program or activity, or creates an intimidating, hostile, offensive or demeaning education or work environment.

Each supervisor has a responsibility to maintain the workplace free of all sex discrimination, including sexual harassment. This duty includes discussing this policy with all employees plus assuring students that they are not to endure sexual harassment from university employees or other students. Allegations of sex discrimination will be given immediate attention, and the person charging harassment may do so without fear of retaliation or reprisal. However, false accusations may result in disciplinary action up to and including termination.

Students wishing information and/or consultation concerning sexual harassment may obtain a complete unabridged copy of this policy (which is contained in the Administrative Policies and Procedures Manual in the Newton Gresham Library) or contact the Dean of Students’ Office.
STUDENT RESIGNATION POLICY

1. PURPOSE
   To establish a standard procedure for the processing of student resignations from the University.

2. DEFINITION
   Resignation refers to a situation in which a student withdraws from all classes in which he/she is enrolled at the University.

3. GUIDELINES
   3.01 If a student resigns from the 1st class day through the 12th class day (4th class day in the summer), no record of the resignation will appear on the student’s academic record.
   3.02 If a student resigns after the 12th class day (4th class day in the summer) and prior to taking any final examination, a record of the resignation will appear on the student’s academic record with a mark of “W.”
   3.03 To resign (officially withdraw) from the University, a student must either report to the Registrar’s Office to complete a Resignation Request or use the online resignation form.
   3.04 The resignation becomes effective on the date the form is received by the Registrar’s Office. This date will be used for determining any eligible refund.
   3.05 The Refund Policy of the University is directed by the Texas Education Code, Section 54.006.

4. REQUEST TO WITHDRAW AFTER DEADLINE BASED ON EXTENUATING CIRCUMSTANCES
   4.01 A resignation request after the deadline will be considered where, in the University’s judgment, the student has demonstrated extenuating circumstances such as incapacity due to a significant personal injury or to an injury and/or illness requiring an extensive period of recuperation; a significant personal emergency; or inability to contact the University by the deadline because of a medical or personal emergency.
   4.02 The student will need to make this request in writing to the academic dean of the major field of study.
   4.03 Written verification of emergency must be provided by a physician, hospital, etc. Death in the immediate family may be verified by an obituary notice or a memorial folder.
   4.04 The student will be notified of the dean’s decision.
   4.05 The student may appeal the dean’s decision to the Office of the Provost and Vice President for Academic Affairs.

TUITION REBATES FOR CERTAIN UNDERGRADUATES

(a) A qualified student is eligible for a rebate of a portion of the undergraduate tuition the student has paid if the student:
   (1) is awarded a baccalaureate degree from a general academic teaching institution within the period prescribed by Section 56.462(1)(A) or (B), as applicable, to qualify for forgiveness of a Texas B-On-time loan; and
   (2) has attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree, including:
       (A) transfer credits; and
       (B) course credit earned exclusively by examination, except that, for purposes of this subsection, only the number of semester credit hours earned exclusively by examination in excess of nine semester credit hours is treated as hours attempted.
   (b) The amount of tuition to be rebated to a student under this section is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution of higher education awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is an amount equal to the amount of undergraduate tuition paid by the student to the institution.
However, a student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other institutions of higher education by providing the institution with proof of the total amount of that tuition paid to other institutions of higher education.

(c) A student who has transferred from another institution of higher education shall provide the institution awarding the degree an official transcript from each institution attended by the student in order that the period during which the student has been enrolled in a general academic teaching institution and the total number of hours attempted by the student can be verified.

(d) To qualify for a rebate under this section, the student must have been a resident of this state and entitled to pay tuition at the rate provided by this chapter for a resident student at all times while pursuing the degree.

(e) All institutions of higher education shall notify each first-time freshman student of the tuition rebate program.

(f) The institution awarding the degree shall pay the rebate under this section from local funds.

(g) If a student entitled to a rebate under this section has an outstanding student loan, including an emergency loan, owed or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation, the institution shall apply the amount of the rebate to the student’s loan. If a student has more than one outstanding loan, the institution shall apply the amount of the rebate to the loans as directed by the student or, if the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to the loans according to priorities established by the coordinating board. If the amount of the rebate exceeds the amount of the loan indebtedness, the institution shall pay the student the excess amount.

(h) The legislature shall account in the General Appropriations Act for the rebates authorized by this section in a way that provides a corresponding increase in the general revenue funds appropriated to the institution. It is the intent of the legislature that rebates authorized by this section shall be financed by savings to the state resulting from reductions in the number of courses taken by undergraduate students.

(i) The coordinating board, in consultation with the institutions of higher education, shall adopt rules for the administration of this section, including a rule to allow an otherwise eligible student to receive a rebate under this section if the student is not awarded a baccalaureate degree within the period required by Subsection (a)(1) solely as a result of a hardship or other good cause. The performance of active duty military service by a student shall be recognized as “good cause” for purposes of this section.

Sam Houston State University provides this report to comply with the Students Right To Know and Campus Security Act of 1990. Sam Houston State University is a state-assisted institution of higher education located in Huntsville, Texas. The campus, including its agriculture facilities, consists of approximately 225 acres in and outside the city of Huntsville, Texas, which has a population of approximately 35,000. The university enrolls approximately 15,000 students supported by 1,500 faculty and staff.
STUDENT RIGHT TO KNOW

The Student Right to Know and Campus Security Act, in Section 103, Title I requires institutions to provide information about the completion or graduation rate of degree seeking, full time undergraduate students entering the institution. In place of completion or graduation rates, institutions may elect to publish the percentage of students in each entering class who re-enroll each successive year until completion or graduation. These are called persistence rates. SHSU has elected to provide both forms of information.

The persistence rates for first time freshmen who entered Sam Houston State University in summer or fall semester and also who were enrolled for 12 or more hours of credit during their first fall semester are reflected in this table.

DISCLOSURE OF CAMPUS SECURITY POLICY AND CAMPUS CRIME STATISTICS

Title II, § 204(A-I), Crime Awareness and Campus Security Act, provides for disclosure of the following:

Reporting Crimes and Emergencies

[§ 204(A)] All criminal offenses that occur on campus should be reported to the University Police Department immediately. The Sam Houston State University Police is operational twenty-four hours a day, year around. University Police is housed on campus. You have easy access either by telephone, (936) 294-1794, or by going to the University Police Building, Sam South, located at 843 South Sam Houston Avenue. This location is clearly marked on university campus maps. University Police officers are licensed police officers and are trained to respond to criminal actions or other emergencies that may occur on campus. All University Police reports are entered into computers and are printed on approved standard forms for criminal offense. A copy of every University Police offense report is forwarded to the Dean of Students’ Office.

Emergency Call Boxes and Telephones

The university currently has sixteen emergency free standing call boxes located at strategic locations on campus. In addition, most residence halls have emergency telephone boxes outside the main entrance to the halls. The call boxes allow direct communication with the police department and provide a rapid means for reporting emergencies and crimes, in addition to requesting police assistance. University telephones, after punching “9” for an outside line, may be used to dial 911 (i.e., 9,911).

Access to Campus Facilities

[§ 204(B)] Section 51.209 of the Texas Educational Code states “The governing board of a state institution of higher education or it’s authorized representatives may
refuse to allow persons having no legiti-
mate business to enter on property under the
board’s control, and may eject any unauthor-
ized person from the property on his refusal
to leave peaceably on request. Identifica-
tion may be required of any person on the
property.” It is advised that members of the
university community should have their uni-
versity issued identification card with them
at all times. The Sam Houston State Univer-
sity Police have been vested with the above
authority by the Board of Regents.

Patrol of Campus, Student Patrol, & Hall
Safety Personnel
Uniformed University Police officers pa-
trol the campus area 24 hours each day in
marked police units with a superior police
radio system. In addition, during the day,
uniformed student parking control personnel
are on patrol in the parking areas; each
person is issued a two-way radio for con-
tact within the university police system. In
the evening and early morning hours there
are uniformed student foot patrol personnel
patrolling the main campus who will pro-
vide escort service to anyone whom may
be concerned with their safety. The univer-
sity assigns housing safety personnel to each
housing facility to unlock the entry for the
residents. The housing units are locked from
11:00 p.m. - 7:00 a.m., except on Saturday
when the buildings are locked at 1:00 a.m.
ResidentS must have a key or be admitted by
the housing safety personnel on duty. House-
ing managers and residents assistants are on
duty in the Housing Units.

Electronic Alarm System
The University Police monitor a com-
prehensive system of intrusion and fire alarms.

Operation Identification
The University Police may provide, on
loan, engravers for engraving driver’s li-
cense numbers onto high-value items to de-
ter theft.

Surveys
The University Police conduct surveys of
security and safety of buildings throughout
the year, an annual lighting survey of the
campus, and an annual survey to see that
shrubbery, trees and vegetation are properly
trimmed.

Crime Victims Assistance
The SHSU Crisis Team is available to as-
sist crime victims and family members in
dealing with the emotional and psychologi-
cal aftermath of violent crime.

Emergency Physical Plant Services
The Physical Plant has an emergency after
normal hours call out policy for maintenance
and repair for educational and non-residence
buildings on campus. These calls are re-
ceived and processed through the University
Police dispatcher. In residence halls, the hall
director will determine if the physical plant
personnel should handle the emergency. The
responding physical plant personnel shall
sign in at the University Police Department.
In most cases this should be before respond-
ing to the emergency call. However, if this
would cause an unnecessary delay resulting
in further damages, injuries, losses, etc., the
craftsmen may log in at the University Police
upon completion of the emergency work.
Every craftsman who is called out will log
his or her arrival and exit times with the Uni-
versity Police. A call-out sheet is provided to
the University Police for the purpose of log-
ning all information regarding an emergency
call-out. Physical Plant personnel will at all
times, while on duty wear their photo iden-
tification badge in a manner that it is plainly
visible to others.

Law Enforcement Authority
[§ 204(C)(i)] University Police officers
have full law enforcement authority on prop-
erty owned and controlled by the university,
including streets contiguous to and running
through the campus. University Police of-
ficers are licensed “Peace Officers” by the
state of Texas. University Police officers are
authorized by State statute to enforce federal
and state laws within their jurisdiction, in
addition to rules and regulations issued by
the Board of Regents of Sam Houston State
University on property under the control and
jurisdiction of Sam Houston State Univer-
sity. Under Section 51.203, Texas Education
Code; Campus Peace Officers, states in part,
“The governing boards of each state institu-
tion of higher education and public technical
institute may employ and commission peace
officers for the purpose of carrying out the
provisions of this subchapter. The primary
jurisdiction of a peace officer commissioned
under this section includes all counties in
which property is owned, leased, rented, or
otherwise under the control of the institution
of higher education or technical institute that
employs the peace officer or otherwise in the
performance of their duties.”

The University Police enjoy a good work-
ing relationship with federal, state, local, city
and county law enforcement authorities. The
University Police Department’s working re-
lationship with other area law enforcement
agencies ensures that crimes and alcohol
violations at these off-campus sites may be
reported to the University Police.

Code of Conduct Requirement
[§ 204(C)(ii)] Sam Houston State Univer-
sity’s Code of Student Conduct and Disci-
pline 5.1, Acquaintance with Policies, Rules,
and Regulations, states the following: Each
student is expected to be fully acquainted
with all published policies, rules, and regula-
tions of the university, copies of which shall
be available to each student for review in a
specific place on each campus. The univer-
sity will hold each student responsible for
compliance with these policies, rules, and
regulations. Students are also expected to
comply with all federal and state laws. THIS
PRINCIPLE EXTENDS TO CONDUCT
OFF CAMPUS WHICH IS LIKELY TO
HAVE AN ADVERSE EFFECT ON THE
UNIVERSITY OR ON THE EDUCATION-
AL PROCESS.

Rights and Responsibilities on Campus

Students, faculty, staff, and visitors are
expected to maintain standards of personal
discipline that are in harmony with the edu-
cational goals of Sam Houston State Uni-
versity, to observe federal, state, and local
laws, university rules and regulations, and
to respect the rights, privileges, and property
of others. Students, staff, and faculty are en-
couraged to give accurate information to the
University Police when reporting crimes, as
The Texas Penal Code, Chapter 37., Section
37.08. False Report to Peace Officer, states:
(a) A person commits an offense if he: (1)
reports to a peace officer an offense or inci-
dent within the officer’s concern, knowing
that the offense or incident did not occur; or
(2) makes a report to a peace officer relating
to an offense or incident within the officer’s
concern knowing that he has no informa-
tion relating to the offense or incident. An
offense under this section is a Class B mis-
demeanor.

Filing a false report to the University Po-
lice could place a student in violation of the
Code of Student Conduct and Discipline,
under section 5.2, (1). The University Po-
lice may request a copy of an offense report
from any law enforcement agency, if such
report reflects conduct of a student which
is deemed to have an adverse effect on Sam
Houston State University or the educational
process. The University Police may forward
a report regarding such incident to the Dean
of Students’ Office.

Security Awareness and Presentations
[§ 204(D)] An example of the type of in-
formation given to students during each se-
semester is provided below. This information
is presented by the Residence Life Depart-
ment during their housing unit group meet-
ings with residents. Officers meeting with
students on campus supply this information
also. This type information is also published
in the campus newspaper. Dean of Students
personnel also discuss this information at all
orientation sessions for new students.
Crime Prevention on Campus

If a crime is to be committed, the offender must have the desire, ability, and opportunity to commit the crime. Law enforcement can do little to remove the offender’s desire and ability to commit crimes, but together WE can remove the element of opportunity. THIS IS CRIME PREVENTION. Together we can remove the temptation of opportunity by taking a few simple precautions.

Protect Your Property:
1. Lock your residence every time you leave, even for a short time. This includes your motor vehicle.
2. Do not leave valuables lying out in the open or in unlocked vehicles.
3. Engrave your driver’s license number on all valuable property.
4. Record the serial numbers and brand names of all property of value.

Protect Yourself:
1. Lock your doors when you take a nap or retire for the evening. Do not block open entry doors to residence halls after hours.
2. Require identification before admitting someone unfamiliar into your residence or your vehicle.
3. Avoid walking alone at night, if possible, and stay on lighted routes.
4. Report suspicious persons or circumstances. This could stop a crime before it happens. You may offer confidential assistance to the University Police directly or through the Dean of Students’ Office.

Crime prevention is important to the campus community and you can help by reporting any crime or suspected crime to your University Police immediately. By doing so, you may be preventing someone from becoming a victim of a serious crime.

Crime Prevention Programs and Other Law Enforcement Interaction

[§ 204(E)] Throughout the academic year there will be group programs and individual counseling on crime prevention presented by the University Police, Huntsville Police, the local Sheriff’s Department, Residence Life, and the Dean of Students’ Office. There are also programs given by the College of Criminal Justice.

Disseminating Information on Campus Crime

The university has taken measures to ensure that the university community is fully aware of campus crime. These measures include:

**Media Relations:** Public Information prepares news release on crimes for distribution to campus and Huntsville news media or U.P.D. web page at www.shsu.edu/~upd_www/.

**University Newspaper:** The Houstonian carries stories on serious criminal offenses.

**Crime Stoppers:** Huntsville Police, working with the University Police, develop Crime Stopper information for local news media.

Monitoring of Criminal Activity

[§ 204(G)] The Dean of Students’ Office attempts to monitor any criminal activity of off-campus student organizations which are recognized by the institution and that are engaged in by students attending the institution, including those student organizations with off-campus housing facilities. Refer to university’s Code of Student Conduct and Discipline 5.1, which states in part, Students are also expected to comply with all federal and state laws. THIS PRINCIPLE EXTENDS TO CONDUCT OFF CAMPUS WHICH IS LIKELY TO HAVE AN ADVERSE EFFECT ON THE UNIVERSITY OR ON THE EDUCATIONAL PROCESS.

Nonviolent Crimes Reported, Sam Houston State University Campus

Under Texas Penal Code § 46.03 “Places Weapons Prohibited,” it is a FELONY OFFENSE to go on a school or educational institution with a firearm.

STANDARDS OF CONDUCT

Section 5.9 (20) of Chapter VI of the Rules and Regulations of the Board of Regents, Texas State University System provides for disciplinary action against any student who engages in conduct that is prohibited by state, federal, or local law and for illegal use and for unauthorized use of intoxicating beverages, and illegal use of any drug, narcotic or controlled substance.

A student who, by a preponderance of the evidence, under these Rules and Regulations, is found to have illegally possessed, used, sold or distributed any drug, narcotic, or controlled substance, whether the infraction is found to have occurred on or off campus, shall be subject to discipline, ranging from mandatory, university or college approved counseling to expulsion. Mitigating or aggravating factors in assessing the proper level of discipline shall include, but not necessarily be limited to, the student’s motive for engaging in the behavior; disciplinary history; effect of the behavior on safety and security of the university or college community; and the likelihood that the behavior will recur. A student who has been suspended, dismissed, probated or expelled from any system component shall be ineligible to enroll at any other system component during the applicable period of discipline. The registrar of each component is authorized to make an appropriate notation on the student’s transcript to accomplish this objective and to remove the notation when the student’s disciplinary record has been cleared. A second infraction for a drug-related offense shall result in permanent expulsion from the component and from all other institutions in The Texas State University System.

The Sam Houston State University Drug-Free Work Place Policy (ER-10), which became effective March 1989, prohibits the unlawful use, possession, or distribution of illicit drugs and alcohol by employees. University employees who violate this prohibition are subject to the sanctions set out in the policy, including possible discharge.

HEALTH RISKS OF ALCOHOL AND DRUGS

Alcohol

Alcohol consumption causes a number of marked changes in behavior. Even low amounts significantly impair the judgment and coordination required to drive a car safely. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts. Moderate to high levels of alcohol cause marked impairments in higher mental functions, severely altering a person’s ability to learn and remember information. Very high levels cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower levels of alcohol use can lead to dependence on alcohol. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long term consumption of large quantities of alcohol can lead to permanent damage to vital organs such as the brain and the liver. Prolonged alcohol abuse causes bleeding from the intestinal tract, damage to nerves and the brain, psychotic behavior, loss of memory and coordination, damage to the liver often resulting in cirrhosis, impotence, severe inflammation of the pancreas, and damage to the bone marrow, heart, testes, ovaries, and muscles. Damage to the nerves and organs is usually irreversible. Cancer is the second leading cause of death in alcoholics and is 10 times more frequent than in non-alcoholics. Females who drink during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic
parents are at a greater risk than other children of becoming alcoholics.

**Tobacco (Nicotine)**

The smoking of tobacco products is the chief avoidable cause of death in our society. Smokers are more likely than nonsmokers to contract heart disease. Some 30 percent of cancer deaths are linked to smoking. Chronic obstructive lung diseases such as emphysema and chronic bronchitis are 10 times more likely to occur among smokers than among nonsmokers. Smoking during pregnancy poses serious risks such as spontaneous abortion, preterm birth, low birth weights, and fetal and infant deaths. Because nicotine is highly addictive, addicts find it very difficult to stop smoking. Fewer than 20 percent of typical smokers succeed in stopping on the first try.

**Designer Drugs**

Illegal drugs are defined in terms of their chemical formulas. To circumvent these legal restrictions, underground chemists modify the molecular structure of certain illegal drugs to produce analogs known as designer drugs. These drugs can be several hundred times stronger than the drugs they are designed to imitate. Many of the so-called designer drugs are related to amphetamines (MDMA, X, speed). Bootleg manufacture creates overdose and contamination risks. These substances can produce severe neurochemical damage to the brain. The narcotic analogs (fentanyl, China white) can cause symptoms such as those seen in Parkinson’s disease: uncontrollable tremors, drooling, impaired speech, paralysis, and irreversible brain damage. Analogs of amphetamines and methamphetamines cause nausea, blurred vision, chills or sweating, and faintness. Psychological effects include anxiety, depression and paranoia. As little as one dose can cause brain damage. The analogs of phencyclidine cause illusions, hallucinations, and impaired perception.

**Cocaine**

Cocaine stimulates the central nervous system. The use of cocaine can cause death by cardiac arrest or respiratory failure. Its immediate effects include dilated pupils and elevated blood pressure, heart rate, respiratory rate, and body temperature. Occasional use can cause a stuffy or runny nose, while chronic use can ulcerate the mucous membrane of the nose. Injecting cocaine with contaminated equipment can increase the risk of AIDS, hepatitis, and other diseases. Cocaine can produce psychological and physical dependency, a feeling that the user cannot function without the drug. In addition, tolerance develops rapidly. Crack or freebase rock is extremely addictive, and its effects are felt within ten seconds. The physical effects include dilated pupils, increases pulse rate, elevated blood pressure, insomnia, loss of appetite, tactile hallucinations, paranoia, and seizures.

**Other Stimulants**

Stimulants can cause increased heart and respiratory rates, elevated blood pressure, dilated pupils, and decreased appetite. In addition, users may experience sweating, headaches, blurred vision, dizziness, sleeplessness, and anxiety. Extremely high doses can cause a rapid or irregular heartbeat, tremors, loss of coordination, and even physical collapse. An amphetamine injection creates a sudden increase in blood pressure that can result in stroke, very high fever, or heart failure. In addition to the physical effects, users report feeling restless, anxious and moody. Higher doses intensify the effects. Persons who use large amounts of amphetamines over a long period of time can develop an amphetamine psychosis that includes hallucinations, delusions and paranoia.

**Anabolic Steroids**

Anabolic steroids are a group of powerful compounds closely related to the male sex hormone testosterone. Steroid users subject themselves to more than 70 side ef-
Effects ranging in severity from liver cancer to acne, as well as psychological as well as physical reactions. The liver and cardiovascular and reproductive systems are most seriously affected by steroid use. In males, use can cause withered testicles, sterility, and impotence. In females, irreversible masculine traits can develop along with breast reduction and sterility. Psychological effects include very aggressive behavior known as “roid rage” and depression. While some side effects appear quickly, others, such as heart attacks and strokes, may not show up for years.

**Hallucinogens or Psychedelics**

Lysergic Acid (LSD), mescaline, peyote, and phencyclidine (PCP or “angel dust”) cause illusions and hallucinations, and their use impairs and distorts one’s perception of surroundings, causes bizarre mood changes and results in visual hallucinations that involve geometric forms, colors, and persons or objects. The physical effects may include dilated pupils, elevated body temperatures, increased heart rate and blood pressure, loss of appetite, sleeplessness, and tremors. It is common to have bad psychological reactions to LSD, mescaline, and psilocybin. The user may experience panic, persistent memory problems, and speech difficulties. Users who discontinue use experience “flashback” consisting of distortions of virtually any sensation for long periods after discontinued use. Mood disorders, such as depression, anxiety and violent behavior, also occur. In later stages of chronic use, users often exhibit paranoid and violent behavior. Large doses may produce convulsions and coma, as well as heart and lung failure. Withdrawal may require psychiatric treatment for the accompanying persistent psychotic states. Suicide is not uncommon.

**Solvent Inhalants, e.g., Glue, Lacquers, Plastic Cement**

The immediate negative effects of inhalants include nausea, sneezing, coughing, nosebleeds, fatigue, lack of coordination, and loss of appetite. Solvents and aerosol sprays also decrease the heart and respiratory rates and impair judgement. Amyl and butyl nitrite cause rapid pulse, headaches, and involuntary passing of urine and feces. Long term use may result in hepatitis or brain damage. Deeply inhaling the vapors, or using large amounts over a short time, may result in disorientation, violent behavior, unconsciousness, or death. High concentrations of inhalants can cause suffocation by displacing the oxygen in the lungs or by depressing the central nervous system to the point that breathing stops. Long term use can cause weight loss, fatigue, electrolyte imbalance, and muscle fatigue. Repeated sniffing of concentrated vapors over time can permanently damage the nervous system. Fumes from these substances cause problems similar to alcohol. Incidents of hallucinations and permanent brain damage are more frequent.

**Marijuana (Cannabis)**

All forms of cannabis have negative physical and mental effects. Use of cannabis may impair or reduce short-term memory and comprehension, alter sense of time and reduce ability to perform tasks requiring concentration and coordination, such as driving a car. Research also shows that students do not retain knowledge when they are “high.” Motivation and cognition may be altered, making the acquisition of new information difficult. Marijuana can also produce paranoia and psychosis. Because users often inhale the unfiltered smoke deeply and then hold it in their lungs as long as possible, marijuana is damaging to the lungs and pulmonary system. Marijuana smoke contains more cancer causing agents than tobacco smoke. Long term users of cannabis may develop psychological dependence and require more of the drug to get the same effect. The drug can become the center of their lives.
Narcotics
Narcotics initially produce a feeling of euphoria that often is followed by drowsiness, nausea, and vomiting. Users may experience constricted pupils, watery eyes, and itching. An overdose may produce slow and shallow breathing, clammy skin, convulsions, coma, and possible death. Tolerance to narcotics develops rapidly and dependence is likely. The use of contaminated syringes may increase the risk of such diseases as AIDS, endocarditis, and hepatitis. Addiction in pregnant women can lead to premature, stillborn, or addicted infants who experience severe withdrawal symptoms.

UNIVERSITY PENALTIES

Students
The university will impose a minimum disciplinary penalty of suspension for a specified period of time or suspension of rights and privileges, or both, for conduct related to the use, possession, or distribution of drugs that are prohibited by state, federal, or local law. Other penalties that may be imposed for conduct related to the unlawful use, possession, or distribution of drugs or alcohol include disciplinary probation, payment for damage to or misappropriation of property, suspension of rights and privileges, suspension for a specified period of time, expulsion, or such other penalty as may be deemed appropriate under the circumstances.

Employees
The unlawful use, possession, or distribution of drugs or alcohol will result in a disciplinary penalty of disciplinary probation, demotion, suspension without pay, or termination, depending upon the circumstances.

Although Sam Houston State University does not have mandatory immunization requirements at this time, we encourage all students entering the university to check immunization records to ensure that they have met all of the minimum requirements for these immunizations.

Measles (Rubella, Red Measles, Hard Measles, 10-Day Measles)

Measles is a highly contagious viral disease. Antibiotics are not available to treat persons infected with this organism. Recent outbreaks of this illness have resulted in hospitalization and some deaths among college-aged persons. For these reasons it is strongly recommended that students in Texas have two doses of the vaccine prior to entering college. Most young adults have had only one dose. The measles vaccine is most often given in combination with the vaccines for mumps and rubella, which are also caused by viruses. This combination vaccine is referred to as MMR (Measles, Mumps, and Rubella).

Tetanus (Lockjaw)

The illness caused by tetanus results from the poison produced by bacteria. Again, this is a very difficult illness to treat once it occurs and prevention is the most appropriate choice. The vaccine is effective for about 10 years and needs to be boosted at that interval. The tetanus vaccine should be given in combination with the diphtheria vaccine.

Poliomyelitis (Polio)

In the United States, polio immunization is not routinely recommended for people 8 years of age or older. However, if travel to other parts of the world is planned, a physician should be contacted for specific recommendations.

Tuberculosis (TB)

Due to the reappearance of tuberculosis as a major public health issue in the United States and particularly Texas, it is recommended that all students have a yearly Mantoux skin test to assure that they are free of the disease. Main symptoms are persistent heavy cough, cough with sputum or blood, fatigue, distressed breathing, fever, or weight loss. Students doing observation, volunteer work, field placement, student teaching, or employment in a Texas school district, correctional facility or medical facility will be required to have a negative TB test before entering some placement sites.

Varicella (Chickenpox)

Varicella is a highly contagious virus of the herpes family that is spread by coughing and sneezing. The symptoms include a skin rash of blister-like lesions, usually on the face, scalp, or trunk with an increased potential for serious complications in children 13 or older and adults.

Hepatitis B

Hepatitis B is caused by a virus that attacks the liver. It is spread by exposure to contaminated blood or body fluids. This virus (HBV) can cause lifelong infection, cirrhosis of the liver, liver cancer, liver failure, and death. HBV is spread when blood from an infected person enters the body of a person who is not infected. Hepatitis B vaccine is available for all age groups to prevent Hepatitis B virus infection.

Meningitis

Meningitis is an infection of the fluid of a person’s spinal cord and the fluid that surrounds the brain. People sometimes refer to it as spinal meningitis. Meningitis is caused by a viral or bacterial infection. Viral meningitis is generally less severe and resolves without specific treatment, while bacterial meningitis can be quite severe and may result in brain damage, hearing loss, learning disability, or even death. Bacterial meningitis is spread through the exchange of respiratory and throat secretions (i.e., coughing, kissing).

Symptoms may include high fever, headache, and stiff neck, causea, vomiting, discomfort looking into bright lights, confusion, and sleepiness. Early diagnosis and treatment are very important. If symptoms occur, the patient should see a doctor immediately. There are vaccines against some types of meningitis. The vaccine is recommended for college students, particularly freshmen residing in residence halls.

Influenza

The flu is a contagious respiratory illness caused by influenza viruses. It can cause mild to severe illness, and at times can lead to death. Symptoms of flu include fever, headache, extreme tiredness, dry cough, sore throat, runny or stuffy nose, and muscle aches. The best way to prevent this illness is by getting a flu vaccination each fall.

Vaccine Availability

The Health Center can provide most of these immunizations and tests at a reduced rate. For more information on immunizations contact the University Health Center at 294-1805.

The absence of mandatory immunization requirements at Sam Houston State University is, by no means, an indication of their importance. On the contrary, immunization can mean the difference between life and death. Students are strongly encouraged to review their immunization records to ensure they have received the following vaccines recommended by the American College Health Association (ACHA).
The table below is the Texas Board of Health immunization requirement for any student doing an internship in a health care facility of any kind as part of their educational program. These Allied Health students must have the following immunizations prior to their entering the health care facility. These immunizations are not required at this time for the general student population of Sam Houston State University. However, each student at Sam Houston State University is urged to use this table to determine their individual immunity to the diseases below. If you do not meet each of the criteria in the “Schedule for Immunization,” we recommend that you update your immunizations immediately.

UNDERSTANDING AND PREVENTING HIV/AIDS INFECTION

You may be among the increasing number of people who are worried about AIDS. Although there is cause for concern, the fact is you have more control over this deadly disease than you may realize. AIDS stands for Acquired Immune Deficiency Syndrome. It is caused by a virus (HIV VIRUS) that attacks the body’s immune system. As the immune system becomes weaker, the body becomes more vulnerable to infections, pneumonia, and cancer. Eventually, a person becomes overwhelmed by these diseases and dies.

The HIV virus is transmitted through blood, semen, and vaginal fluids. During sexual relations it enters the body through the vagina, penis, mouth, rectum, or through a needle puncture during injectable drug use. In very remote cases, infection occurs through blood transfusions. It may also be transmitted from an infected mother to her child during pregnancy, birth, or breast-feeding. The virus is transmitted from male to male, female to male, and male to female. It is not transmittable by everyday casual contact with a person who is infected. There is currently no known cure once infected with the HIV virus. It is estimated that well over one million Americans have the HIV virus. Your behavior determines the degree of risk that you run in becoming infected.

Maintain control of your own sexual behavior

Sexual abstinence is the only foolproof way of avoiding HIV infection. Abstinence until marriage is still very acceptable, even if some of your peers say otherwise. We strongly urge that this be the choice of all students.

However, we know that some students will not follow this advice and choose to be sexually active. If you are active, be responsible. Limit the number of sexual partners. There is a lot to be said for a monogamous relationship. Do not exert pressure upon a significant person in your life, nor allow yourself to be pressured, to engage in any activity with which you/they are uncomfortable. THINK OF THE CONSEQUENCES OF YOUR ACTIONS!

Use protection

Always use protection if you are sexually active. Proper use of latex condoms containing spermicide lowers the risk of transmission of HIV and other sexually transmitted diseases. However, they do not eliminate the risk entirely.

Avoid all drugs

Alcohol and other drugs affect your judgment and reduce your inhibitions, leaving you vulnerable to behaviors that you may not otherwise engage in.

You can Prevent Yourself from Becoming Infected!

For further information and HIV antibody testing, contact the Health Center at 294-1805.
