DUAL ENROLLMENT

An undergraduate student may be enrolled in graduate coursework for graduate credit if the student:

- is in the graduating semester; and
- has applied for graduation; and
- has submitted an application for graduate study for the following semester following his/her graduation; and
- meets the appropriate entrance examination requirements; and
- has at least a 3.0 GPA for the last three semesters of coursework.

The student must complete undergraduate work and obtain the bachelor's degree during the first semester or summer session of dual enrollment.

Upon admission to graduate studies, an undergraduate student may enroll in a graduate course for graduate credit only with the written approval of the appropriate academic dean.

The combined undergraduate and graduate course load shall not exceed fifteen semester hours in a fall or spring semester or nine semester hours in a summer semester. Neither graduate nor undergraduate course may simultaneously count toward a graduate and undergraduate degree.
