Sec. 51.003. DEPOSITORIES. (a) The governing board of each institution may select one or more depositories as places of deposit for the funds enumerated in Section 51.002 of this code. Depositories shall be selected on the basis of competitive bids. (c) If a governing board has under its control at least $25 million in book value of endowment funds, such governing board may invest all funds described in this section under prudent person standards.

(d) As used in this section, "prudent person standard" is the standard of care described in Article VII, Section 11b, of the Texas Constitution, and means that standard of judgment and care that prudent investors, exercising reasonable care, skill, and caution, would acquire or retain in light of the purposes, terms, distribution requirements, and other circumstances of the fund then prevailing, taking into consideration the investment of all the assets of the fund rather than a single investment.

Sec. 51.0032. INVESTMENT REPORTS AND POLICIES. (a) A governing board shall adopt by rule or resolution a written investment policy for the investment of its institutional funds.

(b) Not less than quarterly, an institution of higher education shall prepare and submit to the governing board of the institution a written report of the institution's institutional funds investment transactions for the preceding reporting period.

(c) In addition to other information that may be required by the governing board, the report must contain:

   (1) a summary statement of each pooled fund group that states the beginning market value for the reporting period, additions and changes to the market value during the period, and the ending market value for the period; and
   (2) the book value and market value of each separately invested asset at the beginning and end of the reporting period by type of asset and fund type invested.

(b) All trust funds, including gifts, grants, and bequests received, establishing or adding to endowment funds, loan and scholarship funds, and funds for other current restricted purposes, shall be credited to separate accounts and shall not be commingled with other local or institutional funds.

(c) If the governing board so elects, deposits of all funds not specifically required to be deposited to special accounts may be deposited in a single bank account if the records of the institution clearly reflect the balances attributable to general funds and various categories of trust funds.

(d) Interest received from depository banks for funds on deposit may be credited to an appropriate account in either general funds or trust funds in relation to the sources of temporary investments in time deposits, if the disposition of the earnings was not specified by donor or grantor. Interest received from the trust funds time deposits shall be available for loans, scholarships, fellowships, institutional research, faculty aid, and other lawful purposes.

Sec. 51.005. REPORTS. (a) True and full accounts shall be kept by the governing board and by the employees of the institution
of all funds collected from all sources and of all sums paid out and the persons to whom and the purposes for which the sums are paid. The report shall show the true condition of all funds as of the August 31 preceding as well as the collections and expenditures for the preceding year.

A copy of the report shall be submitted to the comptroller by the deadline established by the comptroller or the General Appropriations Act as necessary to prepare an audited comprehensive financial report. The governing board shall retain five copies of the report for distribution to legislators or other state officials on request.

Sec. 51.0051. ANNUAL OPERATING BUDGETS. The governing board of each institution shall approve on or before September 1 of each year an itemized budget covering the operation of the institution for the fiscal year beginning on September 1 of each year. The budget shall be prepared within the limits of legislatively appropriated general revenue and estimated educational and general funds. The budget shall also include estimated institutional funds. Copies of each such budget shall be furnished to the Texas Higher Education Coordinating Board for distribution to the Governor's Budget and Planning Office, Legislative Budget Board, and Legislative Reference Library. Additional copies shall be delivered to the Texas Higher Education Coordinating Board as required. The governing board of the institution shall retain five copies of the budget for distribution to legislators or other state officials on request.

Sec. 51.006. FUNDS NOT TO BE USED TO INCREASE SALARIES. No part of any of the funds listed in Section 51.002 of this code shall ever be used to increase any salary beyond the sum fixed by the legislature in the general appropriations act; provided, however, that the use of such funds by an institution for this purpose may be specifically authorized by the legislature in general law or the general appropriations act.

Sec. 51.0065. APPLICABILITY OF ACROSS-THE-BOARD SALARY INCREASE. An institution of higher education that has adopted a pay-for-performance program that is in effect when an across-the-board salary increase for state employees made by an appropriation act of the legislature takes effect is entitled to receive any appropriation made for purposes of the across-the-board salary increase, and may use the amount appropriated for an across-the-board salary increase or for increases in compensation under the institution's pay-for-performance program.

Sec. 51.008. CERTAIN RECEIPTS TO BE DEPOSITED IN STATE TREASURY. (a) The governing board of every state institution of higher education is directed to designate special depository banks, subject to the approval of the comptroller, for the purpose of receiving and keeping certain receipts of the institution separate and apart from funds now deposited in the state treasury. The receipts here referred to are described in Subsection (b) of this section. The comptroller is directed to deposit the receipts, or funds representing such receipts, enumerated herein, in the special depository bank or banks nearest the institution credited with the receipts, so far as is practicable, and is authorized to withdraw such funds on drafts or checks prescribed by the comptroller. The comptroller is authorized to promulgate rules and regulations to require collateral security for the protection of such funds pursuant to the provisions of Chapter 404, Government Code. For the purpose of facilitating the clearance and collection of the receipts here enumerated, the comptroller is authorized to deposit such receipts in any state depository bank and transfer funds representing such receipts enumerated herein to the respective special depository banks. Banks so designated as special depository banks are hereby authorized to pledge their securities to protect such funds.

(b) The governing board of every state institution of higher education shall deposit in the state treasury all cash receipts accruing to any college or university under its control that may be derived from all sources except auxiliary enterprises, noninstructional services, agency, designated, and restricted funds, endowment and other gift funds, student loan funds, funds retained under Chapter 145 of this code, and Constitutional College Building Amendment funds. If the purpose of facilitating the transferring of such institutional receipts to the state treasury, each institution shall open in a local depository bank a clearing account to which it shall deposit daily all such receipts, and shall, not less often than every seven days, make remittances therefrom to the comptroller of all except $500 of the total balance in said clearing account, such remittances to be in the form of checks drawn on the clearing account by the duly authorized officers of the institution, and no disbursements other than remittances to the state treasury shall be made from such clearing account. All money so deposited in the state treasury shall be paid out on warrants drawn by the comptroller as provided by law.

(c) The legislature is authorized to create revolving funds for the handling of funds of institutions of higher education, as enumerated herein, by making provision in each biennial appropriation bill enacted by the legislature.

(d) Nothing in this section affects the provisions of Title 47, Revised Civil Statutes of Texas, 1925, usually referred to as the State Depository Law. However, the limitations contained in Article 2532, Revised Civil Statutes of Texas, 1925, as amended, shall not apply insofar as the specific funds enumerated in this section are concerned.

These funds may be only used for the support, maintenance, and operation of the institution as provided for by law. Section 403.094(h), Government Code, does not apply to funds described in this section.

Sec. 51.009. DEFINING AND ACCOUNTING FOR CERTAIN INCOME. (a) "Local funds" are the items to be accounted for as "educational and general funds" as described in Subsection (c) of this section, but do not include general revenue funds. (b) "Institutional funds" means all funds collected at the institution that are not "educational and general funds" as described in Subsection (c) of this section. (c) Each of the following shall be accounted for as educational and general funds:

(1) net tuition, special course fees charged under Sections 54.051(e) and (1), lab fees, student teaching fees, organized activity fees, proceeds from the sale of educational and general equipment, and indirect cost recovery fees; and hospital and clinic fees received by a state-owned clinical care facility that is operated using general revenue fund appropriations for patient care.

SUBCHAPTER C. FACULTY DEVELOPMENT LEAVES OF ABSENCE

Sec. 51.101. DEFINITIONS. In this subchapter:

(1) "Institution of higher education" has the meaning assigned to it in Section 61.003 of this code, except that Texas State Technical College System is included and the Rodent and Predatory Animal Control Service is excluded for the purposes of this subchapter.

(2) "Governing board" means the body charged with policy direction of an institution of higher education.

(3) "Faculty member" means a person who is employed by an institution of higher education on a full-time basis as a member of the faculty or staff and whose duties include teaching,
research, administration, including professional librarians, or the performance of professional services. However, the term does not include a person employed in a position which is in the institution's classified personnel system or a person employed in a similar type of position if the institution does not have a classified personnel system.

Sec. 51.102. LEGISLATIVE FINDINGS AND PURPOSE. The legislature finds that higher education is vitally important to the welfare, if not the survival, of Texas and the United States at this stage in history and that the quality of higher education is dependent upon the quality of college and university faculties. The legislature finds, therefore, that money spent on recognized means for producing an excellent system of public higher education is money spent to serve a public purpose of great importance. The legislature finds further that a sound program of faculty development leaves of absence designed to enable the faculty member to engage in study, research, writing, and similar projects for the purpose of adding to the knowledge available to himself, his students, his institution, and society generally is a well-recognized means for improving a state's program of public higher education. The legislature's purpose in establishing the faculty development leave program provided for by this subchapter is to improve further the higher education available to the youth at the state-supported colleges and universities and to establish this program of faculty development leaves as part of the plan of compensation for the faculty of these colleges and universities.

Sec. 51.103. GRANTING LEAVES OF ABSENCE; PROCEDURES. (a) On the application of a faculty member, the governing board of an institution of higher education may grant a faculty development leave of absence for study, research, writing, field observations, or other suitable purpose, to a faculty member if it finds that he is eligible by reason of service, that the purpose for which he seeks a faculty development leave is one for which a faculty development leave may be granted, and that granting leave to him will not place on faculty development leave a greater number of faculty members than that authorized.

(b) The governing board by regulation shall establish a procedure whereby the applications for faculty development leaves of absence are received by a committee elected by the general faculty for evaluation and whereby this faculty committee then makes recommendations to the chief administrative officer of the institution of higher education, who shall then make recommendations to the governing board as to which applications shall be granted.

Sec. 51.104. SERVICE REQUIRED. A faculty member is eligible by reason of service to be considered for a faculty development leave when he has served as a member of the faculty of the same institution of higher education for at least two consecutive academic years. This service may be as an instructor, associate, or full professor, or an equivalent rank, and must be full-time academic duty but need not include teaching.

Sec. 51.105. DURATION AND COMPENSATION. (a) The governing board may grant to a faculty member a faculty development leave either for one academic year at one-half of his regular salary or for one-half academic year at his full regular salary. Payment of salary to the faculty member on faculty development leave may be made from the funds appropriated by the legislature specifically for that purpose, or from such other funds as might be available to the institution.

(b) A faculty member on faculty development leave may accept a grant for study, research, or travel from any institution of higher education, from a charitable, religious, or educational corporation or foundation, from any business enterprise, or from any federal, state, or local governmental agency. An accounting of all grants shall be made to the governing board of the institution by the faculty member. A faculty member on faculty development

leave may not accept employment from any other person, corporation, or government, unless the governing board determines that it would be in the public interest to do so and expressly approves the employment.

Sec. 51.106. NUMBER ON LEAVE AT ONE TIME. Not more than six percent of the faculty members of any institution of higher education may be on faculty development leave at any one time.

Sec. 51.107. RIGHTS RETAINED. (a) A faculty member on faculty development leave shall continue to be a member of the Teacher Retirement System of Texas or of the Optional Retirement Program of the institution of higher education, or of both, just as any other member of the faculty on full-time duty.

(b) The institution of higher education shall cause to be deducted from the compensation paid to a member of the faculty on faculty development leave the deposit and membership dues required to be paid by him to the Teacher Retirement System of Texas or to the Optional Retirement Program, or both, the contribution for Old Age and Survivors Insurance, and any other amounts required or authorized to be deducted from the compensation paid any faculty member.

(c) A member of the faculty on faculty development leave is a faculty member for purposes of participating in the programs and of receiving the benefits made available by or through the institution of higher education or the state to faculty members.

Sec. 51.108. REGULATIONS CONCERNING ABSENCE. (a) The governing board of each college or university supported in whole or in part by state funds shall issue regulations concerning the authorized and unauthorized absence from duty of faculty members, including teaching assistants and research assistants.

(b) Each governing board shall file a copy of these regulations with the Coordinating Board, Texas College and University System. Each governing board shall file any amendment to its regulations with the coordinating board not later than 30 days after the effective date of the amendment.

Sec. 51.1521. INTERAGENCY CONTRACTS FOR NETWORKS. Any
institution of higher education may enter into an interagency contract with one or more other institutions of higher education for the establishment and operation of a telecommunications network for the transmission of audio or video signals or electronic data, but only to the extent that the telecommunications services are not available through a system of telecommunications services established for state agencies generally. Each of those interagency contracts shall be reviewed by the Texas Higher Education Coordinating Board.

Service on the board is an additional duty of employment of the chief administrative officers or the persons designated by the chief administrative officers of state-supported institutions and is not an additional position of honor, trust, or profit. The legislature finds that this service is necessary in accomplishing the purpose of this subchapter; is compatible with their employment; and will benefit the educational program of the institution and of the state.

Sec. 51.155. DIRECTOR'S EXPENSES. A director is entitled to receive reimbursement for actual expenses incurred in attending meetings of the board and in attending to the business of the association which is authorized by a resolution of the board.

(c) The bonds may be issued to mature serially or otherwise within not more than 40 years from their date. The board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, under the terms and conditions set forth in the resolution authorizing the issuance of the bonds.
(d) The bonds, and any interest coupons appertaining to them, are negotiable instruments. The bonds may be issued registrable as to principal alone or as to both principal and interest. They shall be executed, and may be made redeemable prior to maturity, may be issued in the form, denominations, and manner, and under the terms, conditions, and details, may be sold in the manner, at the price, and under the terms, and shall bear interest at the rate or rates, as is determined and provided by the board in the resolution authorizing the issuance of the bonds.

(e) Proceeds from the sale of the bonds may be used for paying interest on the bonds during the period of the acquisition or construction of any facilities to be provided through the issuance of the bonds and for providing a reserve for the payment of the principal of and interest on the bonds. The proceeds may be placed on time deposit or invested until needed to the extent and in the manner provided in the bond resolution.

(f) The board shall fix and collect lease rentals, rentals, rates, charges, and fees, or any combination of them, from students or others for the occupancy, use, or availability of all or any of its property, buildings, structures, or other facilities in amounts which will be sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with any bonds issued under this section, and, to the extent required by the resolution authorizing the issuance of the bonds, to provide for the payment of expenses in connection with the issuance of the bonds and for the payment of operation, maintenance, and other expenses in connection with the property, buildings, structures, or facilities.

After the approval and registration the bonds are incontestable for any reason and are valid and binding obligations in accordance with their terms for all purposes. If the bonds recite that they are secured partially or otherwise by a pledge of the proceeds of a contract or lease made between the board and another party or parties, public agencies, or otherwise, a copy of the contract or lease and of the proceedings authorizing it may not be submitted to the attorney general along with the bond records. If submitted, then the approval by the attorney general of the bonds shall constitute an approval of the contract or lease, and thereafter the contract or lease shall be incontestable.

No college or university receiving state support or state aid from public funds may grant a baccalaureate degree or a lesser degree or academic certificate to any person unless he has credit for six semester hours or its equivalent in American History. A student is entitled to submit as much as three semester hours of credit or its equivalent in Texas History in partial satisfaction of this requirement. The college or university may determine that a student has satisfied this requirement in whole or in part on the basis of credit granted to him by the college or university for a substantially equivalent course completed at another accredited college or university, or on the basis of the student's successful completion of an advanced standing examination administered on the
conditions and under the circumstances common for the college or university's advanced standing examinations. The college or university may grant as much as three semester hours of credit or its equivalent toward satisfaction of this requirement for substantially equivalent work completed by a student in the program of an approved senior R.O.T.C. unit.

Sec. 51.303. ELECTIVE COURSES IN DACTYLOLOGY. (a) In this section, "dactylology" means the art of communicating ideas by signs made with the fingers, as in the manual alphabets of deaf-mutes.

(b) Any state college or university offering a fully accredited program for teachers of the deaf may offer a three-hour elective course in dactylology.

(c) American Sign Language is recognized as a language, and any state institute of higher education may offer an elective course in American Sign Language. A student is entitled to count credit received for a course in American Sign Language toward satisfaction of a foreign language requirement of the institution of higher education where it is offered.

Sec. 51.304. COURSES IN MILITARY AND NAVAL TRAINING. The governing board of any state-supported institution of higher education may request the United States Department of Defense to establish and maintain courses in military and naval training qualifying men student graduates of the courses for reserve commission awards as a part of its curriculum. The board may enter into mutually agreeable contracts for that purpose. The work of the students enrolling in the courses may be credited toward degree requirements under regulations prescribed by the board.

Sec. 51.3041. AWARD OF COURSE CREDIT FOR MILITARY TRAINING. (a) In this section, "institution of higher education" has the meaning assigned by Section 61.003.

(b) An institution of higher education shall consider, in determining whether to award to a student course credit toward a degree offered by the institution for the student's completion of certain military training:

1. any official military record presented to the institution by the student that:
   (A) describes the substance of the training completed by the student; and
   (B) verifies the student's successful completion of that training; and

2. whether the substance of that training satisfies the purpose of the course for which the student seeks credit as described in the institution's course catalog.

(c) This section applies to a student who has completed certain military training and is admitted to the institution, including a student who is readmitted under Section 51.9242.

(d) An institution of higher education shall assess the academic skills of each entering undergraduate student to determine the student's readiness to enroll in freshman-level academic coursework. An institution may not use the assessment or the results of the assessment as a condition of admission to the institution.

(e) The board shall designate one or more instruments for use by institutions of higher education in assessing students under this section.

(f) If practical and feasible, not later than September 1, 2005, the board shall designate the exit-level assessment instrument required under Section 39.023 as the primary assessment instrument under this section. This subsection expires September 1, 2006.

(g) The board shall designate additional assessment instruments for use by institutions of higher education under this section.

Sec. 51.3062. SUCCESS INITIATIVE. (a) The definitions provided by Section 61.003 apply to this section.

(b) An institution of higher education shall assess the academic skills of each entering undergraduate student to determine the student's readiness to enroll in freshman-level academic coursework. An institution may not use the assessment or the results of the assessment as a condition of admission to the institution.

(c) The board shall designate one or more instruments for use by institutions of higher education in assessing students under this section.

(d) If practical and feasible, not later than September 1, 2005, the board shall designate the exit-level assessment instrument required under Section 39.023 as the primary assessment instrument under this section. This subsection expires September 1, 2006.

(e) The board shall designate additional assessment instruments for use by institutions of higher education under this
section, including assessment instruments currently approved by
the board to measure college readiness.

(f) Each assessment instrument designated by the board for
use under this section must be diagnostic in nature and designed to
assess a student's readiness to perform freshman-level academic
coursework. The board shall prescribe standards for the assessment
instrument or instruments that reflect that student readiness. An
institution of higher education may adopt more stringent assessment
standards with respect to student readiness.

(g) Each institution of higher education shall establish a
program to advise students regarding coursework and other means by
which students can develop the academic skills required to
successfully complete college-level work.

(h) If a student fails to meet the assessment standards
described by Subsection (f), the institution of higher education
shall work with the student to develop a plan to assist the student
in becoming ready to perform freshman-level academic coursework.
The plan must be designed on an individual basis to provide the best
opportunity for each student to attain that readiness.

(i) The institution of higher education may refer a student
to developmental coursework as considered necessary by the
institution to address a student's deficiencies in the student's
readiness to perform freshman-level academic coursework, except
that the institution may not require enrollment in developmental
coursework with respect to a student previously determined by any
institution of higher education to have met college-readiness
standards.

(j) A student may retake an assessment instrument at any
time to determine readiness to perform freshman-level academic
coursework.

(k) An institution of higher education shall determine when
a student is ready to perform freshman-level academic coursework.
The institution must make its determination on an individual basis
according to the needs of the student. The determination shall
include:

1. requiring a student to retake a board-approved
   assessment instrument, if the student did not initially perform
   within a deviation established by the board; or

2. other board-approved means of evaluating student
   readiness, if the student did not initially pass the assessment
   instrument but performed within a deviation established by the
   board.

(l) The legislature shall appropriate money for approved
non-degree-credit developmental courses, except that legislative
appropriations may not be used for developmental coursework taken
by a student in excess of:

1. 18 semester credit hours, for a general academic
teaching institution; and

2. 277 semester credit hours, for a public junior
college, public technical institute, or public state college.

(m) The board may develop formulas to supplement the funding
of developmental academic programs by institutions of higher
education, including formulas for supplementing the funding of
non-course-based programs. The board may develop a performance
funding formula by which institutions may receive additional
funding for each student who completes the Success Initiative
established under this section and then successfully completes
college coursework. The legislature may appropriate the money
required to provide the additional funding under those formulas.

(n) Each institution of higher education shall report
annually to the board on the success of its students and the
effectiveness of its Success Initiative.

(o) The board shall evaluate the effectiveness of the
Success Initiative on a statewide basis and with respect to each
institution of higher education.

(p) A student who has achieved a score set by the board on
the Scholastic Assessment Test (SAT) or the American College Test
(ACT) is exempt from the requirements of this section. An exemption
under this subsection is effective for the five-year period
following the date a student takes the test and achieves the
standard set by the board.

(q) A student who has achieved a score set by the board on an
exit-level assessment instrument required under Section 39.023 is
exempt from the requirements of this section. The exemption is
effective for the three-year period following the date a student

TEC Chapter 51
takes the assessment instrument and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the exit-level assessment instrument required under Section 39.023 as the primary assessment instrument under this section, except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this section before that period.

(r) This section does not apply to:
(1) a student who has graduated with an associate or baccalaureate degree from an institution of higher education;
(2) a student who transfers to an institution of higher education from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework;
(3) a student who is enrolled in a certificate program of one year or less at a public junior college, a public technical institute, or a public state college;

(a) The Coordinating Board, Texas College and University System, in cooperation with governing boards, institutional officials, and faculty representatives of general academic institutions of higher education, shall develop and recommend general policies and standard reports for academic faculty workloads and services.

(b) The governing board of each institution of higher education in the state shall adopt rules and regulations concerning
faculty academic workloads. In adopting rules under this subsection, each institution shall recognize that classroom teaching, basic and applied research, and professional development are important elements of faculty academic workloads by giving appropriate weight to each activity when determining the standards for faculty academic workload. An institution may give the same or different weight to each activity and to other activities recognized by the institution as important elements of faculty academic workloads. The established rules and regulations of each institution shall be reported to the coordinating board and included in the operating budgets of each institution.

(c) Within 30 days of the end of each academic year, the institution shall file with its governing board a report, by department, of the academic duties and services performed by each member of the faculty during the nine-month academic year, showing evidence of compliance with requirements established by the governing board. The report of academic duties and services performed by each member of the faculty shall indicate all appointments held by the faculty member in the employing institution, the salary paid to each appointment, the percent of time of each appointment, and the source of funds from which salary payments were made. Teaching responsibilities in each workload standard shall be in proportion to the portion of salary paid from funds appropriated for instructional purposes.

(4) "Commissioner" means the commissioner of higher education.

Sec. 51.503. ENGINEERING EXCELLENCE FUND. (a) A special fund to be known as the engineering excellence fund is created in the State Treasury.

(b) Funds appropriated by the legislature to the engineering excellence fund shall be used to match eligible gifts to eligible institutions at a ratio of $2 of appropriated money to $1 of eligible gift money. Total cumulative appropriations to the fund may not exceed $67 million.

(c) The fund shall be administered by the commissioner and shall consist of an appropriations account and a gifts account. Legislative appropriations to the fund shall be deposited to the credit of the appropriations account. Eligible gifts to eligible institutions shall be deposited to the credit of the gifts account each year until the total deposits to the credit of the gifts account, disregarding any disbursements, equal 50 percent of the amount available for expenditure from the appropriations account in
that year. Thereafter, any eligible gift received by an eligible institution during that year shall be retained by the eligible institution for its separate use.

(d) The Coordinating Board, Texas College and University System, shall adopt rules for the administration of the engineering excellence matching money program.

Sec. 51.504. DETERMINATION OF CRITICAL NEEDS. (1) not less than one-half of the amount of the eligible gift;
(2) not less than one-half of the amount of matching money associated with the gift; and
(3) the institution's proportionate share of the remaining portion of the eligible gift and the matching money associated with the gift.

(b) If the commissioner determines that giving the amount required by Subsection (a) of this section to the institution would cause the institution to receive from the engineering excellence fund an amount that exceeds the total cost of the equipment on the institution's list of critical needs for that year, the commissioner may provide that less than one-half of the gift and less than one-half of the matching money be given to the institution.

(c) If an eligible gift is received for deposit in the fund and is not given by or through an eligible institution, the total amount of the gift and the matching money associated with the gift shall be proportionately distributed to the eligible institutions.

(d) Each year, the commissioner shall periodically distribute the money in the gifts account, combined with state matching money from the appropriations account, to each eligible institution in accordance with this section and rules of the coordinating board.

(e) Disbursements from the fund shall be made by the comptroller of public accounts on the basis of vouchers approved by the commissioner.

SUBCHAPTER P. FUND FOR THE NATIONAL CENTER FOR MANUFACTURING SCIENCES

Sec. A51.701. LEGISLATIVE FINDINGS. The legislature finds that:

(1) strength in the manufacturing sector is critical to the United States' and Texas' international competitive position, as well as to the national security. Manufacturing has the highest economic multiplier of any industrial sector, contributing to economic growth and personal wealth. High technology manufacturing has the highest economic multiplier among manufacturing sectors;

(2) the health of the manufacturing sector is critical for economic growth in Texas. Texas, as a primary producer of raw materials, finds itself positioned to benefit tremendously from improvement and development of its manufacturing capabilities, even while the Texas economy suffers the consequences of having depended too heavily on production of raw materials alone; and

(3) manufacturing industry sales growth and productivity increases have been shown to move in direct relation to the performance of research and development by the industry.

Sec. A51.702. PURPOSE. It is the intent of the legislature that Texas accept the challenge of becoming the nation's center for advanced manufacturing technology by aggressively pursuing the siting of the National Center for Manufacturing Sciences, proposed by the National Academy of Sciences and the Manufacturing Science Board, and initiated by the National Machine Tool Industry. With this centerpiece for advanced research and technology transfer in the area of manufacturing sciences, Texas could become a primary producer of high value-added products, with enormous benefits for the entire economy.

Sec. A51.703. DEFINITION. In this subchapter, "fund" means the fund for the National Center for Manufacturing Sciences.

Sec. A51.704. FUND. (a) The fund for the National Center for Manufacturing Sciences is created as a special fund in the state treasury.

(b) The fund consists of:

(1) appropriations; and

(2) grants from industry and other sources.

(c) For each biennium the legislature may appropriate to the fund an amount equal to the amount of donations received from private sources for the biennium, not to exceed $2 million per biennium.

(d) The comptroller shall administer the fund until the center is located in Texas.

(e) The comptroller may accept grants for the purpose of the fund.

Added by Acts 1987, 70th Leg., ch. 772, Sec. 1, eff. Aug. 31, 1987. Amended by Acts 2003, 78th Leg., ch. 1266, Sec. 5.01, eff. June 20, 2003.
Amended by Acts 1997, 75th Leg., ch. 1423, Sec. 5.09, eff. Sept. 1, 1997.

Sec. 51.705. USE OF FUND. (a) When the National Center for Manufacturing Sciences is announced for location in Texas, the existing funds (and all subsequent funds) will be made available for use by the center in accordance with its charter.

(b) Should the center not be located in Texas, the industry grants will be returned to their source and the state's matching appropriation will be held for reappropriation by the legislature. Added by Acts 1987, 70th Leg., ch. 44, Sec. 1, eff. April 29, 1987.

(1) "Architect" means an individual registered as an architect under Chapter 1051, Occupations Code.

(2) "Board" means the governing body of an institution.

(3) "Contractor" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for constructing, rehabilitating, altering, or repairing all or part of the facility at the contracted price.

40
"Engineer" means an individual licensed as an engineer under Chapter 1001, Occupations Code.

"Facility" means real property, including buildings and associated structures and improved or unimproved land.

"Fee" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means the payment a construction manager receives for its overhead and profit in performing its services.

"General conditions" in the context of a contract for the construction, rehabilitation, alteration, or repair of a facility means on-site management, administrative personnel, insurance, bonds, equipment, utilities, and incidental work, including minor field labor and materials.

"Institution" means an institution of higher education as defined by Section 61.003, other than a public junior college.

Sec. 51.777. DELEGATION OF AUTHORITY. A board may, as appropriate, delegate by rule its authority under this subchapter to its designated representative.

Sec. 51.778. COMPETITIVE BIDDING ON CONTRACTS. (a) Except as otherwise provided by this subchapter, all contracts for the construction or erection of permanent improvements at an institution are void unless made after advertising for bids for the contracts in a manner prescribed by the institution's board, receiving sealed competitive bids, and awarding of the contract to the lowest responsible bidder by the board.

(b) If a contract awarded under sealed competitive bidding is to be recommended for award to other than the lowest bidder, any bidder making a lower bid than the recommended bid shall be notified of the recommendation for award and shall be allowed an opportunity before the award to present evidence to the board or its designated representative as to the responsibility of that bidder.

Sec. 51.779. EVALUATION OF BIDS AND PROPOSALS FOR CONSTRUCTION SERVICES. (a) An institution that is considering a construction contract using a method authorized by this subchapter must, before advertising, determine which method provides the best value for the institution.

(b) The institution shall base its selection among the offerors on criteria established by the institution. The institution shall publish in the request for bids, proposals, or qualifications the criteria that will be used to evaluate the offerors.

(c) The institution shall document the basis of its selection and shall make the evaluations public not later than the seventh day after the date the contract is awarded.

Sec. 51.780. DESIGN-BUILD CONTRACTS FOR FACILITIES. (a) In this section:

(1) "Design-build contract" means a single contract with a design-build firm for the design and construction of a facility.

(2) "Design-build firm" means a partnership, corporation, or other legal entity or team that includes an engineer or architect and builder qualified to engage in building construction in Texas.

(3) "Design criteria package" means a set of documents that provides sufficient information to permit a design-build firm to prepare a response to an institution's request for qualifications and any additional information requested, including criteria for selection. The design criteria package must specify criteria the institution considers necessary to describe the project and may include, as appropriate, the legal description of the site, survey information concerning the site, interior space requirements, special material requirements, material quality standards, conceptual criteria for the project, special equipment requirements, cost or budget estimates, time schedules, quality
assurance and quality control requirements, site development requirements, applicable codes and ordinances, provisions for utilities, parking requirements, or any other requirement, as applicable.

(b) An institution may use the design-build method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a design-build firm, the contracting institution and the design-build firm shall follow the procedures provided by Subsections (c)-(k).

(c) The board may designate an engineer or architect independent of the design-build firm to act as its representative for the duration of the work on the facility. If the board's engineer or architect is not a full-time employee of the institution, any engineer or architect designated shall be selected on the basis of demonstrated competence and qualifications in accordance with Section 2254.004, Government Code.

(d) The institution shall prepare a request for qualifications that includes general information on the project site, project scope, budget, special systems, selection criteria, and other information that may assist potential design-build firms in submitting proposals for the project. The institution shall also prepare the design criteria package that includes more detailed information on the project. If the preparation of the design criteria package requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, those services shall be provided in accordance with the applicable law.

(e) The board or its representative shall publish the request for qualifications in a manner prescribed by the board.

(f) The board or its representative shall evaluate statements of qualifications and select a design-build firm in two phases:

(1) In phase one, the board or its representative shall prepare a request for qualifications and evaluate each offeror's experience, technical competence, and capability to perform, the past performance of the offeror's team and members of the team, and other appropriate factors submitted by the team or firm in response to the request for qualifications, except that cost-related or price-related evaluation factors are not permitted. Each offeror must certify to the board that each engineer or architect that is a member of its team was selected based on demonstrated competence and qualifications in the manner provided by Section 2254.004, Government Code. The board or its representative shall qualify a maximum of five offerors to submit additional information and, if the board or its representative chooses, to interview for final selection.

(2) In phase two, the board or its representative shall evaluate the information submitted by the offerors on the basis of the selection criteria stated in the request for qualifications and the results of any interview. The board or its representative may request additional information regarding demonstrated competence and qualifications, considerations of the safety and long-term durability of the project, the feasibility of implementing the project as proposed, the ability of the offeror to meet schedules, costing methodology, or other factors as appropriate. The board or its representative may not require offerors to submit detailed engineering or architectural designs as part of the proposal. The board or its representative shall rank each proposal submitted on the basis of the criteria specified in the request for qualifications. The board or its representative shall select the design-build firm that submits the proposal offering the best value for the institution on the basis of the published selection criteria and on its ranking evaluations. The board or its representative shall first attempt to negotiate with the selected offeror a contract. If the board or its representative is unable to negotiate a satisfactory contract with the selected offeror, the institution shall, formally and in writing, end all negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(g) Following selection of a design-build firm under Subsection (f), that firm's engineers or architects shall complete
the design, submitting all design elements for review and determination of scope compliance by the institution's engineer or architect before or concurrently with construction.

(h) An engineer shall have responsibility for compliance with the engineering design requirements and all other applicable requirements of Chapter 1001, Occupations Code. An architect shall have responsibility for compliance with the requirements of Chapter 1051, Occupations Code.

(i) The institution shall provide or contract for, independently of the design-build firm, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The institution shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(j) The design-build firm shall supply a signed and sealed set of construction documents for the project to the institution at the conclusion of construction.

(k) A payment or performance bond is not required for, and may not provide coverage for, the portion of a design-build contract under this section that includes design services only. If a fixed contract amount or guaranteed maximum price has not been determined at the time a design-build contract is awarded, the penal sums of the performance and payment bonds delivered to the institution shall each be in an amount equal to the project budget, as specified in the design criteria package. The design-build firm shall deliver the bonds not later than the 10th day after the date the design-build firm executes the contract unless the design-build firm furnishes a bid bond or other financial security acceptable to the institution to ensure that the design-build firm will furnish the required performance and payment bonds when a guaranteed maximum price is established.

Sec. 51.781. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AGENT. (a) An institution may use the construction manager-agent method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-agent, a board shall follow the procedures prescribed by this section.

(b) A construction manager-agent is a sole proprietorship, partnership, corporation, or other legal entity that provides consultation to the institution regarding construction, rehabilitation, alteration, or repair of the facility. An institution using the construction manager-agent method may, under the contract between the institution and the construction manager-agent, require the construction manager-agent to provide administrative personnel, equipment necessary to perform duties under this section, and on-site management and other services specified in the contract. A construction manager-agent represents the institution in a fiduciary capacity.

(c) Before or concurrently with selecting a construction manager-agent, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer or architect may not serve, alone or in combination with another person, as the construction manager-agent unless the engineer or architect is hired to serve as the construction manager-agent under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) A board shall select a construction manager-agent on the basis of demonstrated competence and qualifications in the same manner as provided for the selection of engineers or architects.
under Section 2254.004, Government Code.

(e) A board using the construction manager-agent method shall procure, in accordance with applicable law and in any manner authorized by this chapter, a general contractor, trade contractors, or subcontractors who will serve as the prime contractor for their specific portion of the work.

(f) The board or the construction manager-agent shall procure in accordance with Section 2254.004, Government Code, all of the testing of construction materials engineering, the inspection services, and the verification testing services necessary for acceptance of the facility by the institution.

Sec. 51.782. CONTRACTS FOR FACILITIES: CONSTRUCTION MANAGER-AT-RISK. (a) An institution may use the construction manager-at-risk method for the construction, rehabilitation, alteration, or repair of a facility. In using that method and in entering into a contract for the services of a construction manager-at-risk, a board shall follow the procedures prescribed by this section.

(b) A construction manager-at-risk is a sole proprietorship, partnership, corporation, or other legal entity that assumes the risk for construction, rehabilitation, alteration, or repair of a facility at the contracted price as a general contractor and provides consultation to the institution regarding construction during and after the design of the facility.

(c) Before or concurrently with selecting a construction manager-at-risk, the board shall select or designate an engineer or architect who shall prepare the construction documents for the project and who has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code. The institution's engineer, architect, or construction manager-agent for a project may not serve, alone or in combination with another, as the construction manager-at-risk unless the engineer or architect is hired to serve as the construction manager-at-risk under a separate or concurrent procurement conducted in accordance with this subchapter. This subsection does not prohibit the institution's engineer or architect from providing customary construction phase services under the engineer's or architect's original professional service agreement in accordance with applicable licensing laws.

(d) The board shall provide or contract for, independently of the construction manager-at-risk, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code.

(e) The board shall select the construction manager-at-risk in either a one-step or two-step process. The board shall prepare a request for proposals, in the case of a one-step process, or a request for qualifications, in the case of a two-step process, that includes general information on the project site, project scope, schedule, selection criteria, estimated budget, and the time and place for receipt of proposals or qualifications, as applicable, a statement as to whether the selection process is a one-step or two-step process, and other information that may assist the board in its selection of a construction manager-at-risk. The board shall state the selection criteria in the request for proposals or qualifications, as applicable. The selection criteria may include the offeror's experience, past performance, safety record, proposed personnel and methodology, and other appropriate factors that demonstrate the capability of the construction manager-at-risk. If a one-step process is used, the board may request, as part of the offeror's proposal, proposed fees and prices for fulfilling the general conditions. If a two-step process is used, the board may not request fees or prices in step one. In step two, the board may request that five or fewer offerors, selected solely on the basis of qualifications, provide additional information, including the construction...
manager-at-risk's proposed fee and its price for fulfilling the
general conditions.

(f) The board shall publish the request for qualifications
in a manner prescribed by the board.

At each step, the board shall receive, publicly open,
and read aloud the names of the offerors. At the appropriate step,
the board shall also read aloud the fees and prices, if any, stated
in each proposal as the proposal is opened. Within 45 days after
the date of opening the proposals, the board or its representative
shall evaluate and rank each proposal submitted in relation to the
criteria set forth in the request for proposals.

(h) The board or its representative shall select the offeror
that submits the proposal that offers the best value for the
institution based on the published selection criteria and on its
ranking evaluation. The board or its representative shall first
attempt to negotiate with the selected offeror a contract. If the
board or its representative is unable to negotiate a satisfactory
contract with the selected offeror, the board or its representative
shall, formally and in writing, end negotiations with that offeror
and proceed to negotiate with the next offeror in the order of the
selection ranking until a contract is reached or negotiations with
all ranked offerors end.

(i) A construction manager-at-risk shall publicly
advertise, in the manner prescribed by the institution, and receive
bids or proposals from trade contractors or subcontractors for the
performance of all major elements of the work other than general
conditions work. A construction manager-at-risk may seek to
perform major elements of the work itself if the construction
manager-at-risk submits its bid or proposal for that work in the
same manner as all other trade contractors or subcontractors and if
the board determines that the construction manager-at-risk's bid or
proposal provides the best value for the institution. If no
satisfactory bid or proposal for a major element of the work is
received in the time allowed, the board may negotiate directly with
the construction manager-at-risk for performance of that work. The
board may negotiate directly with the manager-at-risk for the
performance of minor elements of the work that are not included in
major work packages.

(j) The construction manager-at-risk and the board or its
representative shall review all trade contractor or subcontractor
bids or proposals in a manner that does not disclose the contents of
the bid or proposal during the selection process to a person not
employed by the construction manager-at-risk, engineer, architect,
or institution. All bids or proposals shall be made public after the
award of the contract or within seven days after the date of
final selection of bids and proposals, whichever is later.

(k) If the construction manager-at-risk reviews, evaluates,
and recommends to the board a bid or proposal from a trade
contractor or subcontractor but the board determines another
proposal to be accepted, the institution shall compensate the
construction manager-at-risk by a change in price, time, or
guaranteed maximum cost for any additional cost and risk that the
construction manager-at-risk may incur because of the board's
requirement that another bid or proposal be accepted.

(l) If a selected trade contractor or subcontractor
defaults in the performance of its work or fails to execute a
subcontract after being selected in accordance with this section,
the construction manager-at-risk may, without advertising, itself
fulfill the contract requirements or select a replacement trade
contractor or subcontractor to fulfill the contract requirements.

(m) If a fixed contract amount or guaranteed maximum price
has not been determined at the time the contract is awarded, the
penal sums of the performance and payment bonds delivered to the
institution must each be in an amount equal to the project budget,
as set forth in the request for qualifications. The construction
manager shall deliver the bonds not later than the 10th day after
the date the construction manager executes the contract. Unless the
construction manager furnishes a bid bond or other financial
security acceptable to the institution to ensure that the
construction manager will furnish the required performance and
payment bonds when a guaranteed maximum price is established.

Sec. 51.783. SELECTING CONTRACTOR FOR CONSTRUCTION SERVICES THROUGH COMPETITIVE SEALED PROPOSALS. (a) In selecting a contractor for construction, rehabilitation, alteration, or repair services for a facility through competitive sealed proposals, a board shall follow the procedures prescribed by this section.

(b) The board shall select or designate an engineer or architect to prepare construction documents for the project. The selected or designated engineer or architect has full responsibility for complying with Chapter 1001 or 1051, Occupations Code, as applicable. If the engineer or architect is not a full-time employee of the institution, the board shall select the engineer or architect on the basis of demonstrated competence and qualifications as provided by Section 2254.004, Government Code.

(c) The board shall provide or contract for independently of the contractor, the inspection services, the testing of construction materials engineering, and the verification testing services necessary for acceptance of the facility by the institution. The board shall select those services for which it contracts in accordance with Section 2254.004, Government Code, and shall identify them in the request for proposals.

(d) The board shall prepare a request for competitive sealed proposals that includes construction documents, selection criteria, estimated budget, project scope, schedule, and other information that contractors may require to respond to the request. The board shall state in the request for proposals the selection criteria that will be used in the ranking evaluation.

(e) The board shall publish notice of the request for proposals in a manner prescribed by the board.

(f) The board shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Within 45 days after the date of opening the proposals the board shall evaluate and rank each proposal submitted in relation to the published selection criteria.

(g) The board shall select the offeror that offers the best value for the institution based on the published selection criteria and on its ranking evaluation. The board shall first attempt to negotiate with the selected offeror a contract. The board and its engineer or architect may discuss with the selected offeror options for a scope or time modification and any price change associated with the modification. If the board is unable to reach a contract with the selected offeror, the board shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

(h) In determining best value for the institution, the board is not restricted to considering price alone but may consider any other factor stated in the selection criteria.

Sec. 51.784. JOB ORDER CONTRACTS FOR FACILITIES CONSTRUCTION OR REPAIR. (a) An institution may award job order contracts for the minor construction, repair, rehabilitation, or alteration of a facility if the work is of a recurring nature but the delivery times are indefinite and indefinite quantities and orders are awarded substantially on the basis of predescribed and prepriced tasks.

(b) The institution may establish contractual unit prices for a job order contract by:

(1) specifying one or more published construction unit price books and the applicable divisions or line items; or

(2) providing a list of work items and requiring the offerors to bid or propose one or more coefficients or multipliers to be applied to the price book or work items as the price proposal.

(c) The board shall advertise for, receive, and publicly open sealed proposals for job order contracts.

(d) The board may require offerors to submit additional information besides rates, including experience, past performance, and proposed personnel and methodology.

(e) The board may award job order contracts to one or more job order contractors in connection with each solicitation of bids or proposals.

(f) An order for a job or project under the job order contract must be signed by the board's representative and the
The order may be a fixed price, lump-sum contract based substantially on contractual unit pricing applied to estimated quantities or may be a unit price order based on the quantities and line items delivered.

(g) The contractor shall provide payment and performance bonds, if required by law, based on the amount or estimated amount of any order.

(h) The base term of a job order contract is for the period and with any renewal options that the institution sets forth in the request for proposals. If the institution fails to advertise that term, the base term may not exceed two years and is not renewable without further advertisement and solicitation of proposals.

(i) If a job order contract or an order issued under the contract requires engineering or architectural services that constitute the practice of engineering within the meaning of Chapter 1001, Occupations Code, or the practice of architecture within the meaning of Chapter 1051, Occupations Code, those services shall be provided in accordance with applicable law.

SUBCHAPTER U. UNIFORM ADMISSION POLICY

Sec. 51.801. DEFINITIONS. In this subchapter, "general academic teaching institution," "governing board," "medical and dental unit," and "university system" have the meanings assigned by Section 61.003.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.802. UNIFORM ADMISSION SYSTEM. A general academic teaching institution shall admit first-time freshman students for each semester under the provisions of this subchapter.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.803. AUTOMATIC ADMISSION: ALL INSTITUTIONS. (a) Each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated with a grade point average in the top 10 percent of the student's high school graduating class in one of the two school years preceding the academic year for which the applicant is applying for admission and the applicant graduated from a public or private high school in this state accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense. To qualify for admission under this section, an applicant must submit an application before the expiration of any application filing deadline established by the institution and, if the applicant graduated from a high school operated by the United States Department of Defense, must be a Texas resident under Section 54.052 or be entitled to pay tuition fees at the rate provided for Texas residents under Section 54.058(d) for the term or semester to which admitted.

(b) After admitting an applicant under this section, the institution shall review the applicant's record and any other factor the institution considers appropriate to determine whether the applicant may require additional preparation for college-level work or would benefit from inclusion in a retention program. The institution may require a student so identified to enroll during the summer immediately after the student is admitted under this section to participate in appropriate enrichment courses and orientation programs. This section does not prohibit a student who is not determined to need additional preparation for college-level work from enrolling, if the student chooses, during the summer immediately after the student is admitted under this section.

Sec. 51.804. ADDITIONAL AUTOMATIC ADMISSIONS: SELECTED INSTITUTIONS. For each academic year, the governing board of each general academic teaching institution shall determine whether to adopt an admissions policy under which an applicant to the institution as a first-time freshman student, other than an applicant eligible for admission under Section 51.803, shall be admitted to the institution if the applicant graduated from a public or private high school in this state accredited by a generally recognized accrediting organization with a grade point average in the top 25 percent of the applicant's high school
Sec. A51.8045. GRADUATES OF CERTAIN SPECIAL HIGH SCHOOL PROGRAMS.

(a) For purposes of Sections 51.803 and 51.804 only, the governing body of a school district may treat a high school magnet program, academy, or other special program conducted by the school district at a high school attended by high school students who are not students of the special program as an independent high school with its own graduating class separate from the graduating class of other students attending the high school if:

1. the special program was in operation in the 2000-2001 school year;
2. the students of the special program are recruited, selected, or admitted from among the students residing in the attendance zones of not fewer than 10 regular high schools in the district, including the high school at which the special program is conducted;
3. the students of the special program are selected or admitted independently of and identified as a student body separate from the other students of the high school;

5. the students of the special program have a curriculum different from that of the other students of the high school, even if students of the special program and other students of the high school attend some of the same classes; and
6. a student graduating from the special program receives a high school diploma that includes a reference to the special program in describing the high school from which the student graduated.

(b) This section does not apply to the manner in which the members of a graduating class of the high school as a whole, including graduates of the special program, are ranked by grade point average for purposes other than admissions under Sections 51.803 and 51.804.

Sec. A51.805. OTHER ADMISSIONS.

(a) A graduating student who does not qualify for admission under Section 51.803 or 51.804 may apply to any general academic teaching institution.

(b) The general academic teaching institution, after admitting students under Sections 51.803 and 51.804, shall admit other applicants for admission as undergraduate students. It is the intent of the legislature that all institutions of higher education pursue academic excellence by considering students' academic achievements in decisions related to admissions. Because of changing demographic trends, diversity, and population increases in the state, each general academic teaching institution shall also consider all of, any of, or a combination of the following socioeconomic indicators or factors in making first-time freshman admissions decisions:

1. the applicant's academic record;
2. the socioeconomic background of the applicant, including the percentage by which the applicant's family is above or below any recognized measure of poverty, the applicant's household income, and the applicant's parents' level of education;
3. whether the applicant would be the first generation of the applicant's family to attend or graduate from an institution of higher education;
4. whether the applicant has bilingual proficiency;
5. the financial status of the applicant's school district;
6. the performance level of the applicant's school as determined by the school accountability criteria used by the Texas Education Agency;
7. the applicant's responsibilities while attending school, including whether the applicant has been employed, whether the applicant has helped to raise children, or other similar factors;
8. the applicant's region of residence;
9. whether the applicant is a resident of a rural or urban area or a resident of a central city or suburban area in the state;
10. the applicant's performance on standardized
tests; (11) the applicant's performance on standardized tests in comparison with that of other students from similar socioeconomic backgrounds; (12) whether the applicant attended any school while the school was under a court-ordered desegregation plan; (13) the applicant's involvement in community activities; (14) the applicant's extracurricular activities; (15) the applicant's commitment to a particular field of study; (16) the applicant's personal interview; (17) the applicant's admission to a comparable accredited out-of-state institution; and (18) any other consideration the institution considers necessary to accomplish the institution's stated mission.

(c) A general academic teaching institution may review other factors in making an admissions decision.

(d) Not later than one year before the date that applications for admission are first considered under this section, each general academic teaching institution shall publish in the institution's catalog a description of the factors considered by the institution in making admission decisions and shall make the information available to the public.

(e) This section does not apply to an institution that has an open enrollment policy.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.807. RULEMAKING. The Texas Higher Education Coordinating Board may adopt rules relating to the operation of admissions programs under this subchapter, including rules relating to the identification of eligible students and the reporting requirements of Section 51.806.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.808. APPLICATION OF ADMISSION CRITERIA TO OTHER PROGRAMS. (a) Each general academic teaching institution or medical and dental unit that offers admissions to undergraduate transfer students or admissions to a graduate, postgraduate, or professional program shall also adopt a written admission policy applicable to those programs.

(b) The policy shall be published in the institution's or unit's catalog and made available to the public.

Added by Acts 1997, 75th Leg., ch. 155, Sec. 1, eff. Sept. 1, 1997.

Sec. 51.809. SCHOLARSHIP AND FELLOWSHIP AWARDS. (a) A general academic teaching institution or a medical and dental unit that offers competitive scholarship or fellowship awards shall adopt a written policy describing the factors to be used by the institution or unit in making an award.

(b) A policy adopted under this section shall be published in the institution's or unit's catalog and shall be made available to the public in advance of any deadline for the submission of an application for a competitive scholarship or fellowship to which the policy applies.

(2) award undergraduate and graduate scholarships and summer stipends to those students; and

(3) guarantee the admission of those students to at least one participating medical school, subject to the conditions under Section 51.827 and under other provisions of this subchapter.

Sec. 51.823. COMPOSITION OF COUNCIL. (a) The participating medical schools shall jointly establish the Joint Admission Medical Program Council consisting of one faculty member employed by and representing each of the participating medical schools.

(b) A person may not serve on the council for more than six consecutive years.

(c) The council shall select one of its members to serve as council chair for a term of two years.

Sec. 51.824. COUNCIL DUTIES. (a) The council shall:

(1) recruit eligible undergraduate students for admission to the program;

(2) establish an application process for admitting eligible undergraduate students to the program;

(3) evaluate applications for admission to the program according to the procedures for selecting participating students under Subsection (b) and for selecting program alternates under Section 51.8245;

(4) monitor the implementation of the program;

(5) assist in developing services to support and encourage the pursuit of a medical education by participating students, program alternates, and, as applicable, nontraditional students described by Section 51.832;

(6) establish a process for participating students to:

(A) be matched to an internship program as described by Subsection (c);

(E) enroll in that school;

(7) award to participating students undergraduate scholarships and summer stipends, including a summer stipend for a student who is required to participate in an internship program in the summer immediately following the student's senior year;

(8) award graduate scholarships to participating students and, as applicable, nontraditional students described by Section 51.832;

(9) enter into an agreement with each student admitted to the program, each program alternate, each participating medical school, and each general academic teaching institution or private or independent institution of higher education as required by this subchapter; and
(10) take any other action necessary to implement the program.

(b) From each general academic teaching institution, the council annually shall select for admission to the program at least two eligible undergraduate students who are enrolled as sophomores at that institution. The council shall allocate 10 percent of the total program openings on a rotation basis to private or independent institutions of higher education. The council shall allocate the remaining program openings to general academic teaching institutions as the council determines to be appropriate.

(c) The council shall match each participating student with appropriate internship programs offered by participating medical schools during the summers immediately following the student's sophomore and junior years. A participating medical school to which a participating student is matched under Subsection (e) may require the student to participate in an internship program offered by the medical school during the summer immediately following the student's senior year.

(d) The council shall match each participating student and each program alternate with any appropriate undergraduate mentoring program required of the student or alternate by the council.

(e) During a participating student's senior year, the council shall match the student with an appropriate participating medical school as necessary to fill the percentage of enrollment capacity set aside by each medical school under the program. To the extent possible, the council shall accommodate the preferences of participating students regarding medical school placement. A participating medical school may not make an offer of admission to a participating student before the student is matched by the council to a medical school as described by this subsection.

Sec. A51.8245. PROGRAM ALTERNATES. (a) The council shall establish procedures by which the council selects from the annual pool of applicants for the program an appropriate number of eligible undergraduate students to serve as program alternates until the beginning of their senior year. The council shall rank program alternates according to their qualifications for the program and, immediately on the termination of the participation of a student previously admitted to the program, shall select the highest ranking program alternate to be a participating student under the program. The council may not select a program alternate to be a participating student after the first day of the fall semester of the alternate's senior year.

(b) The council shall establish procedures for program alternates to be matched to any required undergraduate mentoring program described by Section 51.824(d). A program alternate selected under this section is limited to participating in mentoring activities and receiving other related counseling services under the program and must sign an agreement to that effect.

(c) The council shall adopt criteria for program alternates to maintain their eligibility as program alternates.

Sec. A51.8246. CONFIDENTIAL RECORDS AND PROCEEDINGS. (a) Student education records created or considered under the program are confidential and may be released only in accordance with the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g).

(b) A meeting or portion of a meeting of the council at which the education records or other personal information of individual students or the evaluation, eligibility, admission, or selection of individual students are discussed is not open to the public under Chapter 551, Government Code.

Sec. A51.825. COUNCIL DELEGATION. The council may delegate the performance of the council's administrative functions, including its matching functions, to the Texas Medical and Dental Schools Application Service operated through The University of Texas System.

   (B) financial need and any other indication of economic disadvantage; and
   (C) any other matter the council considers appropriate.
(b) For purposes of Subsection (a)(2), a student is not a Texas resident as described by that subdivision solely because the student is eligible to pay tuition at the resident tuition rate.
(c) The council shall adopt rules to admit to the program or to select as a program alternate an otherwise eligible undergraduate student who, for good cause, has not successfully completed the number of semester credit hours required under Subsection (a)(3). The council may not admit to the program or select as a program alternate an undergraduate student who has successfully completed fewer than 18 semester credit hours.
Sec. 51.8265. PREADMISSION MENTORING AND ASSISTANCE.    (2) participate in:
      (A) internship programs described by Section 51.824(c) in:
(i) the summers immediately following the student's sophomore and junior years; and
(ii) if required, the summer immediately following the student's senior year; and
(b) any undergraduate or graduate mentoring program required by the council; and
(3) exhibit intelligence, integrity, and personal and emotional characteristics that are considered necessary for the student to become an effective physician.

(b) If an undergraduate student who is admitted to the program fails to meet the requirements of Subsection (a) without good cause as determined by the council, the council may terminate that student's participation in the program at the end of the semester during which the student failed to meet the requirements of that subsection. A student's participation in the program is automatically terminated if the student fails to meet the requirements of Subsection (a) for two consecutive semesters without good cause.

Sec. 51.828. COUNCIL AGREEMENT WITH STUDENT ADMITTED TO PROGRAM. (a) A student admitted to the program must enter into an agreement with the council under which the student agrees to:

(b) The Baylor College of Medicine must agree under Subsection (a) to set aside under Subsection (a)(3) not less than 10 percent of its enrollment capacity set aside for students who are entitled to pay tuition at the rate provided by Chapter 54 for resident students.

Sec. 51.830. COUNCIL AGREEMENT WITH GENERAL ACADEMIC TEACHING INSTITUTION. Each general academic teaching institution must enter into an agreement with the council under which the institution agrees to:
(1) provide academic counseling to a participating student or program alternate enrolled at that institution;
(2) as soon as practicable, implement or expand appropriate degree programs as necessary to provide participating students with sufficient preparation for enrollment in participating medical schools; and
(3) select a faculty director to assist in implementing the program at the institution and in implementing or expanding the institution's degree programs as necessary under Subdivision (2).

Amended by Acts 2003, 78th Leg., ch. 922, Sec. 6, eff. June 20, 2003.

(a) A graduate or professional program of a general academic teaching institution or medical or dental unit may consider the following factors in making an admissions or scholarship decision for admissions into or competitive scholarships for the graduate or professional program:
(1) an applicant's academic record as a high school student and undergraduate student;
(2) the socioeconomic background of the applicant while the applicant attended elementary and secondary school and was an undergraduate student, including any change in that background;

(b) An applicant's performance on a standardized test may not be used in the admissions or competitive scholarship process for a graduate or professional program as the sole criterion for consideration of the applicant or as the primary criterion to end consideration of the applicant. If an applicant's performance on a standardized test is used in the admissions or competitive scholarship process, the applicant's performance must also be used to compare the applicant's test score with those of other applicants from similar socioeconomic backgrounds to the extent that those backgrounds can be properly determined and identified by the general academic teaching institution or medical and dental unit based on information provided in the institution's or unit's admissions or competitive scholarship process. This subsection does not apply to a standardized test used to measure the English language proficiency of a student who is a graduate of a foreign institution of higher education.

(c) A general academic teaching institution or medical and
dental unit may not assign a specific weight to any one factor being considered in the admissions or competitive scholarship process for a graduate or professional program.

The Texas Higher Education Coordinating Board shall prescribe procedures by which each institution of higher education shall provide information relating to bacterial meningitis to new students of the institution. The procedures must provide for the information to be provided in a brochure or other manner so that the information is reasonably likely to come to the attention of each student. The coordinating board shall prescribe the form and content of the information. The information must cover:

(2) how the disease is transmitted, how it may be prevented, and the relative risk of contracting the disease for students of institutions of higher education;
(3) the availability and effectiveness of vaccination against and treatment for the disease, including how students of the institution may seek vaccination or treatment and whether a vaccination is available from the student health center, and a brief description of the risks and possible side effects of vaccination; and

board determines that method would be effective in bringing the information to the attention of all new students of the institution.

(e) Each institution of higher education shall make reasonable efforts to obtain from each new student of the institution a confirmation signed or acknowledged by the student that the student has received the information required to be provided to the student under this section and shall retain the confirmation for not less than two years after the student first enrolls at the institution.

Only a medical doctor may prescribe an anabolic steroid or human growth hormone for a person. A violation of state law concerning anabolic steroids or human growth hormones is a criminal offense punishable by confinement in jail or imprisonment in the Texas Department of Corrections.

(c) An institution of higher education may not require an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education to:

If personal absence is customarily penalized, the penalty for absence due to observance of a religious holy day under this section shall be forfeiture of one day's pay equivalent for each day of absence.

(b) In this section, "institution of higher education" has the meaning assigned by Subdivision (7) of Section 61.003 of this code, except that the term includes the Southwest Collegiate Institute for the Deaf and Texas State Technical Institute.

(c) In this section, "proper notice" means that the faculty member shall provide a listing of religious holy days to be observed during the semester to the chairman of the department and shall provide notice of such days in advance to all students whose class would be canceled due to the faculty member's absence. (a) In this section, "energy savings performance contract" means a contract for energy or water conservation measures to reduce energy or water consumption or operating costs of institutional facilities in which the estimated savings in utility costs resulting from the measures is guaranteed to offset the cost of the measures over a specified period. The term includes a contract for the installation or implementation of:

(1) Insulation of a building structure and systems within a building;

(2) storm windows or doors, caulking or weather stripping, multiglazed windows or doors, heat-absorbing or heat-reflective glazed and coated window or door systems, or other window or door system modifications that reduce energy consumption;

(8) water-conserving fixtures, appliances, and equipment or the substitution of non-water-using fixtures, appliances, and equipment;

(9) water-conserving landscape irrigation equipment;

(10) landscaping measures that reduce watering demands and capture and hold applied water and rainfall, including:

(A) landscape contouring, including the use of berms, swales, and terraces; and

(B) the use of soil amendments that increase the water-holding capacity of the soil, including compost;

(11) rainwater harvesting equipment and equipment to make use of water collected as part of a storm-water system installed for water quality control;

(12) equipment for recycling or reuse of water originating on the premises or from other sources, including treated municipal effluent;

(13) equipment needed to capture water from nonconventional, alternate sources, including air conditioning condensate or graywater, for nonpotable uses;

(14) metering equipment needed to segregate water use in order to identify water conservation opportunities or verify water savings; or

(15) other energy or water conservation-related improvements or equipment, including improvements or equipment related to renewable energy or nonconventional water sources or water reuse.

(b) The governing board of an institution of higher education may enter into an energy savings performance contract in accordance with this section.
(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with entities that are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract. Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(e) The board may enter into an energy savings performance contract for a period of more than one year only if the board finds that the amount the institution would spend on the energy or water conservation measures will not exceed the amount to be saved in energy, water, wastewater, and operating costs over 15 years from the date of installation. If the term of the contract exceeds one year, the institution's contractual obligation in any year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the board in this subsection, divided by the number of years in the contract term beginning after the final date of installation. The board shall consider all costs of the energy or water conservation measures, including costs of design, engineering, installation, maintenance, repairs, and debt service.

(g) An energy savings performance contract may be financed:

1. under a lease/purchase contract that has a term not to exceed 15 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing, including a lease/purchase contract under the master equipment lease purchase program administered by the Texas Public Finance Authority under Chapter 1232, Government Code;
2. with the proceeds of bonds; or
3. under a contract with the provider of the energy or water conservation measures that has a term not to exceed 15 years from the final date of installation.

Notice of the request for qualifications shall be given in the manner provided by Section 2156.002, Government Code. The Texas Higher Education Coordinating Board, in consultation with the State Energy Conservation Office with regard to energy and water conservation measures, shall establish guidelines and an approval process for awarding energy savings performance contracts. The guidelines must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who is not an officer or employee of an offeror for the contract under review or otherwise associated with the contract. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. A contract is not required to be reviewed or approved by the State Energy Conservation Office. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) The legislature shall base an institution's appropriation for energy, water, and wastewater costs during a fiscal year on the sum of:

1. the institution's estimated energy, water, and wastewater costs for that fiscal year; and
2. if an energy savings performance contract is in
effect, the institution's estimated net savings resulting from the contract during the contract term, divided by the number of years in the contract term.

An applicant who makes the election to apply under this section and is admitted as a student may not receive any course credit for courses undertaken 10 or more years prior to enrollment under this section.

(d) If a student who enrolls under this section completes a prescribed course of study, earns a baccalaureate degree, and applies for admission to a postgraduate or professional program offered by a public institution of higher education, the institution, in considering the applicant for admission into the postgraduate or professional program, shall consider only the grade point average of the applicant established by the course work completed after enrollment under this section, along with any other criteria the institution uses in evaluating applicants for admission into the postgraduate or professional program.
