4.84 Textbooks and Other Course Materials. Policies which govern textbooks and other materials prescribed for use by students will be specified for each Component in the faculty handbook for that Component.

4.841 Generally, the individual faculty member or the academic department should have wide discretion in the choice of materials to be used in the courses offered by the department with the approval by the chairman or head of the department. Although the authorship of books, outlines, manuals, and similar materials by members of the faculty should be encouraged, the prescribed use of these for students is a responsibility that goes beyond that of the individual author. Where practicable and equitable, the charge for outlines, syllabi, and similar materials prescribed for the use of students should be borne by the instructional department concerned. Whenever a charge is authorized for such copied materials, the prices should be as low as possible, consistent with the payment of a fair and reasonable royalty to the author or authors. This

charge must be considered in conjunction with the Aincidental course fees or charges” such that students are not charged more than once for the same material(s).

- 4.842 Textbooks, notebooks, manuals, or other materials for the use of students of a Component, written or prepared by a member of the faculty of that Component, shall not be prescribed for the use of or sold to such students until such books, notes, manuals, or materials shall have been approved, with reasons stated, by the department head and approved by the academic Vice President. All such requests shall indicate the proposed prices and profits, and their authorization shall be effective only to the end of the fiscal year (August 31) for which such approval has been given.
