

1. DEFINITION

- 1.01 The Department/School Academic Distinction Program is an individualized learning experience available to outstanding students at Sam Houston State University.
- 1.02 An Academic Distinction Program project provides qualified students with a comprehensive introduction to meaningful research under the guidance of a designated faculty advisor.

2. QUALIFICATIONS FOR THE ACADEMIC DISTINCTION PROGRAM

- 2.01 To enroll for six semester hours of credit in an Academic Distinction Program project a student must have:
 - a. Junior standing (64 semester credit hours or more) or written approval of the chair of the major department/school or the discipline in which academic distinction is sought.
 - b. A Sam Houston State University grade point average of not less than 3.25.
 - c. A grade point average of not less than 3.5 on all courses completed in the major field.
 - d. The written approval of the department/school chair.
 - e. Exceptions (i.e., transfers/classification) may be made with the approval of both the department/school chair and the appropriate academic dean/director.
- 2.02 At the beginning of each long semester, department/school chairs will notify students of this opportunity.

3. ENROLLMENT IN A DEPARTMENT/SCHOOL ACADEMIC DISTINCTION PROGRAM

- 3.01 A qualified student should first contact a professor who is participating in the Department/School Academic Distinction Program and discuss the feasibility of accepting an Academic Distinction Program project.

- 3.02 If the professor agrees to direct the student's project, the professor will provide the student and the department/school chair with a letter to that effect.
- 3.03 The student, under supervision of the professor, will then prepare an outline of the proposed project including: objectives, research methods, resource materials, and description of the proposed final paper or project. When the outline is approved by the supervising professor, he/she will forward it through the department/school chair to the respective college dean for approval.
- 3.04 Once approval is obtained from the chair and the dean, the student may register for two consecutive semesters (three hours of credit each semester) in courses designated by the department/school chair. If, however, the student fails to attain a grade of B or higher in the designated Academic Distinction Program course for the first semester, permission to enroll in an additional Academic Distinction Program course may be denied by the department/school chair.
- 3.05 The six hours of Academic Distinction Program course work are, as a general rule, to be completed in the student's major field. Interdisciplinary projects, however, may be undertaken with approval of the major department/school and the written agreement of any other department/school involved.
- 3.06 An Academic Distinction Program project shall consist of six semester credit hours of individual instruction under the course number(s) or designated by the department/school. The six semester credit hours of Academic Distinction Program course work cannot be taken concurrently or completed within two summer sessions. If approved by the supervising professor and the appropriate department/school chair, the course work need not be continuous.
- 3.07 The six semester credit hours of Academic Distinction Program course work must include (but are not limited to) the satisfactory completion of a paper or project acceptable to the supervising professor and the department/school chair. Any standard or presentation acceptable to and within a department/school and college may be deemed correct and proper.
- 3.08 Each department/school will maintain a permanent record of completed Academic Distinction Program papers and projects. Each student is

responsible for furnishing completed papers or project material (tape, film, etc.) in an appropriate form to the department/school, as required.

4. GRADUATION WITH ACADEMIC DISTINCTION

4.01 In order to complete the six-hour program and graduate with academic distinction in a specified academic discipline, the student must maintain not less than a 3.25 Sam Houston State University grade point average and not less than a 3.5 grade point average in the major field or in the discipline in which academic distinction is sought and must complete all other academic requirements which the individual department/school considers necessary. The six additional semester credit hours of Department/School Academic Distinction Program course work will be completed in addition to the standard requirements within the major field and may not be taken in lieu of any requirements in the major field.

4.02 Students who have successfully completed an academic distinction project will be recognized as follows:

- a. The student's official University transcript will carry a designation of "With Academic Distinction" in a field of specialization.
- b. The student's diploma will designate that the degree has been conferred "With Academic Distinction" in a field of specialization.
- c. Special recognition will be provided at commencement exercises.
 - (1) A gold honor cord will be awarded to and worn by the student.
 - (2) The official commencement program will identify the appropriate department/school academic distinction earned by the student.
 - (3) Recognition will be given to the student as his/her name is announced during commencement.

5. NOTIFICATION PROCEDURES

Department/school chairs are responsible for providing the Registrar's Office with a written confirmation of the name of each student approved for an academic distinction project, together with the designated courses to be taken by that student for the project.
