   b. A record of such an impairment (has a history of or has been classified as having a mental or physical impairment that substantially limits one or more major life activities); or

   c. Being regarded as having such an impairment (has been subjected to an action prohibited under the ADA, as amended, because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity).

2.02 "Qualified person with a disability" means:

   a. With respect to postsecondary and vocational education, persons with disabilities who meet the academic and technical standards requisite to admission or participation in the institution's programs and activities.

   b. With respect to employment, persons with disabilities who, with or without reasonable accommodation, can perform the essential functions of the job in question.
3. RESPONSIBILITIES OF STUDENTS WITH DISABILITIES

3.01 Meet the minimum academic and technical standards for participation in the University’s educational programs, activities, and services.

3.02 Follow policies and procedures of SSD as outlined in this policy and more fully detailed on their website and available in hard copy at the Counseling Center. Specifically, students seeking assistance must:

a. Register with SSD as described in the Procedures to Request Services;

b. Submit documentation of impairment(s) consistent with the General Documentation Guidelines;

c. Upon receiving SSD approval of academic adjustments and/or auxiliary aids and services, request accommodation forms or letters from SSD for academic courses;

d. Submit accommodation forms to instructors in a timely manner and, if necessary, engage in dialogue regarding the implementation of accommodations and services;

e. Apprise SSD in a timely manner of any concerns with the implementation of academic adjustments and/or auxiliary aids and services;

f. Notify SSD in a timely manner of any changes in mental and/or physical condition warranting different or additional accommodations and/or services and submit documentation supporting such need; and

g. Notify SSD in a timely manner of the need for approved auxiliary aids and services, such as sign language interpreting or captioning services, alternative textbook formats, and adaptive technologies. SSD recommends that students provide such notice at least two (2) months prior to the start of a semester in which the aids or services will be needed. Failure to provide timely notification may result in delays in the receipt of such aids and services.

3.03 Students may apply for an academic course substitution on the basis of a disability through consultation with SSD and the Course Substitution Procedure.
4. FACULTY RESPONSIBILITIES UNDER THE ADA, ADAA, AND § 504 OF THE REHABILITATION ACT OF 1973

4.01 Inform students of available assistance through SSD as follows:

   a. Include information on the SSD Office in course syllabi. For example: "Any student with a disability that affects his/her academic performance should contact the Office of Services for Students with Disabilities in the SHSU Counseling Center (Lee Drain Building North Annex, telephone 936-294-3512, TDD 936-294-3786) to request accommodations;”

   b. In the case of face-to-face courses, verbally inform students of SSD in the initial class session.

4.02 Refer all students that may informally request disability accommodations to this policy and to SSD for registration and request for services as described in section 3 above.

4.03 Review any SSD disability accommodation forms or letters presented by students. Consult with SSD when a recommended accommodation or service would, in the instructor's opinion, result in a fundamental or substantial alteration of essential course requirements. Engage in an interactive process with SSD and the student to identify and implement an appropriate alternative solution to ensure the qualified person with a disability has the opportunity to reach the same level of achievement in the course as other students.

4.04 Implement and/or facilitate all other SSD-approved and recommended accommodations presented by students in a timely manner.

5. RESPONSIBILITIES OF THE OFFICE OF SERVICES FOR STUDENTS WITH DISABILITIES (SSD)

5.01 The mission of the Office of Services for Students with Disabilities (SSD), located in the SHSU Counseling Center (Lee Drain Building North Annex, telephone 936-294-3512, TDD 936-294-3786), is to promote full and equal access on the part of otherwise qualified students with disabilities to the educational and extra-curricular programs, activities, and services of the University.
5.02 SSD evaluates student requests for academic adjustments and auxiliary aids and services and makes initial determinations with regard to such requests. Pursuant to this responsibility, the SSD Director or his/her designee:

a. interviews the student with regard to his/her impairment(s) and request for academic adjustments and/or auxiliary aids and services;

b. reviews student’s self-report and documentation with respect to his/her impairment to make an individualized assessment of necessary academic adjustments and/or auxiliary aids and services; requests additional and/or updated documentation as necessary;

c. develops an effective accommodation plan with the student, detailing the specific academic adjustments and/or auxiliary aids and services for which he/she has been approved, if such accommodations are warranted by the student’s documentation and self-report;

d. makes forms or letters reflective of the student’s accommodation plan available to the student upon his/her request for use in academic courses; and

e. consults with the student and his/her instructor(s), as needed, regarding the effectiveness and implementation of academic adjustments and/or auxiliary aids and services.

5.03 SSD is responsible for maintaining the security and confidentiality of disability documentation and related information submitted by students applying for SSD services. As a general rule, SSD limits its release of disability-related information to University faculty and staff to the extent necessary to verify that the student has a substantially limiting impairment and is entitled to receive certain academic adjustments and/or auxiliary aids and services on the basis of said impairment. SSD may release additional information to University faculty and staff regarding a student’s disability, as it relates to his/her accommodations and educational needs, with the student’s written consent.

5.04 SSD receives disability-related grievances from students, in accordance with Section 6 of this policy, Grievance Procedures.
