The Women’s Leadership Conference: Empowering Leaders for Tomorrow strives to educate students on topics of leadership that relate to women. Women leaders are empowering one another when it comes to perseverance, endurance and producing successful outcomes. This breakthrough leadership conference will explore women’s roles and their impact through the arenas of business, health, and education. Conference attendees will have an opportunity to network and interact with influential women from around the SHSU community who have overcome mind-boggling barriers and leapt mountains to excel as leaders.

Speakers during the conference will include university professors and administrators who have remained grounded and believe in developing leadership for future generations. Attendees can count on learning today’s relevant trends in becoming a better leader and how to continue balancing the day-to-day pressures of being an involved student, ultimately transferring it to future work life.
