Description:

This working group provides oversight for the evaluation, creation, and selection of assessment instruments used in the COE aligned to CAEP standards, InTASC standards, and SPA standards. Responsibilities include providing support to programs in developing and implementing meaningful unit assessments that provide valid and reliable data, ensuring that all assessments used as evidence of meeting CAEP standards score at or above the acceptable level of CAEP requirements, and providing evaluation and support for SPA reports. This group will also provide guidance to programs concerning alignment of SACS reporting with other program improvement and accreditation efforts.

Discussion:

- CAEP Standards Committees
- SPA Reports
- SACS / Campus labs training sessions suggestions
- Assessment handbook
- Other
