## STUDIES IN ENGLISH LITERATURE 1500–1900

*SEL* focuses on four fields of British literature in rotating, quarterly issues: English Renaissance, Tudor and Stuart Drama, Restoration and Eighteenth Century, and Nineteenth Century. The editors select learned, readable papers that contribute significantly to the understanding of British literature from 1500 to 1900.

*SEL* is well known for the commissioned omnibus review of recent studies in the field that is included in each issue. In a single volume, readers might find an argument for attributing a previously unknown work to Shakespeare or de-attributing a famous work from Milton, a study of the connections between class and genre in the Restoration Theater, an interdisciplinary exploration of the art of the miniature and Fielding's novels, or a theoretical exposition of the "material sublime" in Romantic poetry written by women.
