

JOY CORCIONE, PhD, MBA, RN

SELECTED HIGHLIGHTS

- Delivered exceptional care to patients before, during and after Cardiothoracic and Cardiovascular surgeries, including monitoring changes in medical conditions, coordinated therapy and providing medication administration.
- Teaching pathophysiology, pharmacology, and health assessment to BSN students in classroom and lab settings.
- Teaching nursing skills to BSN students in Adult Health I and Geriatrics in hospital and community settings.
- A graduate of UTHSC School of Nursing doctoral nursing program and received a fully funded fellowship from the UTHSC School of Nursing Advisory Council.
- Recipient of the Jonas Foundation for Nursing & Veterans Health Care Nurse Leadership Scholarship.
- Well-rounded professional with experience in diverse industries and capable of integrating best practices from these industries to drive innovation and efficiency.

TEACHING EXPERIENCE

Sam Houston State University, Huntsville, TX

2016 - present

Assistant Clinical Professor

Provided Didactic Instruction for Pathophysiology and Pharmacology Courses

- Updated older lectures with current information and added audio/visual components to enhance the learning experience.
- Facilitated student understanding of important concepts through group in-class activities which enhanced team work.
- Reported skills and competency assessment results to the course coordinator and suggested various types of remediation.
- Provided feedback on course and program development.
- Identified at risk students and provided them with extra support, instruction, and attention.
- Developed interactive activities which enhanced student understanding of challenging concepts and effectively maintained students' attention during a four-hour lecture class.

Provided Clinical Instruction for Adult Health I, Geriatrics and Health Assessment

- Encouraged and supported students in clinical and community settings using evidence based practice.
- Monitored student progress through daily observation, correction and post conference discussions.
- Resolved conflicts between students and clinical staff.
- Found alternative clinical and community experiences when staff wasn't available to guide students.
- Assisted and encouraged students during clinical rotations which helped them gain independence and confidence in their clinical abilities.
- Instructed students on proper care plan development and graded care plans for mid-term and final clinical grades.
- Developed community projects which helped the senior community and bridged learning between the didactic course and its clinical component.
- Encouraged direct involvement with senior citizens to enhance students' understanding of the wide range of physical and mental capabilities seniors possess during different stages of aging.

Adrian College ✦ Adrian, MI
Instructor – Business Department

- Instructor for undergraduate International Marketing and Principles of Marketing courses.
- Taught classes in alignment with learning objectives as outlined by the department.
- Administered student performance evaluations dependent upon course rubric and deliverables.
- Implemented an 'open door' policy to assist students with all assignment manners.
- Utilized various communication platforms (print, telephone and verbal) to communicate class expectations and assignments with students.

University of Toledo ✦ Toledo, OH
Teaching and Research Assistant

- Assistant instructor for undergraduate students in marketing research, management and international marketing.
- Administered and graded student tests and papers.
- Performed international market analysis research and developed a case study for inclusion in an international business textbook.
- Published monthly articles in "Global Perspectives", the International Business Institute's newsletter with national circulation.
- Co-authored a research publication for presentation at an international business symposium.

INDUSTRY EXPERIENCE

Houston Methodist Hospital, DeBakey Heart & Cardiovascular IMU ✦ Houston, TX ✦ 2010 – 2014
Triumph/Kindred Hospital, Long-term Care ✦ Houston, TX ✦ 2011 – 2012
Cy-Fair Medical Center, CVIMU, Telemetry & Medical/Surgical ✦ Houston, TX ✦ 2009 – 2010
RN – BSN

- Administered nursing care to patients before, during and after Cardiothoracic and Cardiovascular surgeries, including monitoring changes in medical conditions, coordination of therapy and medication administration.
- Monitored the hemodynamic stability, vital signs and electrocardiograms of patients after major Cardiothoracic and Cardiovascular surgeries and documented all conditions, procedures and lab results via records system.
- Delivered exceptional care while managing all patient drainage devices, pumps, IV drips and wound dressings.
- Streamlined workflow and expedited care by coordinating patient procedures, admissions and discharges with all medical and diagnostic departments to include doctors, technicians, case managers and family members.
- Presented direct patient care to seven geriatric and chronically ill patients per shift.
- Worked closely with a diverse patient population that included AIDS/HIV and economically disadvantaged patients within a skilled nursing and long term care facility.
- Collaborated with medical staff and auxiliary personnel to address patient and family concerns and relay medical conditions in layman's terms.
- Administered prescribed medications by way of intravenous, oral, subcutaneous, intramuscular, rectal, topical and intranasal routes.
- Performed nursing procedures such as: IV insertion, urinary catheterization, nasogastric intubation, trachea suctioning, bladder irrigation, colostomy care, and dressing changes.

- Monitored telemetry patients for dangerous heart arrhythmias.
- Became a valuable resource to multiple departments while floating to various departments including ICU.
- Developed and implemented nursing care plans to ensure optimal and thorough care for each patient.
- Supervised patients' admissions and discharge procedures, educated both the patient and families/caregivers on conditions, medications and care plans to ensure a smooth transition.
- Communicated with physicians and reported changes in patient's conditions and other matters of concern requiring prompt attention.

EDUCATION

University of Texas Health Science Center School of Nursing, Houston, TX: 2016

Doctor of Philosophy – Nursing

Relevant Coursework: Pharmacology for Advanced Nursing Practice * Physical Examination and Differential Diagnosis Didactic for Advanced Nursing Practice * Physical Examination and Differential Diagnosis for Advanced Nursing Practice * Pathophysiology for Advanced Nursing Practice * Practicum Social & Behavioral Aspects of Community Health * Innovations in Practice * Science-Based Nursing Practice * Inter-Professional Dimensions of Research * Applied Measurement Theory Biomed & Health Science Research * Analysis of the Context of Health Care * Research Design and Methods * Generating and Collecting Data for Qualitative Research * Special Topics: Biobehavior * Advanced Statistics for Clinical Research * Structure of Scientific Inquiry * Curriculum Evaluation, Planning and Development * Electronic Communication and Technology in Education
