Using Your Insurance
On the back of the insurance card is a toll free number. Call the number to request an In-network provider. This is an agreement between your insurance company and the therapist to charge a set amount. If you go with a provider who does not have an agreement with your insurance company, you will likely be responsible for all charges.

Superbill: You pay upfront and send the receipt to your insurance company for reimbursement (minus copay/deductible). This must be approved by the insurance company prior to appointment.

Deductible: The amount you're responsible for paying for covered medical expenses before your health insurance plan begins to pay for covered medical expenses each year.

Co-Pay: Shared costs between you and the health insurance plan. For example, you pay 20 percent of costs and your plan pays 80 percent after the deductible is met.
