## Summer Skills

Summer is a great time to relax. However, children need routine and practice of skills to be able to retain concepts and skills. Be sure your child continues reading, counting, and exploring school subjects. This will ensure your child doesn't lose so much knowledge over the summer months.

## End of the Year

As the year comes to a close it's time to think about learning over the summer time. Try to play games with your child involving subjects in school. This summer time learning will help lessen the summer loss of knowledge and keep your student on track.

## Reminders

### Parent Sign In/out Sheet:

The form outside of classroom has to be filled out when student is late or is leaving early. Please knock on door to help avoid large distractions.

### Absence Notification:

If your child will be absent, please contact me by phone or email.

### Extra Clothes:

If possible, please send extra clothes to school for those possible bathroom and food related accidents.

### Fever Notice:

If your child has a fever or is sent home with a fever, he/she cannot return to school for 24 hours fever free.
