FACULTY EVALUATION SYSTEM
Department of Criminal Justice and Criminology - Revised Fall 2018
GENERAL POLICY STATEMENT

The University’s Faculty Evaluation System recognizes three dimensions of professional activity for evaluation purposes: teaching effectiveness, scholarly and/or creative accomplishments, and service. In the College of Criminal Justice, faculty evaluations are conducted on an annual basis by the Department Chair. Each faculty member is required by University Policy to provide the Department Chair information describing his or her activities in each of the three dimensions. The Department Chair is responsible for reviewing these documents and calculating a numerical score ranging from “1” to “5” on each dimension based on university policy and the guidelines contained herein. The Department Chair may award a fractional score (.25, .50, etc.) up to an additional 1.0 on any FES category based on information provided by a faculty member. This document merely represents a set of guidelines for faculty evaluations. Exemplary performance or circumstances not specifically covered by the guidelines will be evaluated by the Department Chair and scored in a manner that is consistent with the intent of these general guidelines.

Additionally, each faculty member may provide the Department Chair with a “self-evaluation score” showing his or her numerical assessment of the activity level on each dimension included in the evaluation process. In instances where a distinction is made between activities based on “subjective” standards, it is incumbent on the faculty member to provide clear and compelling evidence in support of the score they give themselves in their self-assessment. The Department Chair has the responsibility to review the materials provided by each faculty, including the “self-evaluation scores,” and to determine the score that best reflects that faculty’s performance within each dimension being evaluated. In accordance with University Policy, the Department Chair shall have a conference with each member of the faculty to discuss the results of the annual review of performance in each dimension.

Probationary Faculty Portfolio:
In accordance with college and/or department/school policy, each probationary faculty member will present a portfolio and update it on an annual basis. The portfolio should provide information relating to scholarship, teaching effectiveness, and service. Examples of materials to be included for the current calendar year are: current vita, copies of all publications, letters of acceptance for forthcoming articles, copies of grant proposals, grant award letters, conference papers, examples of teaching materials (syllabi, exams, activities, etc.), copies of all IDEA evaluations.

Faculty Review Committee:
Although typically accomplished by the Department Chair, the Department Chair may convene a faculty committee of one or more individuals to assist in evaluating faculty materials. However, the input of the committee is advisory in nature and the final scoring determination remains with the Department Chair.
FES Composition:
As per University policy, the Faculty Evaluation System is composed of the following categories:

Teaching Effectiveness
(FES 1 and FES 2)
Per Academic Policy Statement # 820317, teaching effectiveness is comprised of two inputs: the Chair’s Rating of Teaching Effectiveness (FES 1) and the Students’ Rating of Teaching Effectiveness (FES 2). The Student’s Rating of Teaching Effectiveness will be an average of the Summary Evaluation for each IDEA class score as defined by university policy. The chair may increase the numerical value of the student’s ratings used in the calculation of this FES section based on unique circumstances to prevent adverse biasing consequences in cases where outliers, small/unrepresentative samples, experimental teaching methods or other such events would unfairly impact the faculty member’s ratings. The burden of requesting such an increase and the provision of documentation to support such action rests solely with the faculty member.

Scholarly and Creative Accomplishments
(FES 3)
Scholarly activities shall be interpreted to include, but are not limited to, production of basic and applied research, writing and publications, scholarly grant development, scholarly grant acquisition, presentations to professional and learned societies, and professional development directly related to scholarly and/or creative accomplishments.

Service
(FES 4)
Service includes service to students, colleagues, program, department/school, college, and the University; administrative and committee service; and unpaid service beyond the University to the profession, locally, regionally, nationally, and internationally, including academic or professionally-related public service.

Attached are the general FES criteria/guidelines for the Department of Criminal Justice and Criminology as approved by the faculty October 24, 2018.
FES 1: Chairs Rating of Teaching Effectiveness

**A Maximum score for this category (Chair’s Rating) is 5.0.** In all cases it is the faculty members’ responsibility to provide evidence that would justify each rating. Evidence supporting each rating includes: examples of syllabi, assignments, exams, etc.; student evaluations; peer evaluations of teaching conducted by one or more tenured faculty; additional assessment materials as prepared by faculty member (e.g., pre/post test scores of student learning, mid-term evaluations, etc.).

Publications not appearing in the journals identified by above may also be designated high impact when they are published in a journal with an impact factor at or above 2.0. When not appearing in the journals listed above, it will be the responsibility of the faculty member to demonstrate the quality of the publication to be designated high impact. A journal’s quality can be established through impact factor scores. Thomson ISI lists impact factors for several thousand scientific journals and these are available.
on-line via the database Journal Citation Reports. Documentation of the quality of the publication will be provided by faculty to the Department Chair when FES materials are submitted.

Although service is not to be measured in terms of counting specific hour increments, the following guidelines are provided as examples. In general, a score of 2 corresponds to less than one hour of service per month; a score of 3 corresponds to approximately one hour of service per week; a score of 4 corresponds to approximately four hours of service per week; a score of 5 corresponds to approximately
six hours of service per week. Faculty at the beginning of their careers (generally in the first three years as assistant professor) may receive a score of 3 for less than one hour of service per month. In general, non-remunerated service activities will be weighted more heavily.
