

Assessment Plan Items

Each box represents an assessment plan item in the Anthology Planning system. Some items contain multiple fields (e.g., *Indicator, Criterion, Findings*). Solid arrows represent items that are related in Anthology Planning, and dashed arrows represent items that inform other items but do not relate within the system. Although *Results* and *Findings* can be used to inform the *Update to Previous Cycle's PCI* (Plan for Continuous Improvement), and a plan's *Actions* are discussed within the *New PCI*, the *Update to Previous Cycle's PCI* and *New PCI* are standalone items within the system.

-  Items required for all units
-  Items required for academic programs (degree, certificate, minor) but optional for all other units
-  Items required for all units except academic programs (student/academic/administrative support)
