SAM HOUSTON STATE UNIVERSITY

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended August 31, 2014

Note 1: Summary of Significant Accounting Policies

REPORTING ENTITY

Sam Houston State University is an agency of the State of Texas and a component of The Texas State University System and its financial records comply with applicable State statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

Sam Houston State University serves the state by providing a high quality education to residents of the state.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

FUND STRUCTURE

The financial statements of Sam Houston State University have been prepared on the basis of funds, each of which is considered a separate accounting entity. The fund designation for institutions of higher education is Business-Type Activity within the Proprietary Fund Type.

Proprietary Fund Types

Business-Type Activity

Business type funds are used for activities that are financed through the charging of fees for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type because the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

BASIS OF ACCOUNTING

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business type activity funds (proprietary funds) are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

ASSETS, LIABILITIES, AND FUND BALANCES/NET POSITION

ASSETS

Cash and Cash Equivalents

All highly liquid investments with a maturity of three months or less at the time of purchase are considered cash and cash equivalents.

Securities Lending Collateral

The University reports investments at fair value in the Statement of Net Position with the following exceptions. (Fair value is the amount at which an investment could be exchanged in a current transaction between parties, other than in a forced or liquidation sale.) The exceptions are as follows:

- 1. Nonparticipating contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, are reported using a cost-based measure, provided that the fair value of those contracts is not significantly affected by the financial institution's credit standing or other relevant factors.
- Money market investments and participating interest-earning investment contracts that
 mature within one year or less of the date of their acquisition may be reported at
 amortized cost, assuming that the investment is not affected by the financial institution's
 credit standing or other relevant factors.
- 3. For real estate, mortgages, venture capital, limited partnerships, and future and forward contracts, etc. held by non-external pool entities, fair value is not permitted. Instead, amortized cost or historical cost should be used.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in both governmental and proprietary fund types. The costs of inventories are expensed when they are consumed. Prepaid items reflect payments for costs applicable to future accounting periods and are recorded in both government-wide financial statements and fund financial statements.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. All capital assets are capitalized at cost or estimated historical cost if actual historical cost is not available. Donated assets are reported at fair value as of the acquisition date. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Road and highway infrastructure is reported using the modified approach. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities are reported separately as either current or noncurrent in the Statement of Net Position.

Capital Lease Obligations

Capital lease contracts payable, which are not funded by current resources, represent the liability for future lease payments under capital lease contracts. Note 8 provides details for capital lease obligations.

FUND BALANCE/NET POSITION

The difference between fund assets and liabilities is "Net Position" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

Reservations of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use or not available for expenditure.

Investments

Sam Houston State University invests its endowment funds to provide funding for scholarships, fellowships, professorships, academic chairs, and other uses as specified by donors. Investments of University funds for endowments and quasi endowments shall be accomplished in accordance with the following principals:

There are two primary investment objectives. One is to provide a continuing and dependable cash payout, stable, and preferably growing in real terms, after giving effect to inflation. The second is to cause the total value of the funds to appreciate, over time, exclusive of growth derived from donations.

- The cash payout requirement for endowment and quasi endowment funds are significant and continuous. Income must be sufficient to provide an adequate cash stream to support the programs for which the endowments and quasi endowment accounts need to appreciate to insure preservation of purchasing power, and also to satisfy the need for future growth in payouts.
- 2. The endowment and quasi endowment funds will be invested to meet these objectives, by maximizing returns consistent with an appropriate level of risk and subject to generation of adequate current income. Additionally, the investments shall be diversified at all times to provide reasonable assurance that investment in a single security, a class of securities, or industry will not have an excessive impact on the funds.

Note 13: Continuance Subject to Review

Not Applicable.

Sam Houston State University is not subject to the Texas Sunset Act.

Note 14: Adjustments to Fund Balances/Net Assets

During fiscal year 2014, Sam Houston State University reconciled cash balances and operating ledger transactions with the balances and transactions reported in the Uniform Statewide Accounting System (USAS). This was a necessary step after an ERP conversion to ensure that the University accurately reported between the two systems. This resulted in a decrease to fund balance on university funds of \$8,777,992.52. Additional restatements include \$769,610.39 of un-booked net revenue, and \$8,328.50 related to depreciation expense of a disposed asset. As stated in fiscal year 2013, the University had prior fiscal year post-close accrual entries which were not properly accounted for during the conversion of the ERP system. This continued review resulted in a net decrease to fund balance of \$1,685,600.36.

Net Position Balance September 1, 2013	\$473,317,154.15
Restatement related to reconciliation to USAS	(\$8,777,992.52)
Restatement related to un-booked net revenue	769,610.39
Restatement related to post close accruals	(1,685,600.36)
Restatement related to capital	(8,328.50)
Net Position Balance September 1, 2013 as Restated	\$463,614,843.16

Note 15: Contingencies and Commitments

At August 31, 2014, various lawsuits and claims involving Sam Houston State University were pending. While the ultimate liability with respect to litigation and other claims asserted against the University cannot be reasonably estimated at this time, the University anticipates no liability on the merits of outstanding claims.

Note 16: Subsequent Events

There have been no subsequent events that would have a material effect on the University's financial statements for the fiscal year ended August 31, 2014.

Note 17: Risk Management

Sam Houston State University is self-insured by the State of Texas for coverage in the areas of workers' compensation and unemployment compensation.

Unemployment Compensation: The State provides coverage for unemployment benefits for university employees from appropriations made to the Texas Workforce Commission (TWC). The current General Appropriations Act provides that the University must reimburse the General Revenue Fund, from university appropriations, 50% of the unemployment benefits paid for State funded positions and 100% of the cost for unemployment compensation for any positions paid from funds held in local bank accounts and local funds held in the State Treasury. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. The unemployment benefit plan is on a pay-as-you-go basis, in which no assets are set aside to be accumulated for the payment of claims. It is estimated that there were no material liabilities as of August 31, 2014.

Workers' Compensation: The administration of the State's employee workers' compensation program is vested with the State Office of Risk Management (SORM). In accordance with H.B. No. 1203, 77th Legislature, SORM developed and imposed a formula driven charge for workers' compensation costs upon participating agencies. The workers' compensation assessment is prepaid to SORM through an Interagency Contract for risk management services and workers' compensation coverage for its employees in compliance with TEX.LABOR CODE Chapter 412 and Chapter 501. The assessment for SHSU for FY 2014 was \$253,557.33. The assessment for SHSU for FY 2015 is \$293,092.40.

Sam Houston State University is required by certain bond covenants to carry fire and extended coverage and boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary Enterprise or other non-Educational and General Funds. The insurance protects the bond holders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments. Sam Houston State University had no insurance claims made during the fiscal year ended August 31, 2014.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$30,000/\$60,000 bodily injury and \$25,000 property damage. All vehicles owned and/or leased by Sam Houston State University are covered by one of two commercial insurance policies specifically customized for the Texas State University System. Both policies provide coverage to the extent of \$1,000,000 combined single liability. The coverage exceeds the extent of the waivers of state immunity specified in the Texas Tort Claims Act, Civil Properties and Remedies Code Section 101.023.

Sam Houston State University is exposed to a variety of civil claims resulting from the performance of its duties. It is University policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed. The University assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is no purchase of commercial insurance, nor is the University involved in any risk pools with other governmental entities. The liability of Sam Houston State University for personal injury and property damage is controlled by the Texas Tort Claims Act, VT.C.A Civil Practice and Remedies Code, Chapter 101, Section 101.021. The limits of liability are \$250,000 for each person, \$500,000 for each single occurrence for bodily injury or death and \$100,000 for each single occurrence for injury to or destruction of property. Following this limited exposure, Sam Houston State University, as a state agency, is protected by the doctrine of sovereign immunity, and as such, is self-insured up the aforementioned limits.

The University's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There have been no significant reductions in insurance coverage in the past year and losses did not exceed coverages or funding arrangements during the past three years.

Note 18: Management Discussion and Analysis

Not Applicable.

Management Discussion and Analysis is omitted because Sam Houston State University is reported in a consolidated format with Texas State University System, which is reported as a component of the State of Texas. Management Discussion and Analysis as it relates to Texas State University System can be found in the State of Texas basic financial statements.

Note 19: The Financial Reporting Entity

Note 21: N/A

Not Applicable.

Note 22: Donor-Restricted Endowments

Nonexpendable restricted net position consists of endowments in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income.

Donor-	Amounts	
Restricted	Of Net	Reported in
Endowment	Appreciation	Net Assets
True Endowments	\$10,944,094.86	Restricted for Nonexpendable
Term Endowments	\$951,397.52	Restricted for Nonexpendable
True Endowments	\$0.00	Restricted for Expendable

The amount reported as Net Appreciation represents net appreciation on investments of donor restricted endowments that are available for authorization for expenditure. Pursuant to the Uniform Prudent Management of Institutional Funds Act (Property Code Chapter 163.001), net appreciation, realized and unrealized, in the fair market value of the endowment assets in excess of historical dollar value of the gifts may be distributed to the extent prudent.

The fiscal year 2014 Sam Houston State University spending policy for endowments was to distribute as much of the total return allowable while maintaining the principle investment objective of protecting the real value of the endowment corpus.
