Dr. Theodori, VP of Enrollment Success, shared the most current enrollment percentages. Finally, they answered questions from the members of FS regarding the rationale used to choose the date for late enrollment in classes and shared new initiatives aimed at fostering communication with leaders of industry in the surrounding areas that can potentially result in more internship opportunities for SHSU students and obtaining a better understanding of the needs of industry for future professionals. The percentages of enrollment were discussed, how the data was analyzed in comparison to similar institutions and how recruitment plans have been restructured. Finally, practices of data collection from different technologies were discussed, in particular, how this data will be used across the university by staff and faculty.

2. Spring 2022 faculty senate meeting modality discussion. FS will continue to meet via Zoom throughout the month of February while transmission indexes remain high, a poll to determine preferences will be sent to re-evaluate at that point.
3. Faculty Centennial Scholarship. Faculty senate must grant award for this year. There was a request for volunteers to help choose the recipient.

4. Faculty concerns. Several faculty concerns were discussed, including uncompensated overloads, particularly in CAM, but also in COSET and COE. Such overloads include performance rehearsals and productions, being part of dissertation committees and visiting schools to evaluate student teachers. It was suggested that this issue can be examined through the revision of APS 790601 Faculty Instruction Workload, which has not been revised since 2013. This issue will be discussed in the next FS meeting.
