

EMCEE READ LINES:

Good evening and welcome to Sam Houston State University's official student award ceremony, the 27th annual Sammys

Since 1995 the Sammys have recognized outstanding individual and organizational service to the university and community.

Our awards ceremony this evening is comprised of three categories. The first two being Individual Student Awards and Student Organization Awards. The nominations for each individual and student organization were submitted by university faculty, staff, and students. Nominees then turn in a letter of recommendation and a candidate nomination form. After receiving submissions, the Sammys selection committee then determine the final award recipient for each category. The selection committee consists of representatives from the President's Office, Provost Office, Student Affairs, Student Activities, SHSU Faculty and representatives from each of the seven dean's offices.

Our final award of the night is the Individual College Awards. These awards recognize individual excellence in service for each of the seven colleges. Faculty and staff within each college nominate individual students for the award while the winners are determined by their respective dean.
