

# World Agriculture Project

The purpose of this project is for you to broaden your horizon about agriculture around the world.

You will each select a country to research and from the research you attain you will prepare a 2 minute informative speech on the agriculture found in that particular country.

**1st** = Select a country. Your country is \_\_\_\_\_

**2nd** = Utilize resources at school and home to locate the data/information you need.

- Internet in the computer lab and at home

**3rd** = Material you MUST locate and address in your paper and speech includes:

- a. What country you selected and why
- b. The total size of your country
- c. Population of your country – may want to address type of government
- d. The main agricultural products grown/raised or created in your country (# of animals, types of crops raised, etc.)
- e. How many people employed in agriculture in the country (% works as well)
- f. Exports and imports that are set up with US – if that info is available
- g. State if country is industrialized or more of a poverty country, etc.
- h. Future outlook for agriculture in your particular country
- i. 3 interesting facts you found about your country

**4th** = Putting it all together

a. 2 Minute Informative Speech on your country

- given on \_\_\_\_\_
