BACHELOR’S DEGREE IN HEALTH SCIENCES

The Bachelor of Science in health sciences is a multidisciplinary degree that aims to provide students with a sound and comprehensive foundation in the key principles of modern health care. The coursework includes fundamental courses in contemporary scientific essentials relevant and necessary to primary health care clinical practices and related current health care services. The broad scope of the health sciences degree will equip students to pursue further education in professional programs in the related health sciences.

REQUIREMENTS

Students must meet with a specialized advisor to tailor their degree plan to meet their professional goals through the list of approved elective courses offered. Students must earn a grade of “C” or better in their internship preparation and internship courses.

Minor: A minor is not required for this degree. Rather, students will take 38 hours of track-specific courses from a list of approved electives.

SCHOLARSHIPS

Once accepted, students may apply for relevant scholarships by completing the Scholarships4Kats online application. Transfer scholarships are available for students who would like to continue their academic career at Sam Houston State University.

INTERNSHIPS

Health sciences majors may choose from a variety of health care organizations to complete a required 200-hour professional internship.
